Barbecues A Feature Of The Past Month.

San Francisco Builders Are Twice Entertained by Brick Manufacturers at Their Plants.

The month of June has been an eventful one for a large number of the builders and their friends, who have been the guests of some of our generous and enterprising manufacturers, who in addition to being eminently successful as business men, are socially inclined to a degree that is decidedly pleasing to those who have heard the cheering ring of their dinner bell.

On Sunday, June 11th, E. B. McNear, President of the McNear Brick Co., was the host at a delightful barbecue at a point on the Bay which bears his name. The trip to and from the site of the big festivities was made in one of Crowley's commodious steam launches, and as the usually placid waters of the bay were exceedingly rough on this occasion, the embryo sailors were subjected to a severe test of their seamanship.

Rear Admiral Bobby Moyle, the general head salesman of the McNear Brick Co., was in charge of the boat load of good fellows, and Supervisors Eddie Brandon and Con Deasy were his chief mates, while John Horgan acted as purser in a very acceptable manner.

When the jolly tars arrived at the picnic grounds all were delighted to observe the tables spread beneath the shade of many friendly trees and each table heavily laden with a menu that would have tickled the palate of a king.

Herr Bruno Enderlein was the chef in charge, and the way the eats were dished up under his wise supervision was good indeed, to behold.

Colonel James Casserly, the hero of many a well fought battle, was the chief commissary and among his many useful duties was that of keeping at the good right hand of every guest a liberal supply of cooling and cheering refreshments, which Colonel James did to his own satisfaction and to the immense satisfaction of every guest present.

While the guests were discussing with appropriate gusto uddies of fresh shrimps, clam chowder, sucking pig, and delicious barbecued steaks, Senator Scott, acting as toastmaster, drew responses from such distinguished statesmen, officials and commoners, as Frank C. Jordan, Secretary of State; James S. Fennell, candidate for Public Administrator; State Senator E. B. Marinelli of Marin County; Eddie Brandon, Supervisor; John Horgan, Chief Building Inspector; and Con, Deasy, Supervisor, who rendered several pleasing ditties among which was the one that made him famous entitled: "There'll Be Murder Here Tonight."

Many other celebrities took part in the orgies, after which all returned safely to their several homes and the day was declared a pronounced success and host E. B. McNear was voted a prince of good fellows.

On Thursday, June 29th, Colonel O. M. Tupper, President of the San Jose Brick Co., not to be outdone by McNear, pulled a delightful outing and barbecue at his brick yard near San Jose.

The trip to the yard was made by auto and a delightful day was spent. Here too, the tables were spread beneath the shade of sheltering trees, with which all San Franciscans are on friendly terms when they emerge to the country, and the tables were laden with an abundance of edibles prepared in a manner that would make the most critical epicure turn green with envy.

Steve Zaro, San Jose's most famous chef, was in charge of the culinary department and he upheld his world-famed reputation in a splendid manner. Louis Bossee, was in charge of the commissary department, and he like Colonel James Casserly, kept an abundance of cooling refreshments within easy reach of the thirsty guests at all times.

Here again Senator Scott appeared upon the scene as toastmaster and with his usual supply of the balm of gilead drew forth from the assembled guests an abundance of song and oratory as can only follow a good dinner.

Colonel Thos. J. Campbell, Supervisor Eddie Brandon, Colonel O. M. Tupper, E. R. Miller, Charles Horning, Chas. B. Hadley, Clarence F. Pratt, Colonel Chas. Powers, Tom Dreshmeyer and Steve Zaro responded with appropriate remarks, while Supervisor Con Deasy outdid himself with his pleasing songs and stories, in fact, the neighbors were attracted from far and near by his sweet voice and when they came in his presence, particularly were the many ladies loud in their praise and admiration of San Francisco's musical Supervisor.

All present were pleased with the generous hospitality of host Tupper, and he like McNear, was unanimously voted a prince of good fellows.

TO BUILD BIG ZINC PLANT.

REDDING (Shasta Co.).—An electrolytic plant for recovering zinc from ores will be built by the Mammoth Copper Company near its copper smelter in Kennett.

The site has been chosen. The plans have been accepted.

This is the report from Kennett. Officers of the company could not be reached by telephone for verification and further details. Word received here states the new plant will be on Backbone Creek, a mile up stream from the copper smelter, with which it will be connected by a broad gauge railroad.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SAN FRANCISCO—Apartment house, 2 story and base, frame, \$6,000. Architect, Paul J. Capurro, 1814 Powell street, S. F. Owner, A. Ramazzotti, 1163 Vallejo street, S. F. Location, south Vallejo east of Polk, covering an area of 26 by 76 feet. Will contain a store on the first floor. Upper floor arranged for two-room apartments. Interior finish pine and redwood. Marble and tile vestibule. Exterior covered with brick veneer, cement plaster and rustic. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Apartment house, 3 story and base, frame, \$25,000. Architect, August G. Headman, Call-Post Bldg., S. F. Owners, Graham & Rhine. Location, south Washington east of Presidio. Will contain six apartments of six rooms and two baths each. Large sun porches and basement garage. Interior finish hardwood and white enamel. Hardwood floors throughout. Bath rooms finished in tile and equipped with showers. Steam heat, oil burning plant and vacuum cleaning. Hot water system and automatic elevator. Marble and tile wainscot. Imported tapestries. Exterior covered with cement plaster. Plans nearly complete and figures to be called for shortly.

SAN FRANCISCO—Apartment house, 4 story and base, Class C construction, \$25,000. Architect, Edward E. Young, 251 Kearny street, S. F. Owner, Herman Hogrefe, 110 Upper Terrace, S. F. Location, northeast Geary and Larkin. First floor arranged for stores and upper floors for a total of 21 suites of two and three rooms. Interior finish pine and elm with some white enamel. Hardwood floors. Steam heat, automatic elevator and hot water system. Patent store fronts and marble bases. Bath rooms tile. Wall beds. Exterior faced with pressed brick. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Apartment house alterations, 2 story and base, frame, \$1,000. Architect, P. Rightetti, Phelan Bldg., S. F. Owner's name withheld. Location, Sunset District. Work will include new interior trim, plastering, painting, plumbing and electric work. Considerable exterior alteration will also be necessary. Plans are being prepared.

OAKLAND, CAL.—Apartment house, 2 story and base, brick and frame, \$36,000. Architect, J. J. Donnellan, Bacon Bldg., Oakland. Owner's name withheld. Location, Lake District. Will contain a total of 21 apartments arranged in suites of three, four, five and six rooms. Interiors will be finished in pine, hardwood and white enamel. Hardwood floors throughout. Bath rooms tile and equipped with showers. Steam heat, oil burning plant, vacuum cleaning and hot water supply. Open fire places in larger

suites. Wall beds. Marble and tile wainscot. Exterior covered with pressed brick veneer and cement plaster. Plans being prepared.

SEATTLE, WASH.—Apartment house, 3 story and base, brick, \$40,000. Architect, J. A. Creutzer, New York Bldg., Seattle. Owner, Thomas Jarritt. Location, 14th avenue and Thomas street. Will contain 32 suites of two and three rooms. Interior finish pine, hardwood and white enamel. Hardwood floors. Steam heat, oil burning furnace and hot water supply. Bath rooms tile. Vacuum cleaning. Marble and tile wainscot. Exterior faced with pressed brick. Plans being prepared.

Contracts Awarded

PORTLAND, ORE.—Apartment house, 3 story and base, brick. Cost not stated. Architect, Emil Schaacht, Commonwealth Bldg., Portland. Owner, Frank Magnusson. Contractor, Frank Quethan, 511 Jefferson street, Portland. Contract price not stated.

BANKS

Contracts Awarded.

STOCKTON, SAN JOAQUIN CO., CAL.—Bank and offices, 6 story and base. Class A construction, \$175,000. Architect, George William Kelham Sharon Bldg., S. F. Owners, Farmers and Merchants' National Bank. Contractor, P. J. Walker, Monadnock Bldg., S. F. A subcontract for the concrete piles and foundation has been awarded to Andrew Lynch, 185 Stevenson street, S. F.

BONDS

WOODLAND, YULO CO., CAL.—The Yolo County Court House bond issue held last week carried by a vote of 10 to 1. The issue provides for \$200,000 with which to erect a new court house building; plans for which have already been prepared by a San Francisco architect.

VANCOUVER, B. C.—It is said that the Government has authorized the issue of bonds amounting to \$5,000,000 to complete the proposed harbor improvements. The bonds will be sold by the Harbor Commissioners.

FAIR OAKS, SACRAMENTO CO., CAL.—The \$90,000 bond issue held in the Carmichael Colony last week carried. The bonds when sold will finance the construction of irrigation works, water distributing system, pumping plants, etc.

BERKELEY, ALAMEDA CO., CAL.—A plan to call a \$55,000 bond issue for a new water system for this city is being worked out by civic organizations of Berkeley. The matter will be taken up by the City Council within the next few days.

MERCED, MERCED CO., CAL.—Bids will be received up to July 6, 1916, by the trustees of the Merced Union High School District for the purchase of bonds in the sum of \$150,000 which

were recently voted to secure funds for the erection of a high school building.

SANTA BARBARA, SANTA BARBARA CO., CAL.—The Board of Education is planning a \$250,000 bond issue to provide funds for the erection of a new high school building.

MEDFORD, ORE.—On July 10th the voters of Medford will sanction a contract whereby the city of Medford is to participate in the construction of the first section of the Medford-Eureka railroad. The city has already voted to bond in the sum of \$300,000 in order that assistance may be given the project.

MARYSVILLE, BUTTE CO., CAL.—By a vote of 561 to 183 the taxpayers of Marysville at the special school election went on record as favoring a direct tax of \$18,000 for the construction of an additional grammar school building on the lot at the northwest corner of F and Seventh streets.

TURLOCK, STANISLAUS CO., CAL.—The directors of the Turlock Union High School District are making preparations for a bond election for July 25th, to decide the question of issuing bonds of \$100,000 for the purchase of a site and the erection of a high school on the same. Should the bonds carry it will be necessary to call a second election to select a site.

OAKLAND, CAL.—The Board of Playground Directors will report favorably upon the plans to erect a new boat house on the east shore. It is recommended that an appropriation of \$17,500 be made for the erection of an addition to the present boat house at Willows.

ALBANY, ALAMEDA CO., CAL.—Bids will be received by the Alameda County Supervisors up to July 17th for the purchase of the Albany School District bonds in the amount of \$75,000. The proceeds of the sale will finance the construction of a new school for that district.

OROSI, TULARE CO., CAL.—The 1st National Bank of Visalia has purchased the \$20,000 school bond issue of the Orosi High School District. A new building will be erected from the proceeds of the bonds.

AUBURN, PLACER CO., CAL.—The \$25,000 bond election for street paving was carried here by a majority of 200 votes. The money to be raised from the sale of the bonds will be used for paving the intersections and terminals of the main streets and the Placer road from Main street to the city limits, to connect with the State highway lateral, which is now about completed as far as Newcastle. It is the intention of the Trustees to complete most of the paving before winter.

CRESCENT CITY, DEL NORTE CO., CAL.—The Del Norte County \$100,000 bond issue carried by the vote of 913 in favor of the bonds and 26 votes against the issue. Every precinct voted for the bonds.

The election insures the creation of a deep-water port at Crescent City, the Government appropriation of \$100,000 having been made contingent upon the raising of a like sum.

COALINGA, FRESNO CO., CAL.—Construction of a 150-mile irrigation canal system close to the foothills from Tracy to the boundary line of Kings County along the west side of the San Joaquin Valley, is the objective work of the Coalinga Chamber of Commerce, which is now seeking a Federal appropriation of \$16,000,000 for the project. Fully 1,500,000 acres of land would be benefited according to the plan, and \$150,000,000 in new wealth would be added to the San Joaquin Valley.

The City Trustees have also planned a \$28,000 bond issue for municipal improvements, the election to be held on August 7th. The bonds will be issued for a new city hall, an auxiliary water system and swimming baths.

BRIDGES, DAMS AND HARBOR WORK

STOCKTON, SAN JOAQUIN CO., CAL.—Bridge and filling. Cost not stated. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. Plans and specifications by the County Surveyor for filling and bridging the Taylor's Ferry road were adopted and the Clerk of the Supervisors has been instructed to receive bids for the work until July 15th at 10 a. m. Plans may be had from the County Clerk.

SANTA ROSA, SONOMA CO., CAL.—Bridge, steel or reinforced concrete. Cost not stated. Engineers, Leonard & Day, Rialto Bldg., S. F. Owners, Sonoma County. Bids will be received by the Board of Supervisors of Sonoma County at Santa Rosa on July 12th at 12 noon for the construction of a bridge over the Russian River at Markhams. Consulting Engineers Leonard & Day have prepared two sets of plans for a reinforced concrete structure, one set calling for a three-span bridge and the other five spans. These plans can be secured from the offices of the engineers. A set of plans calling for steel construction have been prepared by County Surveyor M. P. Youker, Santa Rosa, and figures are being taken for both types of construction.

Contracts Awarded.

SACRAMENTO, CAL.—Highway and bridges. Cost as follows. Engineer, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. Contracts for five units of 16.6 miles of State highway, totaling \$142,619.50, have been awarded by the State Highway Commission. The following is a list of the awards: To J. A. Marshall, 2967 Avalon avenue, Berkeley, the construction of 4.2 miles of highway from Beresford to Redwood City in San Mateo County on his bid of \$37,290.50, which was nearly \$18,000 lower than the engineers' estimate.

To The Modern Construction Co. of Los Angeles 5.6 miles from Springville to the Santa Clara River in Ventura County on their bid of \$31,945.30. The engineer's estimate on this work was \$43,058.42.

To Blanchard-Brown Co., 660 Market street, S. F., 2 1/2 miles in Contra Costa County, running from the southerly border of the city of Richmond, on

their bid of \$32,287, the engineer's estimate being \$46,445.05.

To Elsmore & Jacobs, 422 H street, Eureka, 4.3 miles from Loleta to Peatrice in Humboldt County, on their bid of \$23,180, the engineer's estimate was \$20,116.25.

To Howard S. Williams, Hearst bldg., S. F., the construction of two reinforced concrete bridges on the State highway between Baird and Antler, on his bid of \$18,044.

WOODLAND, YOLO CO., CAL.—Bridge, steel and reinforced concrete \$35,000. Engineers, County Surveyors, Yolo and Solano Counties. Owners, Solano and Yolo Counties. Contractors, Clinton Construction Co. S. F. Contract price, \$35,000.

FACTORIES AND WAREHOUSES

OAKLAND, CAL.—Factory, 5, 1 story mill construction, \$500,000. Engineer, R. R. Street. Owners, Pacific Tank & Pipe Co., 5th and Bryant streets, S. F. Work has been started on the construction of five one-story mill construction buildings, each 100 by 200 feet, which will form the first unit of the new plant to be erected on High street, Oakland, by the Pacific Tank & Pipe Co. When complete the new plant will represent an investment of \$500,000. Engineer R. R. Street is in charge of the work and can be seen on the job. All work will be done by Day Labor and subcontract. Piles are now being driven for the foundations. Exteriors will be covered with corrugated iron.

SAN FRANCISCO—Factory, 3 story and base, mill construction. Cost not stated. Architect, Hermann Barth, 12 Geary street, S. F. Owners, Frye & Co. Location, southeast Front and Pacific streets. Interior finish of front portion pine and hardwood, balance rough. Special machinery. Metal window sash and frames. Exterior faced with stock brick. Plans complete and ready for figures.

OAKLAND, CAL.—Blacksmith shop, etc., frame, \$2,500. Architect, none. Owners, Moore-Scott Iron Works, 678 2nd street, Oakland. Location, foot of Adeline street. Exterior corrugated iron. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Workshop, 1 story, corrugated iron, \$5,000. Architect, none. Owner, B. A. Stewart, 8 Fairview street, Oakland. Will cover a considerable ground area. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Municipal shop buildings, 1 story, brick and steel. Cost not stated. Architect, W. H. Ratcliff, Jr., First National Bank Bldg., Berkeley. Owners, City of Berkeley. Location, West Berkeley. Will contain repair shops and stables. No interior trim. Plumbing and electric work. Exteriors faced with corrugated iron and brick. Plans complete and figures being taken.

LOS ANGELES, CAL.—Laundry, 3 story and base. Class A construction. Cost not stated. Architects, Train & Williams, Exchange Bldg., L. A. Owners, Diamond Laundry Co. Location, northwest corner of 8th and Diamond streets, covering an area of 200 by 100 feet. Reinforced concrete floors and walls. Two elevators. Steam plant and special machinery. Metal window sash and frames. Exterior faced with

cement plaster. Plans complete and figures being taken.

FIRE HOUSES AND JAILS

SEATTLE, WASH.—Fire house, 2 story and base, reinforced concrete, \$14,000. Architect, City Architect, Daniel Huntington, Seattle. Owners, City of Seattle. Location, Railroad avenue near Madison, covering an area of 10 by 40 feet. Fireproof construction. Cement floor. Special electric work and plumbing. Steam heat. Exterior faced with pressed brick. Plans being prepared.

FLATS

SAN FRANCISCO—Flat alteration, frame construction, \$6,000. Architect, none. Owner, Mrs. E. T. Wilson, 1449 Leavenworth street, S. F. Location, 1449 Leavenworth street. Work will consist of raising the building, garage in basement, wall beds, plastering, painting, plumbing and electric work. Some exterior work will also be required. Plans complete and owner to let contracts.

RICHMOND, CONTRA COSTA CO., CAL.—Flats, 2 story and base, frame, \$6,000. Architect, J. B. Oghorn, 464 13th street, Richmond. Owner, Carl Overaa, 1808 Roosevelt avenue, Richmond. Location, Bissell between 7th and 8th streets. Will contain four flats and basement garage. Interiors finished in pine and white enamel. Hardwood floors. Open fire places and tile or brick mantels. Bath rooms tile. Exteriors covered with cement plaster and shiplap. Plans complete and work to be done by Day Labor.

GARAGES

OAKLAND, CAL.—Garage, 1 story and base, brick, \$8,000. Architects, Newsom & Newsom, 1748 Broadway, Oakland. Owner, F. Smith. Location, Brook and Broadway. Designed for a commercial garage. Cement floor. Special gasoline tanks. Exterior faced with pressed brick. Plans complete and segregated figures being taken.

GOVERNMENT WORK & SUPPLIES

Western Navajo Indian School, Building.

The following bids were received by the Commissioner of Indian Affairs, Washington, D. C., for constructing a dairy barn at the Western Navajo Indian School, Ariz.:

W. D. Lovell, Minneapolis, Minn., \$12,965. 150 days.

Horton Smith, Des Moines, Iowa, \$16,500. 240 days.

Unit Construction Co., St. Louis, Mo., \$22,000. 120 days.

Concrete Work.

Bids for excavation, reinforced concrete work, etc., near Payson, Utah, were received at the U. S. Reclamation Service, Provo, Utah, as follows:

Reynolds-Bly Co., Springville, Utah, schedule 1, \$11,446.75; 2, \$44,200; 3, \$14,650.15.

H. G. Gikerson, Salt Lake City, Utah, schedule 1, \$48,214.75; 2, \$55,026.

San Francisco, Cal., Screen Partitions.

The contract for new wire screen partitions in basement of the U. S.

post office at San Francisco, Cal., has been awarded to the West Coast Wire and Iron Works at \$985.

Los Angeles, Cal., Post Office.

The contract for installing a vacuum cleaning machine in the U. S. post office and courthouse at Los Angeles, Cal., was awarded to the Spencer Turbine Cleaner Co., Hartford, Conn., who will use an exhaustor of their own manufacture and a motor manufactured by the General Electric Co.

Navajo Indian School, Ariz., Building.

The contract for constructing employees mess building, stone cottages, gas house, additions to school, boiler house, and remodeling old mess building at the Navajo Indian School, Ariz., has been awarded to Thomas W. Hall, Farmington, N. Mex., at \$35,280.

Reclamation Work.

The U. S. Reclamation Service has awarded the following contracts for earthwork and structures on the Pablo division of the Flathead irrigation project, Mont.: Schedule 1, earthwork, to Percy M. Ross, Polson, Mont., \$18,610; schedule 2, structures, to Clarence B. Long, Polson, Mont., \$14,918.30; schedule 3, Mendenhall, Bird & Co., Springville, Utah, \$29,800. The foregoing work involves about 220,000 cubic yards of excavation, 870 cubic yards of reinforced concrete, 3,250 square feet of paving, 7,650 square feet of canal linings, manufacturing and laying 6,230 linear feet concrete pipe, 210 cubic yards of dry rubble wall, and placing 4,000 feet, B. M., of lumber and 110,000 pounds of structural and reinforcing steel. The work under schedules 1 and 2 is 3 to 10 miles southwest from Polson, Mont., and schedule 3 is 6 to 8 miles west from Ronan.

Bozeman, Mont., Vault Shelving.

The following bids were received by the supervising architect, Treasury Department, Washington, D. C., for installing metal vault shelving in the U. S. post office at Bozeman, Mont.:

Crown Metal Construction Co., Jamestown, N. Y., \$921.

The Steel Fixture Mfg. Co., Topeka, Kans., \$1,022.65.

The Keyless Lock Co., Indianapolis, Ind., \$1,040.

The Van Dorn Iron Works Co., Cleveland, Ohio, \$1,012.

The Berger Mfg. Co., Canton, Ohio, \$1,150.

Art Metal Construction Co., Washington, D. C., \$1,179.

Watson Mfg. Co., Jamestown, N. Y., \$1,111.

North Head, Wash., Building.

The following bids were received by the chief of the bureau of yards and docks, Navy Department, Washington, D. C., for constructing a frame building at the naval radio station, North Head, Wash.:

Item 1, work complete, 2, substituting asbestos prepared roofing for shingles.

Martin & Dugan Construction Co., Northern Bank Building, Seattle, Wash., item 1, \$2,800; 2, \$2,850.

Bert Ward, 512 31st avenue, Seattle, Wash., item 1, \$2,980, 2, \$2,975.

Iiwaco Mill & Lumber Co., Iiwaco, Wash., item 1, \$1,160, add \$115.15 for Crane fixtures.

Thomas Soudon, 191 23d street, Astoria, Ore., item 1, \$1,925; 2, \$1,900.

Transmission Line.

Schedule of bids for construction of transmission line as per specifications 30d for the Grandview irrigation district, opened at North Yakima, Wash.: Bid 1, David Paradis, 210 N. 6th street, North Yakima, Wash.

Item 1, V. V. Vercoe, Sunnyside, Wash.

Item 1, Construction of transmission line for the lump sum of: Bid 1, \$577, 2, \$168.

2, Additions to above transmission line at unit prices of: Bid 1, \$75; 2, \$6.50.

Fort Stanton, N. Mex., Concrete Lining.

The following bid was received by the custodian, U. S. sanatorium, Fort Stanton, N. Mex., recently for concrete lining for reservoir at the above building:

For the improvement of Morse St., from a line 374 feet 6 inches from Newton street to the west line of Curtis street, produced northerly, by grading, construction of concrete curbs, artificial stone sidewalks, an 8-inch, vitrified, salt-glazed, ironstone pipe sewer, brick catchbasins with 10-inch, vitrified, salt-glazed, ironstone pipe culverts, and by paving the roadway with an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to The Fay Improvement Co., Phelan Bldg., S. F., for \$5,482.24.

SACRAMENTO, CAL.—Street Improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento: To the McGillivray Construction Co., 1007 7th street, Sacramento, the improvement of the alley between P and Q streets, from the east line of 4th street to the west line of 5th street, by removing and disposing of all refuse material, constructing one concrete catchbasin, complete, with cast iron curb and cover, placing 8 linear feet of 8-inch, vitrified, ironstone sewer pipe, grading

The roadway and constructing thereon an asphalt macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Also the improvement of the alley between Front and 2nd streets, from the north line to Q to the south line of L, by removing and disposing of all refuse material, construct 5 concrete catchbasins, complete, with cast iron curbs and covers, reconstruct 5 concrete manholes, 25 linear feet of 8-inch, vitrified, ironstone sewer pipe drain, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement concrete wearing surface 1½ inches thick, except for a distance of 80 feet south of the south line of L street, where granite block pavement shall be constructed. Also the improvement of 16th street, from the south line of P to the north line of Q street, by removing all refuse material, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement concrete wearing surface 1½ inches thick. Also the improvement of the alley between K and L streets, from the east line of 14th to the west line of 15th street, by removing and disposing of all refuse material, constructing one concrete catchbasin, complete, with cast iron curb and cover, placing 6 linear feet of 8-inch, vitrified, ironstone sewer sewer pipe drain connecting catchbasin to sewer, grading the alley and constructing thereon an asphaltic pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick.

SACRAMENTO, CAL.—Street Improvements. Cost not stated, Engineer, City Engineer, Sacramento, Owners, City of Sacramento. The following contracts for street improvements have been awarded by the City Commission: To Clark & Henry Construction Co., Ochsner Bldg., Sacramento, that the intersection of 31st and M streets be improved by removing and disposing of on 51 by 10-foot brick arch culvert and all other surplus and refuse material; construct concrete gutter, grading the space between the property line and curb, concrete sidewalks, reconstruct one concrete manhole, grade the roadway and construct thereon an asphalt concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphalt concrete wearing surface 1½ inches thick. Also the improvement of Channing Way, from the south line of Schley avenue to the north line of lot M of Wright & Kimbrough Tract No. 29, by removing and disposing of 480 square feet of concrete sidewalk, 1-328 linear feet of wooden curb and all other surplus and refuse material, constructing concrete curb, concrete gutter, 6 and 8-inch, vitrified, ironstone sewer pipe drains, placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes, complete, with cast iron curbs and covers, grading the space between the property line and curbs, constructing concrete sidewalks, grading the roadway and constructing thereon an asphaltic concrete

concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick. Also the improvement of Sylvan Way, from the south line of Schley avenue to the north line of lot M, Wright & Kimbrough Tract No. 29, by removing and disposing of all refuse material, constructing concrete curb, concrete gutter, 6 and 8-inch, vitrified, ironstone sewer pipe drains, 6-inch, vitrified, ironstone sewer pipe elbows attached, concrete manholes, complete, with cast iron curbs and covers, grading concrete sidewalks, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, and an asphaltic concrete wearing surface 1½ inches thick.

To W. J. Tobin, 735 Filbert street, Oakland, the improvement of alley between V and W streets from 21st to 31st street, the alley between W and olive streets from 31st to 34th street, and the alley between Olive avenue and Y street, by excavating a trench in each of said alleys and constructing therein an 8- and 14-inch, vitrified, ironstone pipe sewer and 6-inch, vitrified, ironstone Y branches and 9 concrete manholes, complete, with cast iron curbs and covers and backfilling all trenches. Also the improvement of Sacramento avenue, from a point obtained by the intersection of a line parallel to and 705 feet east, measured at right angles from the center line of 26th street with a line parallel to and 12 feet north, measured at right angles to the center line of Sacramento avenue to Leland Stanford avenue and Leland Stanford avenue from Sacramento avenue to the intersection of Leland Stanford and Manzanilla avenue by excavating a trench and constructing therein 10, 12 and 14-inch vitrified, ironstone pipe sewer and 5 concrete manholes, complete, with cast iron curbs and covers.

To A. Teichert & Son, Ochsner Bldg., Sacramento, the improvement of Bonita avenue, from the east line of Precourt road to the west line of 24th street, by removing and disposing of all refuse material, constructing concrete curb, 6 and 8-inch, vitrified, ironstone sewer pipe drains, concrete manholes, complete, with cast iron curbs and covers, placing cast iron gutters and drains with 6-inch, vitrified, ironstone sewer pipe elbows attached, grading between property line and curb, concrete sidewalks, grading the roadway and constructing an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick and an asphaltic cement flush coat 1½ inches thick.

OAKLAND, CAL.—Street Improvements. Cost not stated, Engineer, City Engineer, Oakland, Owners, City of Oakland. The following street improvements have been awarded: The improvement of 47th avenue, from the southwest line of East 14th street to a line parallel to and distant 70 feet northeast from the northeast line of East 10th street and the crossing of East 10th street with 45th avenue, each to be graded, curbed with redwood, concrete gutters 3 feet wide paved with oil macadam and cement sidewalks 6 feet wide. Also that a vitrified pipe conduit, having an in-

ternal diameter of 12 inches be constructed in 45th avenue from the northeast line of East 10th street to the existing water course crossing said 45th avenue about 210 feet southwest of East 10th street, one-half of said conduit to be located parallel to and distant 13 feet southeast from the northwest line of 45th avenue. Also that a brick manhole be constructed at the northeast end of said conduit; also that a corrugated iron and concrete culvert, having two branches, be constructed in the crossing of East 12th street and 45th avenue. Awarded to the Hutchinson Co., 13th and Franklin streets, Oakland.

That a sewer having an internal diameter of 8 inches be constructed along the center line and its production of Harvey avenue from the center line of 57th avenue to a point distant 545 feet northwest therefrom, measured along said center line of Harvey avenue; also a brick manhole be constructed at the northwest end of sewer; also Y branches, each having 5-inch openings, be constructed on said sewer so as to provide one such branch for each 25-foot lot. Said sewer, Y branches and lamphole (except the top) shall be constructed of vitrified sewer pipe. Awarded to E. H. Sundberg, Oakland Bank of Savings Bldg., Oakland.

That a sewer, having an internal diameter of 8 inches, be constructed along the center line of D street, from the center line of 88th avenue to a point distant 200 feet southeast therefrom, measured along said center line of D street; also that a lamphole, having a top of brick and cast iron be constructed at the southeast end of said sewer; also Y branches having 5-inch openings be constructed on said sewer so as to provide one such branch for each 25-foot lot. Said sewer, Y branches and lamphole (except the top) shall be constructed of vitrified sewer pipe. Awarded to D. U. Toffelmier, First National Bank Bldg., San Leandro, Cal.

OAKLAND, CAL.—Street work. Cost not stated. Engineer, City Engineer, Oakland, Owners, City of Oakland. Bids will be received on July 13th at 12 noon for street improvements authorized under the following resolutions: For the improvement of East 17th street, from the south line of 55th avenue to the north line of 57th avenue, by grading, redwood curbs, concrete gutters 3 feet wide and paved with oil macadam (with exceptions.) For the improvement of portions of 88th avenue by grading, redwood curbs, concrete gutters 3 feet wide and paved with oil macadam and cement sidewalks 6 feet wide.

BERKELEY, ALAMEDA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Berkeley, Owners, City of Berkeley. Contracts for street improvements have been awarded as follows: For the improvement of Walnut street, from the north line of Berryman street north to the north line of Highlands, and Eunice street, from the east line of Shattuck avenue east to Walnut street, by grading, concrete curbs, cast iron concrete culverts with granite header blocks, concrete walls with concrete posts and wrought iron pipe railing and earth terracing, concrete gutters and the remainder of the roadway be paved with oiled macadam pavement. Awarded to

the Hutchinson Co., 13th and Franklin streets, Oakland.

For the improvement of the roadway of Tamalpais street, from the west extension of the south line of Shasta street north to the west line of Tallac, and Tallac street from the west line of Shasta street west and north to a line drawn from the point of intersection of the north line of Tamalpais street, etc., by grading, concrete curbs, cast iron curb inlets and catchbasins with gratings, and roadways paved with a concrete pavement 5 inches thick. Awarded to The Western Construction Co., Russ Bldg., S. F.

STOCKTON, SAN JOAQUIN CO., CAL.—Sewer construction, \$1,745. Engineer, City Engineer, Stockton, Owners, City of Stockton. The plans and specifications of the City Engineer for the construction of lateral sewers on portions of Magnolia, Acaia, Poplar, Flora, Park, Oak, San Jose, Fremont, Stockton, Yosemite, Argonaut, Orange and West streets. There will also be 224 house branches made to lots in order that the street will not have to be torn up again. The City Engineer's estimate for the work amounts to \$1,745. Bids for this work have been ordered received. Plans may be had from the City Clerk.

BERKELEY, ALAMEDA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Berkeley, Owners, City of Berkeley. The City Council has awarded a contract to the Oakland Paving Co., 5000 Broadway, Oakland, for the following work: The improvement of Dwight Way by re-grading, constructing concrete culverts with cast iron manholes and granite header blocks, and to pave the roadway with asphalt wearing surface 2 inches thick on a concrete foundation 5 inches thick.

BAKERSFIELD, KERN CO., CAL.—Street improvements. Cost as follows. Engineer, City Engineer, Bakersfield, Owners, City of Bakersfield. The following contracts have been awarded by the City Council: To E. W. Nightbert, 817 J street, Bakersfield, for the improvement of portions of C street and Dracena street, to be graded, tamped and rolled, on his bid of 1.5c per square foot for grading and tamping and 65c per linear foot for laying 5½-inch iron culverts. Also the improvement of Beale avenue to be graded, tamped and rolled, that parking spaces, cement concrete curbs and wrought iron pipe culverts be constructed. The bid was 1.5c per square foot for grading, rolling and tamping, 35c per linear foot for laying 14-inch concrete curb, and 65c per linear foot for laying 5½-inch wrought iron pipe for culverts.

BERKELEY, ALAMEDA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Berkeley, Owners, City of Berkeley. Bids will be opened on July 11th at 10 a. m. for street improvements authorized under the following resolutions: That portions of Grove and Adeline streets be improved by concrete curbs and gutters, reconstructing existing catchbasins, cast iron culverts with concrete inverts and granite header blocks connecting catchbasins to the adjacent gutters to be constructed, corrugated iron culverts with concrete inlets thereto fitted with cast iron covers, and the roadway be paved with

asphaltic concrete 2 inches thick on a 5-inch foundation of hydraulic cement concrete.

RICHMOND, CONTRA COSTA CO., CAL.—Street improvement. Cost as follows. Engineer, City Engineer, Chapman, Richmond, Owners, City of Richmond. At the last meeting of the City Council the following bids were opened for the improvement of a portion of San Pablo avenue, from the northern city limits to the Oakland branch of the Santa Fe. Fred Schnoor, 5295 Claremont, Oakland, \$23,187.17; F. R. Ritchie & Co., S. F., \$36,320.89; Johnson-Shea Co., Oakland, \$38,798.57; S. C. Rogers, Richmond, \$35,599.59; Municipal Improvement Co., Richmond, \$35,810.39; and Ransome-Crummey Co., Oakland, \$37,960.35. The following bids were opened for the installation of Sewers in the Richmond Center Tract: Haven Co., Richmond, \$26,135.46; Fred Meyers, Richmond, \$21,132.16; Staniger & Mollath, \$21,929.93; Chambers & Healey, Oakland, \$25,162.71; Wm. F. Edwards, Oakland, \$22,772.65; and L. L. Page, \$21,457.94. The contracts will not be awarded for a week.

SACRAMENTO, CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Sacramento, Owners, City of Sacramento. Bids will be received up to July 13th at 11 a. m. for the improvement of 24th street, from Fonita avenue to 2nd avenue in West Curtis Oaks, by constructing concrete curb, concrete gutter, placing cast iron gutter drains with 6-inch elbows attached, concrete manholes, 6 and 8-inch, vitrified, ironstone sewer pipe drains, grading the space between the property line and curb, concrete sidewalks, grading the road and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick.

For the improvement of the alley next west of Hawley avenue, from south Carn-H avenue to north Schley avenue, by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer with 24 6-inch, vitrified, ironstone Y branches etc., concrete manholes, complete, and backfilling trench.

For the improvement of K street, from the east line of 15th street to the east line of 21st street, by grading the roadway and constructing thereon an asphaltic macadam pavement 3 inches thick.

For the improvement of 15th street from the south line of B street to the south line of G street by grading the roadway and constructing thereon an asphaltic macadam pavement 3 inches thick.

For the improvement of J street from Mont Clair avenue to Apricot avenue, by excavating a trench and constructing therein S, 10, 12, 15, and 18-inch, vitrified, ironstone pipe sewer and 16 concrete manholes, also three 8-inch, vitrified, ironstone pipe inlets in manholes.

SAN FRANCISCO.—Street improvements. Cost as follows. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. The improvement of the crossing of Balboa street and 23rd by grading construction of 8, 10 and 12-inch, vit-

trified, ironstone, salt-glazed pipe sewer, 4 brick catchbasins, concrete curbs and artificial stone sidewalks and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway to Thomas Hutton for \$1,915.47.

The improvement of 17th avenue, between Irving and Judah streets, where not already done, by the construction of an 8-inch, vitrified, salt-glazed, ironstone pipe sewer, with 4 Y branches and side sewers and 2 brick manholes with cast iron frames and covers and galvanized, wrought iron steps. Awarded to Robinson Nugent, 2165 Market street, for \$177.50.

The improvement of Potrero avenue, between 25th street and San Bruno avenue, where not already improved, by grading, constructing granite curbs, catchbasins, artificial stone sidewalks and an asphalt pavement. Awarded to Eaton & Smith, 467 11th street, San Francisco, for \$21,659.20.

The improvement of Sanchez street, between 19th and 20th streets, by grading, construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances, S, 10 and 12-inch, 9 reinforced concrete and brick manholes, 30 Y branches and side sewers, 4 brick catchbasins, concrete curbs and artificial stone sidewalks, a vitrified brick pavement on concrete foundation, asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface, concrete copings around spaces, reinforced and plain concrete retaining walls, stairs, seats and posts, galvanized wrought iron railings, storm water inlets, drains and appurtenances and by planting parking space. Awarded to F. R. Ritchie, Chronicle Bldg., S. F., for \$35,607.16.

The improvement of 26th avenue, between Anza and Balboa streets, by constructing granite curbs and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to J. G. Harney for \$1,035.

Contracts Awarded.

OAKLAND, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Oakland, Owners, City of Oakland. The following contracts for street improvements have been awarded: The improvement of Custer street from the southeast line of 55th avenue to the northwest line of Harrington avenue, also a portion of Harrington avenue, be graded, curbed with redwood, paved with oil macadam, sidewalks of cement and corrugated culverts and two brick manholes. Awarded to the Oakland Paving Co., 5000 Broadway, Oakland.

The improvement of Fleming avenue, from the southeast line of High street to a line at right angles to the northeast line of Fleming avenue and distant therefrom 175 feet northwest from the northeast line of the Chittenden Tract, be graded curbed with redwood concrete gutters 3 feet wide, oil macadam pavement and cement sidewalks 6 feet wide; also two concrete culverts, each having a maximum internal dimension of 6 feet 4 inches in height by 6 feet in width, vitrified pipe conduits, three brick manholes. Awarded to the Hutchinson Co., 13th and Franklin streets, Oakland.

The improvement of 1000th Place from the southern line of East 31st street to the northeast curb line of East 27th street, by cement sidewalks 6 feet wide. Awarded to J. Catucci, 1230 18th avenue, Oakland.

The improvement of a portion of Fallon street by grading, concrete curbs, brick gutters 11 inches wide and paved with asphalt, a vitrified pipe conduit, having an internal diameter of 10 inches and a brick storm water inlet with cast iron top. Awarded to the Clark & Henry Construction Co., Ochsner Bldg., Sacramento, Cal.

SACRAMENTO, CAL. — Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. The following street improvements have been awarded: The improvement of 12th street, from R street to W street, by reconstructing three concrete manholes, four catchbasins, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick. Awarded to The McGilivray Construction Co., 1007 7th street, Sacramento, Cal.

The improvement of Y street, from 30th to 31st street, by constructing concrete curb, concrete gutter, placing two cast iron gutter drains with 6-inch vitrified, ironstone sewer pipe elbows attached, 6-inch, vitrified, ironstone sewer pipe drains, grading the space between the property line and curb grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic cement foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick. Awarded to The Clark & Henry Construction Co., Ochsner Bldg., Sacramento.

The improvement of Sacramento avenue, from Y to Magnolia avenue, by constructing concrete curb, concrete gutter, placing six cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe drains; grading the space between the property lines and curb concrete sidewalk; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete pavement 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick. Awarded to The Clark & Henry Construction Co., Ochsner Bldg., Sacramento.

OAKLAND, CAL. — Highway improvements. Cost as follows. Engineer, County Surveyor, Oakland. Owners, Alameda County. The Alameda County Board of Supervisors awarded the contract for the improvement of East 14th street, from San Leandro to Hayward, to the Ransome-Crummey Co., First National Bank Bldg., Oakland, on their bid of \$102,225. Paul Schnoor, 5905 Claremont avenue, Oakland, was awarded the contract for the improvement of Webber-Sundel road on his bid of \$15,082.

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL. — Street paving and sewers, \$31,294.90. Engineer, City Engineer, South San Francisco. Owners, South San Francisco, Contractors, Peterson & Grier, 62 Post street, S. F. Contract price, \$31,294.90.

VISALIA, TULARE CO., CAL. — Street paving. Cost as follows. Engineer,

City Engineer, Visalia. Owner, City of Visalia. Contractor, Worswick Construction Co., Union Trust Bldg., Fresno. Contract price, \$122 per square foot.

SEATTLE, WASH. — Paving, \$37,842. Engineer, County Surveyor, Tacoma. Owners, Pierce County, Contractors, Washington Paving Co., Smith Bldg., Seattle. Contract price, \$77.812.

SEATTLE, WASH. — Highway construction, \$29,495. Engineer, County Surveyor, Seattle. Owners, King County. Contractor, Charles G. Huber, Central Bldg., Seattle. Contract price, \$29,495.

STORES AND OFFICES

SAN FRANCISCO — Stores and offices, 4 story and base, reinforced concrete. Cost not stated. Architect, Kenneth MacDonald, Hoobrook Bldg., S. E. Owner, John A. Hooper, 110 Market street, S. E. Location, west Battery between Pine and California streets. Will contain a number of stores on the first floor and modern lofts and offices above. Interior finish pine, hardwood and metal. Metal window sash and frames. Elevator service, steam heat, oil burning equipment and vacuum cleaning. Marble and tile wainscot. Patent store fronts. Exterior faced with pressed brick and terra cotta. Plans complete and figures being taken.

ALAMEDA, ALAMEDA CO., CAL. — Stores, 1-story, frame, \$5,000. Architect, A. W. Pattiani, Merchants' National Bank Bldg., S. E. Owner, George T. Wright, Mills Bldg., S. E. Location, northeast Webster and Santa Clara streets. Will contain one large store interior finish pine and redwood with some hardwood in the display windows. Patent store fronts and marble bases. Exterior faced with cement plaster. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL. — Store alterations \$5,000. Architect, none. Owner, W. J. O'Neill, 904 I street, Fresno. Location, L and Kern streets. Work will consist of new interior finish, store fixtures and patent store fronts. Marble bases. Plans complete and work to be done by Day Labor.

GUADALUPE, SANTA BARBARA CO., CAL. — Stores and offices, 2 story and base, brick. Cost not stated. Architect, P. Righetti, Phelan Bldg., S. E. Owner's name withheld. Will contain stores on the first floor and a number of modern offices above. Interior finish pine and redwood. Some hardwood in display windows. Patent store fronts and marble bases. Exterior faced with pressed brick. Plans to be ready for figures in about one month.

GRASS VALLEY, NEVADA CO., CAL. — Stores and offices, 3 story and base, reinforced concrete. Cost not stated. Architect's name not given. Owner, Theodore Koider, Grass Valley. Will contain stores on the first floor and a number of offices and living apartments on the upper floors. Interior finish pine. Steam heat. Patent store fronts and marble bases. Hot water supply. Exterior faced with cement plaster. Plans being prepared.

LOS ANGELES, CAL. — Stores and lofts, 2 story and base, brick. Cost not stated. Architect, Richard D. King, Van Nuys Bldg., L. A. Owners, W. A.

and M. T. Glascock. Location, Tracoma avenue near Alameda, covering an area of 72 by 120 feet. First floor will contain several stores and the upper floors modern lofts. Interior finish pine. Steam heat, elevator service and vacuum cleaning. Patent store fronts and marble bases. Exterior faced with pressed brick. Plans complete and figures being taken.

Contracts Awarded.

GUADALUPE, SANTA BARBARA CO., CAL. — Stores and offices, 2 story and base, brick, \$20,000. Architect, P. Righetti, Phelan Bldg., S. E. Owner, P. Grisingher, Guadalupe, Contractor, W. L. Smith, San Luis Obispo. Contract price, \$20,000.

SEALED PROPOSALS

PROPOSALS FOR CANAL SUPPLIES. — PANAMA CIRCULAR 1056 — Proposals for Laboratory, Hardware for Marble Work, Steel Angles and Plates, Soft Steel Bars, Rock Outlets and Plates, Sheet Brass, Machine Bolts, Rivets, Nails, Screws, Staples, Screw Eyes, Brass Nuts, Wood Bolts, Hinges, Haps, Wardrobe Locks, Screen Door Catches, Furniture Casters, File Handles, Shelf Brackets, Storage Battery Warehouse Trucks, Hydraulic Valve, Cocks, Oiler Spouts, Pulleys, Chain Blocks, Snatch Hooks, Coal Baskets, Buckets, Corn Broom, Floor Brushes, Fine Brushes, Seythe Stones, Lantern Globes, Lamp Chimneys, Graduating Glasses, Tables, Chairs, Bat Traps, Mattresses, Hair, Twine, and Base Wood Lumber. — Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m. July 14, 1916, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1056) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal. EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

PROPOSALS FOR DREDGING.

DREDGING. — Sealed proposals, indorsed "Proposals for Dredging" will be received at the bureau of yards and docks Navy Department, Washington, D. C., until July 8, 1916, and then and there will be opened in public, for the naval coal depot, California City Point, Tiburon, Cal. Plans and specifications can be obtained on application to the bureau or to the commandant of the navy yard, Mare Island, Cal. F. R. HARRIS, chief of bureau.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1048 — Proposals for structural steel, Bronze Wire Cloth, Soft Pine, Wrought Iron or Steel Pipe, Pipe Fittings, Brass Tubing, Brass Clean-outs, Floor Drains, Valves, Cocks, Lead Pipe, Lead Traps, Solder, Pipe Hangers, Brass Chains, Shower Heads, Sanitary Fixtures, Ranges, Boilers, Refrigerator Traps, Okum, Putty, Door and Window Hardware, Doors and Sash, and Lumber. — Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m. June 26, 1916, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1048) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal. EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

The time for opening bids under the above circular (1048) has been extended from 10:30 a. m. June 26, to 10:30 a. m. July 5, 1916. EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

NOTICE TO CONTRACTORS.

NOTICE is hereby given by the Board of Supervisors of Sonoma County, California, that sealed bids will be received by the Clerk of said Board up to **12 o'clock noon on July 12th, 1916**, for the construction of a bridge over Russian River, at Mechanics, according to plans and specifications for said bridge, now on file in the office of the Clerk of this Board, and being plans and specifications Nos. 1 and 2 submitted by this Board, on June 8, 1916, and plan and specifications No. 3, submitted by M. P. Youker.

Separate bids are to be received for any one or all of said plans. Each bidder shall accompany his said bid or bids with a certified check made payable to W. W. Felt, Jr., County Clerk, in an amount not less than 10% of the amount of the highest bid submitted by him, and to be forfeited to Sonoma County, should successful bidder fail within ten days after the acceptance of either of said bids submitted by him, to enter into the contract therefor, and give a good and sufficient bond for the faithful performance of said contract; said bond to be in the amount as required by the contract, and to be approved by said Board of Supervisors.

A deposit of \$10.00 for each plan, or a deposit of \$25.00 for the three plans shall be made with the County Clerk by each bidder securing the plans, as a guarantee for their return.

Checks of unsuccessful bidders to be returned.

The Board hereby reserves the right to reject any or all bids.

Dated June 16th, 1916.

W. W. FELT, JR., County Clerk.

NOTICE TO CONTRACTORS.

SEALED bids will be received by W. F. McClure, State Engineer, at the Home Building, Sacramento, California, up to and including **12 o'clock, noon, Friday, July 28, 1916**, said bids then and there to be publicly opened and read for furnishing all plant, materials, and labor, and doing the work required for the complete construction and erection of the "Home for Working Men," Napa State Hospital, near Napa, California, in accordance with the plans and specifications therefor, copies of which may be obtained on application to the State Department of Engineering, Sacramento, California.

Such bids will be received for the Entire Work, and must be submitted on forms prepared and furnished by the State Department of Engineering.

Cash, a bidder's bond, or a certified check in the sum of ten per centum (10%) of the amount of the bid must accompany each bid.

A deposit of Fifteen (\$15.00) Dollars will be required on plans and specifications, the deposit to be returned immediately on the return of the plans and specifications to the State Department of Engineering, at Sacramento, California, in good condition.

The State Department of Engineering reserves the right to reject any and all bids and to waive any informality in any bid received.

All bids must be addressed to W. F. McClure, State Engineer, Sacramento, California, and plainly marked on the envelope: "Proposal for 'Home for Working Men,' Napa State Hospital, near Napa, California."

(Signed) W. F. McCLURE, State Engineer.

NOTICE TO CONTRACTORS.

NOTICE is hereby given that sealed bids will be received by the Board of Supervisors of Alameda County, California, up to **Monday, the 10th day of July, 1916, at the hour of ten o'clock A. M.** for the construction of cell work, including plate work, metal window guards and doors, stair cases, metal frames, gratings, bunks, etc., for the San Mateo County Jail at Redwood City, California, all as shown in and described by revised plans and specifications as prepared by Will H. Toepeke, Architect, and approved by the Board of Supervisors on June 12th, 1916.

Said building to be erected upon the easterly line of Webster street north of Broadway.

Estimates on labor and material necessary to furnish and install complete all cell work, locking devices, plate work, metal window guards and doors,

stair cases, metal frames, gratings, bunks, etc., shown in and described by plans and specifications marked Jail Specification.

Bidders will be required to submit with their proposal a certified check or certificate of deposit on some responsible Bank or Trust Company in the sum of ten (10%) per cent of their bid. Said check to be made payable to the County of Alameda, and to be cashed on demand at the County of San Mateo, and will be held as security that the bidder will enter into a written contract with the Board of Supervisors of the County of San Mateo if awarded the contract within ten (10) days from date of award. In the event of a breach of the terms under which this check is held, the said check will be cashed and the proceeds thereof placed to the credit of the building fund of said County of San Mateo.

The successful bidder will further be required to give a bond from satisfactory Surety Company in the sum of fifty (50%) per cent of his contract price, conditional for the faithful performance of this contract, within the time limited, and to further insure the payments of all claims for labor and material furnished on the work.

The successful bidder will also be required to execute the County against liability arising under the Workmen's Compensation Act and against any and every contingency under which the County might be held liable during the progress of all the work connected with the construction of said Jail Building.

The contract will provide for the retention of twenty-five (25%) per cent of the contract price for thirty-five (35) days after the completion of the work, and the filing of the notice of completion and proof of completion. It is hereby notified that the County will take notice that there is now available for the purpose of constructing said Jail Building the sum of \$12,557.00; that sixty (60%) per cent of the remainder of the amount necessary for the construction of said Jail Building will be available in cash on or about January 1, 1917, and that the balance will be available in cash about June 1, 1917. The contract price will be made payable in installments as the work progresses and as the funds are actually available.

Sealed estimates should be filed with the Clerk of the Board of Supervisors. The said Board of Supervisors of said County hereby reserves the right to reject any and all bids.

Plans and specifications can be seen and secured at the County Clerk's Office in Redwood City, or at the office of the Architect, W. H. Toepeke, No. 46 Kearney Street, Room 508, San Francisco, California.

All bidders estimating on work will be required to deposit the sum of twenty-five (\$25.00) Dollars in check or cash on securing the plans and specifications. This amount to be returned to the Contractor when plans and specifications are returned in good condition.

By order of the Board of Supervisors. JOS. H. NASH, Clerk.

PROPOSALS FOR BUILDING.

OFFICE of the Clerk of the Board of Supervisors, Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office until **10 o'clock A. M., Monday, July 10th, 1916**, the day when said bids will be opened, for the construction of an Annex to the Hall of Records, situated at Fifth and Broadway Streets, in the City of Alameda, County of Alameda, State of California.

Bids will be received on each of the following departments of work:

- Department No. 1—Excavation, brick work, stone work, concrete work, carpenter work, mill work, glass, stairs, steel fire doors, ornamental and miscellaneous iron and steel work, window guards, plastering, lathing, repointing, damp-proofing, felt and gravel roofing, sheet metal, skylights, hardware, painting, tinning.
- Department No. 2—Plumbing, drains and gas fitting.
- Department No. 3—Electrical work.
- Department No. 4—Marble work.
- Department No. 5—Heating.
- Department No. 6—Elevator work.

Department No. 7—Well boring and water supply.

Complete plans and specifications for each of these separate departments of work to be on file in the Hall of Records Building, Oakland, where copies may be secured on depositing with the County Clerk the sum of Ten Dollars (\$10.00). Contractors will be restricted as to the length of time they may take to prepare these plans and specifications to twenty (20) days on department No. 1, and to five (5) days on all other departments.

Contractors failing to return said plans and specifications within said time limit will forfeit their deposit. The entire amount of the deposit will be returned to contractors returning plans and specifications in good condition within said time limit.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid, certified to by some responsible bank, and made payable to GEO. E. GROSS, Clerk of the Board of Supervisors of Alameda County, to be forfeited to the County of Alameda as assessed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

Dated June 20, 1916. (Seal)
GEO. E. GROSS,
Clerk of Board of Supervisors of the County of Alameda.

PROPOSAL FOR BIDS.

SEALED BIDS will be received at the office of Lewis P. Hobart, Crocker Building, San Francisco, Cal., at or before **3 o'clock P. M., Wednesday, July 19, for the Lindeum for the University Hospital, at Fourth and Parkways Aves., San Francisco, Cal.**, and as per plans and specifications on file and obtainable at the Cashier's window in the Contractor's office of the University of California, Berkeley, California.

A deposit of \$50.00 will be required for each set of plans and specifications taken out which deposit will be refunded upon return of said plans and specifications accompanied by a regular bid for the work. No bids will be received unless accompanied by a certified check or bond in favor of the undersigned equal to 10% of the bid, to secure execution of the contract by the successful bidder.

The right is reserved to reject any or all bids.
THE REGENTS OF THE UNIVERSITY OF CALIFORNIA. (S)

NOTICE TO CONTRACTORS.

SEALED BIDS will be received by W. F. McClure, State Engineer, Forum Building, Sacramento, California, up to and including **12 o'clock, noon, Friday, July 28, 1916**, said bids then and there to be publicly opened and read for furnishing all plant, materials, and labor, and doing the work required for the complete construction and erection of the "Home for Working Men," Napa State Hospital, near Napa, California, in accordance with the plans and specifications therefor, copies of which may be obtained on application to the State Department of Engineering, Sacramento, California.

Such bids will be received for the Entire Work, and must be submitted on forms prepared and furnished by the State Department of Engineering.

Cash, a bidder's bond, or a certified check in the sum of ten per centum (10%) of the amount of the bid must accompany each bid.

A deposit of Fifteen (\$15.00) Dollars will be required on plans and specifications, the deposit to be returned immediately on the return of the plans and specifications to the State Department of Engineering, at Sacramento, California, in good condition.

The State Department of Engineering reserves the right to reject any and all bids and to waive any informality in any bid received.

All bids must be addressed to W. F. McClure, State Engineer, Sacramento, California, and plainly marked on the envelope: "Proposal for 'Home for Working Men,' Napa State Hospital, near Napa, California."

(Signed) W. F. McCLURE, State Engineer. (S)

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

(By Special Wire.)

SACRAMENTO Cal., June 25th, 1916.—This was opened in the offices of the State Highway Commission today for highway construction including bridges in the following counties: San Mateo,

4.2 miles; Ventura, 5.6 miles; Humboldt, 4.3 miles; Shasta, two reinforced concrete bridges. The work attracted an unusually large number of bidders and at a late hour Monday afternoon a complete list of the bids was not available. Following is the name of the lowest bidder for work in each county:

San Mateo County, J. A. Marshall, \$37,290.50.

Ventura County, Modern Constr. Co., Los Angeles, \$31,948.30.

Contra Costa County, Blanchard-Brown, \$32,257.

Humboldt County, Elsemore & Jacobs, \$23,080.

Shasta County, Howard S. Williams, Hearst Bldg., S. F., \$15,044.

LOS ANGELES & SOUTHERN CALIFORNIA.

POWER PLANT—\$350,000. Fontana, San Bernardino Co., Cal. Engineer's name not given. Owners, the Fontana Co. A. B. Miller, president of the Fontana Co., announces that a power plant to utilize the waters of Lytle Creek in supplying electricity to the city of Fontana, will be under construction within thirty days after approval is obtained of the State Railroad Commission, which is at present inspecting the project. The project will include the construction of an underground reservoir and 4½ miles of steel pipe line. The power house will be located 1½ miles north of Highland avenue near Riverside avenue. The maximum capacity is to be 185 kilowatts.

LAUNDRY—3 story and base. Class A construction. Cost not stated. Los Angeles, Cal. Architects Train & Williams, Exchange Bldg., L. A. Owners, Diamond Laundry Co. Location, northwest corner of 8th and Diamond Sts., covering an area of 200 by 100 feet. Reinforced concrete floors and walls. Two elevators. Steam heat and special machinery. Metal window sash and frames. Exterior faced with cement plaster. Plans complete and figures being taken.

HOTEL AND STORES—3 story and base. Class C construction. Cost not stated. Los Angeles, Cal. Architect, A. B. Rosenthal, Lankershim Bldg., L. A. Owner, Col. J. B. Lankershim. Location, Seventh street east of Central avenue, covering an area of 80 by 100 feet. Will contain four stories on the first floor and a total of 72 rooms on the upper floors. Interior finish pine with some hardwood. Steam heat, hot water supply, elevator service and oil burning plant. Bath rooms tile. Patent store fronts and marble bases. Exterior faced with pressed brick. Plans complete and segregated figures being taken.

STORES AND LOFTS—3 story and base, brick. Cost not stated. Los Angeles, Cal. Architect, Richard D. King, Van Nuys Bldg., L. A. Owners, W. A. and M. T. Glascock. Location, Traction avenue near Alameda, covering an area of 72 by 120 feet. First floor will contain several stores and the upper floors modern lofts. Interior finish pine. Steam heat, elevator service and vacuum cleaning. Patent store fronts and marble bases. Exterior faced with pressed brick. Plans complete and figures being taken.

Contracts Awarded.

STORES AND OFFICES—2 story and base, brick, \$29,000. Guadalupe, Santa

Barbara Co., Cal. Architect, P. Righetti, Phelan Bldg., S. E. Owner, P. Grisingher, Guadalupe, Contractor, W. J. Smith, San Luis Obispo. Contract price, \$29,000.

PORTLAND AND OREGON.

WATER SYSTEM—Cost not stated. Canby, Ore. Engineer, S. A. Cobb, Oregon City. Owners, Canby City. From plans prepared by Consulting Engineer S. A. Cobb, Oregon City, bids will be received up to July 17th by the city of Canby, Ore., for furnishing materials and performing all labor in constructing a water works system. Bids will be received for furnishing materials also for materials and labor. The work contemplated includes constructing a distributing system of four miles of pipe, a 75,000-gallon tank on a tower, pumping machinery and building wells. Plans for the work may be had from Engineer S. A. Cobb at Oregon City.

APARTMENT HOUSE—3 story and base, brick. Cost not stated. Portland, Ore. Architect, Emil Schaacht, Commonwealth Bldg., Portland. Owner, Frank Magnusson. Contractor, Frank Quethan, 511 Jefferson street, Portland. Contract price not stated.

SCHOOL—1 story and base, reinforced concrete. Cost as follows: Wasco, Oregon, Architects, Tourtellotte & Hummel, Rothchild Bldg., Portland. Owners, City of Wasco. Contractors, general contract, A. E. Sykes & Co., \$19,560; heating, Wm. Bunce, \$2,948; plumbing, Appling & Griggs, \$1,117.

LODGE HALL AND STORES—3 story and base, reinforced concrete, \$75,000. Portland, Ore. Architect's name not given. Owners, Loyal Order of Moose. Location, northwest 14th and Taylor streets. Will contain several stores on the first floor, Turkish baths in the basement. Upper floors arranged for lodge rooms. A large gymnasium is also provided for in the basement. Interior finish pine and oak. Hardwood floors. Steam heat, oil burning system, hot water supply and automatic elevator. Patent store fronts and marble bases. Exterior faced with pressed brick and terra cotta. Plans are complete and figures to be called for at once.

SEATTLE AND WASHINGTON

APARTMENT HOUSE—3 story and base, brick, \$10,000. Seattle, Wash. Architect, J. A. Creutzer, New York Bldg., Seattle. Owner, Thomas Jarritt. Location, 14th avenue and Thomas street. Will contain 32 suites of two and three rooms. Interior finish pine, hardwood and white enamel. Hardwood floors. Steam heat, oil burning furnace and hot water supply. Bath rooms tile. Vacuum cleaning. Marble and tile wainscot. Exterior faced with pressed brick. Plans being prepared.

POST OFFICE—2 story and base, brick, stone and steel. Cost not stated. Wenatchee, Wash. Architect, Superinsing Architect, Washington, D. C. Owners, United States Government. Bird & Hobson of Okanogan, Wash., who were awarded the contract for constructing the U. S. post office at Wenatchee, Wash., have withdrawn from their agreement. Government

precedent in such cases set the practice of letting the work to the next lowest bidder, in this case, Harding F. Allen, care of MacLae Bros., Empire Bldg., Seattle, Wash., who bid \$81,000 on limestone and \$88,000 on sandstone. Bird & Hobson were below the next lowest bidder by \$2,000 on limestone and \$10,000 on sandstone.

FIRE HOUSE—2 story and base, reinforced concrete, \$10,000. Seattle, Wash. Architect, City Architect Daniel Huntington, Seattle. Owners, City of Seattle. Location, Railroad avenue near Madison, covering an area of 40 by 40 feet. Fireproof construction. Cement floor. Special electric work and plumbing. Steam heat. Exterior faced with pressed brick. Plans being prepared.

Contracts Awarded

PAVING—\$37,843. Seattle, Wash. Engineer, County Surveyor, Tacoma. Owners, Pierce County. Contractors, Washington Paving Co., Smith Bldg., Seattle. Contract price, \$37,843.

HIGHWAY CONSTRUCTION—\$29,495. Seattle, Wash. Engineer, County Surveyor, Seattle. Owners, King County. Contractor, Charles G. Huber, Central Bldg., Seattle. Contract price, \$29,495.

DORMITORY—3 story and base, brick, \$22,000. Puyallup, Wash. Architect, Andrew Willatzen, Boston Bldg., Seattle, Wash. Owners, Masonic Home Association. Contractor, Joe Hansen, 3210 North 16th street, Tacoma, Wash. Contract price \$22,000.

THE NECESSITY FOR A SETTLED TARIFF POLICY.

WASHINGTON, D. C., June 29, 1916.—

The necessity for a settled American tariff policy was emphasized Wednesday in an address before the National Gas Engine Association at Chicago by Dr. Frank R. Rutter, assistant chief of the Bureau of Foreign and Domestic Commerce, Department of Commerce. If the country is to hold its own in the bitter competition for trade that will follow the war, the Government must be given the opportunity to make favorable commercial treaties with foreign countries. "It should be borne in mind," said Dr. Rutter, "that concessions can not be obtained in the tariffs of other countries if we are not willing to make concessions ourselves."

"A fixed commercial policy is particularly necessary at the present time," said the speaker. "With rumors of trade agreements that will give preferential rates of duty between the allies, and with rumors of a customs union to cover Germany and Austria-Hungary, we must be in a position to know definitely the effect of our industries of any proposed foreign action. Can we not, if we know the situation well enough to make proper representations, obtain rates of duty that will at least put our products on an equality with those of other countries (a privilege which we do not now enjoy in France) and possibly in a position of even greater advantage."

The proposed tariff commission was referred to as a step in the right direction, as it would serve the excellent purpose of taking the tariff out of politics. The commission is also authorized to study commercial conditions and to advise regarding commercial policies and commercial treaties, and

in this way will be of great assistance in establishing a settled tariff policy.

The speaker pointed out a number of instances where the manufacturers of gasoline engines in this country were at a disadvantage in certain foreign markets because certain tariff rates amounted to discrimination. In Russia, for instance, a low rate of duty on tractors is interpreted to apply only to steam tractors, and a much higher rate is applied to gasoline tractors. It would be most advantageous if an agreement could be reached whereby the low rate of duty could be applied to the gasoline tractors. In Austria there are different rates of duty for traction engines and for automobile engines, the higher rate of course being applied to the latter. The customs authorities have ruled that when a gasoline tractor is equipped with a light engine which might be used to drive an automobile the high rate of duty should be applied to it. This is a decided disadvantage to American manufacturers, for it handicaps our light tractor motors in competition with the heavy engines made in Europe.

In spite of the fact that the war has interfered with the foreign trade in gasoline engines, there has been considerable improvement of late, said Dr. Rutter, and the prospects for the future are very bright. During 1913, the last normal year before the war, the total value of internal-combustion engines exported from the United States was over \$11,000,000, of which traction engines were the most important item, being valued at \$5,000,000. Canada has been the chief purchaser of gasoline engines, in spite of the fact that England enjoys a preferential tariff. Argentina and Australia are the next customers in importance, although not nearly so important as Canada. Over half the engines imported by Argentina come from this country, but in Australia the advantage lies with Great Britain.

TRAMWAY TO BE ELECTED.

GRASS VALLEY, Cal.—During the next few days work will start on the construction of a large tramway from the Golden Gate Mine to the Narrow Gauge Railroad tracks, a distance of 100 feet.

The Pacific Western Commercial Company, which is closely allied with the Golden Gate Mining Company, is having the work done, and it is stated that the tramway will be used to transport chrome and tungsten ore, which will be shipped in here from the Pacific Western Commercial Company's mines in lower California and Arizona to the Golden Gate mill for reduction.

The tramway will be capable of handling thirty tons daily of ore and the Golden Gate mill is of like capacity.

BROAD-GAUGE RAILWAY PLANS IN JAPAN.

One of the most important questions confronting the Japanese Government is that of changing the narrow-gauge railway system to the standard broad gauge. Efforts are now being made to secure the adoption of this proposed change which will involve the expenditure of \$7,000,000 and require an estimated period of upward of 20 years in which to effect its completion.

NEW BOND ISSUES IN CHILE.

The Congress of Chile has authorized the President to arrange within a year for an internal loan of 20,000,000 gold pesos (\$7,300,000), to be covered by an issue of bonds drawing not more than 6 per cent annual interest, and with cumulative annual amortization of not more than 4 per cent. The terms of the bond law, as published in the Diario Oficial of May 2, provide that part of this loan may be contracted in treasury gold notes or warrants (vales), at 6 per cent, payable in five years, one-third of the principal to be paid in each of the last three years. The proceeds from these bonds are to be used in pushing to completion the water-works system of Santiago, in paying

for the port works at Valparaiso and San Antonio, and in the construction of ships as authorized by the budget law of the present year.

HUMBOLDT PLANS HIGHWAY SYSTEM.

EUREKA, Cal.—The supervisors of Humboldt county have called an election on August 29 on the question of voting bonds for \$1,500,000 for good roads. The plans called for the construction and improvement of 293½ miles of roads, of which 52¼ miles will be paved, at an estimated cost of \$1,120,000, which, with rights of way, engineering, legal and overhead expenses will amount to \$1,500,000.

STATE PAVES 1500 MILES OF ROAD UNDER BOND ISSUE.

Under the \$18,000,000 bond issue for road improvements in California, the State Highway Commission has improved 1490 miles of road.

Concrete pavement covers 938 miles out of the 1150. Oil macadam was used on 129 miles of the state highway, while thirty-three miles were constructed of asphalt and 395 merely graded. There were 168 additional miles of paved roads improved by the different counties which the state highway commission took over.

The general survey of the work accomplished to date shows that 2280 miles of roadway have been surveyed as the main trunk lines of the state highway, besides a large number of laterals that are to be constructed if the proposed \$15,000,000 bond issue carries. The commission also has secured 1705 miles of right of way.

Since it began work the commission has moved 11,750,000 cubic yards of earth and rock, at an average cost of 38 cents per yard; 8,750,000 square yards of concrete pavement have been laid at an average cost of 74½ cents per yard; 1,000,000 cubic yards of concrete pavement have been put down at a cost of \$6.64 per cubic yard; 143 grade crossings have been eliminated. 200 miles have been saved on trunk lines, and 413 bridges have been built, valued at \$3,150,000.

Eliminating advance surveys and materials on hand, out of every dollar expended, 87½ cents went directly into the roads, materials bought at "rock-bottom" prices and contracts let under keen competition.

HOW THE CONTRACTOR CAN ADVERTISE AND GET RESULTS.

"How can a general contractor advertise?"

Which, of course, means, how can he obtain the right kind of publicity, the kind that will do more than fill advertising space cost and money—in a word, the kind that "pulls?"

The principles of advertising are the same whether you are endeavoring to sell books, bricks or office buildings, or seeking to get your name on the architects' lists. The only things that change are the manner and methods of publicity. A general contractor must, therefore, adopt methods suitable to his own particular business, which, by the way, is decidedly different from any other type of business, and must have its advertising done and copy written

by men who understand, in a most comprehensive manner, the details and intricacies of the building trade.

Then, again, the advertising must be of a two-fold nature, inasmuch as its appeal must reach both architects and owners—two different types of men, and in most cases with very little in common, so far as their training is concerned. To the architect, the builder's advertisement must appeal with such riveting force as to be ever before him. If not in a physical manner, at least mentally it must make a little dent in his mind and "ring the bell" at the psychological moment when the architect is making up his list of bidders, and the nearer the top of the list, the better his chance of always being among the favored few.

You, Mr. Builder, may say that you already do enough estimating and are now working overtime trying to land jobs. Are you on the lists of all the prominent architects, the men for whom you would like to estimate? Are you in a position to select the good prospects and avoid the poor ones? In a word, are you competing against men who do the same caliber of work that you are doing, or are you forced out of your class because you are not on the chosen lists? If you can not answer these questions to your entire satisfaction, then you are ready for serious thought on the question of advertising.

PACKING HOUSE FOR FOWLER.

FOWLER, Cal.—The California Associated Raisin Company has purchased two acres of land near Fowler and will construct a packing house upon it. It is stated that a plant to cost \$20,000 will be built immediately. About 200 hands will be employed there during the season.

CLEAN MILK SAVES LIVES OF CHILDREN.

During the summer months more young children die of intestinal diseases, most of which are caused by drinking dirty milk, than during all the rest of the year. The records of the California State Board of Health shows that in June, July, August and September of 1915, three hundred and fifty children under two years of age died of diarrhea and enteritis, while three hundred and forty-two died during the other eight months. Had the new milk law been in operation last year, it is probable that a large number of these deaths would have been prevented. Since this law does not go into effect until October, the California State Board of Health issues a warning to all parents, particularly to those having children under two years of age, to exercise the greatest care in making certain that milk during the summer months is pasteurized or is produced under conditions of scrupulous cleanliness.

Infant mortality is showing a decrease in California; in fact, the death rate for young children is much lower in California than in most other states. By properly safeguarding milk supplies, this rate can be reduced still further.

PROSPECTIVE BIDDERS ON VAN-COVER POST OFFICE.

A list of proposed bidders on the new \$150,000 Vancouver, Wash., post office building, for which figures close July 14, to date includes:

King Lumber Co., Charlottesville, Virginia.

Welch Bros. & Hannaman, Kalispell, Mont.

John Wallen, Tacoma, Wash.

Sound Constr. & Engineering Co., 72 Union St., Seattle, Wash.

Grant Fee, 2440 16th St., San Francisco.

Campbell Bldg. Co., Salt Lake City, Utah.

Friberg & McLennan, Portland, Ore.

Boydjohn-Arnold Co., Portland, Ore.

F. A. Erixon, Corvallis, Ore.

Harrington & Peters, Seattle, Wash.

START WORK ON BIG STREET CONTRACT.

STOCKTON, Cal.—Clark & Henery began work on their \$61,866.44 street improvement job recently. The contract calls for the improvement of a district in east Stockton bounded by East street, Hazel street, Church street and Fair Oaks Ave. Asphalt macadam is to be used for paving the streets, and concrete walks, curbs and gutters are called for. There will be thirty-one blocks improved under this contract. Alleys are to be graveled and curbed.

HOW THE GOVERNMENTS AID SHIPPING.

WASHINGTON, D. C. — American shipping now has an opportunity such as England had 50 years ago, according to a report on "Government Aid to Merchant Shipping" just made public by the Bureau of Foreign and Domestic Commerce. This opportunity, says the report, comes at a time when American citizens owning foreign-built ships can ply them under the American flag, when interest in foreign trade is widespread, the necessity for foreign markets clearly recognized, and the profitability of shipping under present conditions is alluring.

The report was written for the Bureau by Special Agent Grosvenor M. Jones, author of several recent works on shipping, and is the only recent work which covers the subject completely. It is one result of the present widespread discussion of ways and means of building up an American merchant marine. It aims to make clear just what the several governments have done to assist shipping. The information presented covers all forms of state aid to shipping, attention being called not only to subsidies and subventions, but to the various forms of indirect government assistance, such as the reservation of the coasting trade to national ships, exemptions from import duties, port dues, and taxation, the privilege of using foreign-built ships, preferential railroad rates, and loans to ship owners.

The reservation of coasting trade to national ships is one of the effective ways in which governments have helped

ed their merchant marine. Of the report. The United States, France, Italy, Austria-Hungary, Spain, and Belgium, among the more important maritime countries, have long reserved their coasting trade, while Japan has reserved all of its coasting trade only since 1920. Russia has long reserved the trade between Russian ports on the same sea, but it was not until 1897 that the trade between all Russian ports was restricted to Russian ships.

For many years no country of importance other than the United States has required that ships flying the national flag shall be of domestic construction, although practically every country has made this requirement in the case of steamships receiving postal subventions. England has granted registers to foreign-built ships, in other words has pursued the free-ship policy, since about 1850. At that time, it is interesting to note, wooden sailing vessels were predominant and these could be secured more cheaply in the United States, which had larger supplies of timber and naval stores and a more efficient ship-building industry. As a result of this free-ship policy the merchant marine of England received large accessions during the Civil War, when more than 750,000 tons of American shipping secured English registers to avoid capture or destruction.

Assistance in the form of lower rail rates on goods shipped over specified steamship lines is a practice that has been followed in Germany in the case of the German Levant and the German East Africa Lines. These differentials have a double purpose, since by enabling German manufacturers to sell their products at lower prices in the countries reached by these lines they develop German trade and at the same time increase the traffic on the preferred steamship lines. France also has made use of differential export railroad rates to assist the development of certain steamship lines as well as to increase the country's foreign trade.

The policy of granting loans to ship-owners at low interest or without interest was begun, it is believed, by Austria. The only instance of such a loan by the British Government was that to the Cunard Steamship under the mail and admiralty subvention contract of 1903. Under this contract the British Government loaned the steamship company \$12,652,900, for building two steamers that would be suitable for use by the admiralty and be the fastest afloat. This loan brought into being the *Lusitania* and *Mauritania*. The loan was made at the rate of 2½ per cent which was about 2 per cent lower than the rate at which the company could have borrowed a similar amount in the open market.

Denmark and Belgium are the only important countries that have extended aid to shipping by granting exemptions from port dues or making reimbursement for them, although Denmark withdrew this privilege from the favored lines in 1910. It is interesting to note that Belgium for many years previous to the war reimbursed the North German Lloyd, the *Kosmos* Line, and the United Steamship Company of Copenhagen for all pilotage fees, port dues, etc., paid to the Belgian and Dutch officials.

The policy of granting indirect aid to shipping by reimbursement of canal dues was instituted by Russia in 1879. This practice has been extended from time to time and now provides for the reimbursement of the full amount of the canal dues paid by Russian steamers bound for a sailing from any Russian port in the Far East and for a reimbursement of two-thirds of the full dues paid by Russian steamers bound for or sailing from ports on the Indian Ocean and non-Russian ports on the Pacific Ocean. In the period from 1879 to 1906 the Russian Government expended about \$1,100,000 in reimbursement of Suez Canal dues. The Austrian Government makes a reimbursement of Suez Canal dues paid by steamers of the Austrian Lloyd. The Swedish Government is under contract to reimburse the Swedish East Asiatic Company for 60 per cent of the Suez Canal dues paid in 1915, 55 per cent of those paid in 1916, and 50 per cent of those paid in 1917. Italy re-bounds all Corinth Canal dues paid by the ships of the Società Nazionale di Servizi Marittimi. The French Government reimburses the Compagnie des Messageries Maritimes for Suez Canal dues.

Exemption from taxation is a form of indirect assistance granted by only Austria-Hungary and by a few of our own States. A notable law in New York State exempts from all taxation for State and local purposes all American-owned ships registered at any port in the State if engaged in the foreign trade of the United States. Corporations owning such ships are exempt until December 31, 1922, from all taxation upon their stock, franchises, and earnings. Alabama exempts all ships engaged in foreign commerce from taxation, while the State of Washington exempts all ships built or in process of construction in the coastwise as well as in the foreign trade of the United States.

The granting of postal subventions to steamship lines antedates the bounty or subsidy system and is in more general use throughout the world. Great Britain was probably the first to pay subventions of this kind, the first contract of the sort being in 1828. The United States and France soon followed suit—the United States in 1817 and France in 1851. Germany did not adopt the policy until 1886, when a contract with the North German Lloyd was concluded. The purpose of mail subvention contracts is primarily to encourage the maintenance of fast mail service on regular routes and schedules. In many instances a motive of almost equal weight is that of maintaining the fastest possible communication between the mother country and her colonies. Incidentally a third object is commonly achieved, namely, that of providing vessels suitable for auxiliary cruises and transports in time of war and, in many cases a fourth object namely, that of fostering the domestic ship-building industry by requiring that the subventions shall be paid only to domestic-built ships. The purpose of the large grants made by the British Government was not, however, merely to assist in the establishment of a steamship line for the line's sake, but more particularly to promote rapid communication between England and

her American and Australian possessions. With only two important exceptions, all financial aid extended by the British Government has been in the form of postal and admiralty subventions. The United States and Germany, whose merchant navies rank next to that of Great Britain, have extended financial aid to shipping only in the form of mail subventions. The largest of the German companies—the Hamburg-American line—has received comparatively little financial assistance from the German Government.

The system of paying direct general bounties or subsidies to shipping lines may be said to have been instituted by France, which entered upon this policy in 1881, and has made a more extensive use of bounties than any other country, although as a whole the results have not been satisfactory. Italy, Austria-Hungary, Japan, and Spain have followed the French plan, with indifferent success except in the case of Japan. Unquestionably the merchant marine of Japan has developed more rapidly during the last 35 years than that of any other nation, although the report calls attention to the fact that this development is in part due to the phenomenal development of Japanese industries in recent years.

There is much interesting matter in the report relating to government-owned steamship lines, state control of privately owned steamship lines, and state participation in profits of steamship lines. For each country included in the report there is a complete history of government relations with the merchant marine, with statistics to show the results of the various policies. Modern tendencies are discussed at length. Attention is called to some specific opportunities that now exist for American shipping. For example the west coast of South America imports large quantities of coal from Australia and Wales. Since the construction of the efficient coal-carrying railroads, such as the Norfolk and Western, the Chesapeake and Ohio, the Virginian, and the Carolina, Clinchfield and Ohio, Virginia steam coal of excellent quality can be delivered at low cost at the Atlantic seaboard ports of Norfolk, Newport News, and Charleston, where it can be delivered to vessel quickly, efficiently, and at low cost. It is believed that increasingly large quantities of this coal can be sold in Chile and Peru at lower cost than Australian or Welsh coal. If this proves to be the case, the vessels carrying coal from the United States can return with nitrates from Chile, copper from American-owned mines and smelters in Chile and Peru, tin ore from American-owned mines in Bolivia, and iron ore from American-owned mines in Chile. The development of coal exports would cause reductions in return freights (a factor which goes far toward accounting for the maritime supremacy of Great Britain) and an extension of American shipping.

The report is entitled "Government Aid to Merchant Shipping," Special Agents Series No. 119. It contains in all 255 pages and is sold at the nominal price of 25 cents by the Superintendent of Documents, Washington, and by the District Offices of the Bureau of Foreign and Domestic Commerce.

SOME WASTE MATERIAL NOT WASTED.

**Metal Valued at \$111,000,000 Recovered
From Scrap Metals and Drosses.**

The value of the copper, lead, zinc, tin, aluminum, and antimony recovered in the United States from scrap metals, skimmings, and drosses in 1915 was \$111,394,930, against \$57,629,706 in 1914, a 100 per cent increase. This large gain was caused by greater recoveries and much higher average values for all metals. Increased traffic on the railroads and a large demand for metal products, particularly for those to be exported, made 1915 the most prosperous year in the waste metal trade.

The imperative demand for zinc and copper by munition manufacturers and for foreign trade made spot metal very scarce. Secondary metals not desired for these purposes were generally available for domestic uses when virgin metal could not be purchased for prompt delivery. The incentive of high prices caused all metal wastes to be more carefully saved, segregated, and refined. Many manufacturers who had considered virgin metals only as suitable for their needs found that they could use considerable scrap provided they selected suitable material and used good judgment in its treatment.

The increase output of secondary tin, lead, and aluminum, says a statement issued by the United States Geological Survey, was normally to be expected under the improved conditions of business, and the proportionally larger increase in the recoveries of zinc, copper, and antimony were due in part to the foreign demand for pig metal or for manufactured goods containing the metals named.

The output of secondary copper, including that in brass and other alloys, was 126,000 tons in 1915 against 123,000 tons in 1914. The value of this copper and brass amounted to more than \$76,000,000.

The secondary lead recovered in 1915, including that in alloys, was nearly 79,000 tons, an increase of 28,000 tons, a quantity exceeded by the primary domestic output of only three States—Missouri, Idaho, and Utah.

The amount of secondary zinc recovered in 1915 was 92,375 tons, of which 29,761 tons were recovered by redistribution from drosses and skimmings. At least 4,000 tons of zinc chloride and 46,000 tons of lithopone were manufactured. The zinc used in these products is derived mainly from zinc drosses and skimmings.

The output of secondary tin increased from 12,447 tons in 1914 to 13,650 tons in 1915 and was equal to 21 per cent of the tin imported as metal or as oxide into the United States.

The average price of antimony was abnormally high and the secondary recoveries in 1915 amounted to 3,102 tons, valued at \$1,811,568, an increase in quantity of 353 tons and in value of about \$1,367,000.

Aluminum was both scarce and very high priced the later part of 1915 and the secondary metal recovered, 8,500 tons, was valued at \$5,802,000.

CONTRACTORS NOT CITIZENS; PAY HOLD UP.

AUBURN (Placer Co.)—Because they are not citizens of the United States, Herdall Brothers, building contractors, will be prevented, according to the opinion of District Attorney J. B. Landis from collecting pay for work they have been doing and were to do on the Placer Union High School building.

The Trustees of the school ordered the dome of the building removed to improve the appearance of the structure and stop leaking. The Herdall Brothers were given the work by the day. Ogden Brothers, other contractors, made complaint to the District Attorney, and he has notified Auditor C. D. McKinley and the School Board that it is illegal for the Herdall Brothers to do the work, because they have not been naturalized.

Herdall Brothers state that they were to have secured their final naturalization papers on May, but did not do so, and will be unable to secure them until Fall.

SOLDIERS WILL RETAIN POSITIONS.

The Southern Pacific Co. announces that those of its employees who were members on June 17, 1916, of the National Guard of any State its lines traverse, and who are called out for army service are granted leave of absence with the understanding that they will retain their promotion rights and they can resume their positions with the company when the Government releases them from service.

While such employees are serving in the army in response to the call of the Government, the Company will also allow, until September 30th of this year, to enlisted men, whether non-commissioned officers or privates:

1. To those married, full pay.
 2. To those unmarried, with families dependent upon them for support, three-quarters to full pay, according to controlling circumstances.
 3. To those unmarried, without dependent families, half pay.
- The Company will allow to commissioned officers above and including the grade of second lieutenant:

CHANGES IN SOUTHERN PACIFIC COMPANY.

Vice-President and General Manager W. R. Scott of the Southern Pacific Company has announced the following changes and appointments, effective July 1st.

Assistant General Manager D. W. Campbell to be in charge of the Southern District, with headquarters at Los Angeles. Mr. Campbell now has charge of the Northern District, as Assistant General Manager, with headquarters at Portland, Oregon.

Superintendent J. H. Dyer of the Sacramento Division is appointed Assistant General Manager in charge of the Northern District, with headquarters at Portland, Oregon, to succeed Campbell.

Superintendent J. D. Brennan of the Western Division, now having headquarters at Oakland Pier, will be Superintendent of the Sacramento Division to succeed Dyer.

Superintendent T. H. Williams of the Tucson Division will become Superintendent of the Western Division, with headquarters at Oakland, Calif.

Assistant Superintendent J. W. Fitzgerald of the Western Division will become Superintendent of the Tucson Division, with headquarters at Tucson, Arizona.

J. H. Dyer, the new Assistant General Manager, has served successively as Superintendent of the Street, Tucson and Sacramento Divisions.

NEW ROOFING COMPANY.

RIVERSIDE, Cal.—M. W. Anable, F. M. Anable and Harry E. Courtney, all of Riverside, are directors in the new Granite Grit and Roofing Company, articles of incorporation of which have been filed in the county clerk's office. The principle place of business of the company is Riverside. The capital stock totals \$24,000 of which \$300 is already subscribed.

PUBLIC HEARING ON BOILER SAFETY ORDERS.

The Industrial Accident Commission has arranged for a Public Hearing to consider Tentative Boiler Safety Orders in San Francisco on July 9, 1916, in Room 407, Underwood Building, 525 Market Street, commencing at 10 A. M.

A similar Public Hearing will be held in Los Angeles on July 13, 1916, in Room 405 Union League Building, commencing at 10 A. M.

In 1915 there were in the State of California 7 deaths due to accidents around boilers. The records show that there were nine boiler explosions during this period.

A careful compilation of all the boiler explosions recorded in the United States during the year 1915 shows the total number to have been 404. These explosions caused 122 deaths and injuries to 236 persons.

The Tentative Boiler Safety Orders cover the subjects of inspections, ultimate strength of material used in computing joints, minimum thickness of plates and tubes, specifications of metals used in building boilers, construction and allowable working pressure for power boilers, riveting, calking, requirements for manholes and washout holes, safety valves, water and steam gages, fittings and appliances, hydrostatic tests, etc.

The Boiler Code of the American Society of Mechanical Engineers has been incorporated and made a part of the Tentative Orders, with a few changes affecting existing installations only.

Copies of the Tentative Boiler Safety Orders will be sent upon request, if application is made to the Industrial Accident Commission, 525 Market Street San Francisco.

The following Committees in San Francisco and Los Angeles prepared the Tentative Boiler Safety Orders:

San Francisco Sub-Committee on Boiler Safety Orders.

George A. Armes (Chairman), representing the Union Iron Works, as manufacturers of Boilers.

E. R. Killgore, representing the Standard Oil Company, as users of Boilers.

J. B. Warner, representing the Hartford Steam Boiler Inspection and Insurance Company.

D. P. Delory, representing San Francisco Board of Public Works.

M. J. McGuire, representing Boiler Makers and Ship Fitters Union.

P. L. Ennor, representing the International Union of Steam and Operating Engineers, Local No. 61.

(W. R. Towne, Alternate to Mr. Ennor), International Union of Steam and Operating Engineers, Local No. 64.

Chas. A. Smith, representing California Metal Trades Association.

John Mitchell, representing the International Union of Steam and Operating Engineers, Local No. 507.

R. L. McAlinaway, Safety Engineer, Industrial Accident Commission.

John R. Brownell (Secretary) Superintendent of Safety Industrial Accident Commission.

Los Angeles Sub-Committee on Boiler Safety Orders.

Fred J. Fischer (Chairman), representing the National Association of Steam Engineers No. 2.

H. L. Doolittle (Vice-Chairman), representing the Southern California Edison Company.

J. J. Malone, representing the Hartford Steam Boiler Inspection and Insurance Company.

William H. Carter, Chief City Boiler and Elevator Inspector, representing the City of Los Angeles.

S. M. Walker, representing the Pioneer Boiler and Machine Works.

J. L. Glennon, representing Fidelity and Casualty Company of N. Y.

N. E. Carroll, representing Steam and Operating Engineers No. 72.

E. C. Jordan, representing the Firemen's Local No. 220.

H. L. Boyd (Secretary), Safety Engineer, Industrial Accident Commission.

WOOD WASTE USED FOR PULP.

WASHINGTON, D. C. The use of a steadily increasing amount of wood waste in the manufacture of pulp is indicated by figures compiled by the Forest Service. Although the pulp industry showed a decline in the last year for which complete figures are available (1914) on account of the increasing cost of raw material and general business conditions, more wood waste was used than in any previous year.

Approximately 350,000 cords of waste with a value of \$1,100,000 were utilized by 25 of the 200 pulp and paper mills of the United States. It is thought that as the price of cordwood goes up the amount of wood waste used will become greater.

The Canadian pulp industry has, it is stated, had a vigorous growth during the last few years and the greater portion of its product is marketed in the United States. An average cost of about \$6.50 per cord, as compared with the \$10 to \$16 per cord which many manufacturers in this country are paying for pulpwod, is the reason given for the growth.

It is pointed out that the development of the supplies of spruce, and white and red fir in the National Forests of the West and in Alaska, together with the abundance of cheap water power, will eventually attract the paper industry to locate in those regions. Suitable pulp timber can be delivered to desirable mill sites for the next twenty to forty years at prices of about \$2.50 to \$4 per cord, say experts of the Forest Service. It is thought

that the low price of material and power will more than offset the higher freight rates on the product to the western markets.

SOUTH AFRICAN RAILWAY AND HARBOR ESTIMATES.

CAPETOWN—Estimates of the expenditures on capital and betterment work of the South African railways and harbors for the fiscal year ending March 31, 1917, have been published. The estimated amounts and the objects are: Construction of railways, \$1,826,000; new works on open lines, \$5,075,000; rolling stock, \$73,204; harbors, \$977,016; working capital, \$110,253; unopened works, \$304,988; total, \$8,347,466.

Under "new works on open lines," the principal objects are bridges and culverts, permanent way, signals and interlocking, buildings, fixtures and grounds, water supplies, coaling plants, tarpaulins, and machinery.

BRIDGE PLANS ADOPTED.

PLACERVILLE—The Supervisors have approved and adopted the plans and specifications submitted by A. V. Saph of Berkeley for a road bridge costing \$10,000 or less, to be built across the American River at Coloma on the site of the old foot-bridge. Bids will be called for shortly.

NEW INDUSTRIAL SCHOOL FOR CHILE.

The Chilean Government has authorized the expenditure of 300,000 pesos (\$42,000) for the construction of a technical industrial school, with equipment of machines and laboratories. The funds for this school will be available, in accordance with the law published in the Diario Oficial of April 27, upon the sale of certain Government lands in the port of Valparaiso.

CITY-PLANNING CONFERENCE IN CLEVELAND.

The Eighth National Conference on City Planning was held in Cleveland under the auspices of the committee on municipal art and architecture of the Cleveland Chamber of Commerce, June 3, 6, and 7. The conference was attended by several hundred members from almost every state in the Union and from the Dominion of Canada and Berlin. A luncheon was given at the Chamber of Commerce on the second day of the conference, attended by several hundred members of the chamber in addition to the delegates, and addressed by Mr. Thomas Adams, of Ottawa, Canada, on "Town Planning for the Manufacturer." Several other interesting addresses were given during the conference, which was considered one of the most instructive and useful in the history of the association.

CANCELLATION OF BUILDING CONTRACT.

June 26, 1916—SW PARKER AND Bayview Ave., Bkly. Owner, Mrs. M. A. and Miss B. Lundblom with Frank A. Ernsberger, contractor. Cost, \$5660. Contract filed March 16, 1916.

Merchants Declare For Open Shop.

Pledge Themselves to Raise Fund of Combat Conditions That Come From \$1,000,000 With Which They Will Water Front Strike.

Statement Made That Purpose Was to Enforce Right of any Employer to Hire Union or Non-Union Labor as He Chose.

Pledged to raise a fund of \$1,000,000 to carry out the purpose to which it is committed, a Citizens' Law and Order Committee, created to enforce the right of employers to hire union or non-union labor as they may elect, was named at a meeting of representatives of the business interests of the city Monday afternoon.

The gathering, composed of more than 1,000 men, active in the industrial life of San Francisco, was the direct result of the present longshoremen's strike. It was called by the Chamber of Commerce to adopt means for ending the critical situation on the waterfront. It was held on the floor of the Merchants' Exchange.

Within half an hour after the Law and Order Committee met and organized with Frederick J. Koster, president of the Chamber of Commerce, as permanent chairman, it announced that a sum in excess of \$200,000 had been subscribed.

The members of the Law and Order Committee are: Frederick J. Koster, Wallace M. Alexander, George M. Rolph, C. F. Michaels and C. R. Johnson.

Mayor Rolph was several times mentioned by the speakers who addressed the meeting and who were frankly condemnatory of the municipal administration for its handling of the stevedores' strike.

Unanimously, the meeting adopted the following resolutions:

RESOLVED, that it be the sense of this meeting that the permanent policy adopted by the San Francisco Chamber of Commerce, demanding that the integrity of all contractual relations between employers and employees be scrupulously observed, for the maintenance of law and order, and insisting upon the right to employ union men in whole or in part as the parties involved may elect, be unqualified and heartily indorsed, and that the chamber be encouraged to pledge its entire membership that its policy be made effective in this community.

RESOLVED, that the president of the Chamber of Commerce appoint a committee of five, including himself as chairman, to be known as the law and order committee of the San Francisco Chamber of Commerce, with full power to act, to immediately proceed to appoint such sub-committees as it may deem necessary and advisable; to immediately proceed to raise such a sum of money as may be necessary to carry on this work to a successful conclusion, and be it further

RESOLVED, as the sense of this meeting that every merchant and business man present pledge himself to support this movement to the fullest extent.

The resolution was an indorsement of the statement issued by the Chamber of Commerce on June 22, wherein it said:

The Chamber of Commerce favors the open shop. * * * Therefore the Chamber of Commerce pledges its entire organization and the resources it represents to the maintenance of these principles and will oppose any attempt on the part of any interest, business or organization which tries to throttle the commercial freedom of San Francisco.

The speakers were Koster, Frank B. Anderson, president of the Bank of California; Phillip S. Teller, president of the California Fruit Cannery's Association; Captain Robert S. Dollar, shipowner; William Sproule, president of the Southern Pacific, and William M. Alexander of Alexander & Baldwin.

The gist of what each speaker said was that there is a condition of lawlessness on the San Francisco waterfront, that business is tied up because the authorities entrusted with the preservation of law and order have not done their duty, and that, therefore, it is up to the citizens of the city to see to it that the law is enforced and the congestion of business on the waterfront caused by the longshoremen's strike is immediately relieved.

Koster, who called the meeting to order, branded conditions on the waterfront as "intolerable" and the manifestation of a "disease that is permeating this community." He declared that "in spite of assurance given by the mayor, the president of the Police Commission and the Chief of Police that law and order would be maintained, outrages have occurred daily during the strike."

He and other speakers said there was no desire to make a fight against unions as such. But they did make it clear that the million dollars to be raised would be devoted to the enforcement of the "right of an employer to hire union or non-union labor."

The meeting was a demonstrative one. The speakers frequently were interrupted by cheers and applause.

Koster read two permits issued by John J. Murphy, president of the Riggers' and Stevedores' Union, to drivers of wagons permitting them to pass through picket lines to remove freight.

One of these permits was granted to the driver of a United States treasury wagon.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SAN FRANCISCO—Apartment house, 5 story and base, Class C construction, \$60,000. Architects, O'Brien Bros., 210 Montgomery street, S. F. Owners, O'Brien Bros. Location, south Bush 239 1/2 west of Powell. Will contain seventy apartments. Plans complete and segregated figures being taken.

Contracts Awarded.

LOS ANGELES, CAL.—Apartment house, 1 story and base, Class C construction, \$88,000. Architect, J. F. Kavanaugh, Union Oil Bldg., L. A. Owners, Mrs. Edith H. Potts and Mrs. Rowena T. Chambers. Contractor, A. S. Barnes, Union Oil Bldg., L. A. Contract price, \$88,000.

BOXES

WATSONVILLE, SANTA CRUZ CO., CAL.—The County Board of Supervisors has sold the grammar and high school bonds. The sale provides for the erection of a \$100,000 high school and a \$25,000 grade school. Architects will be commissioned to prepare plans shortly.

WOODLAND, YUBA CO., CAL. The Supervisors have passed an ordinance authorizing the sale of the \$200,000 courthouse bond issue. The proceeds of the sale will finance the erection of a new courthouse building, plans for which have already been prepared by a San Francisco architect.

FOLSOM, SACRAMENTO CO., CAL.—July 31st is the date set to vote on the question of issuing bonds of \$9,000 for the construction of a sewer system in Folsom.

MARTINEZ, CONTRA COSTA CO., CAL.—The State Board of Control has

been awarded the purchase of the Moraga school bonds amounting to \$12,000.

ANDERSON, SHASTA CO., CAL.—Notice has been given tenants now occupying the building of Frank Smith, near the Home Theatre, to vacate. Smith plans the erection of a new concrete store building on the site.

HANFORD, KINGS CO., CAL.—The election held to vote bonds of \$10,000 for the erection of an addition to the present grammar school failed to carry. This is the third time that the issue has been turned down.

SAN RAFAEL, MARIN CO., CAL.—An ordinance calling for a special election to decide the question of issuing and selling bonds for the construction of a garbage incinerator has been passed to print by the City Council.

MARTINEZ, CONTRA COSTA CO., CAL.—An election will be called by the trustees shortly to vote bonds of \$50,000 for the erection of a new school building.

SOUTH PASADENA, LOS ANGELES CO., CAL.—The Board of Education of South Pasadena has been authorized to call a special election for the purpose of voting bonds in the sum of approximately \$130,000 to secure funds for the purchase of sites and the erection of four school buildings. The sum of \$60,000 will be necessary for the purchase of sites and \$75,000 for buildings and equipment.

TURLOCK, STANISLAUS CO., CAL.—Friday, July 28, has been selected as the date for holding an election to vote bonds in the sum of \$10,000 to secure funds for financing the purchase of a site and the erection of a high school building for the Turlock Union High School District. A site selecting election will be held contingent on the carrying of the bonds.

TAFET, KERN CO., CAL. July 28 has been announced as the date for holding an election to vote bonds in the sum of \$18,000 to provide finances for school purposes for the Conley School District.

SANTA ANA, ORANGE CO., CAL.—The Talbott Drainage District has decided on a \$20,000 bond issue. The money is to be used in paying for a dredger and for laying a pipe line to the ocean, as a drainage water outlet.

PLACERVILLE, EL DORADO CO., CAL.—The \$300,000 bonds for the paving of Main street have been sold by the Board of City Trustees of Placerville.

BRIDGES, DAMS AND HARBOR WORK

Contracts Awarded.

YREKA, SISKIYOU CO., CAL.—School gymnasium, concrete and frame, \$9,533. Architect's name not given. Owners, Siskiyou Union High School District. Contractor, O. L. Cooper, Weed. Contract price, \$12,553. Size, 75 by 120 feet.

CLAYTON CITY, LOS ANGELES CO., CAL.—School, 1 and 2 story and base, brick, \$39,000. Architect, O. P. Dennis, Day Bldg., L. A. Owners, Calaver City Contractors, C. W. Kent & Son, 429 South Grand Boulevard, Glendale, general construction. Contract price, \$39,000. Lubman Bros., plumbing, \$2,118. H. T. Miles & Son, painting, \$1,656. F. O. Engstrom Co., electric work, \$750.

LOS ANGELES, CAL.—Schools 2, 2 story and base, frame, \$21,440. Architect, Architectural Department, Board of Education, L. A. Owners, City of Los Angeles. Contractors, The Walter Slater Co., 2311 Santa Fe avenue, L. A. Contract price, \$21,440.

SEWERS, STREET WORK & WATER SYSTEMS

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on July 20th at 11 a. m. for street improvements authorized under the following resolutions: That 3rd street, from the south line of Q street to the north line of T street, be improved by grading the roadway and constructing thereon an asphaltic macadam pavement, consisting of a hydraulic concrete foundation 4 inches thick at the gutter and running to 5 inches thick, and an asphaltic macadam wearing surface 1½ inches thick; reconstructing 1 concrete manholes and concrete catch basin.

That Midway avenue, from the east line of 7th street to the west line of 9th street, be improved by constructing concrete gutter and concrete curb, placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes; 6 and 12-inch, vitrified, ironstone sewer pipe drains, grading the space between the property line and curb; constructing concrete sidewalk, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush set, and an asphaltic concrete wearing surface 1½ inches thick.

That 14th avenue in Oak Grove, from the sewer in place of Lower Stockton road to the west line of East avenue, be improved by constructing concrete curb, concrete gutter, placing cast iron gutter drains with 6-inch, vitrified,

ironstone 6-in. pipe, 6-in. attached concrete manholes, 6 and 8-in. vitrified, ironstone sewer pipe diameters; placing 2 6-in. vitrified, ironstone Y branches, grading the area between the curb and property line, constructing concrete sidewalk 5 feet in width and 3 1/2 inches thick, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1 1/2 inches thick.

SAN JOSE, SANTA CLARA CO., CAL.—Highway improvements. Cost as follows. Engineer, County Surveyor, San Jose, Owners, Santa Clara County. The following bids were received by the County Board of Supervisors for resurfacing of Section A of the Alviso road in Supervisor District No. 3. Surveyor's estimate, \$2,750. Ransome-Crummey Co., First National Bank Bldg., Oakland, \$2,900. Raich Improvement Co., 1108 Crocker Bldg., S. F., \$2,850. J. W. McDonald, Bank of Italy Bldg., San Jose, \$3,749. All bids were taken under advisement.

SAN JOSE, SANTA CLARA CO., CAL.—Sewer construction. Cost not stated. Engineer, County Surveyor, San Jose, Owners, Santa Clara County. Plans prepared by the County Surveyor for a sewer to connect the Santa Clara Infirmary with the city of San Jose were approved by the County Supervisors at their last meeting and bids have been ordered received up to August 17th at 11 a. m. Plans for the work may be had from County Clerk Henry A. Pfister.

VALLEJO, SOLANO CO., CAL.—Paving. Cost not stated. Engineer, City Engineer, Vallejo, Owners, City of Vallejo. Irrespective of the fact that prominent lawyers have passed on the proceedings for the improvement of the northwest district and have given it as their opinion that the proceedings are according to law, the City Council will not attempt to force the Worswick Construction Co. to sign the contract which it was awarded, but instead new proceedings will be started and it is expected that bids will be opened again about the first of August. City Attorney Smith of Fresno, attorney for the Worswick Co., examined the proceedings and advised the Worswick Co. not to sign, it being his contention that a defect exists in the proceedings. However, the legal representative of the Ransome-Crummey Co. has passed on the proceedings and states that they are perfect.

VALLEJO, SOLANO CO., CAL.—Street paving. \$100,000. Engineer, City Engineer, Vallejo, Owners, City of Vallejo. Plans and specifications for the \$100,000 street improvement job contemplated by the City Council in the northeastern district of this city have been completed by City Engineer T. D. Kilkenny and will be presented to the City Council at its next meeting. It is the intention of the Council to approve the plans and open bids about August 1st.

MARTINEZ, CONTRA COSTA CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor Arnold, Martinez, Owners, Contra Costa County. At their next meeting the Supervisors will consider the plans and specifications prepared by

County Surveyor Ralph R. Arnold for Division No. 3 and Division No. 4 of the county highway. Division No. 3 covers the county highway from the county line east of Byron to the town of Byron thence north a distance of link between Pittsburg and Antioch, 2 1/2 miles. Division No. 4 covers the about 3 miles. The latter route will follow the present highway to the Associated Oil pumping station, thence paralleling the Southern Pacific Railroad to Pittsburg.

MARTINEZ, CONTRA COSTA CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor Arnold, Martinez, Owners, Contra Costa County. Bids will be opened on July 24th at 11 a. m. for furnishing of materials and labor and grading and preparing subgrade, building bridges and culverts and excavating for bridges and culverts and building road with a concrete base on Division No. 3 of the county highway. Location: Commencing at the county boundary line near the southeast corner of the county where said boundary is crossed by the Southern Pacific Railway Company line and parallel said line to town of Byron, from which point it runs north to the northeast corner of Section 28, a total distance of 5.13 miles.

MARTINEZ, CONTRA COSTA CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor Arnold, Martinez, Owners, Contra Costa County. Bids will be opened on July 24th at 11 a. m. for furnishing of materials and labor and grading and preparing subgrade, building bridges and culverts and excavating for bridges and culverts and building road with a concrete base on Division No. 4 of the county highway. Location: Beginning at the west incorporate line of the town of Antioch, and running westerly along the present highway to the Standard Oil Pumping Station, where it leaves the main highway and parallels the Southern Pacific Railway right-of-way to town of Pittsburg, a distance of 3.49 miles.

SALINAS, MONTEREY CO., CAL.—Highway construction. \$2,510. Engineer, County Surveyor, Salinas, Owners, Monterey County. Kunze & Hagard, Salinas, submitted the lowest bid at \$2,510 for the new road in the Tularitos Road District and will probably be awarded the contract.

LOS ANGELES, CAL.—Highway construction. \$13,027.47. Engineer, County Surveyor, Los Angeles, Owners, Los Angeles County. Bids will be received by the Board of Supervisors of Los Angeles County up to 2 p. m. of Monday, July 17, 1916, for constructing concrete pavement with disintegrated granite base and sand base, expansion joints and bituminous wearing surface, on Mesa Drive, from Slauson avenue north to the city boundary, a distance of about 2.08 miles, in Road Improvement District No. 35.

LOS ANGELES, CAL.—Highway construction. Cost as follows. Engineer, County Surveyor, L. A. Owners, Los Angeles County. P. A. and C. H. Howard, 2123 Sacramento street, L. A., were the lowest bidders at \$86,375.44 for improving Section G of the Mint Canyon road. The next lowest bid was submitted by Bent Bros., 607 South Main street, L. A., at \$92,455.34. The engineer's estimate was \$91,613.55. The

bids were taken under advisement.

LOS ANGELES, CAL.—Highway construction. Cost as follows. Engineer, County Surveyor, L. A. Owners, Los Angeles County. Rogers Bros., Hibernian Bldg., L. A., were the lowest bidders at \$15,900 for improving 2.62 miles of highway on Vine avenue, from Glendora avenue to Citrus street, near Covina, in Road Improvement District No. 55. The next lowest bid was submitted by Fred Hoffman, 111 East 12th street, Long Beach, for \$18,900. The engineer's estimate was \$21,906.81. The county will furnish the stone and oil. The bids were referred to the highway engineer for report.

ONTARIO, SAN BERNARDINO CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Ontario, Owners, City of Ontario. Bids will be received by the City Clerk up to 7:50 p. m. July 17th, 1916, for the construction of approximately 49,150 square feet of 4-inch concrete pavement with asphaltic oil wearing surface on certain alleys in the city of Ontario, in accordance with the plans etc., on file in the office of the City Engineer. Bids must be accompanied by a certified check or bond for 10% of the amount of bid.

Contracts Awarded.

NORTH BEND, ORE.—Paving waterfront. \$17,707.71. Engineer, City Engineer, North Bend, Owners, City of North Bend. Contractors, Anderson & Klockers, North Bend. Contract price, \$17,707.71.

MARTINEZ, CONTRA COSTA CO., CAL.—Highway construction. Cost as follows. Engineer, County Surveyor, Martinez, Owners, Contra Costa County. The County Supervisors have awarded the contract for the surfacing of ten miles of concrete road from Walnut Creek to the tunnel as follows: For Division No. 1, the City Street Improvement Co., 166 Geary street, S. F., was awarded the work on its bid of \$12,879. For Division No. 2, A. H. Kopperud, 2636 High street, Oakland, on a bid of \$9,357.20.

VALLEJO, SOLANO CO., CAL.—Street paving. Cost as follows. Engineer, City Engineer, Vallejo, Owners, City of Vallejo. Contractors, O'Brien Bros., 274 15th avenue, S. F. Contract prices, \$3,657.27 and \$4,776.18.

SAN RAFAEL, MARIN CO., CAL.—Highway construction. Cost as follows. Engineer, County Surveyor, San Rafael, Owners, Marin County. At the last meeting of the City Council Hutchinson & Co., 13th and Franklin streets, Oakland, being the only bidders on the Toll road, their bid of 30c for curbing, 30c for gutter, 2c for grading and 7c for macadamizing was accepted.

AUBURN, PLACER CO., CAL.—Septic tank. \$6,677. Engineer, City Engineer, Auburn, Owners, City of Auburn. Contractors, Hard Bros., Modesto. Contract price, \$6,677.

RIVERSIDE, RIVERSIDE CO., CAL.—Street paving, etc., \$15,388.79. Engineer, City Engineer, Riverside, Owners, City of Riverside. Contractors, Johnson-Shea Co., 500 Market street, Riverside. Contract price, \$15,388.79.

ALAMEDA, ALAMEDA CO., CAL.—Street paving. \$66,853.93. Engineer, City Engineer, Alameda, Owners, City of Alameda. Contractors, Clarke & Henery, Ochsner Bldg., Sacramento. Contract price, \$66,853.93.

VENTURA, VENTURA CO., CAL.—**Culverts**, \$15,715. Engineer, County Surveyor, Ventura. Owners, Ventura County. Contractors, Mesmer & Rice. Marsh-Strong Bldg. Co. A. Contract price, \$15,715.

Hemet, RIVERSIDE CO., CAL.—**Street paving**, \$11,721. Engineer, Town Engineer, Hemet. Owners, Town of Hemet. Contractors, The General Construction Co., Higgins Bldg. Co. A. Contract price, \$11,721.

LOS ANGELES, CAL.—**Sewers**, gutters and grading, \$12,319.85. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. Contractors, The Coast Construction Co., 1119 East 29th street, L. A. Contract price, \$12,319.85.

SACRAMENTO, CAL.—**Street improvements**. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts have been awarded for street improvements under the following resolutions: That the alley between M and N streets from the east line of 24th street to the west line of 25th street, be improved by constructing 1 concrete catch basin complete, placing 8 linear feet of 8-inch, vitrified, ironstone sewer pipe drain; reconstructing 1 concrete manhole, grading the roadway and constructing thereon an asphalt pavement consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1 1/2 inches thick. Awarded to McGillivray Construction Co., 1007 7th street, Sacramento.

That the alley between L and M streets, from the east line of 4th street to the west line of 5th street, be improved by constructing 494 linear feet of concrete curb wall; 1 concrete catch basin complete; reconstructing 1 concrete manhole; placing 6 linear feet of 8-inch, vitrified, ironstone sewer pipe drain; grading the alley and constructing thereon an asphalt pavement consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1 1/2 inches thick. Awarded to The McGillivray Construction Co.

That 24th street, from the north line of the alley between Y and Z streets to the north line of Bonita avenue, be improved by constructing concrete curb 8-inch, vitrified, ironstone sewer pipe drains; placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes complete; grading the space between the property line and curb, concrete sidewalk; grading the roadway concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1 1/2 inches thick. Awarded to A. Teichert & Son, Ochsner Bldg., Sacramento.

That Miller avenue in Wright & Kimbrough Tracts Nos. 27 and 30, be improved, also that the alleys on the north, east and west sides of Wright & Kimbrough Tract No. 27 be improved by constructing 8 and 10-inch, vitrified ironstone pipe sewers, 7 concrete manholes complete; 2 6-inch, flusher branches complete and 110 6-inch V branches with covers. Awarded to W. J. Tobin, 735 Filbert street, Oakland.

OAKLAND, CAL.—**Street improvements**. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. The following contracts for street work have been awarded. The

improvement of East 16th street, from the southeast line of 15th avenue to the northwest line of 15th avenue, by grading, redwood curbs, concrete gutters 2 feet wide, and oil macadam pavement. Awarded to The Oakland Paving Co., 300 Broadway, Oakland.

Contract price, \$25,000. Location, southeast corner Mission and 16th streets, covering an area of 105 by 95 feet.

SEALED PROPOSALS

PROPOSALS FOR CANAL SUPPLIES.
PANAMA CIRCULAR 1958—Proposals for Power Plants for Supply Boats, Motor Boats, Pump Casing and Heads, Pipe Threading and Cutting Machine, Babbitt Metal, Sheet Brass, Copper Wire, Bolts, Rivets, Nuts, Washers, Joining Shankles, Augers, Tool Holders, Angle Valves, Paint Brushes, Rod Brushes, Boster Brushes, Pick Laying, Storage Batteries, Hose Tacking, Rubber Valves, Canvas Belting, Canvas, Burlap, Linoleum, Magnesium Pipe Covering, Emery Cloth, Sand Paper, Charcoal Skins, Granulated Cork, Sponges, Buckskin Gloves, Vegetable Dishes, Window Glass, Bond Paper, Carbon Paper, Soap, Paraffin Wax, Lye, Calcium Carbide, Potassium Chlorate, Sulphate of Copper and Lead and Zinc. Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C.,

until 10:30 a. m. July 20, 1916, at which time they will be opened in public, for the sealing the above mentioned articles. Blanks and general information relating to this circular (No. 1958) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal., also from the U. S. engineer offices in the following cities: Seattle, Wash., Los Angeles, Cal., EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

PROPOSALS FOR BUILDING.

BUILDING—Sealed proposals, endorsed "Proposals for Superintendent's Residence and Hatchery Building, Springville, Utah," and inclosed in an envelope addressed to commissioner of fisheries, Department of Commerce, Washington, D. C., will be received at this office until 2 o'clock p. m. July 28, 1916, and then opened, for the construction of superintendent's residence and hatchery building at the fisheries station, Springville, Utah. For blank proposals, specifications, etc., address commissioner of fisheries, Washington, D. C.

SALE OF MATERIALS.

PANAMA CIRCULAR 1957—Proposals for the Purchase of Locomotives Offered for Sale by the Panama Canal and Which Are No Longer Needed.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m. August 23, 1916, at which time they will be opened in public, for purchasing the above mentioned articles. Blanks and general information relating to this circular (No. 1957) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash., Los Angeles, Cal., EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

PROPOSALS FOR ELEVATOR.

ELEVATOR—Sealed proposals, endorsed "Proposals for Elevator," will be received at the Bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m. July 29, 1916, and then and there publicly opened, for one electric freight elevator at the navy yard, Mare Island, Cal. Plans and specifications may be obtained on application to the commandant of the navy yard named, U. R. HARRIS, chief of bureau.

NOTICE TO ELEVATOR DEALERS.

SEALED PROPOSALS will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until July 29, 1916, for one electric freight elevator at the navy yard, Mare Island, Cal. Plans and specifications may be obtained on application to the Bureau of Yards and Docks or to the commandant of the navy yard named, U. R. HARRIS, chief of bureau.

PROPOSALS.

OFFICE OF THE BOARD OF PUBLIC WORKS OF THE CITY AND COUNTY OF SAN FRANCISCO, July 6, 1916.

Sealed proposals will be received at this office between the hours of 2 o'clock p. m. and 3 o'clock p. m. on Wednesday, the 14th day of July, 1916, for doing the following work:
Making core borings, Hetch Hetchy Amendment, Contract Number Eleven. Progressive payments will be made. Said work must be done in accordance with the specifications or plans and specifications thereon on file in the office of the Board of Public Works, to which reference is hereby made, and must be commenced within 45 (45) calendar days and completed within two hundred and fifty (250) calendar days from the date of the contract to be made and entered into therefor.

The amount of bond for faithful performance of contract has been fixed at \$12,000.00.

All proposals offered shall be accompanied by a check certified by a responsible bank, payable to the order of the clerk of the Supervisors of the City and County, for an amount not

less than ten per centum of the aggregate of the proposal, and no proposal will be considered unless accompanied by such check.

Printed proposal forms will be furnished gratuitously upon application at the office of the City Engineer, and all proposals must be made upon such forms.

The Board of Public Works reserves the right to reject any and all bids.

By order of the Board of Public Works.

F. J. CHURCHILL, Secretary.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCUAR 1956 — Proposals for Laboratory, Hardware for Marble Work, Steel Angles and Plates, Soft Steel Bars, Rods, Cutters, Heads and Blades, Sheet Brass, Machine Bolts, Rivets, Nails, Screws, Staples, Screw Eyes, Brass Nuts, Wood Bolts, Hinges, Hasps, Wardrobe Locks, Screen Door Catches, Furniture Locks, File Handles, Shelf Brackets, Storage Battery Warehouse Trucks, Hydraulic Valve Cocks, Oil Spouts, Pulleys, Chain Blocks, Snatch Blocks, Coal Baskets, Buckets, Corn Brooms, Floor Brushes, Blue Brushes, Sooty Stones, Lantern Globes, Lamp Chimneys, Graduating Glasses, Tables, Chairs, Rat Traps, Mattress, Bed, Towels, Bedding, Wood Lumber—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., on Monday, August 7th, 1916, at 10:30 a. m. The bids will be opened in public, for furnishing the above mentioned articles. S. engineer in charge of the canal at the cities: Seattle, Wash.; Los Angeles, Cal.; EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

NOTICE TO CONTRACTORS.

NOTICE is hereby given by the Board of Supervisors of Sonoma County, California, that sealed bids will be received by the Clerk of said Board up to 12 o'clock noon on July 14th, 1916, for the construction of a bridge over Russian River, at Markhams, according to plans and specifications for said bridge, now on file in the office of the Clerk of this Board, and being plans and specifications Nos. 1 and 2 submitted to this Board by Leonard & Fay, and plans and specifications No. 3, submitted by M. P. Youker.

Separate bids are to be received for any one or all of said plans. Each bidder shall accompany his said bid with a check, certified and made payable to W. W. Felt, Jr., County Clerk, in an amount not less than 10% of the amount of the highest bid submitted by him, and to be forfeited to Sonoma County, should successful bidder fail within ten days after the acceptance of either of said bids submitted by him, to enter into a contract therefor, and give a good and sufficient bond for the faithful performance of said contract; said bond to be in the amount as hereinafter provided, and be approved by said Board of Supervisors. A deposit of \$10.00 for each plan, or a deposit of \$25.00 for the three plans by each bidder securing plans, as a guarantee for their return.

Checks of unsuccessful bidders to be returned.

The Board hereby reserves the right to reject any or all bids.

W. W. FELT, Jr., County Clerk.

NOTICE TO CONTRACTORS.

SEALED bids will be received by W. F. McClure, State Engineer, Forum Building, Sacramento, California, up to and including 12 o'clock, noon, Friday, July 28, 1916, said bid then and there to be publicly opened and read for furnishing all plant, materials, and labor, and doing the work required for the complete construction and erection of the "Home for Working Men," Napa State Hospital, near Napa, California, in accordance with the plans and specifications, copies of which may be obtained on application to the State Department of Engineering, Sacramento, California.

Such bids will be received for the

Entire Work, and must be submitted on forms prepared and furnished by the State Department of Engineering. Cash, a bidder's bond, or a certified check in the sum of ten per centum (10%) of the amount of the bid must accompany each bid.

A deposit of Fifteen (\$15.00) Dollars will be required on plans and specifications, the deposit to be returned immediately on the return of the plans and specifications to the State Department of Engineering, at Sacramento, California, in good condition.

The State Department of Engineering reserves the right to reject any and all bids and to waive any informality in any bid received.

All bids must be addressed to W. F. McClure, State Engineer, Sacramento, California, and plainly marked on the envelope: Proposal for "Home for Working Men," Napa State Hospital, near Napa, California.

(Signed) W. F. McCLURE, State Engineer.

PROPOSALS FOR BUILDING.

OFFICE of the Clerk of the Board of Supervisors, Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office until 10 o'clock a. m., on Monday, August 7th, 1916, (the day when said bids will be opened), for the construction of an addition to the Hayward school located at Fifth and Broadway Streets, in the city of Oakland, County of Alameda, State of California.

Bids will be received on each of the following departments of work:

Department No. 1—Excavating, brick work, stone work, concrete work, carpenter work, mill work, glass, stairs, sheet metal, doors, ornamental and miscellaneous iron and steel work, window guards, plastering, lathing, cementing, damp-proofing, felt and gravel roofing, sheet metal, skylights, hardware, painting, tinting.

Department No. 2—Plumbing, drains and gas fitting.

Department No. 3—Electrical work.

Department No. 4—Marble work, tiling.

Department No. 5—Heating.

Department No. 6—Elevator work.

Department No. 7—Well boring and casing.

Complete plans and specifications for each of these separate departments of work are on file in the Records Building, Oakland, where copies may be obtained by depositing with the County Clerk the sum of Ten Dollars (\$10.00). Contractors will be restricted as to the length of time they may retain these plans and specifications to twelve (12) days on department No. 1, and to five (5) days on all other departments.

Contractors failing to return said plans and specifications within said time limit will forfeit their deposit. The entire amount of the deposit will be returned to contractors returning plans and specifications in good condition within said time limits.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid, certified to by some responsible bank, and made payable to Geo. F. Gross, Clerk of the Board of Supervisors of Alameda County, to be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

Dated June 20, 1916. (Seal)
Geo. F. GROSS,
Clerk of Board of Supervisors of the County of Alameda.

PROPOSAL FOR BIDS.

SEALED BIDS will be received at the office of Lewis P. Hobart, Crocker Building, San Francisco, Cal., at or before July 20, 1916, for the alterations and additions to the Agricultural Building of the Affiliated Colleges, as per plans and specifications on file and obtainable after 2 P. M. July 12th, at the Cashier's windows in the Comptroller's office of the University of California, Berkeley, Cal.

A deposit of \$5.00 will be required

for each set of plans and specifications taken out, which deposit will be refunded upon return of said plans and specifications, accompanied by a regular bid for the work. No bids will be received unless accompanied by a certified check or bond in favor of the undersigned, equal to 10% of the bid, to secure execution of the contract by the successful bidder.

The right is reserved to reject any or all bids.
THE REGENT OF THE UNIVERSITY OF CALIFORNIA. (*)

CALIFORNIA NATIONAL BANKS.

WASHINGTON — California ranks sixth among all the States in number of national bank deposits, there being 529,220 depositors in the State, according to a statement of the Treasury. This is an increase of 294,729 since 1910.

SCHOOL IN HAYWARD PLANNED.

HAYWARD, Cal.—A new grammar school to cost \$100,000 and which will be located on a different site than that of the present school will be erected here as soon as the taxpayers show their willingness to support the scheme, according to F. I. Lemos, clerk of the school board.

In the meantime plans have been made to temporarily relieve the congestion in the old school. The board at its last meeting decided to accommodate classes of manual training and domestic science, which have been added to the curriculum, in two rooms in the basement. It was planned by the board to build a \$20,000 annex to the old school but this proposition was defeated at a recent bond election.

VISALIA SUGAR FACTORY.

VISALIA—The biggest sugar campaign in the history of the Visalia Sugar factory has opened. The factory has been remodeled and is ready for a record output of sugar. Last year about 41,000 bags of sugar were turned out and this year close to 100,000 bags is the expected output. Last year the run was about two months and it is confidently expected that the run this year will be four months. Beets are now being harvested in the Alpack district, but the harvesting in the Visalia section will be started immediately. Over 3500 acres have been planted and the beets are running over 16 per cent in sugar, a high average. Kings, Kern and Tulare counties are furnishing the beets.

CONTRACTORS' LICENSE ORDINANCE WITHDRAWN.

The proposed ordinance to license building contractors and place them under bond, pending before the Los Angeles city council, was withdrawn this week just before the public hearing scheduled for Tuesday morning. Opposition to the measure was promised from various interests and it was deemed advisable by the Master Builders of Los Angeles, which initiated the measure, to revise the ordinance after conference with other organizations of building interests before putting it to vote by the councilmen. It is intended to have the ordinance more carefully prepared to eliminate features claimed to be unconstitutional, and the framers of the proposed ordinance are willing to omit the bond requirement.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

RESIDENCES—3, 2 story and base, frame, \$2,000 each. San Francisco. Architect, none. Owner, A. A. Russell, 75 Brosnan street, S. F. Location, west Seventh avenue north of California. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE—5 story and base. Class C construction, \$60,000. San Francisco. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owners, O'Brien Bros. Location, south Bush 239 1/2 west of Powell. Will contain seventy apartments. Plans complete and segregated figures being taken.

APARTMENT HOUSE ALTERATIONS—2 story, frame. Cost not stated. San Francisco. Architects, Foulkes & Hildebrand, Crocker Bldg., S. F. Owner's name not given. Location near 16th street. Plans being prepared.

RESIDENCE—2 story and base, frame. Cost not stated. San Francisco. Architects, Foulkes & Hildebrand, Crocker Bldg., S. F. Owner, Herbert Helwig. Location, St. Francis Wood. Will contain nine rooms, bath, sleeping porch and separate garage. Plans being prepared.

RESIDENCE—1 1/2 story and base, frame, \$2,500. San Francisco. Architect, A. M. Sylvia, 371 30th avenue, S. F. Owner, W. H. Rushing, 543 41st avenue, S. F. Location, east 41st avenue north of Anza. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCES—3, 2 story and base, frame. Cost not stated. San Francisco. Architect, none. Owner, Albert A. Russell, 75 Brosnan street, S. F. Location, west 17th avenue north of California. Will contain six and seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$5,000. San Francisco. Architect, Edward E. Young, 251 Kearny street, S. F. Owner, Thomas Scoble, 363 14th avenue, S. F. Location, southwest Ashbury Terrace and Upper Terrace. Will contain eight rooms, two baths and sleeping porch. Basement garage. Plans complete and work to be done by Day Labor.

HOSPITAL—2 story and base. Class A construction, \$90,000. San Francisco. Architect, John Reid, Jr., First National Bank Bldg., S. F. Owners, City and County of San Francisco. Contracts Awarded.

PUMPING UNIT—Cost not stated. Burlingame, San Mateo Co., Cal. Engineer, Town Engineer, Burlingame. Owners, Town of Burlingame. Contractors, Fairbanks-Morse Co., 651 Mission street, S. F. Contract price, not stated.

MARIN, CONTRA COSTA AND SONOMA COUNTIES

PAVING—Cost not stated. Vallejo, Solano Co., Cal. Engineer, City Engineer, Vallejo. Owners, City of Vallejo. In spite of the fact that prominent lawyers have passed on the proceedings for the improvement of the northwest district and have given it as their opinion that the proceedings are according to law, the City Council will not attempt to force the Worwick Construction Co. to sign the contract which it was awarded, but instead new proceedings will be started and it is expected that bids will be opened again about the first of August. City Attorney Smith of Fresno, attorney for the Worwick Co., examined the proceedings and advised the Worwick

Co. not to sign, it being his contention that a defect exists in the proceedings. However, the legal representatives of the Ransome-Crumney Co. has passed on the proceedings and states that they are perfect.

STREET PAVING—\$100,000. Vallejo, Solano Co., Cal. Engineer, City Engineer, Vallejo. Owners, City of Vallejo. Plans and specifications for the \$100,000 street improvement job contemplated by the City Council in the northeastern district of this city have been completed by City Engineer T. D. Kilkeny and will be presented to the City Council at its next meeting. It is the intention of the Council to approve the plans and open bids about August 1st.

HIGHWAY CONSTRUCTION—Cost not stated. Martinez, Contra Costa Co., Cal. Engineer, County Surveyor Arnold, Martinez. Owners, Contra Costa County. At their next meeting the Supervisors will consider the plans and specifications prepared by County Surveyor Ralph R. Arnold for Division No. 3 and Division No. 4 of the county highway. Division No. 3 covers the county highway from the county line east of Byron to the town of Byron (thence north a distance of 2 1/2 miles. Division No. 4 covers the link between Pittsburg and Antioch, about 3 miles. The latter route will follow the present highway to the Associated Oil pumping station, thence paralleling the Southern Pacific Railroad to Pittsburg.

HIGHWAY CONSTRUCTION—Cost not stated. Martinez, Contra Costa Co., Cal. Engineer, County Surveyor Arnold, Martinez. Owners, Contra Costa County. Bids will be opened on July 24th at 11 a. m. for furnishing of materials and labor and grading and preparing the sub-grade, building bridges and culverts and excavating for bridges and culverts and building road with a concrete base on Division No. 3 of the county highway. Location: Commencing at the county boundary line near the southeast corner of the county where said boundary is crossed by the Southern Pacific Railway Company's line and parallel said line to the town of Byron, from which point it runs north to the northeast corner of Section 28, a total distance of 8.14 miles.

HIGHWAY CONSTRUCTION—Cost not stated. Martinez, Contra Costa Co., Cal. Engineer, County Surveyor Arnold, Martinez. Owners, Contra Costa County. Bids will be opened on July 24th at 11 a. m. for furnishing of materials and labor and grading and preparing the subgrade, building bridges and culverts, excavating for bridges and culverts and building road with a concrete base on Division No. 4 of the county highway. Location: Beginning at the west incorporate line of the town of Antioch, and running westerly along the present highway to the Standard Oil Pumping Station, where it leaves the main highway and parallels the Southern Pacific Railway right-of-way to town of Pittsburg, a distance of 3.19 miles.

RESIDENCE—2 story and base frame, \$2,500. Martinez, Contra Costa Co., Cal. Architects, Shlimer & Eugene, Balziel Bldg., Oakland. Owner's name withheld. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

FLATS AND STORE—1 story and base frame, \$1,500. Richmond, Contra

Costa Co., Cal. Architect, none, owner, John Lindlich, 23rd and Main streets, Richmond. Plans complete and work to be done by Day Labor.

SCHOOL—1 story, frame and plaster \$18,000. Richmond, Contra Costa Co., Cal. Architect, J. B. Oghorn, 461 13th

Plans complete and work to be done by Day Labor.

SCHOOL—1 and 2 story and base, brick, \$39,000. Culver City, Los Angeles Co., Cal. Architect, O. P. Dennis, Fay Bldg., L. A. Owners, Culver City. Contractors, C. W. Kent & Son 129 South Brand Boulevard, Glendale. General construction. Contract price \$39,000. Lohman Bros., plumbing, \$2,148. H. T. Miles & Son, painting, \$1,650. F. O. Engstrom Co., electric work, \$770.

RESIDENCE—2 story and base frame. Cost not stated. Los Angeles. Cal. Architects, E. W. Charlton & Co., Haas Bldg., L. A. Owner, R. J. Gaffney. Location, Windsor Square. Will contain 14 rooms and 3 baths. Plans being prepared.

MASONIC HOME—2 story and base, reinforced concrete, \$75,000. Covina, Los Angeles Co., Cal. Architect, John F. Blee, Union League Bldg., L. A. Owners, Masonic Home Association. Location, near Covina. Plans complete and figures being taken. Bids close July 17th.

LOFTS—2 story and base, brick and steel. Cost not stated. Los Angeles. Cal. Architect, Richard D. King, Van Nuys Bldg., L. A. Owners, W. A. and M. T. Glasscock. The Puritan Coffee and Tea Co., 7574 South Los Angeles street, L. A. Location, Traction avenue near Alameda, covering an area of 75 by 120 feet. Plans complete and segregated figures being taken by the owners.

HIGHWAY CONSTRUCTION—\$13,827.17. Los Angeles, Cal. Engineer, County Surveyor, Los Angeles. Owners, Los Angeles County. Bids will be received by the Board of Supervisors of Los Angeles County up to 2 p. m. of Monday, July 17, 1916, for constructing concrete pavement with disintegrated granite base and sand base, expansion joints and bituminous wearing surface on Alca Drive, from Slauson avenue north to the city boundary, a distance of about 2.9 miles, in Road Improvement District No. 35.

HIGHWAY CONSTRUCTION—Cost as follows. Los Angeles, Cal. Engineer, County Surveyor, L. A. Owners, Los Angeles County. P. A. and C. H. Howard, 2128 Sacramento street, L. A., were the lowest bidders at \$86,375.44 for improving Section G of the Mint Canyon road. The next lowest bid was submitted by Bent Bros., 607 South Main street, L. A., at \$92,158.34. The engineer's estimate was \$91,613.85. The bids were taken under advisement.

HIGHWAY CONSTRUCTION—Cost as follows. Los Angeles, Cal. Engineer, County Surveyor, Los Angeles. Owners, Los Angeles County. Rogers Bros., Hibernian Bldg., L. A., were the lowest bidders at \$15,900 for improving 2.62 miles of highway on Vine avenue, from Glendora avenue to Citrus street, near Covina, in Road Improvement District No. 55. The next lowest bid was submitted by Fred Hoffman, 111 East 12th street, Long Beach, for \$17,900. The engineer's estimate was \$21,900.81. The county will furnish the stone and oil. The bids were referred to the highway engineer for report.

STREET IMPROVEMENTS—Cost not stated. Ontario, San Bernardino Co., Cal. Engineer, City Engineer, Ontario. Owners, City of Ontario. Bids will be received by the City Clerk up to 7:30 p. m. July 17th, 1916, for the construction of approximately 49,150 square feet of 4-inch concrete pavement with asphaltic oil wearing surface on certain alleys in the city of Ontario, in accordance with the plans, etc., on file in the office of the City Engineer. Bids must be accompanied by a certified check or bond for 10% of the amount bid.

Contracts Awarded.

BRIDGES—2, reinforced concrete. Cost as follows. Santa Barbara, Santa Barbara Co., Cal. Engineer, E. T. Flaherty and McCurdy Bros., Santa Barbara. Owners, Santa Barbara County. Contractor, J. O. Lillis, Santa Barbara. Gaviota Creek bridge, \$9,160. Second bridge, \$7,950.

PSYCHOPATHIC BUILDINGS—2 story and base, brick, \$22,775. Los Angeles, Cal. Architect, George Low Hall of Records, L. A. Owners, Los Angeles County. Contractors, The National Fireproofing Co., Central Bldg., L. A. Contract price, \$22,775.

APARTMENT HOUSE—4 story and base, Class C construction, \$88,000. Los Angeles, Cal. Architect, J. F. Kavanaugh, Union Oil Building, L. A. Owners, Mrs. Ella H. Potts and Mrs. Rowena T. Caruthers. Contractor, A. S. Barnes, Union Oil Building, L. A. Contract price, \$88,000.

RESIDENCE—2 story and base brick. Cost not stated. Los Angeles, Cal. Architect, H. H. Whiteley, Story Bldg., L. A. Owner, S. M. Cooper. Contractors, Cooper-Pyle-Clopine Co., Story Bldg., L. A. Contract price not stated.

SCHOOLS—2, 2 story and base frame, \$21,140. Los Angeles, Cal. Architect, Architectural Department Board of Education, L. A. Owners, City of Los Angeles. Contractors, The Walter Slater Co., 2214 Santa Fe avenue, L. A. Contract price, \$21,140.

SEWERS, GUTTERS AND GRADING \$15,310.85. Los Angeles, Cal. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. Contractors, The Coast Construction Co., 1419 East 29th street, L. A. Contract price, \$15,310.85.

PORTLAND AND OREGON

Contracts Awarded.

PAVING WATERFRONT—\$47,707.71. North Bend, Ore. Engineer, City Engineer, North Bend. Owners, City of North Bend. Contractors, Anderson & Klockers, North Bend. Contract price, \$47,707.71.

SEATTLE AND WASHINGTON

MARKET—1 story and base, reinforced concrete, \$20,000. Seattle, Wash. Architects, Stephen & Stephen, New York Block, Seattle. Owners, Pine Street Investment Co. Location, Pine street and Seventh avenue, covering an area of 110 by 120 feet. Plans complete and figures being taken.

BUILT IN 1787.

The sloop "Jenny," built of oak in 1787, is still afloat. That "Jenny's" certificate of registry shows that she was constructed at Nevin, Carnarvonshire. She is described as "a ship of one deck, one mast, sloop-rigged, a round stern of carved plumb, with neither head nor gallery, and with frame work of wood. Length, 46 feet; breadth, 12 feet 8 inches; depth, 5 feet 9 inches; register tonnage, 19.11." During her existence of 129 years, the "Jenny" has passed through many hands, and Mr. G. J. Binding, of Cardiff, is the present managing owner. The ancient craft has, more than once, been driven ashore, but has never sustained serious damage.

NINE BLOCKS LISTED.

MARYSVILLE (Yuba Co.)—Plans and specifications were ordered drawn by the City Council at its last meeting for nine blocks of improved street in this city. The following territory is covered: Seventh street from C to F; C from Sixth to Seventh; Sixth from C to F; F from Fourth to Sixth.

SCHOOL BOND ISSUE ILLEGAL.

MODESTO, Cal.—Attorney General Webb has stated definitely that the \$150,000 bond issue voted by the people is illegal. Webb states that the election was called under the city charter whereas it should have been called according to the requirements of the school law. The high school trustees will probably call another election.

MERCED TO HAVE ADDITIONAL LIGHT.

MERCED, Cal.—The city trustees have decided to form a lighting district to embrace the business section of the city for the purpose of lighting the streets with electrolights. Charles

T. Phillips, an electrical engineer of San Francisco, was retained to take full charge of the installation of the electrolights with instructions to give Alced the most modern and serviceable lights on the market. The cost of installation must be borne by the property owners in the district, but maintenance and light bills will be paid by the city.

FOREST NOTES.

About 500 million feet of timber was cut on the National Forests in 1915.

Experiments with jack pine have shown that it is well suited for making kraft paper. On some of the National Forests this tree is used to plant land which is too poor to grow other timber.

A new fire-fighting tool has been invented by a Forest ranger in California which consists of an interchangeable hoe and rake. It is said to be the best tool of the sort yet devised.

The use of osage orange for making dyes promises to be extensive. The Forest Products Laboratory is making a census which shows that the supply of the wood is more than ample to meet present needs.

In parts of the West the Forest Service is co-operating with the Weather Bureau in distributing weather forecasts to the settlers. By the use of Forest Service telephones many isolated sections are reached which could not otherwise receive the reports. Shepherds owning bands of lambing ewes will be particularly benefited, as the warnings enable them to get their sheep under shelter and avoid the losses sometimes caused by late spring storms.

SANTA FE ENGINEER, LOOKING OVER SITE FOR DEPOT.

PITTSBURG, Cal.—Representatives of the Engineering department of the Santa Fe Railway Company were here recently collecting data in connection with the site for the new fifteen thousand dollar depot that will be erected by the company this summer. It is not stated when the work will commence.

NEW CHAMBERS OF COMMERCE IN SOUTH INDIA.

MADRAS, India.—Two new chambers of commerce have been organized in South India, at Bangalore, Mysore, and Bezwada, Godavari District. The latter has not yet enrolled many members and the details of organization have not been perfected, but the Mysore Chamber promises to take rank with the six other large chambers of commerce in this region, two of which are at Madras, and others at Cochin, Tuticorin, Cocomada and Pondicherry.

The general plan of organization of the Mysore Chamber of Commerce and its aims, as explained in the Times of India, are:

A subcommittee appointed to draft rules has based them on those in force in the Aden Chamber of Commerce, with certain modifications due to local conditions. The Aden rules have been adopted as being suitable to an area that has not yet reached a high stage of commercial development.

Provided there are on the register not less than 50 members on the day of election, the chamber will have the

right of returning one member to each of the following bodies: (1) The Mysore Local Tax Council; (2) the Bangalore Municipal City; (3) the Mysore Economic Conference; and (4) the Industries and Commerce Committee of the Mysore Economic Conference. It is considered necessary that these privileges should be granted from the outset, not only to enable the chamber to realize its responsibilities in matters relating to trade and industry, but also to make it possible for it to command sufficient influence among the entire mercantile community. The chamber will have no official connection with any department of Government, but will remain an entirely independent body, and it will be under no other obligation than those with reference to market reports, etc. The Rules provide for two classes of members, resident and nonresident, and in order that the various interests may be fully represented on the committee, there will not be more than two members on it representing the same class of business and not less than six of the committee shall be domiciled subjects of the Maharajah.

LONG DELAYED BRIDGE CONTRACT SIGNED.

WOODLAND, (Yolo Co., Cal.)—The Clinton Construction Co., 140 Townsend St., San Francisco, has signed the contract for the Yolo-Solano bridge across Putah Creek on the State Highway between the two counties. The contract price is \$35,000 and work is to start immediately and to be completed in five months.

This contract is \$2,500 in excess of the original bid, the carrying out of which was held up on account of disagreement between the Yolo County Supervisors and the State Highway Commission. The cost of the structure will be divided between the two counties.

RIVERS AND HARBORS BILL.

WASHINGTON—Conferees on the river and harbor appropriation bill have agreed on a measure carrying \$12,886,923. The bill as it passed the House carried \$39,000,000 and as it passed the Senate \$14,000,000. The item of \$1,080,000 for a diverting dam in Los Angeles harbor was reduced to \$500,000 and to an appropriation of \$220,000 for the improvement of San Diego harbor the conferees attached a provision requiring the city to donate 500 acres of tide lands instead of leaving the donation optional with the city.

RICHMOND BUILDING GOOD.

RICHMOND—Twenty-nine building permits were issued in Richmond during the month of June and the total amount of new building amounted to \$29,295, according to the report filed with the City Council by Building Inspector L. W. Weirde. Nineteen electrical permits were issued. The total amount of fees collected for all permits amounted to \$186.50.

CALIFORNIA OIL.

WASHINGTON—California is still leading the United States in oil production. Petroleum marketed from California oil fields during the first half of 1916 amounted to 45,500,000 barrels, according to a statement of the Geological survey. This is a larger amount than any other State marketed, Oklahoma and Kansas together selling only 15,000,000 barrels.

BUILDING TOTALS FOR JUNE.

Building permits issued for the month of June amounted to \$2,016,756. For this amount a total of 456 permits were granted. Of these 365 were for alterations.

Included in the report of the Building Department of the Board of Public Works is the Civic Center Library Building and the fire escapes on five schools. The closing of the lumber yards throughout the city hindering the purchase of lumber, played a great part in keeping down the building

TOTALS.

The following is a complete and segregated report as issued by the Board of Works.

Class	No. of Bldgs.	Cost
Class "A"	1	\$ 16,800
Class "B"	3	71,475
Class "C"	10	266,250
Frames	100	100,674
Alterations	365	120,557
Public Bldgs.	6	1,141,000
Harbor	1	30,000
Total	186	\$2,016,756

BUILDING PERMITS GRANTED FOR PAST FISCAL YEAR.

According to a report of the Building Bureau of the Department of Public Works a total of \$18,004,710 was invested in building construction for the past fiscal year ending June 30, 1916. For this amount 7558 permits were issued.

For the fiscal year ending June 30, 1915, the total number of permits issued was 6287, the cost being estimated at \$14,226,125.

The following is a complete report as compiled by the Bureau for the fiscal year commencing July 1st, 1915 and ending June 30th, 1916:

Class	No. of Bldgs.	Cost
Class "A"	18	\$ 1,279,663
Class "B"	9	761,475
Class "C"	178	3,376,620
Frames	1947	7,041,151
Alterations	4371	1,811,467
Public	3	848,181
Harbor	10	748,082
Public	22	2,138,101
Total	7558	\$18,004,710

Sub "F," Sacramento. Repair fire
damage to residence.
Owner, E. A. Thiele.
Architect, None.
Day's work. COST, \$700

CALIFORNIA MINES IN 1916.

There has been much greater activity
in the mining industry in California
for the first six months of the year, as
compared with the conditions in the
first half of 1915, but it has been largely
in the direction of the reopening of
old properties which have been years
idle. Mr. Chas. G. Yale of the United
States Geological Survey, reports that
the United States Mint at San Fran-
cisco, and local smelters and refiners
are in receipt of \$366,000 less California
gold, and 22,000 more ounces of
silver, in the first five months of 1916,
than in the corresponding period of
1915.

Aside from the gold, silver, copper
and lead mining industries of Califor-
nia, there has been thus far in 1916 a
heavy demand for such mineral sub-
stances as chrome, tungsten, magnesite,
manganese, antimony, etc. and a great
many mines of this character have
been opened and are shipping. For the
first time in history many of these

mines are shipping crude material to the Eastern seaboard by rail, the high prices now permitting this.

There has been no noticeable increase thus far this year in the number of productive gold mines in the State.

During the first half of 1906 there has been greater gold mining activity in the Mother Lode counties of the State than has been the case for a long period. These five counties produced 61 per cent of the annual California output of siliceous ore. The older active mines are all doing well. In the Kennedy at the bottom of the 3,900-foot vertical shaft they are working a large body of profitable ore, and are sinking 100 feet more. The Argonaut, adjoining, has at a vertical depth of 3,300 feet a body of \$13 ore—very exceptional value for a Mother Lode mine. Ore yielding over \$1,000 per ton is being taken out of an 18-inch vein at 1,600-foot depth in the Gold Cliff, part of the property of the Utica Mining Company in Calaveras County. In the same county the Melones is in excellent ore. Very high grade ore is being taken from the mine of the Calaveras Development Company, near Mountain Ranch. The most noteworthy feature of the situation in the Mother Lode counties is that a number of the old mines, long idle, are being unwatered and reopened, this being brought about by the success of the deeper mines which have continued work. At Sutter Creek, Amador County, the old Eureka, or "Hetty Green" mine, a famous producer 30 or 40 years ago, is being reopened by a strong company, and extensive operations have been inaugurated.

The Oneida mine, closed down for years, has been put in shape, and part of the stamps are running on ore from the mine. The Poundstone mine in the same district is being unwatered. The old Wildman & Mahoney properties in which are three shafts, and very extensive workings, and which have been for years idle, are being reopened by a new company. On the Zeila mine, Jackson, some time idle, a new shaft is being sunk to facilitate working good ore opened by long drifts from the old workings. The Argonaut is building a new 40-stamp mill, and a large reservoir for storage of tailings behind a concrete dam, 400 feet long and 40 feet high. The Amador Star, at Plymouth, (formerly the Rhetta and Bay State) has been reopened this year and a new vein of satisfactory ore found. In Calaveras County, a company has been formed to develop the Thorpe mine at Fourth Crossing, which

has been idle 18 years. Several old claims near the Melones mine, have consolidated and are to be worked as one property by a new company. In Tuolumne County, the Tarantula mine, at Chinese, has been purchased by Ex-Governor Gage, who will work it and the adjoining Jones group. The Rawhide and App mines, near Jamestown, formerly heavy producers, have come under new ownership and are being reopened and rehabilitated. The Patterson, near by, is also to be started up again. The Crystalline and Alabama mines, near Sonora, several years idle, are being reopened by Los Angeles men. The old Columbia, near Tuolumne City, is being reopened and the shaft sunk to 1,000 feet depth. In El Dorado county important discoveries have been made in the old Montezuma mine, near Nashville. In El Dorado district, near Placerville, the old Church-Union mine is again being developed, and the Oram, adjoining, has been started up again. After 35 years idleness the Cedarburg mine, near Spanish Dry Diggings, is being reopened.

Deep mining outside the Mother Lode section of the State is also unusually active. In the Grass Valley district, Nevada County, both the North Star and Empire mines, the leading producers, are finding high grade ore in depth. In the Providence, of the Champion group, Nevada City, a strike of high grade ore, carrying telluride, has been made. In this section a number of small and idle mines are coming into possession of the larger companies in

order to improve their position in the district. The old Marche mine is to be unwatered, and the shaft deepened. The famous old Allison R. 34 mine, formerly a large producer, but idle since 1898, is being reopened by a new company. In Butte County, at Forties town, the Gold Bank, Golden Queen, and Shake-peare, formerly producers, have been sold to Salt Lake men, who will reopen them. In the southern counties of the State, notably in the desert regions of Inyo, San Bernardino, and Riverside counties, there is a distinct revival of mining activity, largely brought about through the adoption of auto trucks for delivery of ore to railroad stations for shipment to reduction works.

The gold dredging industry of the State continues in a flourishing condition. The dredges produce 90 per cent of the placer gold of California, and 38 per cent of the total gold yield. The larger companies have been adding new machines to their equipment, and these are invariably of great capacity, several costing over half a million dollars each. The new dredge of the Natoma Consolidated in the Polson district, designed to restore ground to its natural condition after dredging, permitting its use for agriculture, has demonstrated its efficiency. Extensive areas of placer ground near Redding have been bonded and are being prospect for dredging. Over 1,500 acres of dredging ground along the Trinity River from Lewiston to Poker Bar have been acquired by capitalists, and one dredge will be in operation this summer. 2 more next year. Dredge machinery from Ohio, for the dredge near Caraville, Trinity County, amounting to 2,000 tons, is being hauled from the railroad at Edding, 62 miles into the mountains, 500 mules being used in the hauling work. The largest dredge in the world has been completed and set at work on the Yuba river, near Hammon. It is the fifteenth dredge of the Yuba Cons. Goldfields. The Pacific Dredging Company is building a very large dredge near Smartsville, Yuba County, on ground extending along the Yuba and Bear Rivers, and several other dredges are planned in the district not far from the holdings of the Yuba Goldfields. The Oro Water, Light and Power Company is arranging to construct a third dredge in the Mokelumne river near Comanche, Calaveras County, extensive quantities of pay gravel have been found outside the main property of the company. Several small dredges have been put on "outside" ground in the mountain region this year.

Hydraulic mining has not been very active outside of Trinity and Siskiyou counties, but some new mines have started up in central California. A merger of hydraulic mining interests is being made in the State Creek district, Sierra County, and extensive work is contemplated, under supervision of the California Debris Commission. A mammoth restraining dam is to be put across State Creek, which will permit, when completed, hydraulic operations at Seides, Port Wine, Whiskey Diggings, Gibsonville, La Porte, and other famous old camps long idle. A revival of drift mining along the Magalia ridge, in Butte County, has brought about numerous changes, and the reopening of old properties. The old South Fork prop-

erty, on Oregon Creek, Sierra County, is now continuing the 1,000 foot head-rock tunnel to try and reach the channel in the extension of the famous old Bald Mountain drift mine.

Copper mining in the State has been very active in 1916, owing to the high price of the metal. The larger companies have increased miners' wages in the form of a bonus while electrolytic copper sells at 20 cents a pound or over. A number of new copper properties have been opened in Trinity, Siskiyou, Plumas, Madera, and other Northern counties, as well as in several of the Southern counties of the State. The Engels Copper Company in Plumas County is using the flotation process to concentrate its ore before shipment to Nevada smelters. The Calaveras Copper Company, near Copperopolis, has decreased the capacity of its flotation plant. The Bunker Hill copper mine near Auburn, Placer County, which shipped ore to Swansea, Wales, 52 years ago, and has since been idle, has been reopened this year.

THE COUNTRY'S OLDEST BUILDING.

One of the really historic buildings in the United States is said to be the residence of the Governor of New Mexico in the city of Santa Fe. It is said to have been erected by the Spaniards when the greater part of the Western world was theirs and was the finest home in the colonies. According to legend millions of dollars were spent on the quaint old structure. Most of the material in it was brought from Spain and it was constructed by the best builders to be found among the sons of that period. In the ship which brought over the building material and builders were many art treasures used to decorate the finished house.

After the Spanish departed Mexicans used the house as a governor's palace and with the overthrow of the Mexicans by the United States Government it was continued as the residence of the head of the territorial government that was formed. The house is still in use and there seems to be every reason to believe it will continue to house many of New Mexico's future Governors.

BUILDING HOUSES WITHOUT ARCHITECTS.

There are many persons of intelligence even in this age of efficiency who fail to understand the necessity of employing an architect when they want to construct a building, says the Improvement Bulletin.

Possessing an unlimited ignorance of the profession of architecture they totally fail to comprehend the duties of an architect. But they do understand that he gets a percentage for his work. And so to save money they often proceed, treading with the calm confidence of ignorance in paths which are beset with pitfalls and which they would meet sedulously avoid if they knew their existence.

The penny wise policy is responsible for many architectural monstrosities throughout the country. It has been the cause of a great deal of litigation and worry. But conditions are not as bad as they once were. There are probably fewer people today who are confident of their own natural, though untrained, ability to plan a building

than there ever has been in the past, that is one of the reasons why the standard of architecture in the cities and towns is improving. This is especially noticeable in the construction of small residences. There are more small and comparatively inexpensive homes of architectural excellence being built today than every before. A residence doesn't necessarily have to be of expensive construction to be of pleasing appearance and correct arrangement.

When a man wants to draw up a legal document he consults a lawyer. Yet he would be just as foolish to plan a house, attend to the many details that precede the beginning of construction work, and attempt to solve unaided the problems that arise during the period of construction, as he would be were he, being unskilled and unversed in law, attempt to draw complicated legal documents or enter upon a law suit unaided by legal advice.

IS THERE SUCH A THING AS ETHICS IN BUSINESS?

By J. W. Wiley In Modern Methods.

Despite all the arraignment of business and business men by our large crop of demagogues and muck-raking politicians it is not in that chaotic moral state which characterized it for centuries and made "Caveat Emptor" the prevailing policy.

It would be useless to reiterate here the many and devious attacks on the morale of business men, as they are only too well known, and it would therefore seem a propitious time to present the other side of the case.

The great difficulty with business men as a whole is that they are so deeply absorbed in the pursuit of their affairs that they have neither the time nor the inclination to present their case to the people, nor to repudiate in the remotest degree the posterous, heartless leviathans of iniquity.

For the purpose of this discussion it would seem advisable to make a distinction between business men in their relations with labor and with the people generally as vendors, as it is the latter phase of the question we wish to speak of.

In the days of barter when the farmer traded his wheat for shoes or clothes as his needs demanded, when worldwide distribution was unknown; when trademarks, trade names and good will were not found among assets valued at millions; before the days of our vast business institutions that aim to build reputations upon the cassions of honesty and integrity, such a thing as ethics in business was an unknown quantity.

Today we find as a result of a process of evolution a far different situation and one that in so far as the right conduct of the seller toward the buyer is concerned is in the vast majority of cases ethical.

There have been, of course, a number of different factors responsible for this change, chief of which I think might rightly be said to be that business men as a whole have been convinced beyond a shadow of a doubt that "honesty is the best policy" and that profits accrued as a result of failing to give the buyer value received is as much inimical to the seller's interests from both an ethical and busi-

ness standpoint as it is illegitimate.

It is immaterial whether or not business men have assumed moral responsibility as a matter of self-preservation or because of a nobler conception of their obligations; the net result is what concerns us.

Individuals as well as classes cannot be justly estimated without taking a complete inventory of their stock and in closing their accounts, credits as well as debits must be entered at their proper value. Therefore, let every man of affairs be fully cognizant of those points in his favor, as they may possibly more than offset those against him.

It is an analysis of the credits that we shall be chiefly concerned with here.

Through the instrumentality of advertising probably more than any other single agency has the impetus been given to the higher standards in business.

Think just a moment and you will agree that this is true. Make a mental survey of the advertising of all those things that go to make up the appointments of our homes, the food we eat, the clothes we wear, the automobiles we ride in, and the many other necessities and luxuries of life we might mention, and you will find a far more important moral force than you might have supposed.

Consider the large merchandising establishments typical of the large cities of the country. Do you suppose they aim to willfully misrepresent in their advertising the true merits of their goods? Is there one of these institutions that would question for one moment the advisability of accepting the return of an article that proved unsatisfactory to one of their customers?

Do you know of a single national advertiser of food products from the breakfast food manufacturers to those of table delicacies that misrepresent to any degree the purity or palatableness of their products, but on the contrary, isn't a significant fact that they are constantly striving in every way to increase these qualities at an added expense, in order to attain as nearly as possible ideal conditions of manufacture from the standpoint of cleanliness, wholesomeness and purity of ingredients?

Isn't it true that every national clothing manufacturer strives to make his advertising conform, in so far as representations are concerned, to the character of his garments? Do you believe any representative clothing house in the country would endeavor to sell a cotton suit for all wool, even assuming the inability of the buyer to detect the difference?

What representative automobile manufacturer do you know of that grossly misrepresents any essential feature of the car he markets? It is true that even the use of the superlative in the qualifying adjectives has been practically discarded as bad form.

How many concerns would tolerate in their employ a salesman who misrepresented their goods to customers? How many concerns are there that would contract to furnish a buyer one thing and attempt to deliver something entirely different? How many concerns are there that ignore the policy of the square deal?

When Rufus Jones sent out a pair of shoes to his favorite mail order house, and sends his money in advance he had implicit confidence in the honesty and integrity of the institution he is doing business with, and knows that what he will get is what was advertised in the catalog.

The trademark and the trade name are virtually implied guarantees and have come to be considered as such. No manufacturers indelibly imprints his name on a product that he isn't prepared to guarantee, and in the final analysis what's the result? Buyer and seller deal on terms of mutual confidence based on the solid foundation of honesty and probity, and the policy of "Let the buyer beware" has never altered by time to read "Let the seller beware."

Business organizations today are becoming more and more permeated with the fundamental essentials of ethics, each one is building a composite character comprising all the ramifications of its activities.

What each institution should do is to develop what might be termed an institutional character, so that in dealing with its patrons they should know precisely what policy it would pursue in adjusting the various phases of differences which are bound to arise from time to time between buyer and seller.

Could there be any more incontrovertible evidence of the ethical tendencies in business than the action of the New York Times in absolutely giving a "money back" guarantee to every purchaser of goods advertised in their columns in the event of dissatisfaction on their part by reason of the character of the goods?

Is it evidence of existence of ethics in business when one of the large magazine publishing companies of the country absolutely refused their columns to one of the largest national advertisers because they refused to retract a statement made in an advertisement which the publisher considered questionable?

I believe that ethics is a vital, living force in business today and will extend its domain more and more in keeping with the tendencies of the day.

STORY OF THE GREAT YOLO BASIN CONCRETE TRESTLE.

It Bridges Over Three Miles of Marsh Lands and Unites the East and West Sides of Sacramento Valley.

[From the California Highway Bulletin.]

The completion of the Yolo Basin Trestle by the State Highway Commission was the occasion of a celebration May 11 to 14, 1916, in which practically the entire Sacramento Valley participated in the formal opening and dedication of this, the longest concrete trestle in the world.

For forty years the people of Sacramento Valley had been dreaming of the day when the basin would be permanently bridged, and at last the dream has come true.

The so-called Yolo Basin is flooded annually for six or eight months, and is a part of the great marshy district extending from a point some fifteen miles north of Marysville to Rio Vista,

a distance of more than 100 miles. The flooded territory is as wide as three miles in places.

South of the bridge at Meridian, which lies due west of Marysville, there has been no way of crossing the overflowed area in vehicles during the flood periods; and the east and west sides of the great Sacramento Valley have had no means of intercommunication by highway at such times.

For a few months during summer and fall, when the flood waters from the Sacramento have subsided and the marsh lands have dried out somewhat, a precariously passable road, known as the "Tule Jake" road, was the only means of crossing the basin.

It is unnecessary to say that "Tule Jake's" road was usually a concatenation of ruts and chuckholes.

Thus the reader from a distance may readily understand how the social and commercial interests of the Capital City have been hampered in and how the farmer on the other side has been denied access to the market center of California by this great Yolo Basin; and he no longer wonders that the building of a solid concrete trestle with asphaltic pavement across this marsh was the occasion of an event comparable in spirit and enthusiasm with the celebration of the opening of the Panama Canal by the nation last year. For in truth, in a local way, the Yolo Basin Causeway is even of larger significance to Sacramento Valley and Central California than the Canal is to the Country at large, slides or no slides.

The building of this trestle of concrete was in pursuance of the policy of the California Highway Commission to construct the State highway system in a durable manner, and choose routes that would most directly and strategically connect the centers of population, regardless of engineering difficulties and false theories of economy in first cost.

The design of this trestle was worked out by the engineering forces in the Commission's office in Sacramento.

The westerly 2,000 feet of the trestle is of timber construction for the reason that some day a levee to define the westerly margin of the Yolo By-pass is to be built. Thereafter an earth fill may be substituted for the wooden trestle.

Including this wooden portion, the entire trestle is over three miles in length, and is reported as stated to be the longest trestle in the world. Its average height is 20 feet and it provides a clear driveway of 21 feet in width.

The contract for the work was let July 31, 1914. Driving the wooden piles on the west end began November 1st of that year, and the first concrete pile was driven on January 3, 1915, and the last on October 1, 1915.

On Saturday, March 18, 1916, the general public was given the first and long looked for opportunity to use the trestle; and on the following day over 2,000 automobiles, conveying 8,000 people, traveled over it.

Nearly 1,100 carloads of material were used in the construction of this great bridge, including 21,692 tons of crushed stone, 12,553 tons of sand, 32,000 barrels of cement and 2,200 tons of reinforcing steel. These materials which cost \$148,000, were supplied by the Commission under its special half-

the first bid schedule agreement with the railroad company.

The contractors, the Graff Construction Company of Seattle, received \$246,000 under their contract. The total cost of the trestle was therefore a little under \$100,000.

The trestle is a structure resting upon reinforced concrete piles from 22 to 50 feet long, driven in groups of four abreast, called "bents," to an average depth of 20 feet. These piles are 14 inches square, the lower five feet being tapered to facilitate driving. They weigh from three to five and one-half tons each, according to length.

They were conveyed from the casting grounds to position by a narrow gauge railroad, especially built by the contractors for the purpose. The piles were cast with the ends of the heavy steel reinforcing bars projecting two feet from their tops. The two inside piles of each "bent" were driven vertical, the outside piles were sent down at a slant, giving the structure a widened and a braced foundation.

Each group of four piles is capped and bound together by a concrete cap. This cap is reinforced by heavy steel rods, and is cast in place, forming a solid monolithic member, with the projecting ends of the steel reinforcing bars of the piles embedded and anchored into the cap when cast.

Spanning the 20 feet from "bent" to "bent," the reinforced concrete floor slabs were placed directly upon the caps. These slabs weigh about six tons each. They are formed like a huge inverted box with side and end walls eighteen inches high and top six inches thick. Five of these slabs, side by side, bound by reinforcing steel and cement to the caps, form a practically solid stone structure three miles in length.

The precision of the lines and grades of the trestle have been favorably commented upon by many who have closely examined the work. As the piles and the guardrail stretch away out of sight across the watery wastes, one marvels at the skill displayed in driving the great concrete piles with such unvarying accuracy and at the assembling of all the bulky parts into a complete whole so that its lines and grades are as true as if the structure had been cast as a monolith.

This trestle, together with the connecting roadways, reduces the distance from Sacramento to San Francisco by automobile to 98 miles, a saving of 30 miles via Stockton and Altamont.

The run to Davis from Sacramento may be easily covered by auto in half an hour, and Woodland is now brought to within fifty minutes' driving time from the Capitol.

There is a double satisfaction to the public in knowing this very important and necessary structure, which would be cheap at almost any price, has been finished in the most creditable manner at a cost that under the present war market conditions would cost many thousands of dollars more than the State has paid for it.

Incidentally, this trestle stands as a very striking physical exhibit of the California Highway Commission's methods in disbursing the State highway funds.

GENERAL WOOD WRITES OF OUR LACK OF MENTIONS.

"I think the developments of the last year, both south of us and abroad, have indicated the desirability of a little better peace insurance," writes Major-General Leonard Wood, U. S. A., in the June number of *American Defense*, the monthly magazine published for the American Defense Society and which is on the news-stands this week. "There is nothing concrete, of course. But we are a good deal like a ship that is on an ocean, and wireless alarms of typhoons are coming in from all directions. We do not know when one is going to hit us. We know this, that if one does hit us we have not in any single particular—I make no exception whatever—adequate reserve materials for the first force we should have to call. We have about 700,000 Springfield rifles. We have also some 200-and-odd thousand Klangs. That is all we have. We ought to have behind us today, at least one additional rifle for each man. That is the minimum. The French estimate two. The capacity of this country for the manufacture of arms, if war came on now, would be vastly increased over what it was a year ago. This capacity will increase incident to the orders for arms from abroad, and probably by the end of April we shall be up to 7,000 or 8,000 a day."

"We are very short of field artillery and field artillery ammunition, alarmingly short of both, and if we should suddenly become involved in war we should be absolutely without a reasonable supply of either artillery guns or ammunition. Soldiers today without adequate artillery are as helpless as a lot of men armed with butcher knives."

"As for the new heavy mobile guns, we have not a single one in the United States. The condition in reference to field artillery and of all types of field-artillery ammunition is a cause for grave alarm. This has been repeatedly reported during the last few years."

THE EXPOSITION IN RETROSPECT.

Mr. Charles Moore, President of the Panama-Pacific International Exposition, has announced the publication of a volume by the Commission on "The Legacy of the Exposition." Over seven hundred of the most prominent Americans who visited the Exposition have briefly contributed to the volume their views and impressions. The contributors to this interesting little literary gem represent all the professions and business callings to be found in the diversified life of America.

Our great political leaders and statesmen, such as Theodore Roosevelt, Elihu Root, Champ Clark, Wm. Jennings Bryan and William Howard Taft contributed epitomes. Franklin K. Lane, Robert Lansing and other cabinet members are there with interesting lines. There is a beautiful tribute from Vice-President Marshall and President Wilson's Toast was not overlooked. General Goethals expresses his opinion of the Exposition and its purposes. The sentiments on the affair as viewed by many of our leading mayors, governors, United States senators, admirals of the navy, presidents of great universities, the leading jurists, inventors and scientists also appear.

There are interesting remarks by

some of the most prominent women of the country. The great captains of industry also occupy a place in the work.

The volume has been artistically done by one of the West's leading print shops, so that it will prove a delight to the eye as well as to the mind. There will be only a limited circulation of the book.

GOVERNMENT SAFETY FIRST TRAIN

WASHINGTON, July 4.—The Government Safety First special train, carrying a quarter of a mile of exhibits illustrating the various life and property saving activities of Uncle Sam, is just beginning a tour of the Missouri, Kansas and Texas and the Union Pacific Railway systems. More than a third of a million people have viewed the big show train in its swing around the Baltimore and Ohio system, which was completed on June 30.

The great success of this train, which has been crowded to its capacity at every stopping place, has led other railroad companies to request that the special be sent over their lines. Secretary of the Interior Lane, has made arrangements with the Baltimore and Ohio railroad officials that the train will remain sixty days longer in the hands of the Government, and has arranged that the train will go over the Missouri, Kansas and Texas railroad for thirty days and then for thirty days over the Union Pacific.

After the completion of this itinerary, the Safety First Special will be delivered to the Union Pacific Railroad and will go over this line for thirty days after which the train will be turned back to the Baltimore & Ohio railroad.

"I regret very much that it will be impossible to favor the other railroads that have applied for this train," said Secretary Lane today, "I also regret that I have been unable to give a favorable response to the multitude of civic organizations in many cities and towns that have asked for a visit of the train. This is due to the fact that the Federal Government does not own the train. I feel that we have been very fortunate in obtaining such generous co-operation with the Baltimore & Ohio railroad and in having been able to show the exhibits to so many citizens. If it had not been for the patriotic action of President Daniel Willard of the B. & O., the train would have been an impossibility, for the Federal Government did not have the quarter of a million dollars necessary to purchase such a train. I hope that the day will soon come when the Federal Government will feel that it can afford to own and operate such a train to the end that all of our people may have an opportunity to learn more about what their government is doing along these humanitarian lines."

Copies of the British Columbia act, respecting the inspection of steam boilers and engines, and the examining and licensing of engineers, and the British Columbia rules for the inspection of boilers and engines, have been received from the American consulate general at Vancouver and may be inspected at the Bureau of Foreign and Domestic Commerce or its district offices. Refer to file No. 77507.

Statement Of The Structural Steel Shops Of San Francisco And Bay Cities. As Submitted To And Approved By The Building Trades Employers' Association Of California. July 10, 1916.

For the information of the public we beg to submit herewith the following facts in connection with conditions existing in the Plants of the Firms fabricating structural steel in San Francisco and Oakland.

Up to the present time our men have been working nine hours per day but a strike is now in effect to enforce an eight hour day.

We have taken the stand that it is impossible for us to concede this eight hour demand or make any other concession and hope to remain in business for the reason that we now pay at least thirty-five per cent higher wages than our competitors located elsewhere who work nine and ten hours. In addition similar plants on the Pacific Coast and in the East with whom we are in direct competition are operated on an exclusive open shop basis, which means that there is no limitation of production.

Heretofore our Eastern competition has been limited principally to plants located around Pittsburgh and New York, but in addition we are now in competition with the entire Middle West due to a recent ruling by the Interstate Commerce Commission, permitting fabrication in transit, which means that a Structural Steel Plant, for example in Kansas City, can purchase material in Pittsburgh, ship it to their plant in Kansas City, fabricate and then re-ship it to San Francisco for the same freight rate that we pay

for the raw material shipped direct from Pittsburgh to San Francisco.

If we were to grant this demand our Eastern competitors would be able to take all the business of any moment offered in this market and our plants and our workmen would eventually be put out of business.

In view of the fact that the demand made on us is a forerunner of other demands to be made on other branches of the building industry, we feel that we should have the support of the business community and especially of property owners who ultimately pay the bills, and who heretofore have shown no interest in the conditions prevailing in the building business, but on the contrary in many instances have forced the employer to accede to unjust demands on the part of his employees.

The greatest difficulty with which we have to contend is not so much against the pressure brought by the strikers as against the pressure brought by the merchants and owners who demand that their buildings be completed and that their work go on in accordance with their contracts.

In conclusion we beg to call your attention to the fact that we are perhaps the last manufacturing industry in this vicinity in the iron and steel business attempting to cope with outsize competition.

STRUCTURAL STEEL EMPLOYERS OF SAN FRANCISCO AND BAY CITIES.

A SUCCESSFUL AUTOMOBILE TRUCK.

One of our greatest problems in the entire country west of the Rocky Mountains, and especially on the Pacific Slope, is the solving of our "Off the railroad" transportation needs. This is being largely and adequately handled by many of the famous F. W. D. trucks manufactured by the Four-Wheel Drive Auto Company of Clintonville, Wisconsin.

This enterprising firm was pre-eminent the first and foremost in the field of motor truck manufacturers in the country to have been successful in building a line of motor trucks that apply equal power to all four wheels using full floating axles.

This system of applying power results in a gain of practically 100% in traction efficiency, which gives one the idea of a rail-less locomotive with four powerful driving wheels, absolutely independent of tracks or even roads. All F. W. D. trucks seem to need is a driver and a place to go. This fact has been proven by the work of one thousand or more trucks now operating in the camps of the allies where they are performing the hardest kind of strenuous work that one could conceive of.

It is surprising to note that in building these trucks no gears or friction is used by the Four-Wheel Drive in delivering power to the front wheels, the power being applied by means of a

simple universal joint enclosed in a ball and socket which runs in grease. Thus the method of power application has been so contrived that the speed of the driving mechanism is gradually brought down, between the motor and the driving wheels so that when the maximum power is delivered at the driving wheels, the speed of the driving mechanism conforms to that of the driving wheels, thus eliminating all shock and strain. This feature is unique and exclusive in the Four-Wheel Drive Truck, and is acknowledged to be the secret of the low cost of operation and the small liability of breakage and excessive wear.

These Trucks are being handled by the Four-Wheel Drive Truck Co., located at 215 Golden Gate avenue, San Francisco, with Mr. J. E. Perkins as general manager of the local concern. They are being demonstrated to many of the large lumber and mining firms on the Coast and meeting with unprecedented success.

MECK COMPANY EXTENDS BUSINESS, WELL KNOWN MANUFACTURERS OF BANK AND OFFICE FIXTURES PURCHASE THE HERMAN CO. REPORT MUCH BUSINESS.

T. H. Meck Co., manufacturers and designers of store, office, bank and bar fixtures, has purchased the Herman Company, 251 and 261 Howard street, and

have a number of many improvements on the plant at the present time are working at full capacity. Mr. J. H. Meck, Superintendent of the Meck Co., reports the following work on hand: All interior work of the Southern Pacific Depot at Fresno, Cal., which include tile, marble and quartered oak finish, the Stockton Savings Bank, Stockton, Cal., all quartered oak interior finish, and a large store on Mission street for W. R. Davis, interior finish to be in Eastern gum.

SACRAMENTO ASSESSMENT.

SACRAMENTO—According to the report of Charles Mier, city assessor, the total valuation of personal property, improvements and lands in the city of Sacramento is \$600,000 less than they were last year. The figures of the assessor show the property to be valued at \$74,777,318, as compared with \$75,566,236 last year.

RUSH WORK ON IRRIGATION PROJECT.

ANDERSON (Shasta Co.)—Three hundred men and 400 horses are at work on James Williamson's contract on the Anderson-Cottonwood Irrigation District's canal.

The main canal is completed from Redding to Olney Creek, four miles south. A new camp has been established at Clear Creek, where the main crew is at work. The Anderson crew is very little smaller. These men are working in the neighborhood of Panorama Point, midway between Anderson and Cottonwood.

The lateral from the main canal to the Churn Creek siphon is completed.

On the east side of the river, McIntire and Vernon have completed six miles of lateral.

The district, which will build the siphon itself, is assembling material for beginning the work.

Bridges are being constructed by a contractor from Orland. Lumber is on the ground for building the forms for twelve concrete bridges. These bridges are ready for pouring cement.

EUREKA BUILDING TOTALS.

EUREKA, Cal.—Ira P. Thomson inspector of buildings for Eureka, has completed a report for building activity in Eureka covering the period from July 1, 1915, to June 30, 1916, inclusive, which shows that this city has had a rather progressive lot of construction, a total of \$144,377 having been spent.

One interesting feature of Thomson's report was that permits were issued for sixty-one residences ranging in price from \$100 to \$6,650.

Date	Permits	Amount
July	16	\$ 10,058
August	10	7,943
September	19	17,275
October	11	9,650

PREPAREDNESS IN THE SCHOOLS.

"Trust in God but keep your powder dry" was the advice of Cromwell, who was a hidebound puritan and a dogmatic churchman but a great military leader. "The Lord fights on the side of the strongest battalions" was the epigram of Napoleon, the greatest military genius of the world.

So as long as the millenium is not here and there are nations and peoples in the world whose aim is military supremacy, it is just as necessary that a nation make provision for its protection from invasion and the maintenance of the rights of its citizens throughout the world as it is for an individual to provide for his future physical welfare or for a frontiersman to protect himself against bandits, savages, and wild beasts.

Our good friends, the peace at any price advocates, have a good purpose in view. But one only has to reflect that this great world war is being waged by Christian nations, each of the warring nations insisting that God is on its side, and employing the aid of the gentle Nazarene, whose mission here was heralded by the divine message of "Peace on Earth, Good Will to Men."

So to most of us who exercise what little brain we have to view human history and human nature from a reasonable standpoint, the efforts of the pacifists to wish peace and good fellowship upon a world at war seems more or less ridiculous. In any event one can talk peace just as effectively if he is able to fight as he can if he refuses to put himself in condition to resist attack and allows himself to be imposed on by every hoodlum and bully whose sense of morality is that of the savage.

So aside from the maintenance of a respectable army and navy, an efficient organization of our industries the effect of military training upon the youth of the land is of the highest value, when given in such manner as the Swiss give it. And in this they begin in the schools at the age of ten, military drill without arms, and the qualities it is meant to imbue are these:

First—Obedience.

Second—Discipline.

Third—Physical fitness.

and who can say that these are not the first essential of success in any walk of life.

It is well for the pacifists to consider these three shining truths that are taught by the Switzerland of today which are quoted from an address by Mr. Frederick A. Kuenzli, formerly lieutenant in the Swiss army and teacher in the Swiss Public Schools, at the hearing of the Welsh Bill before the Senate and Assembly of the State of New York:

1. Switzerland's policy of preparedness has always been to the end of

keeping peace and preventing war. It has succeeded in those accomplishments.

2. Keeping her powerful military resources always in readiness Switzerland frustrates the ambition any neighboring power might have to attack her or to violate her neutrality, by means of her territory in the present war.

3. Preparedness founded on the training of the youth does not foster militarism or a desire for military aggression, but is a wonderful contribution to the vigor and vitality of the nation.

How can we better judge the efficacy of Switzerland's policy than by observing how she fared when that policy was put to the test? No more severe trial than that arising from the world struggle which has already lasted 19 months could come to a nation hemmed in, as is Switzerland, among the four great belligerent powers of Europe. Has Switzerland's policy of preparedness succeeded in this case?

Switzerland is at peace and will remain so.

Why did not Germany strike at France through Switzerland instead of through unprepared Belgium and detested Luxembourg?

What prevented France and Italy from invading Germany at her most undefended frontiers through Switzerland?

To both question the answer is the same:

The big powers know how tremendous an obstacle the well-drilled and equipped, efficient patriotic Swiss army manning the well-nigh impregnable fortifications of Switzerland would be to any invasion conducted through her territory.

What more logical than the Swiss System of preparedness should appeal peculiarly to us because Switzerland has been a republic for 624 years, and the Swiss people stand, like ourselves, as the guardian of liberty and living examples of the success of justice and orderly self-government.

Let us no longer lag behind our little sister of the Alps in this manner of preparedness! Let us reap the advantages we must reap if we take model from Switzerland and adopt her system of compulsory physical training in the public schools."

CALIFORNIA STATISTICS.

WASHINGTON—California possesses more than 10,000 manufacturing establishments producing annually manufactured products worth more than \$700,000,000, according to a report of the Census Bureau on manufactures in California in 1914. The population of California at the census of 1910 was 2,717,519 and the Census Bureau estimates that it was 2,758,000 on July 1, 1914.

APARTMENT HOUSES

SAN FRANCISCO—Apartment house, 3 story and base, brick and steel, \$25,000. Architect, W. G. Hind, 46 Kearny street, S. F. Owner, Dr. Clyde S. Payne. Location, northwest Seventh avenue and Judah, covering an area of 50 by 100 feet. Will contain 20 suites of two and three rooms. Plans complete and segregated figures being taken.

SAN FRANCISCO—Apartment houses, 2, 3 story and base, frame, \$11,950 each. Architect, none. Owner, F. W. Lurmann, 1370 Washington street, S. F. Location, south Sacramento west of Hyde, each covering an area of 27½ by 87½ feet. Will contain three apartments each. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Apartment house, 2 story and base, frame, \$25,000. Architect, Henry C. Smith, Humboldt Bank Bldg., S. F. Owner, Marcus Marcussen, Royal Insurance Bldg., S. F. Location, west Jones north of Washington, covering an area of 50 by 110 feet. Will contain 12 apartments of three and four rooms. Plans complete and owner taking segregated figures.

SAN FRANCISCO—Apartment house, 2 story and base, frame, \$25,000. Architect, August G. Headman, Cal Bldg., S. F. Owners, Graham & Rhine. Location, south Washington east of Presidio. Will contain apartments of five, six and seven rooms. Plans complete and figures being taken.

BERKELEY, ALAMEDA CO., CAL.—Apartment house, 2 story and base, frame, \$5,000. Architects, J. C. and Merrill Newsom, 1748 Broadway, Oakland. Owner, Mr. Shaw. Location, Ellsworth near Fulton. Will contain six apartments of three rooms each. Plans being prepared.

OAKLAND, CAL.—Apartment houses, 2, 3 story and base, frame and brick. Cost not stated. Architects, Sidney B. and Noble Newsom, Nevada Bank Bldg., S. F. Owner, J. M. Booth. Location, southeast corner 10th and Oak streets. Will contain two and three room apartments. Plans complete and in the hands of the owner who is letting contracts.

BERKELEY, ALAMEDA CO., CAL.—Apartment houses, 2, 3 and 4 story. Class C construction, \$65,000 and \$50,000. Architect, John W. Woollett, 1005 K street, Sacramento. Owner's name withheld. Preliminary plans only have been prepared. Further mention will be made of the work.

BERKELEY, ALAMEDA CO., CAL.—Apartment house and stores, 3 story and base, frame, \$25,000. Architects, O'Brien Bros., 210 Montgomery street, S. F. Owner's name withheld. Location, Channing Way. Will contain six stores and a number of two-room apartments. Plans complete and contract to be awarded at once.

LOS ANGELES, CAL.—Apartment house, 4 story and base, brick. Cost not stated. Architects, Peoples & Cheney, Haas Bldg., L. A. Owner, Miss

Ruby Cotner. Location, Coronado between Wilshire and Sixth streets, covering an area of 60 by 107 feet. Will contain 75 apartments of two and three rooms. Plans being prepared.

PASADENA, LOS ANGELES CO., CAL.—Apartment house, 2 story and base, frame. Cost not stated. Architects, Peoples & Cheney, Haas Bldg., L. A. Owner's name not given. Location, South Los Robles avenue, covering an area of 60 by 112 feet. Will contain 50 rooms arranged in 18 apartments of two, three and four rooms. Plans being prepared.

LOS ANGELES, CAL.—Apartment house, 2 story and base, brick. Cost not stated. Architect, Louis Blecher, L. W. Hellman Bldg., L. A. Owner, William G. Donald, Westley Roberts Bldg., L. A. Location, near Grand avenue and Adams. Will contain 16 apartments of five rooms. Garage in basement. Plans complete and figures being taken.

BONDS

MERCED, MERCED CO., CAL.—The Merced Union High School District bonds, amounting to \$150,000, have been sold by the County Supervisors to the Bank of Italy at a premium of \$9,723.50. The bonds bear 5 per cent interest and run from one to twenty years.

The proceeds of the sale will finance school improvements as planned by the Supervisors.

WOODLAND, YOLO CO., CAL.—The sewer and water bonds of \$61,000 have been sold by the City Council to E. H. Rollins of San Francisco, their bid being the highest of seven bidders. The premium offered was \$2,645.

RIVERSIDE, RIVERSIDE CO., CAL.—A committee has been appointed to devise ways and means of constructing a new pavilion in Fairmount Park. It is probable that a bond election will be called to raise the necessary funds.

TRACY, SAN JOAQUIN CO., CAL.—A petition, signed by a majority of land owners in the West Side Irrigation District, has been presented to the directors of the district, asking that an election be called to vote bonds of \$295,000 to construct the necessary ditches and installing the machinery needed to put water on the land.

ALHAMBRA, LOS ANGELES CO., CAL.—A special election will be held on August 3rd to vote bonds of \$225,000 with which to purchase the San Gabriel Valley Water Company properties.

SANTA ANA, ORANGE CO., CAL.—Bonds of \$20,000 were voted last week by the Talbert Drainage District. The proceeds of the sale of the bonds will purchase a dredger and lay a pipe line to the ocean.

COALINGA, FRESNO CO., CAL.—An election has been called for August 7th to vote bonds of \$5,000 for the building of a city hall and fire station.

\$5,000 for the purchase of a site for the proposed natatorium and \$14,000 for an auxiliary fire fighting system consisting of a 200,000 gallon reservoir and pumping plant.

REDWOOD CITY, SAN MATEO CO., CAL.—The County Supervisors have sold the \$65,000 bonds of the South San Francisco School District to the Lumberman's Trust Company. A new school will be erected from the proceeds of the sale.

SAN RAFAEL, MARIN CO., CAL.—The City Council at their last meeting destroyed the \$10,000 canal bond issue. In doing this the Council is preparing to make way for a new issue for channel and harbor work.

CULVER CITY, LOS ANGELES CO., CAL.—The State Board of Control has declined to take the \$35,000 bond issue of the Culver City School District on account of illegalities in the proceedings for the formation of the district. It is probable that another election will be called.

TURLOCK, STANISLAUS CO., CAL.—August 4th is the date set to vote bonds of \$100,000 to secure the necessary funds for the erection of a new high school.

OCEAN BEACH, SAN DIEGO CO., CAL.—The City Engineer will recommend to the City Council to call an election to vote bonds for the following improvements: A jetty to extend from the foot of Narragansett street a distance of 800 feet.

Another is to extend from the bridge over the entrance to Mission Bay a distance of 1750 feet. It will be six feet wide at the top. The plans also call for eight groins 200 feet apart to extend 200 feet into the ocean from the foot of Newport street. They are to be of timber planking bolted to reinforced concrete posts.

A reinforced concrete pleasure pier to extend from the foot of Narragansett street a distance of 800 feet. The second item also includes cement stairs from the cliffs of Narragansett street to the pier, a comfort station and a cement walk along the beach a distance of two blocks.

The estimated cost of the jetties is \$87,000. The estimated cost of the pier, comfort station and walks is \$38,000.

ALPAUGH, TULARE CO., CAL.—The \$283,000 bond issue recently authorized by the voters of the Alpaugh District has been declared legal by Judge L. A. Allen.

BRIDGES, DAMS AND HARBOR WORK

BEXICIA, SOLANO CO., CAL.—Bridge, steel and concrete. Cost not stated. Engineer, County Surveyor, Fairfield Owners, Solano County. At the last meeting of the County Board of Supervisors the plans and specifications for a new bridge across Platis Creek, road No. 125, Elmira Township, new bridge on road No. 310, Denver-ton

Township, and new bridge in Silveyville township to replace the Lacy bridge, were ordered approved, and the Clerk directed to advertise for bids for said work, bids to be opened on August 7th. Plans for the work together with full information may be had from the County Clerk at Fairfield.

YREKA, SISKIYOU CO., CAL.—Bridge, steel and concrete. Cost as follows. Engineer, County Surveyor, Yreka, Owners, Siskiyou County. All bids received by the Board of County Supervisors for the construction of the proposed Quigley suspension bridge have been rejected and new bids will probably be called for. The following bids were received: William Stephens of Redding for building bridge according to plans, \$6,700, alternate bid, substituting steel towers, \$7,906, Portland Bridge Company, by R. E. Meith, for building bridge with wooden towers, \$5,400; for building bridge with towers as per plans, \$6,000.

TACOMA, WASH.—Bridges, steel. Cost as follows. Engineer, City Engineer, Tacoma, Owners, City of Tacoma. The Washington Paving Company of Seattle was low bidder on both the Division and Trent street bridges with A. C. Biegle & Co. of Spokane second on both jobs. In both cases the bids are below the estimate. Awards will wait on a complete tabulation of proposals. The two bids were as follows: Washington Paving Co., Division street, \$108,445; Trent avenue, \$92,643. A. C. Biegle & Co., Division street, \$109,987; Trent avenue, \$96,341.

SAN RAFAEL, MARIN CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, City Engineer, San Rafael, Owners, City of San Rafael. The City Council at its last meeting instructed the City Manager to prepare plans and specifications for a full width concrete bridge for C street.

BAKERSFIELD, KERN CO., CAL.—Bridge, timber. Cost not stated. Engineer, County Surveyor, Bakersfield, Owners, Kern County. Bids will be opened on August 9th for the construction of a 150-foot pile bridge over what is known as Buttonwillow Slough at Old Headquarters, in Section 12, Township 20 South, Range 21 East, Mount Diablo Meridian.

Contracts Awarded.

SAN FRANCISCO—Bridge repairs, \$58,297. Engineers, Galloway & Markwart, First National Bank Bldg., S. F. Owners, Northern Electric R. R. Co., John P. Coghlan, Receiver. Contractors, Missouri Valley Bridge and Iron Co., Leavenworth, Kansas. Contract price, \$58,297.

REDDING, SHASTA CO., CAL.—Bridges, reinforced concrete. Cost as follows. Engineer, County Surveyor, Redding, Owners, Shasta County, Contractor, William Stephens, Redding. Contract price, Clover Creek bridge, \$2,417; Stillwater bridge, \$3,547.

VISALIA, TULARE CO., CAL.—Bridge, timber and reinforced concrete. Cost as follows. Engineer, County Surveyor, Visalia, Owners, Tulare County. The County Supervisors have awarded the following bridge contracts: To Johnson Bros., Kingsburg, at \$10,182 for the construction of the Rockford bridge in Road District No. 1. struction of the Elk Bayou bridge on his bid of \$1,524.50. To Nate Lovelace, Visalia, for the construction of the Elk Bayou Canyon bridge at \$1,166.

FACTORIES AND WAREHOUSES

OAKLAND, CAL. Bank house and shed, 2-story, frame, \$2,000. Architect none. Owner, Joe Martin, 2241 Valley street, Oakland. Location, east Magnolia between 24th and 26th streets. Plans complete and work to be done by Day Labor.

LOS ANGELES, CAL.—Warehouse, 2-story and base, brick and steel. Cost not stated. Architect, William Kerr, L. A. Owners, The Eastern Outfitting Co., 620 South Main street, L. A. Location, Enterprise street and Santa Fe avenue, covering an area of 90 by 110 feet. Plans complete and work to be sublet by owners.

Contracts Awarded

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—Rice mill, 2 and 4-story, mill construction, \$18,900. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owners, Growers Rice Milling Corporation, Contractors, Val Franz & Son, 180 Jessie street, S. F. general construction, \$13,700. Lamp, burth, piling, \$3,300. Special machinery to be let by owners.

FLK HOUSES AND JAILS

Contracts Awarded

REDWOOD CITY, SAN MATEO CO., CAL. Jail equipment, \$17,604. Architect, Will H. Toepke 16 Kearny street, S. F. Owners, San Mateo County. Contractors, Paul Jail Co., S. F. Contract price, 17,604.

GARAGES

Contracts Awarded

SAN FRANCISCO—Garage alterations, 2-story, reinforced concrete \$17,000. Architect, Henry H. Gutterston, 278 Post street, S. F. Owners, White Co. Contractors, Moore & Burlingame, 110 Jessie street, S. F. Contract price, \$17,000.

GOVERNMENT WORK & SUPPLIES

Power and Pumping Equipment.

Power and pumping equipment for Grandview irrigation district, Sunnyside unit, Yakima project, Wash., bids received at Denver, Colo.:

Schedule 1—Electrical Apparatus.

Item 1, 1 187-k. w. a. gen. and ex.; 2, 3 60-kv-a. single-phase transformers; 3, switchboard equipment; 4, combination bid for all apparatus in schedule 1.

General Electric Co., Schenectady, N. Y., item 1, \$5,112; 2, \$1,472; 3, \$3,420; 4, \$12,190.

Westinghouse Electric & Mfg. Co., Pittsburgh, Pa., item 1, \$2,900; 2, \$1,230; 3, \$3,000; 4, \$7,120.

Fairbanks, Morse Co., Denver, Colo., item 2, \$1,482.

Pittsburgh Transformer Co., Pittsburgh, Pa., item 2, \$1,152.

Schedule 2—Hydraulic Apparatus.

Item 1, hydraulic turbine, 270 h. p., 600 r. p. m., 73 ft. head; 2, direct pumping unit, using 110 sec ft., at 21 ft. head, pumping head 78 ft.; 3, 10 sec ft., 78-ft. lift pump and motor; 4, 10 sec ft., 55-ft. lift pump and motor; 5, 10-ton hand-power traveling crane.

S. Morgan Smith Co., York, Pa., item 1, \$4,500; 2, \$8,300.

The Trump Mfg. Co., Springfield, Ohio, item 1, \$3,250.

Delton Water Wheel Co., item 1, \$4,865; 3, pump \$1,065, G. E. Mot., \$1,088; W. H. Mot., \$962; total G. E. \$2,153; total W. H., \$2,027; item 4, \$1,065, \$1,065, \$901, \$2,161, and \$1,997.

Fairbanks, Morse Co., item 3, pump, \$655, total \$1,880; 4, \$635 and \$1,745.

Cyclops Iron Works, Denver, Colo., item 5, \$675.

Whiting Foundry Equipment Co., item 5, \$735.

Brown Hoisting Machinery Co., item 5, \$750.

Niles-Bement-Pond Co., item 5, \$1,315.

Schedule 3—Steel Work, Etc.

Item 1, riveted steel pipe; 2, cast iron head gates; 3, trash racks; 4, combination bid for all material in schedule 3.

Western Pipe and Steel Co., item 1, \$2,713; 2, \$525; 3, \$670; 4, \$3,900.

Vulcan Iron Works, Denver, Colo., item 2, \$420.

Trump Mfg. Co., item 2, \$510.

Judson Mfg. Co., San Francisco, Cal., \$397.

Schedule 4—Erection of Electrical Apparatus.

General Electric Co., \$2,200.

Westinghouse Electric & Mfg. Co., \$270.

Prospective Bidders—Supervising Architect.

Specifications for work under the office of the supervising architect have been furnished to the following firms in addition to those previously noted in these columns:

Portland, Ore., Construction, August 7.

Puget Sound Bridge and Dredging Co., Central Building, Seattle, Wash.

Spalding Construction Co., Rialto Building, San Francisco, Cal.

Olson & Johnson Co., Missoula, Mont.

Bayarjohn-Arnold Co., Medical Lake, Wash.

Campbell Building Co., Salt Lake City, Utah.

J. H. Wiese, Omaha, Neb.

Norman Ker Co., 1123 Broadway, New York City.

Hans Pederson, Alaska Building, Seattle, Wash.

M. Yeager & Son, Danville, Ill.

MacRae Bros., American Bank Building, Seattle, Wash.

O. H. Olsen, Stillwater, Minn.

Pearson Construction Co., 754 New York Block, Seattle, Wash.

C. S. Moffitt, Palestine, Tex.

Thomas W. Cissel, Wooster, Ohio.

Ward & Goodwin, 110 Jessie street, San Francisco, Cal.

John Wallin, Tacoma, Wash.

Grant Fee, 2440 16th street, San Francisco, Cal.

Sound Construction and Engineering Co., 12 Union street, Seattle, Wash.

Henry Ericson Co., City Hall Square Building, Chicago, Ill.

The William Dall Co., Marion Building, Cleveland, Ohio.

George Curley, Kearns Building, Salt Lake City, Utah.

George Eckman, Mutual Life Building, Seattle, Wash.

William H. Maxwell, Lakeside, Wash.

George Baker Long, State Mutual Building, Worcester, Mass.

L. P. Hobart, 1122 Crocker Building, San Francisco, Cal.

Portland, Ore., Mechanical Equipment, August 7.

The Turner Co., 27 S. Omaha street, San Francisco, Cal.

McPhee McKinnon Co., Labour Building, Seattle, Wash.

Thomas J. Sheehan Co., 1428 Olive street, St. Louis, Mo.

Campbell Building Co., Salt Lake City, Utah.

General Heating and Ventilating Co., 121 Jefferson street, Milwaukee, Wis.

Healy Plumbing and Heating Co., St. Paul, Minn.

The G. A. Kees Domestic Engineering Co., 260 E. 7th street, St. Paul, Minn.

S. Faith & Co., 117 Pennsylvania avenue, Philadelphia, Pa.

W. G. Connel Co., Southern Building, Washington, D. C.

L. P. Hobart, Crocker Building, San Francisco, Cal.

M. Yager & Son, Danville, Ill.

Bids will be opened on July 24th at 8 p. m. for the furnishing of the labor and materials and doing the work for the construction of a storm water sewer in East 14th street, from Juana avenue to Maud avenue.

SAN LEANDRO, ALAMEDA CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, San Leandro. Owners, City of San Leandro. Bids will be opened on August 7th at 3 p. m. for construction authorized under the following resolution: That Williams street, from the west line of Martinez street to the west boundary line of the city of San Leandro, be sewerd along its center line with a 6-inch (internal diameter) sewer pipe; also 1 brick manhole, 1 brick flush tank, having a cast iron top and equipped with a No. 2 "Walker siphon," 1 lamphole, having a top of cast iron and brick; Y branches, each having 4-inch openings and house drains 4-inch (internal diameter) sewer pipe be constructed.

RICHMOND, CONTRA COSTA CO., CAL.—Sewer construction, \$125,000. Engineer, City Engineer Chapman, Richmond. Owners, City of Richmond. Plans for the proposed storm and sanitary sewers to be laid in 10th street have been completed by City Engineer Chapman and will be presented to the City Council at their meeting next week. The sewer will drain that property north and east of 10th street and

will empty into the inner harbor. The sewer will be constructed of brick, pipe and concrete.

SAN RAFAEL, MARIN CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, San Rafael. Owners, Marin County. County Surveyor Richardson reports that he is preparing plans and estimates for upgrading the Bolinas road from the top of the ridge down to Bolinas. At the present time the road is narrow and crooked, and has a maximum grade of 15%. Richardson is also preparing plans for reggrading the road from Alto Station to Belvedere. The plans will be presented to the Supervisors shortly for approval, when bids will be called.

BURLINGAME, SAN MATEO CO., CAL.—Culverts, etc. Cost not stated. Engineer, Town Engineer, Burlingame. Owners, Town of Burlingame. At the last meeting of the City Trustees, plans and specifications were adopted for the improvement of Elm avenue where a culvert and gutter are required and are to be built jointly by this city, Hillsborough and the county. The same action was taken on the plans and specifications for the construction of a storm sewer along Burlingame Creek. Bids will be called for within the next few days on this work.

FRESNO, FRESNO CO., CAL.—Furnishing cement. Cost as follows. Engineer, County Surveyor, Fresno. Owners, Fresno County. Four bids were submitted to the County Supervisors for furnishing 2,295 barrels of cement for county use. Bids were received from the following firms: The Standard Portland Cement Co., Henry Cowell Line and Cement Co., Pacific Portland Cement Co., and the Santa Cruz Portland Cement Co. All of the bids were the same, or amounted to the same. All bidders said they would furnish the county 2,295 barrels of cement for \$2.83 a barrel. Three bidders said they would furnish the cement for \$2.83 a barrel in burlap bags and one bidder said he would furnish the cement for \$2.53 a barrel in paper bags. A refund of 75c a bag is paid for the return of burlap bags and it takes four bags to make a barrel. The matter was put over to July 11th for investigation.

MERCED, MERCED CO., CAL.—Lighting system. Cost not stated. Engineer, Charles T. Phillips, Pacific Bldg., S. F. Owners, Town of Merced. The City Trustees have commissioned Charles T. Phillips, an electrical and illuminating engineer to outline plans for the formation of the proposed lighting district. The purpose of forming the district is to obtain a system of electroliters. The design, number, size and location of the electroliters will be left up to Phillips.

SANTA CRUZ, SANTA CRUZ CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Santa Cruz. Owners, City of Santa Cruz. Bids will be opened on July 25th for street improvements authorized under the following resolutions: That High street, between Storey and Spring street, be improved by the construction of two reinforced concrete retaining walls. Wall No. 1—96 cubic yards reinforced concrete; wall No. 2—264.5 cubic yards reinforced concrete. All steel for reinforcement shall be square twisted steel bars of sizes and dimensions shown on plans.

Los Angeles, CAL. Highway improvement, \$86,575.11. Engineer, County of Los Angeles. Owner, Los Angeles County Contractors, P. A. and C. H. H. Ward, 2128 Sacramento Street, Los Angeles. Contract price, \$86,575.11.

MANHATTAN BEACH, CAL. JOS ANGELES CO., CAL. Paying, \$9,950. Engineer, Town Engineer, Manhattan Beach. Owners, Town of Manhattan Beach. Contractors, The California-Arizona Construction Co., 1500 East Washington street, L. A. Contract price, \$30,950.

TUCSON, ARIZ. Santos, and outfall sewers. Cost as follows. Engineer, City Engineer, Tucson. Owners, City of Tucson. Contractor, T. J. Shea, 1800 South Oxford street, L. A. Contract price, \$115,362.50 for vitrified pipe and \$112,381.79 for concrete pipe is used.

MODESTO, STANISLAUS CO., CAL.—Paving. Cost as follows. Engineer, County Surveyor, Modesto. Owners, Stanislaus County. Contractor, Edward M. Chaboune, 503 Market street, S. F. Contract price, 15c per square foot and 16c per square foot.

RICHMOND, CONTRA COSTA CO., CAL.—Sewer construction, \$20,000. Engineer, City Engineer, Richmond. Owners, City of Richmond. Contractors, F. R. Ritchie & Co., Chronicle Bldg., S. F. Contract price, \$20,000.

SAN JOSE, SANTA CLARA CO., CAL.—Street improvement, \$2,850. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. Contractors, A. J. Raiesch Improved Concrete Co., Crocker Bldg., S. F. Contract price, \$2,850.

SALINAS, MONTEREY CO., CAL.—Road improvement, \$2,810. Engineer, County Surveyor, Salinas. Owners, Monterey County. Contractors, Kunze & Haggard, Salinas. Contract price, \$2,810.

OAKLAND, CAL. Street improvements. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Contracts for street improvements have been awarded under the following resolutions. That 50th avenue, from the southwest line of East 12th street to a straight line drawn from the intersection of the southeast line of 50th avenue with the southwest line of East 10th to a point on the northwest line of 50th avenue distant thereon 30,114 feet northeast from the northeast line of East 10th street, be graded, curbed with redwood concrete gutters 3 feet wide and paved with oil macadam; also corrugated iron and concrete culverts, each having two branches. Awarded to The Ransome-Crummey Co., First National Bank Bldg., Oakland.

That a sewer having an internal diameter of 8 inches be constructed along the center line and its production of 15th avenue, from the center line of Clement street to a point 360 feet northeast therefrom, measured parallel to the northwest line of said 15th avenue; also a lamphole with a brick and cast iron top and Y branches, having 3-inch openings, be constructed. Awarded to M. P. Cambor, 1044 91st avenue, Oakland.

That portions of 32nd avenue be graded, curbed with redwood, concrete gutters 3 feet wide and paved with oil macadam; also vitrified pipe conduit be constructed, brick storm water inlets with cast iron tops, a brick manhole with cast iron top. Awarded to The Ransome-Crummey Co., First National Bank Bldg., Oakland.

EUREKA, HUMBOLDT CO., CAL.—Highway grading, \$2,679. Engineer, County Surveyor, Eureka. Owners, Humboldt County. Contractor, James Hartley, Eureka. Contract price, \$2,679.

FRESNO, FRESNO CO., CAL.—Furnishing cement. Cost as follows. Engineer, County Surveyor, Fresno. Owners, Fresno County. Contractors, Henry Cowell Lime and Cement Co., 2 Market street, S. F., 2,205 barrels at \$2.53 in paper bags and \$2.83 in burlap bags.

LOMPOC, SANTA BARBARA CO., CAL.—Sewer system, \$36,602.92. Engineer, Town Engineer, Lompoc. Contractors, Chambers & Heafey, Bacon Bldg., Oakland. Contract price, \$36,602.92.

STORES AND OFFICES

SAN FRANCISCO — Stores, 1 story and base, brick, \$9,000. Architect, T. Patterson Ross, 310 California street. Owners, J. B. Treadwell Co. Location east Valencia south of 14th, covering an area of 70 by 100 feet. Will contain three stores and a large shop. Plans complete and segregated figures being taken.

SAN FRANCISCO—Stores and lofts 3 story and base. Class C construction, \$17,000. Architect, Chester H. Miller, First Savings Bank Bldg., Oakland. Owner, E. A. Howard. Location, west Mission south of Main. Will contain stores on the first floor and light lofts above. Plans complete and figures being taken.

FRESNO, FRESNO CO., CAL.—Stores 1 story and base, brick and steel, \$7,000. Architects, Glass & Butler, Rowell Bldg., Fresno. Owner, F. E. Mitchell, S. F. Location, Tulare and M streets, covering an area of 42 by 63 feet. Plans being prepared.

FRESNO, FRESNO CO., CAL.—Store alterations and addition, brick, \$2,000. Architect, none. Owner, D. Yezdan, 1115 K street, Fresno. Work will consist of interior and exterior alterations. Plans complete and work to be done by Day Labor.

LOS ANGELES, CAL.—Market buildings, 2, 6 story and base, reinforced concrete. Cost not stated. Architect, John Parkinson, Security Bldg., L. A. Owners, Los Angeles Union Terminal Co. Location, Seventh and Central avenue, covering an area of 80 by 1250 feet and 40 by 1500 feet. Plans complete and separate bids being taken for general construction, plumbing, electric work, sprinkler systems and heating.

Contracts Awarded.

SEATTLE, WASH.—Market, 1 story and base, concrete and tile, \$29,781. Architects, Stephen & Stephen, New York Block, Seattle. Owners, Pine Street Investment Co. Contractors, Finne & Gjarde, Northern Bank Bldg., Seattle. Contract price, \$29,781.

THEATRES

SAN FRANCISCO—Motion picture theatre and stores, 1 story, base and mezzanine floor, reinforced concrete \$54,000. Architect, Charles C. Frye, 21 Montgomery street, S. F. Owner, Mrs. Mary E. Seidel. Location, southwest 10th avenue and Clement, covering an area of 50 by 150 feet. Will contain ten stores and a theatre seating 1500 people. Plans being prepared.

SACRAMENTO, CAL.—Theatre alterations. Class A construction, \$60,000. Architect, E. C. Hemmings, 1201 J street, Sacramento. Owners, Heilborn Estate. Location J street between 5th and 6th streets. Work will

consist of complete interior alteration, exterior work and mechanical equipment. Plans being prepared.

SEALED PROPOSALS

PROPOSALS FOR BUILDING.

BUILDING—Department of the Interior, Office of Indian Affairs, Washington, D. C.—Sealed proposals plainly marked on the outside of the sealed envelope "Proposals for School and Quarters Building, Camp Verde, Ariz.," and addressed to commissioner of Indian Affairs, Washington, D. C., will be received at the Indian Office until 2 o'clock p. m. of July 28, 1916, for furnishing materials and labor for the construction of a combination store day school and quarters building in strict accordance with the plans, specifications and instructions to bidders, which may be examined at the United States Indian warehouse at San Francisco, Cal., and at the office of the superintendent of the Camp Verde Indian School, Camp Verde, Ariz. For further information apply to the superintendent of the Camp Verde School, CATO SELLS, commissioner.

PROPOSALS FOR RADIO MAST.

RADIO MAST—Sealed proposals, inclosed "Proposals for Radio Mast," will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m. July 22, 1916, and then there publicly opened for one wooden radio mast at the naval radio station, North Head, Wash. Plans and specifications can be obtained on application to the bureau or to the commandant of the navy yard, Bremerton, Wash. F. R. HARRIS, chief of bureau.

PROPOSALS FOR DREDGE.

DREDGE—Sealed proposals, inclosed "Proposals for Dredge," will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m. August 12, 1916, and then there publicly opened for a gravity swing 1-ton bucket dredge for the navy yard, Mare Island, Cal. Plans and specification can be obtained on application to the bureau or to the commandant of the navy yard, named. F. R. HARRIS, chief of bureau.

PROPOSALS FOR BUILDING.

BUILDING—Sealed proposals, inclosed "Proposals for Superintendent's Residence and Hatchery Building, Springville, Utah," and inclosed in an envelope addressed to commissioner of fisheries, Department of Commerce, Washington, D. C., will be received at this office until 2 o'clock p. m. July 28, 1916, and then opened, for the construction of superintendent's residence and hatchery building at the fisheries station, Springville, Utah. For blank proposals, specifications, etc., address commissioner of fisheries, Washington, D. C.

SALE OF MATERIALS.

PANAMA CIRCULAR 1057 — Proposals for the Purchase of Locomotives Offered for Sale by the Panama Canal and Which Are No Longer Needed.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m. August 23, 1916, at which time they will be opened in public, for purchasing the above mentioned articles. Blanks and general information relating to this circular (No. 1057) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal.; E. L. BROWN, major, corps of engineers, U. S. army general purchasing officer.

PROPOSALS FOR ELEVATOR.

ELEVATOR—Sealed proposals, inclosed "Proposals for Elevator," will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m. July 29, 1916, and then there publicly opened, for one electric freight elevator at the navy yard, Mare Island, Cal. Plan and specification can be ob-

tained on application to the bureau or to the commandant of the navy yard named, F. R. HARRIS, chief of bureau.

NOTICE TO ELEVATOR DEALERS.

SEALED PROPOSALS will be received at the Bureau of Yards and Docks, Navy Department, Washington D. C., until **July 20, 1916**, for one electric freight elevator at the navy yard, Mare Island, Cal. Plans and specifications may be obtained on application to the Bureau of Yards and Docks or to the commandant of the navy yard named.

PROPOSALS FOR BUILDING.

OFFICE of the Clerk of the Board of Supervisors, Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office until **10 o'clock a. m., on Monday, August 7th, 1916** (the day when said bids will be opened), for the construction of an Annex to the Hall of Records, situated at Fifth and Broadway Streets, in the city of Oakland, County of Alameda, State of California.

Bids will be received on each of the following departments of work:

Department No. 1—Excavating, brick work, stone work, concrete work, carpenter work, mill work, glass, stairs, steel fire doors, ornamental and miscellaneous iron and steel work, window guards, plastering, lathing, cementing, damp-proofing, foundation, roofing, sheet metal, skylights, hardware, painting, tinting.

Department No. 2—Plumbing, drains and gas fitting.

Department No. 3—Electrical work.

Department No. 4—Marble work, tiling.

Department No. 5—Heating.

Department No. 6—Elevator work.

Department No. 7—Well boring and casing.

Complete plans and specifications for each of these separate departments of work are on file in the Hall of Records Building, Oakland, where copies may be obtained, by depositing with the County Clerk the sum of Ten Dollars (\$10.00). Contractors will be restricted as to the length of time they may retain these plans and specifications to twelve (12) days on department No. 1 and to five (5) days on all other departments.

Contractors failing to return said plans and specifications within said time limit will forfeit their deposit. The entire amount of the deposit will be returned to contractors returning plans and specifications in good condition within said time limits.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid, certified to by some responsible bank, and made payable to Geo. E. Gross, Clerk of the Board of Supervisors of Alameda County, to be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

Dated June 20, 1916. (Seal)
GEO. E. GROSS,
Clerk of Board of Supervisors of the County of Alameda.

STATE PURCHASING DEPARTMENT NOW HANDLES ENGINEERING CONTRACTS.

State Purchasing Agent W. G. McMullin has taken over the purchasing department of the state engineering department, this being the last outstanding unit that he was instructed to absorb. W. S. Ormsby, who has been at the head of the engineering purchasing department for nearly two years, is settling up unfinished business. The department purchased about \$2,000,000 worth of supplies for road and other work annually.

"The department has grown by leaps

and bounds," said McMullin, "and it is necessary to keep a large office force continuously to handle the business. The legislature's appropriation of \$50,000 will prove inadequate to run the purchasing department for the biennial period, and it is certain that an emergency appropriation will be levied to carry the department over to the next session of the legislature."

FRESNO PREPARES FOR BOND ELECTION.

FRESNO, Cal.—It is probable that Fresno county will not vote on the good roads bond issue on August 29, the date originally suggested, as it is thought that it will be inadvisable to bring the proposition up on that date. It was tentatively arranged to hold the election the same day as the primaries on grounds of economy. The bond issue will be for \$3,500,000.

SIGN PAINTER IN BAD; WORK TOO REALISTIC.

DAWLEY (Mich.)—The remarkable genius of Joshua Tripe, the village sign painter, may result in a suit for damages being brought against the village. Tripe a few days ago completed a mail course in sign painting, and to show his skill painted a board fence on the side of a barn standing along the main street. It looked so natural that several farmers have skinned their knuckles trying to hitch their teams to it, and event birds have attempted to light on it, slipping down the sides of the barn to the grounds and flying away in disgust.

The climax came, however, when Tripe's bulldog chased a stranger down the street, who, in trying to get away, attempted to jump the supposed fence and nearly knocked his brains out.—Exchange.

LEMBUR PRODUCTION.

CHICAGO—The monthly compilation of lumber production of the United States, made by the National Lumber Manufacturers' Association for May, 1916, completed recently shows an increase of production over shipments for both hard and soft woods. The total cut of both varieties by 621 mills was 1,452,700,000 feet. Shipments were 1,351,200,000. This is a total excess of production of 7 5-16 per cent. Soft wood excess was 6 1-10 per cent and hardwood excess 27 2-10 per cent.

THOMAS A. EDISON URGES A NATIONAL DEFENSE LABORATORY

"I shall not make any argument for a research laboratory for national defense, but I will tell you just what it will do," writes Thomas A. Edison in the June number of *American Defense*, the monthly magazine published for the American Defense Society which is on the newsstands this week. "Some of my colleagues here will probably make an argument for it, but I will tell you what it will do. The object of the laboratory is to perfect all the different details, or one unit of all the war machinery, and do it quickly. My methods are probably different from anybody's else in laboratory work. When I want to make a thing quickly, I put a hundred men on it instead of a few men, to carry it along for weeks or months; I

put everybody in the line of work. If the longest thing takes ten hours, then in fifteen hours I have got my machine, because I put a man on every part.

Now, I think the best way in this laboratory is to perfect all the units of the war machinery, and carry out that idea of putting all the men you can on it at once, and get it done. * * *

"Fortunately, in the Navy you, of course, have expert and educated men, and if you give them the right thing you will never have any trouble with that thing, if properly instructed. As it is now, you get something and it breaks down, and you have got to take it into the repair yard and change it all over, and that is expensive. If you will make one unit here, it is inexpensive, and you will know what you have if you order a hundred."

RIG BRIDGE PROJECT PLANNED.

YUBA CITY (Sutter Co.)—Super-visor Frank Graves, who has interested himself in the movement inaugurated by the Live Oak Chamber of Commerce to build a new bridge over Feather River near Live Oak, is in receipt of an engineer's estimate which shows the probable cost of the structure to be \$129,650, or a cost to each county, if Yuba County agrees to join in the work, of \$60,225.

This is figuring on three 150-foot spans and four cylinder piers of reinforced concrete, with wood floor on the spans to be covered with asphalt. In addition there would be a 250-foot cased pile trestle on the Sutter side and a 5,460-foot trestle on the Yuba side.

RECLAIM RIG TRACT IN MADERA.

MADERA, Cal.—More than eighty thousand acres of land in Madera county will be reclaimed on the Chowchilla ranch within the near future. The owners of the ranch propose to form a reclamation district which will mean the expenditure of \$400,000 in building sloughs and levees along the San Joaquin river—to drain the over-look land and protect it from the river.

1,015 SURVEYORS.

SACRAMENTO, Cal.—A pamphlet issued by State Surveyor General W. S. Kingsbury shows there are 1,015 licensed land surveyors in the State of California. The pamphlet gives the names of the surveyors, their addresses and the date of their licenses.

PLAN MILLION DOLLAR POWER PLANT IN SPOKANE.

SPOKANE, Wash.—H. S. Stoolfire, Secretary and Treasurer of the Spokane Valley Power Co., assures the development of the smelter power site on the Spokane, five miles down the river, at a cost of \$1,500,000, as a condition to the passage of an electric lighting, power and steam heating franchise filed with the city clerk. The engineering work has been completed. This company is composed of Spokane people. The project will develop over 25,000, 60 per cent load factor horse power. Officers are: J. D. Sherwood, President; D. M. Drumheller, Vice President; H. A. Stoolfire, Secretary and Treasurer.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

APARTMENT HOUSE—2 story and base, brick and steel, \$25,000. San Francisco. Architect, W. G. Hind, 46 Kearny street, S. F. Owner, Dr. Clyde S. Payne. Location, northwest Seventh avenue and Judah, covering an area of 50 by 100 feet. Will contain twenty suites of two and three rooms. Plans complete and segregated figures being taken.

APARTMENT HOUSES—2, 3 story and base, frame, \$11,950 each. San Francisco. Architect, none. Owner, E. W. Lurmann, 1370 Washington street, S. F. Location, south Sacramento west of Hyde, each covering an area of 27½ by 87½ feet. Will contain three apartments each. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE—3 story and base, frame, \$35,000. San Francisco. Architect, Henry C. Smith, Humboldt Bank Bldg., S. F. Owner, Marcus Marcussen, Royal Insurance Bldg., S. F. Location, west Jones north of Washington, covering an area of 50 by 110 feet. Will contain 12 apartments of three and four rooms. Plans complete and owner taking segregated figures.

APARTMENT HOUSE—3 story and base, frame, \$25,000. San Francisco. Architect, August G. Headman, Call Bldg., S. F. Owners, Graham & Rhine. Location, south Washington east of Presidio. Will contain apartments of five, six and seven rooms. Plans complete and figures being taken.

RESIDENCE—2 story and base, frame, \$2,000. San Francisco. Architect, none. Owner, Miss M. O'Neal, 1950 Washington street, S. F. Location, west 34th avenue south of Clement. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$10,000. San Francisco. Architect, Henry H. Gutterson, 278 Post street, S. F. Owners, St. Francis Home Building Co. Location, St. Francis Woods. Will contain ten rooms, three baths, sleeping porch and separate garage. Plans nearly ready for figures.

RESIDENCE ALTERATIONS—Frame \$2,000. San Francisco. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner, Mrs. Haskins. Location, 1610 Hayes street. Work will consist of new interior and exterior work. Plans being prepared.

SANITARY AND OUTFALL SEWERS—Cost as follows. Tucson, Ariz. Engineer, City Engineer, Tucson. Owners, City of Tucson. Contractor, T. J. Shea, 1800 Oxford street, L. A. Contract price, \$115,362.50 for vitrified pipe and \$112,381.79 if concrete pipe is used.

BUNK HOUSE AND SHED—2 story frame, \$2,000. Oakland, Cal. Architect, none. Owner, Joe Martin, 221 Valley street, Oakland. Location, east Magnolia between 21th and 26th streets. Plans complete and work to be done by Day Labor.

RAILS, ETC.—Cost not stated. San Francisco. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. No bids were received by the San Francisco Board of Works for furnishing steel rails, etc., for the Municipal Railway through the Twin Peaks Tunnel under contract No. 86. It is probable that new bids will be ordered called.

Stores—1 story and base, brick, \$9,000. San Francisco. Architect, T. Patterson Ross, 310 California street. Owners, J. B. Treadwell Co. Location, east Valencia south of 14th, covering an area of 70 by 100 feet. Will contain three stores and a large shop. Plans complete and segregated figures being taken.

STORES AND LOFTS—3 story and San Francisco. Architect, Chester H. base, Class C construction, \$17,000. Miller, First Savings Bank Bldg., Oakland. Owner, E. A. Howard. Location, west Mission south of Main. Will contain stores on the first floor and light lofts above. Plans complete and figures being taken.

MOTION PICTURE THEATRE AND STORES—1 story, base and mezzanine floor, reinforced concrete, \$51,000. San Francisco. Architect, Charles C. Frye, 20 Montgomery street, S. F. Owner, Mrs. Mary E. Seidel. Location, southwest 10th avenue and Clement, covering an area of 50 by 150 feet. Will contain ten stores and a theatre seating 1500 people. Plans being prepared.

SCHOOL URINAL STALLS—\$511.20 San Francisco. Architect, City Department of Architecture, City Hall, S. F. Owners, City and County of San Francisco. Haines-Jones & Cadbury Co. presented the low bid for furnishing 16 urinal stalls for the Washington Irving School and will probably be awarded the contract.

SCHOOLS—2 story, brick. Cost as follows. San Francisco. Architect, City Department of Architecture, City Hall, S. F. Owners, City and County of San Francisco. The following contracts have been awarded by the San Francisco Board of Public Works: C. L. Wold Co., 75 Sutter street, general construction of the Daniel Webster School at \$64,579; and for the completion of the general construction of the Redding School at \$48,300. The Globe Electric Works, 1959 Mission street, were awarded the contract for electric wiring at the Redding School.

SCHOOL—2, 1 story, frame and stone. Cost not stated. Camp Verde, Ariz. Architect, U. S. Department of Indian Affairs, Washington, D. C. Owners, United States Government. Bids will be opened on July 28th for constructing an Indian school and quarters. Plans on file at the U. S. Indian Watchhouse, 608 Howard street, S. F.

Contracts Awarded.

BRIDGE REPAIRS—\$58,297. San Francisco. Engineers, Galloway &

Markwart, First National Bank Bldg., Bldg., S. F. Owners, Northern Electric R. R. Co., John P. Coghlan, Receiver. Contractors, Missouri Valley Bridge & Iron Co., Leavenworth, Kansas. Contract price, \$58,297.

Garage Alterations—2 story reinforced concrete, \$17,000. San Francisco. Architect, Henry H. Gutterson, 278 Post street, S. F. Owners, White Co. Contractors, Moore & Burlingame, 110 Jessie street, S. F. Contract price \$17,000.

"DON'T FORGET THE BEST"

The Clintonville

Four

Wheel

Drive----

The Motor Truck for Any Road or Any Weather is Making Greater Gains in

POPULARITY
ROMINENCE and
REFERENCE

than any other Motor Truck built in America today.

You owe it to yourself to investigate the unapproachable records of FWD's in actual service. They make hauling pay.

Four Wheel Drive Truck Co.

Telephone Market 334

343 Golden Gate Ave.

San Francisco

Branches: Los Angeles, Bakersfield, Fresno, Santa Rosa

"DON'T FORGET THE BEST"

WITHOUT EXCEPTION

F. W. D. Trucks operating in California have all been placed on difficult hauls, where many of the best of the rear-drive trucks have been tried out and found wanting.

Remember—The Front
Wheels Pull, While the
Rear Wheels Push.

Here are some of our recent purchasers, who are all working one or more F. W. D.'s under city and adverse road conditions—ASK THEM:

MARIN, CONTRA COSTA AND SONOMA COUNTIES

SEWER CONSTRUCTION — \$125,000.
Richmond, Contra Costa Co., Cal. Engineer, City Engineer Chapman, Richmond. Owners, City of Richmond. Plans for the proposed storm and sanitary sewers to be laid in 10th street have been completed by City Engineer Chapman and will be presented to the City Council at their meeting next week. The sewer will drain that property north and east of 10th street and will empty into the inner harbor. The sewer will be constructed of brick, pipe and concrete.

HIGHWAY CONSTRUCTION — Cost not stated. San Rafael, Marin Co., Cal. Engineer, County Surveyor, San Rafael. Owners, Marin County. County Surveyor Richardson reports that he is preparing plans and estimates for regrading the Bolinas road from the top

of the ridge down to Bolinas. At the present time the road is narrow and crooked, and has a maximum grade of 15%. Richardson is also preparing plans for regrading the road from Alto Station to Belvedere. The plans will be presented to the Supervisors shortly for approval, when bids will be called.

PAVING—Cost not stated. Colusa, Colusa Co., Cal. Engineer, County Surveyor, Colusa. Owners, Colusa County. Bids will be opened on August 3rd for surfacing the Colusa draw bridge with Mastic paving.

BRIDGE—Steel and concrete. Cost not stated. Benicia, Solano Co., Cal. Engineer, County Surveyor, Fairfield Owners, Solano County. At the last meeting of the County Board of Supervisors the plans and specifications for a new bridge across Utlis Creek, road No. 125, Elmira Township; new bridge on road No. 310, Denver Town Township, and new bridge in Silveyville Township to replace the Lacy bridge, were ordered approved, and the Clerk directed to advertise for bids to be opened on August 7th. Plans for the work together with full information may be had from the County Clerk at Fairfield.

SEPTIC TANK — Cost as follows. Healdsburg, Sonoma Co., Cal. Engineer, City Engineer, Healdsburg. Owners, City of Healdsburg. The single bid received by the City Trustees for the construction of the proposed three septic tanks was rejected. The bid was that of Ward B. Esterly, 241 Alvarado Road, Berkeley, at \$2,250, and as the engineer's estimate was \$1,152.50. It is probable that the Trustees will now do the work under the Day Labor system.

WATER PIPE — Cost not stated. Healdsburg, Sonoma Co., Cal. Engineer, City Engineer, Healdsburg. Owners, City of Healdsburg. Specifications submitted by Water Superintendent Nelson to the City Trustees were approved at the last meeting of the Board and bids were ordered received for furnishing the same. The pipe will be used from the reservoir to the well. The quantity of the pipe is estimated to 2,500 feet of the 4-inch size. Plans and specifications may be had from the City Clerk.

BRIDGE—Reinforced concrete. Cost not stated. San Rafael, Marin Co., Cal. Engineer, City Engineer, San Rafael Owners, City of San Rafael. The City Council at its last meeting instructed the City Manager to prepare plans and specifications for a full width concrete bridge for C street.

HOSPITAL COTTAGE — 1 story, frame. Cost not stated. San Rafael Marin Co., Cal. Architect, none. Owners, Marin County. Bids will be opened on August 8th at 2 p. m. for the construction of a tuberculosis cottage at the County Hospital near San Rafael. Plans can be secured from the County Clerk.

SCHOOL HEATING SYSTEM—Cost not stated. Concord, Contra Costa Co., Cal. Engineers, Leland & Haley, Holbrook Bldg., S. F. Owners, Town of Concord. Plans are being prepared for a new heating system to be installed in the Concord Grammar School.

SCHOOL—1 story, frame. Cost not stated. Contracts Awarded.
SEWER CONSTRUCTION — \$20,000. Richmond, Contra Costa Co., Cal. Engineer, City Engineer, Richmond. Owners, City of Richmond. Contractors,

P. R. Ritchie & Co., Chronicle Bldg., S. P. Contract price, \$26,000.

SCHOOL, 1-story, frame, \$9,185. Moraga, Contra Costa Co., Cal. Architect Norman R. Coulter, 16 Kearny street S. P. Owners, Willow Spring School District. Contractors, Keller & Crane, 74 Miramar avenue, S. P. Contract price, \$9,185.

Receive Figures For Willow Spring School.

Keller & Crane Will Be Awarded Contract For Construction of Four-Class Room Building.

Seven sets of figures were opened by the Board of School Trustees of the Willow Spring School District at Moraga, Contra Costa County, for the construction of a one-story frame and plaster building, designed by Architect Norman R. Coulter, 16 Kearny street, San Francisco. Keller & Crane, 74 Miramar Ave., San Francisco, presented the lowest bid at \$9,185 and will be awarded the contract.

The school will contain two standard class rooms and two open air class rooms which may be converted into the standard class rooms by constructing a single wall. Following is a complete list of the bids received:

Willow Spring School.

FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA

FURNISHING CEMENT—Cost as follows. Fresno, Fresno Co., Cal. Engineer, County Surveyor, Fresno. Owners, Fresno County. Four bids were submitted to the County Supervisors for furnishing 2,265 barrels of cement for county use. Bids were received

from the following firms: The Standard Portland Cement Co., Henry Cowell Lime and Cement Co., Pacific Portland Cement Co., and the Santa Cruz Portland Cement Co. All of the bids were the same, or amounted to the same. All bidders said they would furnish the county 2,265 barrels of cement for \$2.83 a barrel. Three bidders said they would furnish the cement for 2.83 a barrel in burlap bags and one bidder said he would furnish the cement for 2.53 a barrel in paper bags. A refund of 7½¢ a bag is paid for the return of burlap bags and it takes four bags to make a barrel. The matter was put over to July 11th for investigation.

LIGHTING SYSTEM—Cost not stated. Merced, Merced Co., Cal. Engineer, Charles T. Phillips, Pacific Bldg., S. P. Owners, Town of Merced. The City Trustees have commissioned Charles T. Phillips, an electrical and illuminating engineer, to outline plans for the formation of the proposed lighting district. The purpose of forming the district is to obtain a system of electroliters. The design, number, size and location of the electroliters will be left up to Phillips.

STREET PAVING—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. In response to a petition presented to the City Council, the City Engineer has been instructed to prepare plans and specifications for the paving of Twentieth street from Cedar to G streets with a concrete base and asphaltic surface. Bids will be called for on the completion of the plans.

LIGHTING SYSTEM—Cost not stated. Fresno, Fresno Co., Cal. Engineer, County Surveyor, Fresno. Owners, Fresno County. Bids will be opened on August 5th at 2 p. m. for the installation of an electroliter lighting system in the Court House Park.

BRIDGES—Timber and reinforced concrete. Cost as follows. Visalia, Tulare Co., Cal. Engineer, County Surveyor, Visalia. Owners, Tulare County. The County Supervisors have awarded the following bridge contracts: To Johnson Bros., Kingsburg, at \$10,182 for the construction of the Rockford bridge in Road District No. 1. To Johnson Bros., Kingsburg, for the construction of the Success bridge in Road District No. 1 on their bid of \$7,290. To Nate Lovelace, Visalia, construction of the Elk Bayou bridge on his bid of \$4,524.50. To Nate Lovelace, Visalia, for the construction of the Elk Bayou Canyon bridge at \$1,466.

RESIDENCE ALTERATIONS—Frame \$2,600. Fresno, Fresno Co., Cal. Architect, none. Owner, W. H. Minard, 319 Abby street, Fresno. Location, Altamont Addition. Plans complete and work to be done by Day Labor.

BRIDGE—Timber. Cost not stated. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Bids will be opened on August 9th for the construction of a 150-foot pile bridge over what is known as Buttonwillow Slough at Old Headquarters, in Section 12, Township 30 South, Range 24 East, Mt. Diablo Meridian.

STORES—1 story and base, brick and steel, \$7,000. Fresno, Fresno Co., Cal. Architects, Glass & Butler, Rowell Bldg., Fresno. Owner, F. F. Mitchell, S. F. Location, Tulare and M streets,

covering an area of 42 by 69 feet. Plans being prepared.

STORE ALTERATIONS and **ADDITION**—Brick, \$2,000. Fresno, Fresno Co., Cal. Architect, none. Owner, D. Yezden, 1115 K street, Fresno. Work will consist of interior and exterior alterations. Plans complete and work to be done by day labor.

SCHOOL—1 story, brick. Cost not stated. Visalia, Tulare Co., Cal. Architect, Mervin L. Weaver, Visalia. Owners, City of Visalia. Designed for a manual training school. Plans complete and figures to be opened on July 21th. Plans at office of architect.

Contracts Awarded.

PAVING—Cost as follows. Modesto, Stanislaus Co., Cal. Engineer, County Surveyor, Modesto. Owners, Stanislaus County. Contractor, Edward M. Chahourne, 503 Market street, S. F. Contract price, 1.8c per square foot and 1.6c per square foot.

FURNISHING CEMENT—Cost as follows. Fresno, Fresno Co., Cal. Engineer, County Surveyor, Fresno. Owners, Fresno County. Contractors, Henry Cowell Lime and Cement Co., 2 Market street, S. F., 2,205 barrels at \$2.53 in paper bags and \$2.83 in burlap bags.

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

ROAD GRADING—Cost not stated. Colusa, Colusa Co., Cal. Engineer, County Surveyor, Colusa. Owners, Colusa County. Bids received by the County Supervisors at their last meeting for grading the county road in Road District No. 1 were rejected and the County Surveyor was instructed to do the work according to plans and specifications.

ROAD PAVING—Cost not stated. Sacramento, Sacramento Co., Cal. Engineer, County Surveyor, Sacramento. Owners, Sacramento County. Bids will be received up to August 7th for supplying and placing an asphaltic covering on the concrete roads in the 4th and 5th Supervisorial Districts. Said covering to be 5/8 inch in thickness. All of the said work to be done in accordance with the specifications as furnished by the contractor with his bid.

STREET IMPROVEMENTS—Cost as follows. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Plans and specifications have been adopted by the City Council for curbing and paving the central and south side roads of Bienvenido Park and bids will be called for shortly. The work is estimated to cost \$8161.61, according to the City Engineer's estimate. Plans were also adopted and bids will be called for shortly for the construction of storm water sewers for the southern section of the city. The sewers are to be installed on Edison, Harrison, Lincoln, Jefferson, Jackson, South streets and the French Camp Turnpike. City Engineer Compton's estimate for the work is \$5,719.53.

HIGHWAY CONSTRUCTION—Cost not stated. Sacramento, Cal. Engineer, County Surveyor, Sacramento. Owners, Sacramento County. Bids will be opened on August 7th for the construction of a concrete roadway on the "Prison Road," between the south property line of Sutter street in the town of Folsom, California, and Robber's Ravine, a distance of approximately 5,000 feet.

HIGHWAY CONSTRUCTION—Cost as follows. Sacramento, Cal. Engineer, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. Bids were opened by the State Highway Commission Monday for

18,000 ft. of Portland cement highway in Glenn County. The Martin Rock Co., San Francisco, submitted the lowest bid at \$7,500 and were awarded the contract. One mile of Portland cement highway, including a reinforced concrete bridge 100 feet long, in Glenn County. Manuel Jacento, 248 1/2th street, Sacramento, submitted the lowest bid and was awarded the contract at \$8,000. The bids for the reinforced concrete bridge with one span 36 feet long in Ventura County were taken under advisement. United Bros., Los Angeles, presented the lowest bid at \$163.

BRIDGE—Steel and concrete. Cost as follows. Yreka, Siskiyou Co., Cal. Engineer, County Surveyor, Yreka. Owners, Siskiyou County. All bids received by the Board of County Supervisors for the construction of the proposed Quigley suspension bridge have been rejected and new bids will probably be called for. The following bids were received: William Stephens of Redding for building bridge according to plans, \$6,700; alternate bid, substituting steel towers, \$7,800. Portland Bridge Company, by R. E. Meith, for building bridge with wooden towers, \$7,400; for building bridge with towers as per plans \$6,000.

RESIDENCE—2 story and base, frame, \$8,000. Placerville, El Dorado Co., Cal. Architect, E. C. Hemmings 1203 L street, Sacramento. Owner, Max Ahlerson, Placerville. Will contain ten rooms, two baths and sleeping porches. Plans being prepared.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on July 27th at 11 a. m. for street improvements authorized under the following resolutions: That J street, from 31st street to the east boundary line of Golf Crest, produced southerly, be improved by constructing concrete curb, concrete gutter, six vitrified, ironstone sewer pipe drains; concrete manholes complete, cast iron gutter drains with 6-inch, vitrified ironstone sewer pipe elbows attached, constructing 8-inch, vitrified, ironstone sewer pipe drains; placing cast iron gutter drains to be connected with 6-inch, vitrified, ironstone V branches on 6-inch sewer pipe; grading the space between the property line and curb, and constructing therein concrete sidewalk 6 feet in width and 3 1/2 inches thick, reconstructing 8 concrete manholes; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1 1/2 inches thick.

That 26th street, from B street to Y street, be improved by constructing concrete sidewalk 6 feet in width and 3 1/2 inches thick and grading the space between the sidewalk and curb.

That 27th street, from B street to Y street, be improved by constructing concrete sidewalk 6 feet wide and 3 1/2 inches thick and grading the space between the sidewalk and curb.

That the alley between M and N streets, from 1th to 5th street, be improved by reconstructing one concrete manhole by placing same to official grade, reconstructing one concrete catch basin by placing same on of

LOS ANGELES & SOUTHERN CALIFORNIA.

APARTMENT HOUSE—4 story and base, brick. Cost not stated. Los Angeles, Cal. Architects, Peoples & Cheney, Haas Bldg., L. A. Owner, Miss Ruby Cotner. Location, Coronado between Wilshire and Sixth streets, covering an area of 60 by 107 feet. Will contain 75 apartments of two and three rooms. Plans being prepared.

APARTMENT HOUSE—2 story and base, frame. Cost not stated. Pasadena, Los Angeles Co., Cal. Architects, Peoples & Cheney, Haas Bldg., L. A. Owner's name not given. Location,

South Los Robles avenue, covering an area of 60 by 172 feet. Will contain 50 rooms arranged in 18 apartments of two, three and four rooms. Plans being prepared.

APARTMENT HOUSE—2 story and base, brick. Cost not stated. Los Angeles, Cal. Architect, Louis Blocher, 1 W. Hellman Bldg., L. A. Owner, William G. Donald, Westley Roberts Bldg., L. A. Location, near Grand avenue and Adams. Will contain 16 apartments of five rooms. Garage in basement. Plans complete and figures being taken by the owner.

RESIDENCE—2 story and base, hollow tile, \$30,000. Los Angeles, Cal. Architect, Edwin Bergstrom, Citizens National Bank Bldg., L. A. Owner, M. H. Whittier. Location, Beverly Hills. Will contain 18 rooms, 6 bath rooms and separate garage. Plans complete and figures being taken.

IRRIGATION SYSTEM—Cost not stated. Riverside, Riverside Co., Cal. Engineer, W. E. Pedley, Riverside Owners, Riverside County. Bids will be received by the Board of Supervisors up to 11 o'clock a. m. of July 26, 1916 for drainage work for reclamation of 8,000 acres of land subject to overflow from San Jacinto River in flood season and designated as Drainage Improvement District No. 2. Plans call for widening and deepening present channel below district in Perris Valley and making artificial channels, using the dirt excavated as levees. The aggregate length of all channels is about 25 miles, the total excavation 450,000 cubic yards, of which 359,727 cubic yards could be done by machine of the Austin type or by a diagraph or clamshell, the balance by scrapers and teams. Estimated cost of machine work is 10c per cubic yard; of scraper work 17c. The estimated cost of bridges, etc., \$4,000. Certified check on bond for 10% required. A. B. Piche is Clerk of the Board. Reuben Q. Brown, 530 California Bldg., L. A., has been named superintendent on the job.

PAVING—\$60,810. Sawtelle, Los Angeles Co., Cal. Engineer, City Engineer, Sawtelle. Owners, City of Sawtelle. The Los Angeles Paving Co. submitted the lowest figure for paving Santa Monica Boulevard at \$60,810 and for culvert work at \$4,200. They will probably be awarded the contract.

WAREHOUSE—2 story and base, brick and steel. Cost not stated. Los Angeles, Cal. Architect, William Kerr, L. A. Owners, The Eastern Outfitting Co., 620 South Main street, L. A. Location, Enterprise street and Santa Fe avenue, covering an area of 90 by 140 feet. Plans complete and work to be sublet by owners.

MARKET BUILDINGS—2 6 story and base, reinforced concrete. Cost not stated. Los Angeles, Cal. Architect, John Parkinson, Security Bldg., L. A. Owners, Los Angeles Union Terminal Co. Location, Seventh and Central avenue, covering an area of 80 by 1250 feet and 10 by 1500 feet. Plans complete and separate bids being taken for general construction, plumbing, electric work, sprinkler systems and heating.

SCHOOL—1 story and base, hollow tile, \$30,000. Monrovia, Los Angeles Co., Cal. Architect, Frank O. Baker, 101 East Greystone avenue, L. A. Owners, City of Monrovia. Will contain four class rooms, assembly hall and departments for manual training and domestic science. Plans being prepared.

Contracts Awarded.

RESIDENCE—1 and 2 story, frame \$34,500. Montecito, Santa Barbara Co., Cal. Architect, Reginald D. Johnston, Santa Bldg., Pasadena. Owner, P. P. Knott. Contractor, W. A. Taylor, 966 Elizabeth street, Pasadena. Contract price, \$34,500. All work except exterior plastering, painting and heating.

SEWER SYSTEM—\$26,602.92. Lompoc, Santa Barbara Co., Cal. Engineer, Town Engineer, Lompoc. Owners, Town of Lompoc. Contractors, Chambers & Headley, Bacon Bldg., Oakland. Contract price, \$26,602.92.

WATER PIPE—Cost as follows. Los Angeles, Cal. Engineers, Los Angeles Water Commission, L. A. Owners, Los Angeles County. The following bids were received for furnishing steel pipe for Los Angeles Water Works No. 3 in San Fernando Valley:

San Fernando Main Lane—Llewellyn Iron Works, Main and Redondo streets, L. A., \$151,642; Baker Iron Works, \$156,430; and Lacy Mfg. Co., \$157,655.

Calabasas Main—Western Pipe and Steel Co., 1759 North Broadway, L. A., \$143,428; Lacy Mfg. Co., \$143,678; and Baker Iron Works, \$144,421.

Ventura Main—Baker Iron Works, 912 North Broadway, L. A., \$120,756; Lacy Mfg. Co., \$123,960; and Llewellyn Iron Works, \$125,130.

Chatsworth High Lane Lacy Mfg. Co., Washington Bldg., L. A., \$126,150; Llewellyn Iron Works, \$128,160; and Baker Iron Works, \$129,325.

Calabasas Subsidiary Main—L. A. Manufacturing Co., 2500 Leonard, L. A., \$16,990; Western Pipe and Steel Co., \$17,250; Baker Iron Works, \$17,558; and Lacy Mfg. Co., \$17,475.

MacLay Main—L. A. Manufacturing Co., \$62,738; Western Pipe and Steel Co., \$63,148; Lacy Mfg. Co., \$64,500; and Baker Iron Works, \$65,206.

Chatsworth Main—Baker Iron Works, \$90,798; Llewellyn Iron Works, \$95,325; and Western Pipe and Steel Co., \$95,760.

STREET IMPROVEMENT—\$79,235.70. Los Angeles, Cal. Engineer, City Engineer, L. A. Owners, City of Los Angeles. Contractor, George H. Oswald, O. T. Johnson Bldg., L. A. Contract price, \$79,235.70.

HIGHWAY IMPROVEMENT—\$15,900. Los Angeles, Cal. Engineer, County Surveyor, L. A. Owners, Los Angeles County. Contractors, Rogers Bros., L. A. Contract price, \$15,900.

HIGHWAY IMPROVEMENT—\$86,375.41. Los Angeles, Cal. Engineer, County Surveyor, L. A. Owners, Los Angeles County. Contractors, P. A. and C. H. Howard, 2128 Sacramento street, L. A. Contract price, \$86,375.41.

PAVING—\$30,950. Manhattan Beach, Los Angeles Co., Cal. Engineer, Town Engineer, Manhattan Beach. Owners, Town of Manhattan Beach. Contractors, The California-Arizona Construction Co., 1700 East Washington street, L. A. Contract price, \$30,950.

SEATTLE AND WASHINGTON

BRIDGES Steel. Cost as follows. Tacoma, Wash. Engineer, City Engineer, Tacoma. Owners, City of Tacoma. The Washington Paving Company of Seattle was low bidder on both the Division and Trent street bridges, with second on both jobs. In both cases the bids are below the estimate. Awards will wait on a complete tabulation of proposals. The two bids were as fol-

low: Division Bridge, 100 ft. long, 20 ft. wide, \$108,117; Trent street bridge, 100 ft. long, 20 ft. wide, \$80,000. **TRUST BUILDING**—2 story and base. A construction, \$100,000. Seattle, Wash. Architect, C. F. Gould, 600 Second. Owners, Regents of the University of Washington. Henry B. Smith, plans will be received on August 10th for the new building to be known as the Commerce Hall, bids to be taken both as a whole and separately.

Contracts Awarded.

PASSANGER STATION—2 and 1 story. City of Vancouver, \$1,000,000. Vancouver, B. C. Architect's name not given. Owners, Canadian Northern R. R. Co. Contractors, Northern Construction Co., Vancouver. Carter-Halls, Aldinger Co., Winnipeg, is associated with the Northern Construction Co.

MARKET—1 story and base, concrete and tile, \$29,781. Seattle, Wash. Architects, Stephen & Stephen, New York Block, Seattle. Owners, Pine Street Investment Co. Contractors, Finn & Gardo, Northern Bank Bldg., Seattle. Contract price, 29,781.

INCREASED PRODUCTION OF MANGANESE ORE.

The production of manganese ore in the United States in 1915 was 9,651 long tons, the largest since 1901 and more than three times the production in 1911, which was 2,635 tons. This output was made by 34 operators in 19 States, of which the four most important, in order of output, were Georgia, California, Virginia, and Arkansas, according to figures compiled by the United States Geological Survey. In addition, Alabama, Arizona, Colorado, Tennessee, Texas, and Utah produced small amounts of ore. The imports of manganese ore for 1915 were 213,985 tons, which should be compared with 285,291 tons for 1911. Of the ore imported in 1915, 268,786 tons, or 85 per cent of the total, came from Brazil—more than twice the quantity recovered from Brazil in any preceding year. The imports from India were 26,150 tons, or about one-fourth the average of the preceding 10 years. No ore was received from Russia.

The production of mangiferous iron and silver ores for 1915 was 798,191 tons, which was almost twice the output in 1911. Most of this ore was used in making high-manganese pig iron, but a large quantity was used as a flux by lead smelters; 66,330 tons contained more than 15 per cent manganese and a large part of this was used to make low-grade ferro-manganese.

The quantity of ferro-manganese marketed in 1915 was 141,260 tons and the imports were 55,263 tons. The available supply, or 196,523 tons, was greater than that for 1911 but 15 per cent less than the average for the preceding two years, which covered a period preceding the war in Europe.

The price of ferro-manganese rose to \$114 a ton in December, but it is reported that during April, 1916, much higher prices were offered, \$175 a ton for future delivery and \$100 a ton for immediate delivery. The production of pig-iron in 1915 was 14,126,000 tons, which, with the 200 tons imported represents an increase of 45

per cent over the available supply for the preceding year, if the increase in the production of steel is considered it becomes apparent that less manganese is now used in the manufacture of steel than formerly, a conclusion that may indicate either that the final product contains less manganese or that ferro-manganese is used more efficiently.

The prices offered for manganese ore adapted to the manufacture of ferro-manganese rose during 1915 to the highest figures that have been recorded in 20 years. In August eastern alloy makers offered \$22.50 a ton for 50 per cent ore, which should be compared with \$12.50 per ton, the average price for the preceding five years. In March, 1916, it was reported that \$32.50 per ton was paid for such ore. This great rise in prices was due largely to the advance in ocean freights caused by the shortage of vessels in which to move imported ore. There is good reason for expecting a further increase in domestic production during 1916 as a result of the high prices offered, but it is doubtful whether more than 10 per cent of the domestic demand can be met by domestic production.

The shortage of high grade manganese dioxide ores caused by cessation of exports from Russia has become a serious menace to the dry battery and light glass industries. Prices as high as \$85 a ton are freely offered, but as only a few deposits in the United States can supply ore of this grade little domestic ore has come to the market. There is record of a marketed production of 550 tons from mines in Arizona, California, Colorado, Utah, and Virginia during 1915, whereas the annual demand ranges from 20,000 to 25,000 tons. Ore of this grade was imported from Japan and Cuba during 1915.

STATE WARS AGAINST INFANTILE PARALYSIS.

Every effort to prevent the introduction of infantile paralysis into California is being exerted by the California State Board of Health. In order to learn if any cases or contacts are being brought into the State from the East, where the disease is now epidemic, inspectors of all transcontinental passenger trains have been stationed at points along the border lines where the railroads enter California. Without the co-operation of citizens, however, this procedure is of small importance.

Every suspected case of illness in children, particularly intestinal or digestive disturbances, should be re-

ported immediately to the local health officer for investigation. Children should not be allowed to come into contact with such persons, who are ill, whether they are children or adults.

The diagnosis of infantile paralysis is oftentimes not determined until the paralysis appears. Since many cases begin with the acute digestive or intestinal disturbances, followed by high fever, special attention should be paid to disorders of this sort.

While comparatively few cases of the disease have occurred in California during the past few years, several epidemics of magnitude have occurred in the State. At the beginning of July there were only four cases in California and these were widely scattered.

The California State Board of Health does not feel that there is any occasion for alarm, but it desires to emphasize the importance of taking every possible preventive measure that may be available, in order that California may not be visited with a devastating epidemic of the disease.

PACIFIC MAIL TO RESUME OPERATIONS.

SAN FRANCISCO—John H. Ross, vice-president and general manager of the Pacific Mail, returned Wednesday from New York, with the announcement that all details have been perfected for the actual restoration of the company's transpacific service in and out of this port.

The steamer Ecuador, one of the three vessels bought last spring from a Dutch concern, will leave New York for this city July 10.

On arrival here she will start the transpacific service. The two other steamers, Venezuela and Columbia, are to follow from New York in quick succession.

The three Pacific liners were built less than a year ago at a cost of \$4,000,000, are of 10,000 tons each and first-class ships in every respect. There are now ten ships in the Pacific Mail's fleet, most of them being in the ocean trade to the west coasts of Mexico, Central America and Panama, a service that never was abandoned.

MERCED TO HAVE ADDITIONAL LIGHT.

MERCED, Cal.—The city trustees have decided to form a lighting district to embrace the business section of the city for the purpose of lighting the streets with electrolights. Charles T. Phillips, an electrical engineer of

San Francisco, was retained to take full charge of the installation of the electrolights with instructions to give Merced the most modern and serviceable lights on the market. The cost of installation must be borne by the property owners in the district, but maintenance and light bills will be paid by the city.

TO WIDEN EMERALD BAY ROAD TWO FEET.

PLACERVILLE (El Dorado Co.)—The Emerald Bay portion of the Lincoln Highway for a distance of two miles is to be widened from fourteen to sixteen feet, according to a statement by State Road Superintendent H. L. Leventon.

TUNNEL ROAD IS REOPENED.

MARTINEZ, Cal.—The reconstructed tunnel road, which has been called the "gateway into the Diablo country," has been reopened to traffic. It has been rebuilt at a cost of \$100,000.

The tunnel road connects at Walnut Creek with the Diablo scenic boulevard.

I-BEAMS AND GIRDERS TESTS.

Urbana, Ill., June 15, 1916.

For the purpose of studying the web strains in I-beams and girders tests have been conducted at the Engineering Experiment Station of the University of Illinois on a number of specimens consisting of 12-inch I-Beams having webs planed down to a thin section and 24-inch built-up girders having webs of thin plates.

The test data were used in conjunction with a mathematical analysis to determine the importance of the diagonal strains and the methods of failure of girders.

The results show (a) that, in general, the shearing stress is a maximum at the neutral axis, but that diagonal stress at the junction of web and flange must be considered, (b) that approximate methods of computing shearing stress in webs should, under certain conditions, be checked by more exact methods, (c) that stiffeners at supports and under concentrated loads are very necessary, and (d) a formula is developed for the buckling strength of webs.

The investigations were conducted by Professor H. F. Moore and Professor W. M. Wilson. The results are described in Bulletin No. 86, of the Engineering Experiment Station copies of which may be obtained upon application to W. F. M. Goss, Director, Urbana, Illinois.

Building Operations For June.

Instead of slowing down more nearly to normal, the building operations for the month of June show the most decided gains recorded during the past half year. The official reports of building permits issued in 110 principal cities of the country, as compiled by the California Development Board, the American Contractor, Chicago, and the Daily Pacific Builder, total \$91,521,762, as compared with \$65,211,379 for June 1915.

This condition is most gratifying when it is remembered that a considerable amount of construction work is held in abeyance, pending a reduction in the cost of iron and steel, and perhaps some other forms of material. There has been a softening of prices for structural material, however, in recent weeks and the date when this withheld business may be commenced may not be far in the future. Not only is the volume of business largely in excess of that of a year ago, but the number of building permits shows an increase.

The building totals for the Pacific Coast are especially good, in view of the labor conditions which have severely hindered the building industry of the entire coast.

Of the 110 cities included in the list below, 72 show gains and 38 losses.

A detailed statement follows:

Certain good people, who are opposed to any demonstration in the matter of preparedness, talk a great length on the matter of the evils of militarism. They say that the whole caste ought to be killed off and the entire system abolished. But when one asks them for a concrete plan as to how they are going to effect this desired end they immediately launch into a long-winded discussion as to how it ought to be done, that all the nations of the earth should abandon military preparations and obey the moral law, which to a practical person, who has applied what reasoning power he has to the logic of history, appears to be the merest moonshine. It reminds one of the "Peace Conventions" which were held in the Northern States during our Civil War. When the very life of the nation hung trembling in the balance, when the primal law of force was appealed to, and the great Lincoln stood as the mainstay of our institutions, these mutts met in solemn convention and whereas and resolute and tried to impede the progress of the settlement of the great question in the only way it could be settled. So when one sees a peace ship sailing for Europe, trying to wish a peace on a country, whose every right under God and human laws has been violated, one wonders whether or not the heads of these advocates could not be put to better use in the manufacture of knife handles than for the purpose of thinking.

The anti-preparedness league would oppose armaments with words, they would deliver a lecture to a savage, and reform a burglar with a printed sermon. That is all right if it would work. But will it work? In the light of human history we would say most emphatically, no!

Those of us who believe that our industries should be organized to the end that in the event of war they can be readily turned into implements of defense, that we should have a navy, and a merchant marine sufficient to make us independent and protect our cities and our coast in case of need and that our youth be given such training in the schools as will make them efficient soldiers when called for defense, believe we are taking the only practical and common sense way of assuring our future peace and prosperity and in maintaining our higher duties to human liberty and the rights of the common man throughout the world.

The great hue and cry of the Pacifists is that this preparedness demonstration is in the interest of the munitions manufacturers. That the manufacturer of munitions or arms would profit by the sale of his goods goes without saying. But it in no way affects the logic of situation. It would be just as reasonable to say that the religious enthusiasts were working in the interest of the publisher of Bibles so far as the reasoning is concerned. And the fact that inventors, machinists,

and military men are one in demanding that our industries and our citizens be placed in a condition for defense argues no more for the munitions manufacturer than it does for the honesty of the technical man who knows his business and the danger that lies in wait.

Certainly the owners of the Steamship Titanic deserved the censure and ostracism of society for their failure to provide life boats for the passengers on the great ship. How many times more would they deserve it, if after their first disaster, they had refused to make any preparation but had passed around prayer books among their employees and passengers and endeavored to avert disaster in that manner.

The water was cold but when the ship struck everybody had to get right out into it. Only a few were left to tell the tale. The most of the real men aboard lie deep under the waves of the North Atlantic and out of that great disaster has come a lesson that will perhaps make human life safer in travel and will compel selfish humanity to prepare to meet disaster.

So out of this great disaster that has taken the flower of the manhood and the womanhood of little Belgium, has reduced fair and fruitful countries to sodden battlefields and has made common deeds of frightfulness unknown for more than a century we may learn a lesson, and that is, that we must prepare in order to prevent its repetition; that our integrity and our duty to the cause of human liberty be not lost sight of in the conflict of primal force.

Freedom of speech and freedom of the press are oftentimes abused under governments like our own. Private owners of newspapers that furnish the news to the public farm out their papers to the people who pay the highest price or they are often the mouthpiece of some crooked minded individual who has some sad he wants to force on mankind. We have sublime examples of this misuse of the public press in this city and in this state. Governor Johnson had to effect all his reforms without the aid and against the sinister influence of the millionaire owned daily papers. The people had to meet and effect their own reforms in spite of the influences that controlled the ordinary methods of publicity.

So in this preparedness parade we seek to give expression to the independent thought of the people in a manner that will show their independence of the proprietors who publish, and who purport to edit the daily newspapers. What newspaper is there here that would champion anything that they couldn't shoulder and carry off and claim credit for the whole thing? Hearst's headline in the Examiner is that our first duty is to preserve peace and our next duty is to prepare for war, and, following the instincts of the polecat, in which mold the Lord made him, he proceeds to besmirch and befoul everybody and everything in order to magnify the microscopic personality of William Randolph Hearst. The Chronicle is always on the side of the special interests and no one expects De Young to advocate anything for the common good; the Call is a colorless merchant of the news, owned by the Hearst interests, and Fremont Older of the Bul-

letin is crazy on the subject of the righteousness of criminals; as a matter of course he would advocate peace under any circumstances, carry flowers to the murderer of little children and exalt the most hideous criminal in the world. Under such circumstances what opportunity has the ordinary citizen, who has the brains and the courage to think for himself, to reach his fellow men except in such a thing as a parade or some such manner of expression of his sentiments.

As Governor Johnson well said, at a recent meeting of the Progressives, that true patriotism should be founded on love of country, inspired by the opportunity and equal protection of the laws which that country affords all its citizens. This state of affairs can only exist when the average citizen takes an active interest and takes personal charge of the business of looking after the affairs of the country. Governor Johnson has succeeded in arousing this interest, has succeeded in spite of the millionaire-owned newspapers, and as a result California today stands at the head of all the states in the efficient manner in which its government is administered and in the opportunity it furnishes to all its citizens.

That a lot of old time machine politicians are identified with the preparedness movement in no way detracts from its merits. It is the business of the politician to jump on the bandwagon and heat the drum if he can. He tries to head any movement that he thinks will be popular and he is always a burning patriot, for that is the first element of success. What we want is to get an expression of the sentiment and the judgment of the intelligent citizenry of this country on a question that has been, and is, the first concern of this nation and every other nation and individual in the world. Self preservation is the first law of nature.

CRANES FOR MARE ISLAND.

VALLEJO, Cal.—The McMyer Interstate Crane Company of Cleveland, Ohio, which was recently awarded the contract to furnish two building slip cranes for Mare Island, promise to have the weight lifters in commission by next February. The cranes are to be of the revolving type and will be modern every particular.

HIGHWAY CONTRACTS WILL TOTAL \$185,000.

SACRAMENTO, Cal.—One hundred and eighty-five thousand and fifty-eight dollars' worth of state highway contracts have been let this week by the Highway Commission.

The contracts call for highway work in seven different counties of the State, including:

Placer county—Between Roseville and Penryn.

San Mateo County—Between Beresford and Redwood City.

Contra Costa County—From the southern county boundary to the city limits of Richmond.

Humboldt County—Between Loleta and Beatrice.

Ventura County—Between Springfield and Santa Clara river.

Marin County—From Larkspur to Sausalito.

Glenn County—A bridge over Walker creek.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SEATTLE, WASH.—Apartment house, 4 story and base, brick, \$65,000. Architect, R. Hamilton Rowe, Mutual Life Bldg., Seattle. Owner, E. A. Hartley & Co. Location, First avenue and West Highland, covering an area of 59 by 130 feet. Will contain 42 suites of three rooms each. Plans being completed.

Contracts Awarded.

OAKLAND, CAL.—Apartment house and stores, 3 story and base, framed \$24,000. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner, M. Ellis. Contractor, E. P. Schmitt, Oakland. Contract price, \$24,000.

BONDS

FRESNO, FRESNO CO., CAL.—Fresno's half million dollar municipal bonds for the construction of a sanitary and storm water sewer system have been sold by the City Council to Byrne & McDonnell and R. M. Grant & Company of San Francisco on their premium of \$11,408. City Engineer, E. E. Cronkite reports that plans for the work are complete and will be ready for figures for the approval of the Council at their meeting in August.

FRESNO, FRESNO CO., CAL.—The County Board of Supervisors has set October 31st as the date to hold a \$2,600,000 highway bond issue.

TRACY, SAN JOAQUIN CO., CAL.—The City Trustees will soon call a special bond election to vote bonds of \$20,000, of which \$15,000 will be used to purchase a site and erect a new firehouse and the balance, \$5,000, for the equipment.

DINUBA, TULARE CO., CAL.—A committee has been appointed by the Masonic Order of Dinuba to find ways and means of erecting a two-story brick lodge building.

PLACERVILLE, EL DORADO CO., CAL.—The Placerville Grammar School bonds have been sold by the City Council and bids for the erection of the new school to be erected from the proceeds of the sale will be called for shortly. The bonds sold amounted to \$35,000.

MAITINEZ, CONTRA COSTA CO., CAL.—The election held to vote bonds of \$51,000 carried by a large majority. A one and two story brick or frame school building will be erected from the proceeds of the sale of the bonds.

MODESTO, STANISLAUS CO., CAL.—A special election for the voting of high school bonds has been called for August 15th by the Modesto Board of Education. This is the second election within the year. The first, held last spring, carried by an overwhelming vote for \$160,000 bonds for a new high school, but the bonds were declared illegal by Attorney General Webb.

BRIDGES, DAMS AND HARBOR WORK

RED BLUFF, TEHAMA CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor Red Bluff. Owners, Tehama County. The County Supervisors have instructed the Clerk to advertise for bids for a bridge over Antelope Creek and another one over Long Gulch Slough. Plans may be had from County Clerk H. G. Kuhn.

RED BLUFF, TEHAMA CO., CAL.—Bridge, steel and concrete. Cost not stated. Engineer, County Surveyor Red Bluff. Owners, Tehama County. Bids will be opened on August 9th at 10 a. m. for the construction of a steel bridge over Digger Creek where the present old bridge is located on the road from Manton to Volta, and said bridge being a joint bridge between Shasta and Tehama Counties.

RED BLUFF, TEHAMA CO., CAL.—Bridge, steel and concrete. Cost not stated. Engineer, County Surveyor Red Bluff. Owners, Tehama County. At the last meeting of the County Supervisors plans and specifications were ordered drawn by the County Surveyor for a joint bridge across the Bee Gum between this county and Shasta. Plans and specifications were also ordered for another joint bridge at Manton.

UKIAH, MENDOCINO CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Ukiah. Owners, Mendocino County. Bids will be opened on August 8th at 2 p. m. for constructing a reinforced concrete bridge over Forsythe Creek near Calpella in the Second Road District. Construction of bridge complete. Price per cubic yard concrete in place. Contractors must make their bids, figuring on receiving no money until the work is completed, as no payments whatever will be made on said work until the bridge is fully completed and regularly accepted by said Board.

MERCED, MERCED CO., CAL.—Bridges, steel and concrete. Cost not stated. Engineer, County Surveyor Merced. Owners, Merced County. The County Supervisors at their last meeting instructed the County Surveyor to prepare plans and specifications for the following bridges throughout the county: Road District No. 1—Wood and concrete bridge over Black Rascal Creek on McKee road. Road District No. 2—Wood and concrete bridge over Mariposa Creek on Pate road. Wood and concrete bridge over Deadman's Creek on Baxter road. Road District No. 3—Wood and concrete bridge over Canal Creek on Oakdale and Cox Ferry road. Road District No. 4—Reinforced concrete bridge over lower canal at Sullivan ranch. Reinforced concrete bridge over San Luis Creek on Middle road near Iverson's. The Supervisors requested that the plans be presented as soon as possible for approval.

SAN JOSE, SANTA CLARA CO., CAL.—Bridges, steel and concrete. Cost not stated. Engineer, County Surveyor San Jose. Owners, Santa Clara County. The County Engineer at the last meeting of the Santa Clara County Supervisors was instructed to prepare plans and specifications for the construction of the following bridges: Bridge on the Evans road over Booth Creek; bridge on the Almaden road near the Schuman place; bridge on Almaden road south of the Guadalupe Creek near the Cooney place.

SAN FRANCISCO—Bridge repairs. Cost not stated. Engineer, City Engineer, City Hall. Owners, City and County of San Francisco. The San Francisco Board of Public Works has approved the plans and specifications for the proposed Third street bridge, and has requested the Supervisors to adopt an ordinance authorizing the receipt of bids for the work.

OAKLAND, CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Oakland. Owners, Alameda County. Bids will be opened on July 31st at 10 a. m. for the construction of a reinforced concrete bridge on the Cull Canyon road across the Crow Canyon Creek, Eden Road District, Eden Township.

LARKIN VALLEY SCHOOL DISTRICT, SANTA CRUZ CO., CAL.—School, 1 story, frame. Cost not stated. Architect, none. Owners, Larkin Valley School District. Bids will be opened on July 31st for a one-room school.

GOODING, IDAHO—Sectarian college group, 1, 2 and 2 story, reinforced concrete, \$200,000. Architects, Tourtellotte & Hummel, Rothchild Bldg., Portland. Owners, Methodist Church of Idaho. First unit, administration building to cost \$50,000. This is the first of the group of buildings that the college will put up on a 10-acre campus adjoining the town of Gooding. The trustees are planning to follow it with half a dozen other structures to be erected as rapidly as funds become available. Included in the proposed group of buildings will be a science hall, dormitories and a building for the agricultural department. There is \$200,000 available for buildings and grounds, which will be used for this purpose. The administration building will be constructed of Boise cut stone. In it are to be located an auditorium, class rooms, study halls and the administration offices.

Contracts Awarded.

NELSON, BUTTE CO., CAL.—School, 1 story and base, brick, \$6,917. Architect, Chester Cole, Chico. Owners, Nelson School District. Contractors, Barton & Hite, 620 26th street, Sacramento. Contract price, \$6,947.

PORT ANGELES, WASH.—School, 2 story and base, brick, \$19,065. Architect, H. H. Ginnold, Northern Bank Bldg., Seattle. Owners, City of Port Angeles. Contractors, Columbia Construction and Engineering Co., 2045 West 15th street, Seattle. Contract price, \$19,065.

MARTINEZ, CONTRA COSTA CO., CAL.—School, 1 story, frame addition, \$2,200. Architect, none. Owners, Alhambra School District. Contractor, A. W. Potter, Martinez. Contract price, \$2,200.

VIEBA CITY, SUTTER CO., CAL.—School addition, 1 story and base, frame, \$3,222. Architect's name not given. Owners, Lincoln School District. Contractor, J. O. Palm, Marysville. Contract price, \$3,222.

SAN FRANCISCO — School electric work, \$5,598. Architect, City Department of Architecture, City Hall, S. F. Owners, City and County of San Francisco. Contractor, P. E. Newberry, 163 Sutter street, S. F. Contract price, \$5,598.

SEWERS, STREET WORK & WATER SYSTEMS

VALLEJO, SOLANO CO., CAL.—Street improvements. Cost as follows. Engineer, City Engineer, Vallejo Owners, City of Vallejo. City Engineer T. D. Kilkenny has presented plans and specifications to the City Council together with estimates, etc., for the improvement of streets in the northern district, which includes all unimproved streets east of Sacramento and north of Capitol street, the cost of which is placed at \$141,573.86. Of this sum \$126,158.39 represents the total construction cost, and incidental expenses will amount to \$5,415.47. Among the largest items in the estimate of cost are concrete base, \$60,345.20; excavating, \$25,311.60; asphaltic concrete surface, \$22,551.45; concrete curbs, \$13,484.45. The Council has passed the resolution of intention providing for the grading and paving of portions of Butte, Branciforte, Santa Clara, Sacramento, Marin, Sonoma, Sutter, Napa, El Dorado, Capitol, Florida, Louisiana, Tennessee, Indiana, Illinois and Arkansas streets.

BERKELEY, ALAMEDA CO., CAL.—Culverts, reinforced concrete. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids opened by the City Council at its last meeting for the construction of concrete culverts in Talbot avenue and Ordway street to cross Cornucopia Creek were rejected as being excessive. It is probable that new bids will be called.

HANFORD, KINGS CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Hanford. Owners, Kings County. The County Supervisors have rejected the bids received on the construction of the Guernsey-Dallas unit and the lateral three miles east of Guernsey, the Board believing the bids too high. It is probable that new bids will be called.

HANFORD, KINGS CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Hanford. Owners, Kings County. The Board of Supervisors has instructed County Clerk Pickerill to advertise for the construction of 17½ miles of the improved highway system. One of the units will run south of Armona five miles, and three miles south of Armona a lateral will run two miles west. Another unit will run 5½ miles west of Grangeville, and also one mile south from Grangeville to the Yoakum corner three miles west of this city. The bids will be opened on August 7th. Plans may be had from the County Clerk.

REDDING, SHASTA CO., CAL.—Electroliner system. Cost not stated. Engineer, City Engineer, Redding. Owners, City of Redding. The City Trustees have directed the City Engineer to purchase and install 14 elec-

troliers on the business streets—Market, California and Yuba.

SAN RAFAEL, MARIN CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, San Rafael. Bids will be opened on August 7th at 8 p. m. for doing the following work, including the furnishing of the necessary labor and materials therefor in the city of San Rafael, to wit: Covering the existing macadamized roadway of G street between West End avenue and 5th avenue with a bituminous wearing surface.

SANTA ROSA, SONOMA CO., CAL.—Furnishing asphalt. Cost not stated. Engineer, City Engineer, Santa Rosa. Owners City of Santa Rosa. Bids will be opened on August 1st for the furnishing of a twenty-ton carload of asphalt of 65 to 75 degrees penetration, to the city of Santa Rosa. Delivery to be f. o. b. Santa Rosa.

REDWOOD CITY, SAN MATEO CO., CAL.—Highway improvements. Cost as follows. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. At the County Supervisors' last meeting a communication was received from Edward M. Chadbourne, 503 Market street, San Francisco, offering to construct a bitcrete wearing surface on the Hillsborough to Peck Farm road for the unit price of 1.60¢ per square foot, the figures covering an application of 1½ gallons to the square yard. The cost of the work would amount to approximately \$1,177.60. Accompanying the communication was a letter from Eaton & Smith, 407 11th street, San Francisco, the contractors on the above road, offering to make a deduction of three-quarters of a cent if the oil and screenings are omitted from their contract. The matter was referred to the County Engineer for report.

REDWOOD CITY, SAN MATEO CO., CAL.—Highway improvements. Cost not stated. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Bids will be opened on August 7th at 10 a. m. for the surfacing with oil and screenings a portion of the Redwood City to San Gregorio road, beginning at Station 167-91, Route 6, Division 3, Section 2, of San Mateo County Highway, at the first crossing of the San Gregorio Creek, and extending along said road to a point at the junction of the county highway from Half Moon Bay to San Gregorio at San Gregorio, Station 561-00, Route 6, Division 3, Section 1 of San Mateo County Highways, located in the Fifth Road District.

REDWOOD CITY, SAN MATEO CO., CAL.—Highway improvements. Cost not stated. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Bids will be opened on August 7th at 10 a. m. for the paving with oiled macadam of Seminary avenue, beginning at its intersection with the State Highway near the San Mateo City Homestead, and extending in a general westerly direction 0.544 of a mile, located in the Second Road District.

MENLO PARK, SAN MATEO CO., CAL.—Sewer construction. Cost not stated. Engineer's name not given. Owners, Menlo Park Sanitary District. Bids will be opened on August 8th at 10 a. m. for the construction of a sewer on county road and Alejandro avenue, Menlo Park Sanitary District.

REDWOOD CITY, SAN MATEO CO., CAL.—Culvert pipe. Cost not stated. Engineer, none. Owners, San Mateo County. Supervisor Brown at the last meeting of the Board was instructed to purchase the following culvert pipe for use in his district, 16 feet of 18-inch pipe; 196 feet of 12-inch and 60 feet of 15-inch.

REDWOOD CITY, SAN MATEO CO., CAL.—Highway improvements. Cost stated. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Bids will be opened on August 7th at 10 a. m. for the paving with oiled macadam of Mills avenue and that portion of Laurel avenue between Ravenswood avenue and Glenwood avenue, Menlo Park, San Mateo County, Cal. Total length to be paved is 0.593 of a mile, located in the Third Road District.

REDWOOD CITY, SAN MATEO CO., CAL.—Highway improvements. Cost stated. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Bids will be opened on August 7th at 10 a. m. for the construction of macadam shoulders along the Redwood to San Gregorio road, from Station 131-50 to Station 211-00, Route 6, Division 1 of San Mateo County Highways, a distance of 1.543 miles, located in the Third Road District.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on August 1st for street improvements authorized under the following resolutions: That Sacramento avenue from the south line of Y street to the north line of Magnolia avenue, be improved by constructing concrete curb concrete gutter, placing 6-foot cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached. 2 concrete manholes, and 6 8-inch, vitrified, ironstone sewer pipe drains; grading the space between the property line and curb, constructing concrete sidewalk; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick.

That Y street, from the east line of 30th to the east line of 21st street, be improved, constructing concrete curb, concrete gutter, placing two cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; 6-inch, vitrified, ironstone sewer pipe drains, grading the space between the property line and curb; constructing concrete sidewalk; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick.

That 12th street from the north line of R street to the north line of W street, be improved by reconstructing 3 concrete manholes and 4 concrete catch basins; grading the roadway, and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick. Further information may be had from M. J. Desmond, City Clerk, at Sacramento.

BAKERSFIELD, KERN CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Bids will be opened on August 6th at 2:30 p. m. for the construction of two miles of paving on Bellevue road, five miles southwest of Bakersfield. The paving will commence at the northeast corner of Section 5, Township 36 South, Range 27 East, M. D. M. and run west two miles. The paving will be constructed with a 4-inch concrete base and either a Topoka Top wearing surface or an asphaltic oil wearing surface. The contractors must specify to which kind of paving their bids apply.

VISALIA, TULARE CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, Visalia. Owners, City of Visalia. The Trustees reissued the call for bids on the South Garden street paving, to cover the error made in the recent call. Plans may be had from the City Clerk.

LOS ANGELES, CAL.—Highway construction, \$132,885.25. Engineer, Road Commission, L. A. Owners, Los Angeles County. The Road Commission has completed plans and specifications for improving Section D of the Mint Canyon road. The section is 10.63 miles in length, and will be paved with concrete 20 feet wide and 5 inches thick. The approximate quantities are 94,275 cubic yards of excavation, 58,158 linear feet of shaping road bed, 22,000 linear feet of guard fence, 11,223 pounds of reinforcing steel, 326 cubic yards of Class A concrete for culverts and headwalls, 124,793 square yards of concrete pavement. The county will furnish 23,231 barrels of cement, 261 tons of lime and 1,486 barrels of oil. The estimated cost is \$125,493.75. Bids will also be taken on proposition B, which is the same as above except that the county will furnish 12,716 tons of sand, 20,760 tons of broken stone and 2,559 tons of screenings from the county plant.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Highway construction, \$28,800. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. Bids will be opened on August 4th for the construction of a portion of what is known as the Harris Station-Lompoc road, in the Fourth and Fifth Road Districts. Said road begins at Station B of the State highway near Harris Station and runs southerly towards Lompoc 4.18 miles.

Contracts Awarded.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded as follows. For the improvement of 21st street from Bonita avenue to 3rd avenue, in West Curtis Oaks, by constructing concrete curb, concrete gutter, placing cast iron gutter drains with 6-inch elbows attached, concrete manholes, 6 and 8-inch, vitrified, ironstone sewer pipe drains, grading the space between the property line and curb, concrete sidewalks, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface $1\frac{1}{2}$ inches thick. Awarded to A. Teichert, Ochsner Bldg., Sacramento.

For the improvement of the alley next west of Hawley avenue from

south Carnell avenue to north Schley avenue by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer with 34 6-inch, vitrified, ironstone Y branches, etc., concrete manhole complete, and backfilling trench. Awarded to J. W. Terrell, 1111 29th street, Sacramento.

For the improvement of J street from Mont Clair avenue to Apricot avenue by excavating a trench and constructing therein 8, 10, 12, 15 and 18-inch, vitrified, ironstone pipe sewer and 16 concrete manholes; also three 8-inch, vitrified, ironstone pipe inlets in manholes. Awarded to J. W. Terrell, 1111 29th street, Sacramento.

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, San Francisco. The following contracts have been awarded for street improvements: For the improvement of Anderson street between Cortland and Crescent avenues by grading, concrete curbs, artificial stone sidewalks, brick catchbasins with cast iron frames, gratings and traps and 10-inch, vitrified, salt-glazed, ironstone pipe culverts, 8 and 10-inch, vitrified, salt-glazed, ironstone pipe sewer, a 14-inch central strip of vitrified brick pavement, an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphalt wearing surface on the remainder of the roadway. Awarded to D. L. Bienfeld, Phelan Bldg., for \$10,919.68.

For the improvement of Wilde street between Rutland and Goettingen Sts by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8 and 10-inch, 72 Y branches and 6 brick manholes with cast iron frames and covers and galvanized wrought iron steps. Awarded to W. J. Tobin, 735 Filbert street, Oakland, for \$2,564.25.

For the improvement of Teddy avenue between Alpha and Rutland streets by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8-inch with 48 Y branches and 2 brick manholes. Awarded to W. J. Tobin, 735 Filbert street, Oakland, for \$867.90.

For the improvement of the west half of Arguello Boulevard between lines respectively distant 225 feet and 250 feet south from Geary street, by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation with a 2-inch asphaltic wearing surface upon the roadway thereof. Awarded to D. L. Bienfeld, Phelan Bldg., for \$224.

For the improvement of the crossing of 19th and Sanchez streets by resetting to grading exist curbs and catchbasins, construct artificial stone sidewalks and an asphalt pavement, consisting of a 6-inch concrete foundation on the roadway thereof. Awarded to R. Nugent, 2165 Market street, for \$1,194.35.

For the improvement of Rivera street between the west line of 22nd avenue and the west line of 23rd avenue, where not already improved, by grading, construct concrete curbs, artificial stone sidewalks 6 feet wide, a broken rock pavement on roadway and the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8 and 12-inch with 1 brick manhole and 18 Y branches. Awarded to Owen McHugh, 204 Russ Bldg., for \$1,557.55.

For the improvement of Irving street between the west line of 20th avenue and the west line of 21st avenue by

constructing concrete curbs, artificial stone sidewalks 6 feet wide and the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8 and 12-inch with 9 Y branches, 5 brick catchbasins with 10-inch, vitrified, salt-glazed, ironstone pipe culverts and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to The Fay Improvement Co., Phelan Bldg., for \$4,150.62.

For the improvement of Judah street between 19th and 20th avenues by grading, concrete curbs, artificial stone sidewalks and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to the Federal Construction Co., 323 Sharon Bldg., under private contract.

RICHMOND, CONTRA COSTA CO., CAL.—Street paving, \$33,000. Engineer, City Engineer, Richmond. Owners, City of Richmond. Contractor, Paul Schnoor, 5905 Claremont avenue, Oakland. Contract price, \$33,000.

OAKLAND, CAL.—Street paving. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Contractors, Oakland Paving Co., 5000 Broadway, Oakland. Contract price not stated. Hutchinson Co., 13th and Franklin streets, Oakland. Contract price not stated.

BERKELEY, ALAMEDA CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Contractors, Oakland Paving Co., 5000 Broadway, Oakland. Contract price not stated.

LOS ANGELES, CAL.—Street improvements, \$21,021.64. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. Contractor, J. Hein, Stimson Bldg., L. A. Contract price, \$21,021.64.

RIVERSIDE, RIVERSIDE CO., CAL.—Street paving, \$35,495.14. Engineer, City Engineer, Riverside. Owners, City of Riverside. Contractors, Johnson-Shea Co., 500 Market street, Riverside. Contract price, \$35,495.14.

SAN FRANCISCO—Esplanade, \$25,573. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Contractor, J. D. Hannah, Chronicle Bldg., S. F. Contract price, \$25,573.

STORES AND OFFICES

SAN FRANCISCO—Stores and offices, 12 story and base. Class A construction, \$175,000. Architects, Wood & Simpson, 110 Sutter street, S. F. Owner, John S. Drum, Savings Union, S. F. Location, southwest corner of Market and Second streets. Will contain stores on the first floor and offices above. Plans complete and segregated figures being taken by the owner.

SAN FRANCISCO—Cafe alterations and additions, 1 story, frame, \$2,000. Architects, O'Brien Bros., 216 Montgomery street, S. F. Owner, Shorty Roberts. Location, Great Highway. Plans complete and figures being taken.

and light lofts above. Plans complete and segregated figures being taken.

SAN ANSELMO, MARIN CO., CAL.—Store, 1 story and base, brick. Cost not stated. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner's name withheld. Will cover an area of 41 by 120 feet and contain several modern stores. Plans complete and figures being taken.

THEATRES

SAN FRANCISCO—Theatre, 2 story story and base. Class A construction. Cost not stated. Architects, Cunningham & Politeo, First National Bank Bldg., S. F. Owners, Market Street Realty Co. Location, southeast corner of Market and Fourth streets. Figures are now being taken for wrecking the buildings at the southeast corner of 14th and Market streets and a contract will shortly be awarded for the work. Bids will be called for shortly for the excavating and concrete work. The Golden Gate Iron Works have already been awarded a contract for the structural steel. A large theatre building is to be erected on this site by the Market Street Realty Co. The theatre will have a seating capacity of 3,000 people.

SEALED PROPOSALS

PROPOSALS FOR BRIDGE.

BRIDGE SPANS—Department of the Interior, Office of Indian Affairs, Washington, D. C. July 5, 1916.—Sealed proposals plainly marked on the outside of the sealed envelope "Proposals for Material for Two Steel Spans for Bridge, Klamath Indian Reservation, Oregon," and addressed to the commissioner of Indian Affairs, Washington, D. C., will be received at the Indian Office until 2 o'clock p. m. of August 7, 1916, for furnishing of material only required for the construction of two steel bridge spans, one 20-foot span and one 60-foot span, in strict accordance with the plans, specifications and instructions to bidders, which may be examined at the United States Indian warehouse at San Francisco, Cal., and at the office of the superintendent of the Klamath Indian Agency, Klamath Agency, Ore. CATO SELLS, commissioner.

PROPOSALS FOR CANAL WORK.

CANAL WORK—Sealed proposals will be received at the office of the United States Reclamation Service, Powell, Wyo., until 2 o'clock p. m. August 18, 1916, for the construction of canals on the Shoshone project, Wyoming, involving about 372,000 cubic yards of excavation. The work is located near the stations of the Mantua and Frannie, Wyo., on the C. B. & Q. Railroad. For particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., or Powell, Wyo. WILL R. KING, acting director.

PROPOSALS FOR STEEL AND IRON PARTS.

STEEL AND IRON PARTS—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Washington, D. C. until 2 o'clock p. m. July 31, 1916, for furnishing steel and cast iron parts for the movable crest of the United States railway, Milk River project, Montana. For particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., or Brownin, Mont. WILL R. KING, acting director.

PROPOSALS FOR EARTHWORK.

EARTHWORK—Sealed proposals will be received at the office of the United States Reclamation Service, Malta, Mont., until 2 o'clock p. m. August 14, 1916, for earthwork, Nelson Reservoir, South Canal, Milk River project, involving about 617,000 cubic yards of excavation. The work is lo-

cated in the vicinity of Saco and Beaverton, Mont., on the Great Northern Railway. For particulars address the United States Reclamation Service, Malta, Mont.; Denver, Colo., or Washington, D. C. WILL R. KING, acting director.

PROPOSALS FOR EXCAVATION.

EXCAVATION—Department of the Interior, United States Reclamation Service, Denver, Colo.—Sealed proposals will be received at the office of the United States Reclamation Service, Carlsbad, N. M., until 2 o'clock p. m. August 1, 1916, for work involving the excavation of about 15,000 cubic yards of material. The work is located about 15 miles northwest of Carlsbad, N. M., on the Atchison, Topeka and Santa Fe Railway. For particulars address the United States Reclamation Service, Denver, Colo., or Carlsbad, N. M. A. P. DAVIS, chief engineer.

NOTICE TO CONTRACTORS.

NOTICE is hereby given that the undersigned, as Trustees of Independent School District of San Joaquin County, State of California, will receive bids for furnishing all material and labor necessary for the construction of one-story, wood frame school building containing one class room, according to plans and specifications prepared by Architect Ralph P. Allen, O. O. F. Building, Stockton, California, at the office of the architect in said I. O. O. F. Building, up to the hour of two 2 o'clock p. m. on Friday, July 28, 1916.

Plans and specifications may be seen at the office of and obtained from the architect. Bids must be made on forms obtained from the architect. Each bid must be accompanied by a certified check of 10 per cent of bid, or its equivalent, payable to the Board of Trustees of Independent School District, as security that the successful bidder will within five days after award of contract enter into a contract according to said plans and specifications, within sixty working days, and will furnish a good and sufficient bond acceptable to the undersigned Board of Trustees in the amount of one-half of the contract price and conditioned for the good and faithful performance of said contract.

Bids so received up to two (2) o'clock p. m. on July 28, 1916, will be opened at that hour at the office of the Architect.

Dated July 11, 1916. J. C. BRAAS, Clerk of the Board of Trustees of Independent School District.

NOTICE TO CONTRACTORS.

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Cal.—For PROPOSALS in triplicate for constructing a Water and Sewer System at Presidio of San Francisco, Cal., will be received here until 11 A. M. July 27, 1916, and then opened. Further information on application.

PROPOSALS FOR BUILDING.

BUILDING—Department of the Interior, Office of Indian Affairs, Washington, D. C.—Sealed proposals plainly marked on the outside of the sealed envelope "Proposals for School and Quarters Building, Camp Verde, Ariz.," and addressed to the commissioner of Indian Affairs, Washington, D. C., will be received at the Indian Office until 2 o'clock p. m. of July 28, 1916, for furnishing materials and labor for the construction of a combination stone day school and quarters building in strict accordance with the plans, specifications and instructions to bidders, which may be examined at the United States Indian warehouse at San Francisco, Cal., at the office of the superintendent of the Camp Verde Indian School, Camp Verde, Ariz. For further information apply to the superintendent of the Camp Verde School. CATO SELLS, commissioner.

PROPOSALS FOR DREDGE.

DREDGE—Sealed proposals indorsed "Proposals for Dredge" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m. August 12, 1916, and then and there publicly opened.

for a gravity swing, 1-ton, bucket dredge for the navy yard, Mare Island, Cal.—Plans and specification can be obtained on application to the bureau or to the commandant of the navy yard named, F. R. HARRIS, chief of bureau.

PROPOSALS FOR BUILDING.

BUILDING—Sealed proposals, indorsed "Proposals for Superintendent's Residence and Hatchery Building, Springville, Utah," and inclosed in an envelope addressed to commissioner of fisheries, Department of Commerce, Washington, D. C., will be received at the office until 2 o'clock p. m. of July 28, 1916, and then opened, for the construction of superintendent's residence and hatchery building at the fisheries station, Springville, Utah. For blank proposals, specifications, etc., address commissioner of fisheries, Washington, D. C.

SALE OF MATERIALS.

PANAMA CIRCULAR 1657—Proposals for the Purchase of Locomotives offered for sale by the Panama Canal and Which Are No Longer Needed.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m. August 23, 1916, at which time they will be opened in public, for purchasing the above mentioned articulated locomotives and information relating to this circular (No. 1957) may be obtained from this office or the office of the assistant purchasing agent, Panama Canal, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal. EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

BRIDGE BIDS WANTED.

SAN ANDREAS, Calaveras Co., Cal.—BIDS will be received up to 1 P. M. August 14th, by the Calaveras County Supervisors for the construction of a reinforced concrete bridge over the North Fork of the Calaveras River, on the line of the State Highway between the towns of San Andreas and Valley Springs in Calaveras County, about two miles between the town of San Andreas and about three-quarters of a mile down stream from present wooden bridge across the said stream.

Plans and further information may be had from A. W. Poe, Clerk of the Board of Supervisors at San Andreas, California.

NOTE—This is not an official proposal. Official proposal may be seen in the "Calaveras Weekly Citizen," published at San Andreas. (*)

TRUCKEE RIVER IRRIGATION.

PYRAMID—Water sufficient to irrigate from 25,000 to 30,000 acres of land will be conserved by the new irrigation dam which probably will be erected this year on the Truckee River in the Pyramid Lake Indian reservation according to Supt. J. D. Oliver. The sum of \$85,000 was appropriated by the present Congress for irrigation on the reservation.

SWIMMING POOL AND PARK ARE PLANNED.

ROSEVILLE (Placer Co.)—Steps are being taken here to organize a company to establish a swimming pool and recreation park.

Local capital is expected to subsidize \$20,000 for the project. A tank fifty by eighty feet is planned.

The Clintonville F.W.D.

Furnishing twice the Pulling Power at less expense

Means Efficiency

Abundant power on ALL FOUR WHEELS assures maximum every-day service plus economy in cost of operation. ¶ It is a fact that on various hauls and under unusual conditions the F. W. D. has replaced every make of motor truck built in America.

"31,320 Miles and never in a garage for an adjustment of any sort—and still operating on the original set of tires!"

This is one firm's experience with the CLINTONVILLE F. W. D.

A high bred dog has a right to have his birth registered—so has a baby? The U. S. Public Health Service guards American ports to exclude foreign disease?

Health is a credit with the bank of nature?

SAN JOSE AND THE SANTA CLARA VALLEY

\$1,600.00
 South San Francisco. Contract price.
 Clara County. Contractor, A. Madison, Surveyor, San Jose. Owners, Santa Clara County. Cal. Engineer, County Engineer, San Jose.

BRIDGES—Steel and concrete. Cost not stated. San Jose, Santa Clara Co. Cal. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. The County Engineer at the last meeting of the Santa Clara County Supervisors was instructed to prepare plans and specifications for the construction of the following bridges: Bridge on the Uvas road over Booth Creek; bridge on the Almaden road near Schuman place; bridge on Almaden road south of the Guadalupe Creek near Cooney place.

SCHOOLS—1 story and base. Class C construction, \$20,000. Palo Alto, Santa Clara Co. Cal. Architect, John J. Donovan, Dalziel Bldg., Oakland. Owners, Stanford School District. Robert Glaze, Humboldt Bank Bldg., S. F., presented the lowest figure for this work at \$20,950 and will probably be awarded the contract. A complete list of the bids received will be found under the heading of San Jose and the Santa Clara Valley.

SCHOOLS—1 and 2 story, reinforced concrete and frame. Cost as follows. Watsonville, Santa Cruz Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, City of Watsonville. Architect Weeks has just been selected to prepare plans for two new school buildings. The high school will cost \$100,000, while a smaller building, designed for a primary school, will be erected at a cost of \$15,000. Further mention will be made when plans are prepared.

HIGHWAY IMPROVEMENTS—Cost as follows. Redwood City, San Mateo Co., Cal. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. At the County Supervisors' last meeting a communication was re-

ceived from Edward M. Chadbourne, 502 Market street, San Francisco, offering to construct a bitucrete wearing surface on the Hillsborough to Poor Farm road for the unit price of 1.16c per square foot, the figures covering an application of 1½ gallons to the square yard. The cost of the work would amount to approximately \$1,177.60. Accompanying the communication was a letter from Eaton & Smith, 407 11th street, San Francisco, the contractors on the above road, offering to make a deduction of three-quarters of a cent if the oil and screenings are omitted from their contract. The matter was referred to the County Engineer for report.

HIGHWAY IMPROVEMENTS—Cost not stated. Redwood City, San Mateo Co., Cal. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Bids will be opened on August 7th at 10 a. m. for the surfacing with oil and screenings a portion of the Redwood City to San Gregorio road, beginning at Station 167-91, Route 6, Division 3, Section 2, of San Mateo County Highway, at the first crossing of the San Gregorio Creek and extending along said road to a point at the junction of the county highways from Half Moon Bay to San Gregorio at San Gregorio, Station 541-09, Route 6, Division 3, Section 4, of San Mateo County Highways, located in the Fifth Road District.

HIGHWAY IMPROVEMENT—Cost not stated. Redwood City San Mateo Co., Cal. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Bids will be opened on August 7th at 10 a. m. for the paving with oiled macadam of Seminary avenue, beginning at its intersection with the State highway near the San Mateo City Homestead, and extending in a general westerly direction 0.54 of a mile, located in the Second Road District.

SEWER CONSTRUCTION—Cost not stated. Menlo Park, San Mateo Co., Cal. Engineer's name not given. Owners, Menlo Park Sanitary District. Bids will be opened on August 5th at 10 a. m. for the construction of a sewer on county road and Alejandro avenue. Menlo Park Sanitary District.

CULVERT PIPE—Cost not stated. Redwood City San Mateo Co., Cal. Engineer, none. Owners, San Mateo County. Supervisor Brown at the last meeting of the Board was instructed to purchase the following culvert pipe for use in his district: 46 feet of 18-inch pipe, 105 feet of 12-inch and 60 feet of 15-inch.

HIGHWAY IMPROVEMENT—Cost not stated. Redwood City, San Mateo Co., Cal. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Bids will be opened on August 7th at 10 a. m. for the paving with oiled macadam of Mills avenue and that portion of Laurel avenue between Ravenswood avenue and Glenwood avenue. Menlo Park, San Mateo County. Total length to be paved is 0.593 of a mile, located in the Third Road District.

MARIN, CONTRA COSTA AND SONOMA COUNTIES

STREET IMPROVEMENTS — Cost not stated. Alvaro, Salmo Co., Cal. Engineer, City Engineer, Vallejo. Owners, City of Vallejo, City Engineer T. D. Kalkreuth. Has presented plans and specifications to the City Council to be taken up with estimates, etc., for the improvement of streets in the northern district, which includes all unpaved streets east of Sacramento street and north of Capitol street, the cost of which is placed at \$141,573.86. Of this sum \$138,839 represents the total construction cost, and incidental ex-penses will amount to \$3,115.07. Among the largest items in the estimate of cost are concrete base, \$60,345.29; excavating, \$7,531.60; asphaltic concrete surface, \$7,531.15; concrete curbs, \$13,181.15. The Council has passed the resolution of intention providing for the grading and paving of portions of Butte, Brainerd, Santa Clara, Sacra-mento, Marin, Sonoma, Sutter, Napa, El Dorado, Capitol, Florida, Louisiana, Tennessee, Indiana, Illinois and At-kanzas streets.

STREET PAVING — \$23,000. Rich-mond, Contra Costa Co., Cal. Engineer, City Engineer, Richmond. Owners, City of Richmond, Contractor, Paul Schnoor, 2905 Claremont avenue, Oak-land. Contract price, \$23,000.

RESIDENCE — 2 story and base, frame. Cost not stated. Richmond, Contra Costa Co., Cal. Architect, James T. Nabett, 704 Macdonald avenue, Richmond. Owner, Gottlieb Messerle Location, 10th street between Barnett and Tippley. Will contain seven rooms, bath and sleeping porch. Plans com-plete and figures being taken.

SCHOOL—1 story and base, frame, \$12,000. Danville, Contra Costa Co., Cal. Architect, Norman K. Coulter, 46 Kearny street, S. F. Owners, Danville School District. Will contain two class rooms and an assembly hall. Plans complete and figures being taken. Bids to be opened between August 12th and 15th.

STREET IMPROVEMENTS — Cost not stated. San Rafael Marin Co., Cal. Engineer, City Engineer, San Rafael. Bids will be opened on August 7th at 8 p. m. for doing the following work, including the furnishing of the neces-sary labor and materials therefor. In the city of San Rafael, to wit: Covering the existing macadamized roadway of G street between West End avenue and 5th avenue with a bituminous wearing surface.

FURNISHING ASPHALT—Cost not stated. Santa Rosa, Sonoma Co., Cal. Engineer, City Engineer, Santa Rosa. Owners, City of Santa Rosa. Bids will be opened on August 1st for the fur-nishing of a twenty-ton carload of as-phalt of 65 to 75 degree penetration to the city of Santa Rosa. Delivery to be f. o. b. Santa Rosa.

COUNTRY CLUB—1 story, frame and plaster. Cost not stated. Mill Valley, Marin Co., Cal. Architect, A. A. Cantin, Foxcroft Bldg., S. F. Owners, Mill Val-ley Country Club. Location, Rithdale road. Will contain social rooms, ban-quet hall and completely equipped kitchen. Plans complete and figures to be taken at once.

STORE—1 story and base, brick. Cost not stated. San Anselmo, Marin Co., Cal. Architects, O'Brien Bros., 210 Montgomery street, S. F. Owner's name withheld. Will cover an area of 41 by 120 feet and contain several modern stores. Plans complete and figures being taken.

Contracts Awarded.

SCHOOL—1 story, frame addition, \$2,200. Martinez, Contra Costa Co., Cal. Architect, none. Owners, Alhambra School District. Contractor, A. W. Potter, Martinez. Contract price, \$2,200.

FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA

HIGHWAY CONSTRUCTION—Cost not stated. Hanford, Kings Co., Cal. Engineer, County Surveyor, Hanford Owners, Kings County. The County Supervisors have rejected the bids received on the construction of the Guernsey-Dallas unit, and the lateral three miles east of Guernsey. The Board believing the bids too high. It is probable that new bids will be called.

HIGHWAY CONSTRUCTION—Cost not stated. Hanford, Kings Co., Cal. Engineer, County Surveyor, Hanford Owners, Kings County. The Board of Supervisors has instructed County Clerk Pickerill to advertise for the construction of 17½ miles of the improved highway system. One of the units will run south of Armona five miles, and three miles south of Armona a lateral will run two miles west. Another unit will 5½ miles west of Grangeville, and also one mile south from Grangeville to the Yeakum corner three miles west of this city. The bids will be opened on August 7. Plans may be had from the County Clerk.

HIGHWAY CONSTRUCTION—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield Owners, Kern County. Bids will be opened on August 8th at 2:30 p. m. for the construction of two miles of paving on Bellevue road, five miles southwest of Bakersfield. The paving will commence at the northeast corner of Section 5, Township 30 South, Range 27 East, M. D. M. and run west two miles. The paving will be constructed with a 4-inches concrete base and either a Topeka Top wearing surface or an asphaltic oil wearing surface. The contractors must specify to which kind of paving they bids apply.

STREET PAVING—Cost not stated. Visalia, Tulare Co., Cal. Engineer, City Engineer, Visalia Owners, City of Visalia. The Trustees rescinded the call for bids on the South Garden street paving to cover the error made in the recent call. Plans may be had from the City Clerk.

WAREHOUSE ALTERATIONS—Frame, \$3,000. Fresno, Fresno Co., Cal. Architect, none. Owners, Guggenheimer & Co., Santa Fe and Santa Clara Sts., Fresno. Plans complete and work to be done by Day Labor.

LIBRARY—1 story and base, brick, \$12,500. Madera, Madera Co., Cal. Architects, Costes & Traver, Fresno Owners, City of Madera. Will cover an area of 96 by 48 feet and contain two reading rooms, stack room and office. Plans approved and figures to be called for at once.

SCHOOL—1 story, frame. Cost not stated. Madison School District, Fresno Co., Cal. Architect, none. Owners, Madison School District. Will contain two rooms. Plans complete and figures being taken. Bids close on August 3rd.

SCHOOL—1 story, brick, concrete and frame. Cost not stated. Wasco, Kern Co., Cal. Architect, Ernest J. Kump, Rowell Bldg., Fresno. Owners, Wasco Union High School District. Bids will be opened on August 7th at 2 p. m. for the general construction, including pump house, water system and heating.

SCHOOL—1 story, frame. Cost not stated. Larkin Valley School District Santa Cruz Co., Cal. Architect, none. Owners, Larkin Valley School District. Bids will be opened on July 31st for a one-room school.

BRIDGE—Steel and concrete, \$3,260. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville. Owners, Butte County. Contractor, E. D. Sharp, Chico. Contract price, \$3,260.

SCHOOL—I story and base, brick, \$6,947. Nelson, Butte Co., Cal. Architect, Chester Cole, Chico. Owners, Nelson School District. Contractors, Barton & Lite, 626 26th street, Sacramento. Contract price, \$6,947.

SCHOOL ADDITION—I story and base, frame, \$3,222. Yuba City, Sutter Co., Cal. Architect's name not given. Owners, Lincoln School District. Contractor, J. O. Palm, Marysville. Contract price, \$3,222.

BUILDING CONTRACTS

SAN JOAQUIN COUNTY.

APARTMENTS

SW AURORA AND WEBER AVE. Stockton. Plumbing, heating, painting and sheet metal work for three-story and basement apartment house. Owner.....Thomas Walsh, Commerce and Willow Sts., Stockton Architect....Ralph P. Morrell, 12-15 I. O. O. F. Bldg., Stockton. Contractor.....Robert Hansen, 111½ E-Channel St., Stockton.

Filed July 15, '16. Dated July 15, '16. Roughing in completed.....\$1471 Sheet metal work.....1469 When fixtures are fixed.....1469 Usual 35 days.....1476

TOTAL COST, \$5879

Bond, \$2940. Surety, Ramsey & Emerson. Limit, 120 days. Forfeit, none. Plans and specifications filed.

BRICK APARTMENTS

LOT H BLK 9, E of Center, Stockton. All work except plumbing, heating, painting and sheet metal work for three-story brick apartments.

Owner.....Thomas F. Walsh, 7 W. Willow St., Stockton.

Architect....Ralph P. Morrell, 12-15 I. O. O. F. Bldg., Stockton.

Contractor.....L. S. Peletz, 428 E-Fremont St., Stockton.

Filed July 11, '16. Dated June 22, '16. 2nd story joists in place.....\$2500 3rd story joists in place.....2244

Roof on brick work completed 2000 Rough plumbing tested and inspected.....2500 Electric work completed and plastering done.....2500 Interior trim & hardware fitted 2500 Usual 35 days.....4748

TOTAL COST, \$18,992

Bond, \$9496. Surety, Miller & Post. Limit, 120 days. Forfeit, none. Plans and specifications filed.

SCHOOL

THREE MILES S OF MANTECA, CAL

All work for two class room school and assembly hall.

Owner.....San Joaquin School District, Thorpe, Clerk.

Architect....Ralph P. Morrell, I. O. O. F. Bldg., Stockton.

Contractor.....C. C. Busch, Ripon, Cal.

Filed July 13, '16. Dated July 10, '16.

Lumber delivered and frame up.....\$1500.00

Plastering completed.....1590.00

Inside and outside finish completed.....1552.00

Usual 35 days.....1547.50

TOTAL COST, \$6190.00

Bond, \$3095. Sureties, Kaulle Sotohall

and A. J. Nousear. Limit, 90 days

Forfeit, none. Plans and specifications filed.

LOS ANGELES AND SOUTHERN CALIFORNIA

BRIDGE—Reinforced concrete, \$40,000. Santa Ana, Orange Co., Cal. Engineer, S. H. Finley, Santa Ana. Owners Orange County. S. H. Finley is completing plans for a concrete bridge to be constructed across the Santa Ana River on West Chapman street, West Orange. The bridge will be 574 feet long, with a roadway of 21 feet, and have two center spans 54 feet apart, and the end spans 36 feet similar in design to the Talbert and Olive bridges.

HIGHWAY CONSTRUCTION—\$132,885.25. Los Angeles, Cal. Engineer, Road Commission L. A. Owners, Los Angeles County. The Road Commission has completed plans and specifications for improving Section D of the Mint Canyon road. The section is 10.63 miles in length and will be paved with concrete 20 feet wide and 5 inches thick. The approximate quantities are: 94,275 cubic yards of excavation, 56,153 linear feet of shaping road bed, 22,000 linear feet of guard fence, 11,123 pounds of reinforcing steel, 336 cubic yards of class A concrete for culverts and headwalls, 124,793 square yards of concrete pavement. The county will furnish 23,231 barrels of cement, 261 tons of lime and 1,486 barrels of oil. The estimated cost is \$125,493.75. Bids will also be taken on proposition B, which is the same as above except that the county will furnish 12,716 tons of

sand, 20,760 tons of broken stone and 2,559 tons of screenings from the county plant.

HIGHWAY CONSTRUCTION — \$28,000. Santa Barbara, Santa Barbara Co., Cal. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. Bids will be opened on August 4th for the construction of a portion of what is known as the Harris Station-Lompoc road in the Fourth and Fifth Road Districts; said road begins at Station No. 442-20, Section 13 of the State highway near Harris Station, and runs southerly towards Lompoc 4.18 miles.

WINE STORAGE PLANT—2 story and base, brick and frame, \$60,000. Wineville, Riverside Co., Cal. Architects, Morgan, Walls & Morgan, Van Nuys Bldg., L. A. Owners, Italian Vineyard Co. Contractors, Alpert & Alpert, L. A. Contract price, \$60,000.

HOTEL—10 story and base, reinforced concrete, \$200,000. Los Angeles, Cal. Architects, John M. Cooper and W. Douglas Lee, Marsh-Strong Bldg., L. A. Owner, J. M. Cooper. Location, south Sixth street near Hope, covering an area of 75 by 103 feet. Will contain 261 rooms and 150 baths. Plans complete and segregated figures being taken.

Contracts Awarded.

RESIDENCE—2 story and base, hollow tile, \$25,000. Redlands, San Bernardino Co., Cal. Architect, Elmer Grey, Wright and Callender Bldg., L. A. Owner's name withheld. Contractor, Davis Donald, 10 5th street, Redlands. Contract price, \$25,000.

STREET IMPROVEMENTS—\$21,021.64. Los Angeles, Cal. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. Contractor, J. Hein, Stimson Bldg., L. A. Contract price, \$21,021.64.

STREET PAVING—\$35,495.14. Riverside, Riverside Co., Cal. Engineer, City Engineer, Riverside. Owners, City of Riverside. Contractors, Johnson-Shea Co., 500 Market street, Riverside. Contract price, \$35,495.14.

BULKHEAD — Reinforced concrete and timber, \$125,000. Venice, Los Angeles Co., Cal. Engineer's name not given. Owners, Town of Venice. Contractors, Braun, Bryant & Austin, Venice. Contract price, \$125,000.

HOTEL—2 story and base. Class C construction, \$40,000. Los Angeles, Cal. Architect, A. B. Rosenthal, Lankershim Bldg., L. A. Owner, Col. J. B. Lankershim. Contracts have been awarded as follows: Carpenter work, mill work and finish to John Herington, 6922 Hawthorne avenue, L. A.; brick and concrete work to Stradley & Newton, Builders' Exchange, L. A.; plastering to Duncan & Westberg, Builders' Exchange, L. A.; sheet metal work and fireproof windows to Arcade Cornice Works; painting to E. Waynon; roofing to Paraffine Paint Co.; plumbing and steam heating to S. C. Brown; electric work to the Electric Lighting and Supply Co.; glass to the Los Angeles Glass Co.; structural steel and iron to the Baker Iron Works, and marble and tile work to Joseph Musto Sons-Keenan Co.

PORTLAND AND OREGON

CHURCH—1 story, brick and frame, \$22,000. Astoria, Ore. Architects, Whitehouse & Foulhieux, Wiley Bldg., Portland. Owners, Methodist Episcopal church. Will contain auditorium seating 200 people, Sunday school rooms seating 200 people and a large balcony. Plans complete and figures being taken.

SEATTLE AND WASHINGTON

APARTMENT HOUSE—4 story and base, brick, \$65,000. Seattle, Wash. Architect, R. Hamilton Rowe, Mutual Life Bldg., Seattle. Owner, E. A. Hartley & Co. Location, First avenue and West Highland, covering an area of 59 by 120 feet. Will contain 42 suites of three rooms each. Plans being completed.

LODGE HALL—2 story and base, brick, \$45,000. Centralia, Wash. Architects, Stephen & Stephen, New York Block, Seattle. Owners, Elks Hall Association. Will cover an area of 60 by 120 feet and contain stores on the first floor. Upper floors arranged for lodge rooms. Plans complete and figures to be called for shortly.

POST OFFICE—2 story and base, steel and stone. Cost not stated. Wenatchee, Wash. Architect, Supervising Architect, Washington, D. C. Owners, United States Government. All bids received at Washington, D. C., for the construction of the proposed U. S. Wenatchee post office have been rejected and a new call for bids will be issued. On June 1 the proposal of Bird & Hobson, contractors of Wenatchee, the lowest bidders for the construction of the building, in amount \$78,618, was accepted, based upon the use of Wilkinson sandstone. The bidders since stated they made an error in their figure and declined to accept the contract.

SECTARIAN COLLEGE GROUP—1, 2 and 3 story, reinforced concrete, \$200,000. Gooding, Idaho. Architects, Tourtelotte & Hummel, Rothchild Bldg., Portland. Owners, Methodist Church of Idaho. First unit administration building to cost \$80,000. This is the first of the group of buildings that the college will put up on a 40-acre campus adjoining the town of Gooding. The trustees are planning to follow it with half a dozen other structures to be erected as rapidly as funds become available. Included in the proposed group of buildings will be a science hall, dormitories and a building for the agricultural department. There is \$200,000 available for buildings and grounds, which will be used for this purpose. The administration building will be constructed of Boise cut stone. In it are to be located an auditorium, class rooms, study hall and the administration offices.

Contracts Awarded.

SCHOOL—2 story and base, brick, \$19,065. Port Angeles, Wash. Architect, H. H. Ginnold, Northern Bank Bldg., Seattle. Owners, City of Port Angeles. Contractors, Columbia Construction and Engineering Co., 2045 West 16th street, Seattle. Contract price, \$19,065.

CHURCH REHABILITATION—Steel and terra cotta, \$125,000. Seattle, Wash. Architect, John Graham, Green Bldg., Seattle. Owners, St. James Cathedral. Contractor, P. A. Baillargeon, New York Block, Seattle. Contract price, \$125,000.

LUMBER FAMINE.

Architects, contractors and other interested in building construction at this time are due to the water-front strike are facing a so-called **Lumber Famine**, and this particularly applies to the scarcity of wood lath.

It is an opportune time therefore to call to the attention of the readers of the Daily Pacific Builder, the fact that a substitute which embodies many improvements is now available in the **KEY-HOLD LATH**.

The Building Committee of the Board of Supervisors recently amended the Building Laws, by specifying that 20% of the surface of the plasterboard be mechanically keyed insuring a better bond between the plaster and the plasterboard, thus permitting the extended use of plasterboard. **Dove Tail "Key Hold Lath"** positively accomplishes this fact. This plasterboard may be used on the interior in place of wood or metal lath, and by their own special system of locking and fastening to metal stud in Class "A," "B," and "C" construction, at a considerable saving in time and expense.

KEY-HOLD LATH, WATER-PROOFED, for exterior work is claimed to be the only known plasterboard to which can be directly applied successfully cement plaster, with or without chicken netting or wire lath; the **DOVE TAIL, HOLD** making it impossible to separate the plaster from the board after setting.

Another very attractive feature of the **KEY-HOLD LATH** is that there are no horizontal joints in interior work as the board is manufactured, in lengths to reach from floor to ceiling, and being strictly a plasterboard will not warp or buckle.

This board is being produced by special automatic machinery and put on the market by the **KEY-HOLD LATH COMPANY**, whose personnel is made up by J. A. Levensaler, of the Levensaler-Speir Corporation, who has had long experience in plasterboard construction, and J. F. Makowski, as Superintendent of Construction, whose wide experience in the metal lathing and furring business well fits him for this practical work.

We are glad to announce that the **KEY-HOLD LATH COMPANY** are ready to demonstrate this construction for exterior and interior work and are prepared to take contracts for their system of fireproof partitions and suspended ceilings in all classes of buildings, as well as exterior cement stucco work, in conjunction with their **WATER-PROOF "KEY-HOLD LATH"**. Their offices are 251-5 Monadnock Building, Telephone Douglas 3472.

WHY NEW FACTORIES ARE COMING TO CALIFORNIA.

While it is undoubtedly true that, on account of what is termed "the unions," many factories are discouraged from coming to California, or, rather, that many Eastern manufacturers who ought to open factories in this State are being frightened off by the almost universal, though much exaggerated, talk of "labor conditions" in the Golden State—the fact still remains that nowhere else in the whole world are "labor considerations" really

so favorable to the manufacturer, and to the consumer whom to please is the highest importance in the list of reasons why any manufacturer must locate in one location instead of another.

Experts of the Home Industry League of California, after deep thought, based on the widest investigations of so-called "labor conditions" in California and elsewhere, have come to the final conclusion that even though all the public misconception of the "tyranny" of Labor Unions in California were really true, instead of being mostly travesty, the fact remains that for many classes of industry the "labor conditions" in California are much more advantageous to the factory owner than are the labor conditions, similar conditions, in any State of the East where popular fallacy proclaims all large factories must be located in order to be successful from the viewpoint of owners' cash-box.

Every employee of a factory in California gives to his employer, for the same number of hours of employment, more than forty per cent (40%) more return than is given by the same grade of employee, in an eastern state, to a factory owner located there. This statement is worth more than a passing thought: Think of it, you Californians who are apt to rashly "knock" labor conditions in your own state: Every man and woman in a California factory gives the California employer fully forty per cent (40%) MORE financial return to his employer, for the actual wages paid, than does the factory operative in the East. Authority for these figures is assumed by A. C. Rulofson, chairman of the Executive Committee of the Home Industry League of California, who quotes the "efficiency experts" of the Southern Pacific Railway who have been making most careful analyses of the "labor problems" in the State of California.

Boiled to the bone the reports of the efficiency experts prove that forty per cent more "product" is given by the California operative than the similar operative in the East, for the following reasons:

1. Climatic conditions in California—evenness of temperature throughout the entire year—make "steam heating," "electric fan cooling," unnecessary—thus saving the cost of each, and maintaining a 100 per cent working efficiency for the local operative. While in eastern factories he must frequently pause for reasons of it being too cold or too warm. The California climate further permits more "open-air" (open-window and open-door) working of the employees—thus inducing the operatives to produce not only more product per hour but a higher grade of that product as well.

2. Physical conditions surrounding California factories are so much more favorable than those of the East that office employees in California arrive to work on time and in their physical condition than corresponding employees in the East—no time being lost in California, by factories, through employees being delayed by snowbound cars, by blizzards "unavoidable" and the like.

3. The California employee lives better than the employee back East; is better satisfied; gets finer consideration from his firm—thus being happier at his work, being more interested in the firm's success; and giving a greater rate and a higher grade of product without as much conscious effort as

the similar employee back East.

The fact that although California has four great overall factories successfully competing in the markets of the world with the factories of the East and South and of Europe as well, and yet a monster overall factory of Detroit ("The Headlight") has just found it wise business to come to San Francisco and open another factory of the kind here, with an investment in machinery alone of over \$250,000 and an operative force of over 500 employees, meaning a local living for some 2500 people who depend upon these 500 for support, is the most conclusive evidence that the real condition of the "labor problem" in California is advantageous to the factory owner, all the other overall factories having always featured the fact that their entire staffs are "union."

It is pointed out by the Home Industry League that even these most successful overall factories would not be bringing so much of the world's money to California today if they had not had, in their inception, the hearty support of Californians in the campaign to "buy homemade goods," and that every resident of the State, in whatever walk, is better off for every dollar of outside money brought to California for home-manufactured merchandise, that it is certainly to the interest of every man, woman and child in California to give the preference to a "made-in-California" every time he orders even so small a thing as a package of tacks.

ROAD MACHINERY SUPERSEDES HAND LABOR.

American Consul Homer Brett, at La Guaira, Venezuela, reports that the policy of the department of public works in its road building hitherto has been to use hand labor exclusively, so as to give employment to as many persons as possible; but recently a number of wheeled scrapers were bought in the United States, and after they had been tested officially it was announced that one man with a scraper accomplished the work of 20 men under the old method.—Commerce Reports.

INCREASED TRADE OF NEW ZEALAND.

Consul General Alfred A. Winslow, at Auckland, New Zealand, reports that of the total value of the imports into that country, valued at \$20,219,291, during the first three months of 1916 the United States supplied goods to the value of \$3,757,317, compared with \$2,842,712, out of a total of \$24,434,951, during the corresponding period in 1915.

The United States Geological Survey has available for distribution its annual statement on sand-lime brick. During 1915 the quantity of sand-lime brick sold showed an increase of 7,014,000 brick, or 4 per cent, and the value showed an increase of \$76,592, or 7 per cent, over 1914.

HIGHWAYS IN KINGS COUNTY.

HANFORD, Cal.—Seventeen miles of Kings county highway have been paved and thirty-nine miles of paving is now under construction, according to County Engineer Ben Duffield. This is part of the county's good road system, for which a bond issue of \$672,500 was passed last year. When the sys-

tem is completed, the county will have 102 miles of paved highway, not including the state highway lateral.

The whole of the system with the exception of six miles has now been surveyed.

Paving is now proceeding on the Lemoore-Stratford unit, Hanford-Lemoore unit and Hanford-Guernsey unit. Work is about to begin on the Hanford-Grangeville-Hardwick unit.

NEW DAM COMPLETED.

STOCKTON, Cal.—The big Strawberry dam, the largest in Tuolumne County, has been completed. According to reports brought to Stockton the water is now within ten feet of the bottom of the spillway and is running into the reservoir at the rate of a foot every twenty-four hours.

The new dam replaces a long crib dam built in 1861 to supply water to the Southern Mines along the Mother Lode.

The new reservoir is a part of the Sierra and San Francisco Electric Power Company's big system of hydro-electric plants.

MAY TUNNEL UNDER BRITISH CHANNEL.

LONDON—The old project of building a tunnel under the English channel to connect England with the continent has again been revived. Plans are on foot for a meeting of a large number of members of Parliament to consider how far the scheme can be furthered at present with a view to putting it into execution at the end of the war. The decision of the Allies' Trade Conference to establish rapid land and sea transport service at low cost is said to have a direct bearing on the revival of the matter.

PORTERVILLE PAVING.

PORTERVILLE, Cal.—City Engineer F. W. Pease has compiled figures showing that there are 31 miles of streets in Porterville, 5 1/2 miles of which are paved, or about 18 per cent. One alley is paved for a distance of 1238 feet.

STREET IMPROVEMENTS IN RICHMOND.

RICHMOND, Cal.—There has been \$508,250 in street work completed for the past year and \$1,175,250.01 in street improvements since 1900, according to the annual report of City Engineer H. D. Chapman filed with City Clerk A. C. Paris.

One of the largest individual street contracts awarded during the past year was Cutting boulevard which totaled \$276,000. The streets improved for 1915-16 are Cutting boulevard, Castro street, Richmond avenue, Montecito avenue, Vacca street, Golden Gate avenue, Thirty-first and Mary streets, Solto avenue, Esmond avenue, Sixteenth street, Sixth street, Seventh street, Castro avenue, Tenth street and Laurel avenue.

Work under construction at the present time consists of San Pablo avenue, Coleman-Pullman sewers, Canal subdivision sewers, Twenty-third street, Wall tract sewers, Pullman townsite sewer and Coleman-Pullman sewers.

As to the tangible and practical methods to be adopted for the purpose

of preparing this country for any emergency that may arise, the last and great thing to do is to prepare her men. On them rests the defense of the republic in the last analysis. And in order that they may be of service in the time of need it is just as necessary that they have proper training as it is that any tradesman know his trade in order to perform his work in a workmanlike manner. An army is an organized unit in which each soldier fits into his part and in modern warfare mechanism and highly specialized machines play an important part. Organization and drill are the important factors and just as essential as the co-ordination of the parts of a machine.

The Swiss Republic has a system of education that may well be taken as a model. There the physical training of the child begins at the age of ten and is under the supervision of male teachers appointed by the federal government. There they are given drills in which not only the physical being is developed but the pupils are taught the value of team work and each boy is taught to realize that upon him depends the success or failure of the whole team. Thus co-ordination is taught, the value and the necessity of concerted action, and in order for one to succeed all must succeed.

The difficulty with this country is that there is too much individualism in such matters. Each boy depends on himself and does not learn the value of team work unless he plays in a ball team or is a member of a rowing crew or something of that sort. All for one and one for all is the idea and on that principle the maneuvers of armies are based.

It is interesting to note that in Switzerland, where there is compulsory service upon all the made citizens, and every man is required to serve in the army from his 20th to his 42nd birthday, and the total time which he serves in the army during these 22 years is 193 days, an average of only 9 days a year during the period of service. Surely this imposes no onerous burden and it does not detract from his earning power in whatever occupation he may follow. And yet Switzerland has one of the most efficient armies in the world.

This matter of service need not be compulsory, but may be optional, so that any one can take it or not. However, the preparatory physical drill should be compulsory just the same as is the mental training, for both are equally necessary in developing efficient citizens.

This is a good time to call public attention to the needs of our schools in this particular. We need more real

men as educators who will come into contact with the youth of the land and take charge of this physical education as well as transmit to the boys a man's view point of the world. Our teaching force is composed almost entirely of women; many of them are opinionated old maids, whose viewpoint of life is warped by their own personality. The schools are given over to petty politics and there is a strong need of some central supervision that will co-ordinate our schools and raise the standard of our educational system.

While the interest is here let us take some action that will put the future generation on a basis of preparedness for adequate national defense.

Plant to Cost \$350,000.

KENNETT (Shasta Co.)—The report that the Mammoth Copper company contemplates building an electrolytic plant for recovering values in baghouse dust is corroborated authoritatively by George W. Metcalfe, General Manager.

General Manager Metcalfe says:

"The plant will cost \$350,000. We have 25,000 tons of baghouse dust to treat and more dust is being caught every day the blast furnaces run. One thousand horsepower of energy will be required.

"The chief element of cost is electrical power. The company will build the plant on Backbone Creek, a mile above the smelter."

General Manager Metcalfe explained that the process was developed at Winthrop by the Bully Hill Copper Company, which has spent eight years experimenting. The Mammoth Copper Company's chemists spent four months last Winter and Spring at Bully Hill elaborating the process, which is something almost entirely new in metallurgy.

"While the process is experimental and has never been tried on a commercial basis," said General Manager Metcalfe, "the Mammoth is so sure it will work out satisfactorily it is ready to put up \$350,000 to construct the first unit. Other units will be constructed as occasion may require. The plant will not be a large building, as is the smelter, but it will be a collection of smaller buildings.

"Twenty-three per cent of the baghouse dust is zinc. It contains also gold, silver and copper, as well as cadmium, bismuth and antimony. The plant will give employment to fifty or sixty men. Construction work, of course, will give employment to a great many men."

Eight years ago the Bully Hill Mine at Winthrop was shut down and the quarter million dollar smelter was

closed. There was so much zinc along with the copper the ore no longer could be smelted to advantage in the blast furnace. The zinc smothered the fires in the furnaces, and, besides, great values in zinc were lost. The Bully Hill Company set about trying to discover a process by means of which zinc as well as copper could be saved. The result of costly experimenting carried on for eight years is the electrolytic process upon which the Mammoth Copper Company is now ready to spend \$350,000 as a starter.

It has not learned what the Bully Hill Company will do with its process at Winthrop.

The news that the Mammoth Copper Company would build a plant costing over a quarter of a million dollars is the most important industrial event in Shasta County's great copper belt for years.

WE DON'T INSULT OUR SOLDIERS NOW.

(From the Marysville Appeal)

Nobody laughs or pokes fun at the National Guard just now. In these days of doubt, when the United States is upon the brink of war, somehow or other we don't jeer at the boys in khaki and call them "yellow legs" and other taunting names, as we were prone to do in other days of peace.

Just now we look up to the National Guard as a mighty serious organization. We who are not members and who are not called from our shops and offices to prepare to defend our country's flag and honor can not help but feel grateful to the militia of this country.

If war is declared the boys of this country who are members of the Guard will go forward with the regular army. And, because of the drilling and training they have had they will go as good soldiers. They will do themselves and their country proud.

And when they leave for the front there will be ovals tendered them. When they return—those that do return—they will be greeted as conquering heroes.

Our regular soldiers also will be feted and greeted as heroes. These are "war times" when we have respect for the men who wear our country's uniform.

But after peace is declared and the country settles back into the pursuits of peace we will again ignore and actually insult the men who are our soldiers. We will again, in some cities, refuse to allow our soldiers and sailors in uniform to attend our theatres. We will give them scant treatment in our cafes and public places.

The way we treat our soldiers and sailors in time of peace is our national disgrace.

A man who will join any branch of the United States military service should be honored at all times. In peace as well as in war he should be respected wherever he goes as long as he behaves himself.

And the average soldier and sailor and National Guardsman is a gentleman. Because of the rebuffs he gets in the "best places" he is forced, many times to patronize resorts far beneath his dignity and his own tastes. We as individual Americans are to blame for the unjust reputation our soldiers and sailors have acquired.

HARDWOODS — VENEERS

No matter what kind of Hardwoods Flooring or Panels you may require, nor what quantity of each you may need for immediate delivery, you can depend upon WHITE BROTHERS to supply you promptly.

We carry the largest stock of HARDWOODS and WYBRO PANELS in the West.

Ask for our stock lists—free on request.

For over forty-four years we have featured service and promptness coupled with fair prices as our standard. We have the quantity and the variety on hand for immediate delivery.

If you do not deal with us, we both lose.

White Brothers

Fifth & Brannan Sts.

San Francisco

While any system of defense must necessarily look to the nation as a whole and any plan formulated must be from the standpoint of the United States of America, still the concrete matter that concerns us is the proper defense of the Pacific Coast. We are a long way from Washington and the population west of the Rocky Mountains is small compared to the population east of the Divide. So that the pork barrel politicians and the wooden headed congressmen are likely to overlook us unless we make an awful noise.

Fortunately there are not many places on the Pacific Coast where troops could be landed. If any action is taken at all to strengthen our fortifications this port and the other ports of the Pacific will in all probability be put in condition to withstand a frontal attack of any hostile fleet. But there should be some provision made to prevent the landing of troops at any favorable spot and this could be done with comparatively small expense.

The landing of troops in any considerable numbers is not an easy matter. Yet the British and French landed an army of 250,000 at Gallipoli virtually in the face of the Turkish guns. Army engineers could easily map out and define emplacements for guns that would command any place suitable for an enemy to land troops. The emplacements could be prepared but the guns need not necessarily be mounted. All that would be necessary would be the construction of railroads necessary for carrying heavy guns to the emplacements; and these are in a great measure already constructed.

An enemy is not going to tell us what he intends to do. In the event of war the ground is usually spied out and prepared beforehand. No one knows where an enemy battleship may appear so there needs to be definite plans to meet possible emergencies.

We need a fleet to protect our coast and our shipping. There is no reason why the ships and armaments should not be constructed on this coast just the same as on the Atlantic; no reason why we should not have arsenals and ammunition plants and supply units here, where the coming world trade of the Pacific is centered. These are things that we must look after and take action upon.

New Device For Motion Pictures.

One of our local Architects has invented a useful device for motion picture projection for which patents have been applied. The following is a description:

This invention relates to improvements in apparatus for the projection of motion pictures and consists of an optical device adapted to be disposed intermediate of the projector and the screen in such relation thereto that picture rays issuing from the projector may be directed into same and transmitted thereby to the picture screen and has for an object to allow of the picture rays being projected to the screen from a point at or nearly opposite the normal center of the screen, the axis of the rays being perpendicular to the plane of the screen and a picture free from distortion being the result. Another object of the invention is to allow of the projector

being remotely located in any obscure part of the building, as for instance in the hollow space below balcony floor of a theatre or in the basement or any other place where the danger of fire and panic may be eliminated. A further object of the invention is to allow of a plurality of representations of one and the same picture to be produced simultaneously on to screens in different directions while using only one film and one source of light.

To accomplish these objects of the invention the optical device is provided with reflective means for bending the rays, an optical system of lenses for successive refraction of the rays, projection lenses at the terminals of the device from whence the rays diverge freely as a light cone to the screen, reflective means are also provided for the erection and reversal of the image that the image appearing on the screen may be in proper correspondence to that on the film. The subsidiary pictures are produced by rotary reflective means i. e., in the path of the light rays issuing from the projector is mounted a mechanically driven rotative prism, rotating at high speed in a plane perpendicular to the rays impinging upon it and in such manner that the rays in passing through a number of pictures in a film are subsequently diverted into different directions by impinging upon the hypotenuse surface of said rotative prism.

The rays projected against the hypotenuse surface of the rotative prism will be diverted out into one of the devices ramifying radically from the axis to the rotative prism at each revolution of the prism and owing to the great number of revolutions the effect will be the same as if the prism were held stationary and bore continuously in one direction only. The prism is preferably direct connected to a motor operating at approximately 1800 or more revolutions per minute.

In the illustration the upper picture shows the adaptation of the device to a theatre having a balcony. The rays projecting from balcony front to main screen and a smaller picture to street screen. The lower picture shows the adaptation of the device to a cafe, lobby or where the seating of the audience varies from an arrangement such as in a theatre, the plurality of pictures on the walls allowing a selective view by the observer in accordance with the direction he faces. The projector is shown in the basement, the optical device extending vertically into the hall above, the pictures being projected from a point sufficiently high to avoid interference by audience.

LEADS IN OIL.

LOS ANGELES—Shipments of California petroleum for the first half of 1916 have reached the record-breaking total of approximately 49,000,000 barrels, or 2,058,000,000 gallons. This exceeds the volume of oil marketed from this State during the first six months of 1915 by more than 5,500,000 barrels. This report places the quantity of oil marketed in the United States between January 1 and June 30 at approximately 140,000,000 barrels. It also places California in the lead, as amount of oil this year than any other single State in the Union. California's share was 35 per cent of the total.

MANGANESE DEPOSIT PROMISING.

HOLLISTER—A manganese deposit located by Alex Johnson in the range east of the Tres Pinos is showing up well under development work. A small ledge has been uncovered. Though still in the prospect stage, the deposit is said to have the best indications of any in the country. Two carloads will be shipped this week, this being the first ore shipment.

WATER SYSTEM PAYS.

GRASS VALLEY, Cal.—The semi-annual report of Mayor J. J. Hosking, covering the period from January 1 to July 1, 1916, has been issued. The receipts for the six months amounted to \$27,098.86, while the disbursements totaled \$21,124.99, leaving a balance of \$5,973.87.

The receipts from the municipal water system amounted to \$3,283.62, and \$4,244.77 was received from property taxes and \$2,260 from liquor licenses.

The cost of maintaining the water system for the six months was \$4,654.84. On the city streets \$1,444.02 was expended. The report shows the city finances to be in excellent shape.

STATEMENT BY JOHN FRANCIS NEYLAN, CHAIRMAN, STATE BOARD OF CONTROL.

Of all the ridiculous canards ever perpetrated in the name of politics the most recent assault on the State's financial integrity is probably the worst.

In 1914 a candidate for the office of Governor in opposition to Governor Johnson, tried to discredit the latter's administration by stretching the truth to the tune of \$29,000,000. In 1916 apparently we are to see all records broken because Johnson is a candidate for the United States senate. The latest, down-to-the-minute attack on Johnson is only false to the extent of \$140,000,000.

This is the simple method by which Governor Johnson's administration is to be discredited, and he is to be defeated for the office of United States Senator.

The State Controller recently issued a tabulation showing the receipts and expenditures during the fiscal year 1915 of all governmental units in California. The tabulation shows as follows:

Expenditures of State Government for all purposes, \$26,529,593.04.
Expenditures of City Governments for all purposes, \$69,922,592.41.
Expenditures of County Governments

for all purposes, \$69,970,436.88. Total for all governmental units in California, \$176,422,683.33.

Included in the cities are San Francisco, Los Angeles, Sacramento, Stockton, and all other incorporated cities in the States. Included in the counties are the entire fifty-eight counties of California. The total of city and county expenditures is approximately \$110,000,000 and Governor Johnson has no more to say about the levying or expenditure of five cents of that sum than Jim Jones or John Smith.

Included even in the \$56,000,000 State expenditures are the Highway Bonds, San Francisco Harbor Bonds and other fixed charges voted by the people before Johnson became Governor.

In spite of these facts, the latest political style is to write "Cost of California's State Government \$176,000,000."

If a member of the Industrial Workers of the World sent such a libel, broadcast every Chamber of Commerce in California would probably pass denunciatory resolutions.

STATE CORPORATION COMPANY.

Permits to issue shares of stock have been recently granted by the State Corporation Co. to the following companies, of interest to the building business:

The Hercules Construction Company, San Francisco, is permitted to issue 97 shares to S. B. Peterson in exchange for a contract for harbor front work.

Asbestos Producing Company of California is permitted to issue 885 shares to Paraffine Paint Company in exchange for property in Calaveras County and to sell 200 shares to John A. Voorhees and Paraffine Paint Company at par \$100 per shares, net to the company.

Miller Mountain Mining Company, a Nevada corporation, capitalized for \$1,000,000, operating claims in the Columbus District, Esmeralda County, Nev., is permitted to sell 100,000 shares of common stock at 20 cents per share to net the company not less than 16%, the proceeds to be used to construct a 3 mile pipe line for water supply, to install a mill and to continue development. Six hundred thousand shares issued in exchange for the property must first be deposited in escrow and it is also made a condition that pending the sale of the 100,000 shares in California the company shall not sell shares elsewhere except upon like terms. The company has previously sold 8000 shares of common at 5c, 8500 common at 10c and 3300 shares of preferred at \$1, giving a bonus of 33,000 shares of common with the preferred.

MERITED RECOGNITION.

In recognition of their services in preventing what might have been an accident, C. H. Ketchum, superintendent of the Stockton division of the Southern Pacific, has presented two gold watches to two boys, Frank Haffensperger, aged 11, and Clayton Shaeley, aged 12, of Livingston, Cal. The watches are engraved with their names and bear the legend: "Presented in recognition of his heroic act, June 4, 1916."

On that date, the irrigating canal of the Crocker-Hoffman Land and Water Company broke and the water rushed over the tracks near Arena. Seeing

the danger, the boys, in true railroad style, stationed themselves along the right of way, and flagged train 19 as it came along.

INCREASING USE OF HARDWOODS.

The general use of hardwoods in homebuilding is having a wonderful increase on the Pacific Coast. Hardwood for interior trim, floors, doors, etc., etc., is becoming more popular every day. The public is beginning to realize that hardwood is not a luxury but an economical investment, and the continual demand for hardwood is due, in no small part, to the concerted action of the Hardwood Dealers around the San Francisco Bay. They have all joined in fostering the use of hardwoods and have issued an interesting booklet entitled "A Treatise on Hardwoods for Interior Finish" which shows specific comparisons in cost of hardwood as against softwood, carpet linoleum, etc. Hardwood proves the more economical.

The shipbuilding industry is on the crest of an enormous wave of activity. Wooden vessels are being built all along the coast, wherever facilities are available, and the demand for all hardwoods occasioned by this industry has brought about new conditions. Eastern oak timbers for rudder stocks, stern posts, etc., were almost entirely supplanted 15 or 20 years ago by Australian Ironbark, but the scarcity of bottoms to transport, and of Australian labor to get out the timber, has caused a corresponding decrease in the stocks of Australian Ironbark in this country, and American Oak has again come into the field and is now proving very successful. 16x18s and 18x20s, 30 to 40 feet long are obtainable in American Oak at the same price as Ironbark, and their delivery can be depended upon, which cannot be said of Australian woods. California Laurel, while not obtainable in such long timbers as Ironbark and American Oak, is used to a very great extent for friction surfaces.

The Hardwood Dealers have been forced to listen to such continual and general complaint as to the poor qualities of Japanese Oak when made up into flooring or trim, that many of them are declining responsibility for the wearing qualities of Japanese Oak flooring or interior finish. This wood being soft and brashy cannot be expected to hold up like the genuine American Oak.

The use of California Laurel for bridge planking is becoming quite general. The planking on Webster Street Bridge, between Oakland and Alameda, which was the first instance of Laurel being used for this purpose, was laid several years ago and shows practically no signs of wear. This is also the case with the Petaluma drawbridge, and the Fourth Street bridge over the San Francisco Channel. The economy of Laurel for this purpose is indisputable.

American Walnut is coming back into fashion for furniture and interior trim and Southern Red Gum (known sometimes as Satin Walnut) is having an enormous call on the Pacific Coast. As a suggestion for a harder and higher class cabinet wood than Southern Red Gum, and a lower priced wood than American Walnut, Genezero or Jenisero presents itself.

WHITE BROTHERS.

GOVERNMENT PUBLICATIONS FOR SALE.

The following were among the publications received in stock for sale by the Superintendent of Documents at Washington during the week ended July 1, 1916:

Strength and Other Properties of Concretes as Affected by Materials and Methods of Preparation (Standard Bureau of Technologic Paper 58).—Tabulated and descriptive text, detailing the scope and results of tests of mortars and concretes by physicists of the Bureau of Standards. Price, 35 cents.

Pittsburgh dispatches say United States government is making inquiries of producers to see what quantity of barb wire and staples could be obtained on rush order. Unless material now being made for Europe is drawn upon, our country cannot get a ton before January, 1917.

THE F. W. D. TRUCKS.

One of the most recent demonstrations of the successful operation of motor trucks over what have been heretofore considered almost impassable roads and one that has been attracting widespread attention from hauling contractors and trucking concerns in the northern part of the State especially, is the surprising work of the celebrated line of Four Wheel Drive trucks now operating on the Hetch Hetchy roads near Chinese Camp, California.

These trucks are hauling from three to four tons of rock, gravel and cement over mountain trails and over some of the famous "Near Roads" that abound in that section. These trucks furnishing power equally to all four wheels driving through full floating axles, are made by the Four Wheel Drive Auto Co. of Clintonville, Wisconsin, and while they are to most people comparatively new on the Coast here, they are very well known in the East, having been sold there quite extensively during the past seven years. In addition to being the first and foremost automobile concern in the country to have been successful in building a line of motor trucks that apply equal power to all four wheels, using full floating axles, this firm has established an enviable record in that every truck they have ever built is still operating today. This fact is a direct refutation of the statement and claim made by many trucking concerns up to within the last two or three years that the expense of upkeep and repair on the heavier motor trucks are so excessively high and the life of a truck so short as to prohibit their general use under the most strenuous working conditions.

The many additional F. W. D. trucks that are being placed on this difficult haul are convincing proof of the dependability and high quality of service they furnish to owners. The Four Wheel Drive Truck Co. with offices and salesrooms at 243 Golden Gate Ave., San Francisco, Mr. J. E. Perkins General Manager, are distributors for FWD trucks on the Coast. Branch offices are located in Santa Rosa, Bakersfield, Fresno, and Los Angeles.

A Well Merited Tribute

The following voluntary letter from the Secretary and Cashier of the Sacramento Valley Bank and Trust Co., to the Hermann Safe Co. of this city, is well worth reading.

It speaks in the highest terms of the vault and safe work done by the Hermann Safe Co. for this bank.

The Secretary acknowledges that at first he favored an Eastern manufacturer, but is now more than delighted over the result.

SACRAMENTO VALLEY BANK
AND TRUST CO.

Capital Paid Up, \$600,000.00
Sacramento, Cal., July 17, 1916.
The Hermann Safe Co.,
San Francisco, Cal.,
Gentlemen:—

Now that the vault and safe work installed by you in our new banking premises is complete, we wish to voluntarily express our very great satisfaction with the result. The work was done promptly, without quibble or misunderstanding of any kind. Despite the great weight of the doors, they are as nicely adjusted as a fine watch and as handsome as gold-bronze and nickel plate can make them.

As you know, the writer favored placing the order with an Eastern manufacturer. That would have been a mistake. We know now, that there would have been weeks of delay and the result could not possibly have been better.

Wishing you the business success which you seem to so well deserve we are,

Very truly yours,
WILLIAM SKEELS,
Secretary and Cashier.

A visit to the new salesroom and shop of the Hermann Safe Co. at 216-224 Fremont St., is well worth while.

A complete line of safes and vaults, from the smallest to the largest made anywhere, will be found on display. All made in their own shop, which by the way, is a model shop for light and ventilation.

Architects and owners make no mistake in dealing with the Hermann Safe Company.

MAY EXPORTS BREAK ALL RECORDS.

American exports for May reached a total of \$472,000,000, which exceeds all

previous monthly records. It is greater by \$61,000,000 than the high record for March. It is \$300,000,000 more than the monthly May average from 1911 to 1914. The total exports for the year ended with May were \$1,136,000,000, an increase of \$1,500,000,000 over the preceding 12 months and double the total for the year ended with May, 1911. The exports for May were \$80,000,000 more than the total for the fiscal year 1870.

The imports for May were also the greatest on record, the total value being \$229,000,000, an increase of \$11,000,000 over April, the previous high mark. This total exceeds the monthly May average from 1911 to 1914 by \$82,000,000. For the year ending with May imports totaled \$2,110,000,000, an increase of \$436,000,000 over the preceding year and \$242,000,000 over the corresponding period two years ago. The combined value of imports and exports in the 12 months just ended was \$6,246,000,000, a growth of \$1,916,000,000 in a single year.

Of the May imports, 65.7 per cent entered free of duty, compared with 60 per cent in May, 1915. The favorable balance of trade in the month and 12 months ending with May was the largest ever known. For May it was \$243,000,000 and for the year ending with May, \$2,026,000,000. Corresponding figures for last year were \$132,000,000 for May and \$983,000,000 for the 12 months.

May showed a net inward gold movement of over \$15,000,000, thus reversing the conditions shown in the preceding three months. Imports of gold in May aggregated \$27,000,000, compared with gold exports of \$12,000,000; and gold imports in the 12 months to May 31 amounted to \$424,000,000, as against gold exports of \$85,000,000, a net inward movement for the year of \$339,000,000. Last year gave a net inward gold movement of \$68,000,000, while two years ago there was a net outward gold movement of nearly \$2,000,000.

THE IMMENSE COST OF THE CANAL SLIDE.

The slide in the Gallard cut in the Panama canal cost the government over \$4,000,000. The cost of excavation, plus the regular cost of operation and maintenance, was \$594,393 a month, and the canal was closed six months and twenty-seven days. The canal was just beginning to pay its monthly expenses when the slide came. In July the tolls exceeded the ex-

penses \$117,570. During the six months from October 1st to April 1st while the excavating was being done there was taken in tolls \$12,733, in March, when the dredging had been sufficient to allow a few small boats to pass. The expenses while the dredging was going on follows: October, \$546,760; November, \$643,945; December, \$580,254; January, \$595,713; February, \$609,254; March, \$590,435. The total for the six months, from October 1st to April 1st was \$3,566,561. To this is to be added the work done in the twelve days of September and the fifteen days in April, when the canal was again opened. The loss in the account for the fiscal year ending April 1st amounted to \$3,648,812. The loss the year previous was \$179,526.

NEW TRADE DIRECTORY FOR CARACAS.

A supplemental trade directory for the city of Caracas, Venezuela, has been prepared by the Bureau of Foreign and Domestic Commerce, from data furnished by Consul Homer Brett, at La Guaira. Commercial conditions have undergone changes during the past two years, and although a list of business men was printed in the supplement of the Trade Directory of the Trade Directory of South America, the present compilation is more complete and is brought up to the present time. Copies may be obtained upon application to the Bureau of Foreign and Domestic Commerce, Customhouse, San Francisco. Refer to file No. 68987.

FERRY COMPANY GIVEN PERMIT FOR BUILDING.

VALLEJO (Solano Co.)—As a result of an agreement reached between the Association of Mare Island Employees, which operates the ferry boats Vallejo and Ellen between this city and Mare Island, and the City of Vallejo, the ferry boat concern is to be permitted to erect a \$15,000 ferry building at the foot of Georgia Street, and in addition the city is to receive \$75 monthly for a period of three years, the first payment to be made on July 1, 1916.

As Columbus said, "This day we sailed on." America has been glorious with opportunities, and you are one in the race to win a prize. It is for you, if today is up and on.

Most home builders welcome Konveno

Konveno is the ideal closet for the small bathroom. It is more than a closet—it is so constructed that it can be used as a convenient shelf upon which to stand the toilet articles that are constantly in use. Konveno is made in three sizes—wash-down, reverse trap and syphon jet. Its convenience appeals to most home builders.

Like all the "Pacific" line it is guaranteed forever against any defects in workmanship or materials.

The Preparedness Parade of San Francisco has passed into history. And it was a success. Considering the fact that it was held on a hot day, in the vacation time, and was the spontaneous expression of independent citizens who had nothing personal whatever to gain, it was an evidence that some of the patriotism of our fathers still remains.

Its need has been demonstrated in all too tragical a manner. Those who took no interest in the matter, who were inclined to view it as unimportant and uncalled for, as an hysterical expression of people who were encountered with no present danger, will perhaps, sit up and take notice, especially if some one near and dear to them was murdered by the cowardly assassin who snuffed out the lives of innocent people for daring to witness a patriotic demonstration in their own country.

No more dastardly crime has ever been recorded. The mind that conceived it must have emanated from Hell itself. Such a criminal would deserve the highest consideration of Fremont Older, of the Bulletin, and would give him ample opportunity to use the pages of that paper to show how society had wronged the poor deluded individual.

What is this country coming to?

Is it not time that self-respecting citizens took some concerted action? Are we all to be terrorized by the Hyphenated Americans and I. W. W's? Are the Trade Unionist leaders going to dictate to us whether or not we will salute the Stars and Stripes or trample them under foot?

Read the Bulletin for the past week. Read the last issue of Organized Labor. Then read the account of the crime in Stewart Street. Look up the record of Olaf Tveitmo, the editor of Organized Labor, and of Fremont Older of the Bulletin and form your own conclusions.

Surely out of the vast body of Trade Unionists in this city there are a great majority of sufficient intelligence to appreciate the liberties they enjoy; who realize that our forefathers have left us a priceless legacy in a free country; that the responsibility is upon us all alike to preserve and defend it, and that capital and labor must in such things make common cause.

There was no demand for arraying class against class in matters such as this. No person who had the interest of his country at heart would do it. And the motive of those labor leaders and other citizens who endeavored to prevent any patriotic demonstration on the part of the citizens of this city are to be judged by the developments that will follow. It is high time that the silent citizen assert himself and come forward and take a hand in the affairs of his City, State, and Country.

The parade was a splendid tribute to the people who took part in the demonstration. No people outside of soldiers

in actual battle have been subjected to a more trying ordeal. Yet so perfect was the order, that three minutes after the deadly bomb had murdered and mangled scores of innocent men, women, and little children, the parade moved on in absolute order. What a splendid tribute to those in line. Especially to the women of the Auxiliary Corps of the Spanish War Veterans. The explosion occurred immediately in front of them. All of them were unaccustomed to the sight of blood and scenes of horror. Yet they held themselves together, witnessing their immediate companions struck down and mutilated, marched over the pavement slippery with blood, and remained in perfect order. Let those who derided the event reflect upon these facts.

Time will perhaps tell whether or not this dastardly crime was committed by Hyphenated Americans, I. W. W's, anarchists or other persons. At any event it was a most deadly weapon conceived in the mind of an infinitely malevolent person, and not the creation of a denuded fool. There should be no stone left unturned by City, State, Nation or citizens to run the guilty ones to earth. And there should be a strict surveillance of those who by counsel and advice have inspired such crimes.

Order is heaven's first law. Orderly self-government is the highest achievement of society. Those who oppose it are necessarily criminals. And it is the duty of all citizens who believe that governments are instituted among men to establish and guarantee to every man the right to life, liberty, and the pursuit of happiness, to come forward and see that no man or band of outlaws destroy those rights. And these are not people to preach sermons to. It is a case for organized action. We can not bring back the innocent lives that were snuffed out. We can not restore the mangled forms and make whole the maimed. But we can make this city too hot for a lot of criminals to live in, we can establish more even-handed justice, and silence to some extent a lot of these blatant demagogues and make this city a fairer place to live.

GRAPHITE PRODUCTION.

The annual statement of the Geological Survey on graphite in 1915 is now available for distribution. According to this report, 4,718 short tons of natural graphite, valued at \$129,631, was sold during the year.

REPORT ON FELDSPAR.

The annual statement of the Geological Survey on feldspar in 1915 is now available for distribution. During the year 113,769 short tons of feldspar, having a market value of \$649,356, was sold.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SAN FRANCISCO—Apartment house alterations, 2 story and base, frame, \$20,000. Architect, W. G. Hind, 46 Kearny street, S. E. Owners, Luchinger Estate. Location, Golden Gate near Octavia, Cameron & Disston, Hearst Bldg., will probably be in charge of this work, which consists of repairing fire damage.

SAN FRANCISCO—Apartment house alterations and additions, 2 story, frame. Cost not stated. Architects, Foulkes & Hildebrand, Crocker Bldg., S. F. Owner's name withheld. Location, 16th street near Mission. Will contain four apartments of four rooms. Plans complete and figures being taken.

BONDS

MODESTO, STANISLAUS CO., CAL.—County Engineer E. H. Amear has been instructed by his final estimate of cost on the system of highways planned under the proposed bond issue. The amount of the issue is not to exceed \$1,182,854.72. The proposed system of highways as planned will be approximately 125 miles in length.

TERRA BELLA, TULARE CO., CAL.—Saturday, August 12th, is the date set by the directors of the Terra Bella Irrigation District to vote bonds of \$1,000,000 for the construction of the proposed irrigation district as planned by Chief Engineer Stephen E. Kieffer of San Francisco, and which plans have been approved by the State Engineering Board.

YREKA, SISKIYOU CO., CAL.—The City Trustees have sold the bonds of \$12,500 for the widening of Fourth street and for the erection of a new city hall.

SAN RAFAEL, MARIN CO., CAL.—The Elk's Lodge of this city is planning the erection of a new lodge building to cost \$15,000. A building committee has been appointed and an early decision is looked for.

HAYWARD, ALAMEDA CO., CAL.—An electrolight system is being considered by the City Trustees following an investigation by the Chamber of Commerce on the street lighting in other cities.

WASHINGTON, YOLO CO., CAL.—The present school building being overcrowded, the trustees will probably call an election to vote bonds of \$30,000 for the erection of a fireproof building containing six rooms.

SUNNYVALE, SANTA CLARA CO., CAL.—The proposition to vote bonds of \$10,000 for street improvements failed to carry at an election held last week.

HAYWARD, ALAMEDA CO., CAL.—The Trustees of the Hayward School District will ask the County Supervisors for a special tax rate on property owners of its school district, for the purpose of raising funds amounting to \$10,000 for the addition of rooms to the present building.

SANTA BARRERA, SANTA BARRERA CO., CAL.—The Board of Supervisors is considering a bond issue for the construction of a new grade over the San Marcos, a road from Solvang to the sea, and a road to the Cuyama. The Los Alamos district has unofficially voted to support a \$650,000 bond issue.

LONG BEACH, LOS ANGELES CO., CAL.—An election will be held some time early in September for the purpose of voting on a joint bond issue, involving \$850,000. Of this sum \$500,000 is to be used for the development and expansion of an inside passage to the Long Beach harbor connecting with Los Angeles harbor; \$500,000 for the construction of a horseshoe pier, spanning American and Pine avenues; and \$50,000 for the erection and maintenance of a city hospital on a city owned site.

SAN BERNARDINO, SAN BERNARDINO CO., CAL.—The bond issue, amounting to \$151,000, was defeated at the election held July 25. The majority of the items were intended for bridge construction, trestles, levees, paving and construction and repairs, and general storm damage repairs. One proposition for \$12,000 for a steel girder bridge over Warm Creek at Third street, received a numerical majority, but lacked the necessary two-thirds.

LOS ANGELES, CAL.—Because the boundaries of the district were not correctly described it will be necessary to call another election to vote bonds of \$200,000 to be expended in the acquisition of aqueduct water for the San Fernando Mission Water District in the San Fernando Valley.

EL CENTRO, IMPERIAL CO., CAL.—Bonds of \$12,000 have been voted to finance the completion of the Wilson school building.

SANTA BARRERA, SANTA BARRERA CO., CAL.—Proceedings have been started to call another bond election for the improvement of county roads. The committee, of which James Sloan is chairman, recommends the improvement of the following roads: San Marcos road from the State highway at Goleta through Santa Ynez and Los Olivos to Zaca Station; the highway from Lompoc through Solvang to Santa Ynez; the Cuyama road from Santa Maria to the Kern County line.

SAN LEANDRO, ALAMEDA CO., CAL.—Bids are being taken by the County Supervisors for the purchase of the \$25,000 bond issue of the San Leandro School District, for which, when sold, will finance the construction of a new school building.

BRIDGES, DAMS AND HARBOR WORK

SAN FRANCISCO—Wharf repairs, reinforced concrete \$8,750. Engineer, Constructing Quartermaster's Office, Fort Mason. Owners, United States Government. O. J. Crossfield, 103 Main street, presented the low figure.

for additions to the wharf at Fort Baker. A complete list of the bids appears under the heading of San Francisco in this issue.

SAN ANDREAS, CALAVERAS CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, San Andreas. Owners, Calaveras County. Bids will be opened on August 11th at 2 p. m. for furnishing all material and labor for the construction complete of a reinforced concrete bridge over the North Fork of the Calaveras River on the line of the State Highway between the towns of San Andreas and Valley Springs in Calaveras County, Cal., about two miles below the town of San Andreas and about three-quarters of a mile down stream from the present wooden bridge.

RED BLUFF, TEHAMA CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Red Bluff. Owners, Tehama County. Plans and specifications having been approved for the construction of a wooden bridge over Mill Creek in Road District No. 4, the Clerk of the County Supervisors was instructed to advertise for bids for its construction up to August 5th at 10 a. m. Plans may be had from the County Clerk.

SANTA BARRERA, CAL. CAL.—Bridge, steel and reinforced concrete. Cost not stated. Engineer, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. Bids will be opened on August 21st at 2 p. m. for constructing a steel and timber bridge with earth fill approaches. Five steel spans each 162 feet. Timber trestle.

FAIRFIELD, SOLANO CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Fairfield. Owners, Solano County. Bids will be opened on August 7th at 11 a. m. for the construction of a 10-foot reinforced concrete bridge across Alamo Creek on road No. 125, at the Northeast and Keithly ranches, about one mile east of Elmira, Road District No. 5.

VENTURA, VENTURA CO., CAL.—Bridge, timber. Cost not stated. Engineer, County Surveyor, Ventura. Owners, Ventura County. Bids will be received by the Board of Supervisors up to 2 p. m. of September 8, 1916, for the construction of Aiso Canyon bridge near Fitzpatrick's place on the Willoughby road. The work consists of one timber bridge 61 feet long, and involves the following approximate quantities: 9,800 feet, B. M., Oregon pine lumber; 6,700 feet, B. M., redwood timber, 1,450 pounds steel and iron; 515 cubic yards earth fill; 176 linear feet guard fence.

Contracts Awarded.

PLACERVILLE, EL DORADO CO., CAL.—Bridge, reinforced concrete, \$9,830. Engineer, County Surveyor, Placerville. Owners, El Dorado County. Contractors, Jenkins & Wells, 3550 Y street, Sacramento. Contract price, \$9,830.

LINCOLN, PLACER CO., CAL. — Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Auburn. Owners, Placer County, Contractor, M. Blumenkrantz, Sacramento. Contract price not stated.

BAKERSFIELD, KERN CO., CAL. — Bridge, reinforced concrete, 2,187. Engineer, County Surveyor, Bakersfield. Owners, Kern County, Contractor, S. G. Smartt, Bakersfield. Contract price, \$2,185.

RIVERSIDE, RIVERSIDE CO., CAL. — Bridge, steel reconstruction, \$9,500. Engineer, County Surveyor, Riverside. Owners, Riverside County, Contractors, Mercereau Bridge and Construction Co., Pacific Electric Bldg., L. A. Contract price, \$9,500.

Factories and Warehouses

SAN FRANCISCO — Factory and warehouse, 4 story, mill construction, \$100,000. Architect, Henry Shonmud, Mills Bldg., S. F. Owner, C. R. Petersen. Location, 15th, Vermont and San Bruno, covering an area of 100 by 200 feet. One-half of building to be occupied by Pioneer Soap Co. Special machinery. Plans complete and figures being taken.

OAKLAND, CAL. — Warehouse, 1 story, frame, \$1,500. Architect, none. Owners, Barbon Chemical Co., southeast 50th avenue and East 9th street. Location, 50th avenue and East 3th street. Plans complete and work to be done by Day Labor.

WEST BERKELEY, ALAMEDA CO., CAL. — Shop and garage, 1 story, brick and steel. Cost not stated. Architect, City Architect, W. H. Ratcliff, Jr., First National Bank Bldg., Berkeley. Owners, City of Berkeley. Location, Corporation Yards. All bids received for this work have been rejected and revised plans are to be prepared. The City Council has decided to do away with all horses and plans will be revised so as to eliminate the stable.

OAKLAND, CAL. — Mill building, 2 story, frame and concrete, \$10,000. Architect, none. Owners, National Mill and Lumber Co., 5th and Bryant Sts., S. F. Location, north Tidal Canal east of High street. Plans complete and work to be done by Day Labor.

SEATTLE, WASH. — Factory, 4 story and base, reinforced concrete. Cost not stated. Architect, N. M. Loney, 120 Broadway, New York. Owners, American Can Co. Location, Elliott avenue between Clay and Cedar, covering an area of 239 by 120 feet. Also two-story warehouse dock 501 by 69 feet. Plans complete and figures being taken.

Bids are to be opened on August 8th for the work to be done on Sonoma, Mendocino, Poso and Monterey streets between Colorado street to California, and Humboldt, San Joaquin and Sutro streets from Sonoma avenue to a line running through the center of section 16. Captain Weber's grant. As to the sidewalk paving is provided for concrete curbs, gutters, and sidewalks.

TEHAMA CO., CAL.—Canal and road construction. Cost not stated. Engineer, County Surveyor, Red Bluff. Owners, Tehama County. County Surveyor W. F. Lanning at the City of Tehama. The Tehama County Engineer was instructed to prepare plans and specifications for the construction of a concrete culvert across the bridge east of the Salt Creek bridge on the Belle Mill and Antelope road. Plans were also ordered for the construction of three-fourths of a mile of rock-lined road on the Mantion road near the Beland Patterson place. Bids on the improvements will be called on acceptance of the plans.

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, South San Francisco. Owners, South San Francisco. Bids will be opened on August 5th for street improvements authorized under the following resolution: That the following street and avenues be improved by grading, combination concrete curbs and concrete gutters and concrete sidewalks be constructed, an asphaltic concrete pavement, consisting of a concrete base 1 inches thick and an asphaltic concrete wearing surface 1½ inches thick; storm water sewers, together with all laterals, catch basins and manholes and appurtenances, be constructed of vitrified, salt-glazed sewer pipe and 4-inch, vitrified, salt-glazed cast-iron pipe lateral sewers with Ys.

SAN JOSE, SANTA CLARA CO., CAL.—Highway improvement. Cost not stated. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. At the last meeting of the County Supervisors plans and specifications for the improvement of San Martin avenue in Supervisor District No. 1, in Santa Clara County, presented by the County Surveyor, were approved and the call directed to advertise for bids to be opened August 10th at 10 o'clock a. m. The County Surveyor reports that plans and specifications for the improvement of Lincoln avenue will be presented at the next meeting of the Board for its approval. Plans may be had from the County Clerk.

CASTROVILLE, KERN CO., CAL.—Highway improvement. Cost not stated. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Bids will be opened on August 5th at 2 p. m. for grading, paving and construction of culverts on Division 9, Section

7, Bakersfield-Glennville road, being that portion beginning at the end of the pavement on Section 6, thence east 1.75 miles following the present county road.

MODESTO, STANISLAUS CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Modesto. Owners, Stanislaus County. Bids will be opened on August 15th at 2:30 p. m. for the construction of a concrete road on McHenry avenue from the center of Stoddard avenue northerly to the north boundary limits of the city of Modesto.

SAN FRANCISCO—Water supply. Cost not stated. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Bids will be opened by the Board of Public Works on August 9th for tunnel work on the Lower Cherry Aqueduct of the Hetch Hetchy Project.

COST AWARD

LAKE SPAULDING, CAL.—Addition to dam, reinforced concrete, \$250,000. Engineer, Engineering Department Pacific Gas and Electric Co., S. F. Owners, Pacific Gas and Electric Co., Contractors, Twohy Bros., Hobart Bldg., S. F. Contract price, \$250,000.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on August 8th at 11 a. m. for street improvements authorized under the following resolutions: That the alley between B and C streets, from 12th street to 13th street, be improved by constructing 1 concrete catch basin complete, 560 linear feet of concrete curb wall; 8 linear feet of 8-inch, vitrified, ironstone sewer pipe drain connecting catch basin to sewer; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick.

That the alley between E street and F street, from 12th street to 13th street, be improved by constructing 2 concrete catch basins complete, placing 12 linear feet of 8-inch, vitrified, ironstone sewer pipe drains connecting catch basins to sewer; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick.

That the alley between I and J Sts., from 13th to 14th street, be improved by constructing a concrete retaining wall on both sides of the alley from the east line of 13th street to the west line of 14th street; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Plans and specifications may be had from City Clerk M. J. Desmond.

VENTURA, VENTURA CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Ventura. Owners, Ventura County. Bids will be received by the Board of Supervisors up to 11 a. m. of August 9th for grading and paving with concrete 4 inches thick and 16 feet wide. Division 7, Santa Clara River to Somis road, on the State highway, a distance of 8.75 miles, in accordance with plans and specifications on file in the office of

the Board, and at the office of the County Highway Commission and obtainable upon deposit of \$3. The approximate quantities are: 17,500 cubic yards of excavation, including borrow; 46,300 linear feet shaping and rolling road bed; 9,200 cubic yards Class B concrete (pavement aprons and cut-off walls without forms); 230 cubic yards Class B concrete (bridges, culverts and walls and catch basins); 156 linear feet 18-inch corrugated iron pipe in culverts; 90 linear feet 24-inch pipe; 90 linear feet 36-inch pipe; relaying 140 linear feet of 12 to 24-inch corrugated iron pipe; 15,000 pounds reinforcing steel. Certified check for 5 per cent must accompany each bid. J. S. McCloskey is the County Clerk.

LOS ANGELES, CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, L. A. Owners, Los Angeles County. Bids will be received by the Board of Supervisors up to 2 p. m. of August 21, 1916, for improving Section D of the Mint Canyon road. The section is 10.63 miles in length, and will be paved with concrete 20 feet wide and 5 inches thick. The approximate quantities are: 94,275 cubic yards of excavation, 56,155 linear feet of shaping road bed, 22,000 linear feet of guard fence, 11,123 pounds of reinforcing steel, 326 cubic yards of Class A concrete for culverts and headwalls, 124,793 square yards of concrete pavement. The county will furnish 23,251 barrels of cement, 261 tons of lime and 1,486 barrels of oil. The estimated cost is \$125,492.75. Bids will also be taken on Proposition B, which is the same as above except that the county will furnish 12,716 tons of sand, 20,760 tons of broken stone and 2,559 tons of screenings from the county plant. The estimated cost on this proposition is \$132,885.25 on account of the excess cost of freight.

CHINO SAN BERNARDINO CO., CAL.—Disposal works. Cost not stated. Engineer, City Engineer, Chino. Owners, City of Chino. Bids will be received by the City Clerk, City Hall, north east corner D and 7th streets, up to 5 p. m. of August 15, for the construction of a sewer system and disposal works for the city of Chino, for which \$55,000 bonds have been voted and sold. Work to be in accordance with plans and specifications on file at the office of the City Clerk, and which can be obtained from him by making a deposit of \$1.50, or from Olmstead & Gillean, 1112 Hollingsworth Bldg., L. A., consulting engineers on the work. The approximate quantities are: 42,350 feet 8-inch pipe, 1,540 feet 10-inch pipe, 766 feet 12-inch pipe, 3,500 feet 14-inch pipe, 1,700 feet 16-inch pipe, 84 manholes, 21 flush tanks, 1 inboff tank. Certified check for 10 per cent must accompany each bid. E. L. P. Wetmore is the City Clerk.

SACRAMENTO, CAL.—Street paving. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. The City Commissioners have awarded a contract to the McGilivray Construction Co., 717 Capitol Bank Bldg., Sacramento, for the following work: That 2nd street, from the south line of Q street to the north line of T street, be improved by grading the roadway and constructing thereon an asphaltic macadam pavement, consisting of a hydraulic concrete foundation 4 inches thick at the

gutter and running to 5 inches thick, and an asphaltic macadam wearing surface 1½ inches thick; reconstructing 4 concrete manholes and 1 concrete catch basin.

BERKELEY, ALAMEDA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Contracts for street improvements have been awarded as follows: To Clark & Henry Construction Co., Ochsner Bldg., Sacramento: That University avenue in the vicinity of 2nd street be graded, concrete curbs be constructed; 2 concrete storm water inlets with cast iron curbs and gratings, and 12-inch, vitrified, ironstone pipe connections with the existing storm sewer in University avenue, a 10-inch, vitrified, ironstone pipe sewer, and that said roadway be paved with brick pavement laid on 4-inch concrete base.

To Oakland Paving Co., 5000 Broadway, Oakland: That the roadway of Keith avenue, from the east line of Hopkins Terrace No. 4 east and north to north boundary line of the city of Berkeley be graded; combination concrete curbs and gutters be constructed along the curb lines thereof, and that the remainder of the roadway be macadamized and surfaced with oil and rock screenings.

To Oakland Paving Co.: That a cement sidewalk 6 feet wide be constructed on the north and south sides of Carlton street from the east line of San Pablo avenue east to the west curb line of Baker street.

VISALIA, TULARE CO., CAL.—Gas plant extension, \$46,490.95. Engineer's name not given. Owners, Central California Gas Co. The Central California Gas Co. is preparing to expend about \$46,490.95 in additions to the company's gas system. The proposed additions are: Generator, Visalia, \$5,830; services, general, \$9,672.45; trunk line, Visalia, \$6,260; covering compression tanks, Visalia, \$407; covering steam lines, Visalia, \$255; compressor, Porterville, \$731; holder at Porterville, \$11,556; compressor No. 5, Visalia, \$3,655; main extensions, \$5,064.

HEALDSBURG, SONOMA CO., CAL.—Septic tank. Cost not stated. Engineer, City Engineer, Healdsburg. Owners, City of Healdsburg. The city of Healdsburg will build septic tanks for its sewer system. The town trustees have advertised for bids, but only one contractor submitted figures on the work, and his bid was rejected at the board's last meeting. It was decided to construct three tanks.

Contracts Awarded

STOCKTON, SAN JOAQUIN CO., CAL.—Street and sewer construction. Cost as follows. Engineer, City Engineer, Stockton. Owners, City of Stockton. The following bids were received by the City Council for curbing and paving of the central and southern roads of Bienvenido Park, Gaskell & Foley, a new firm, were the lowest bidders, their offer being \$7,747.84. Other bidders were A. B. Munson & Son, \$7,298.25; Frank C. McIntire, \$8,463.23; the Highway Surfacing Co., \$8,899.89. The City Engineer's estimate for the work was \$8,164.64. Only two firms submitted proposals for the storm sewer work to be done on Edison, Harrison, Lincoln, Jefferson, Jackson and South streets and the French Camp turnpike. Both were

higher than the estimate of the City Engineer, but he thought them reasonable because of the difficult nature of the work. W. S. Gause, 15 Park Way, Oakland, had the lowest bid, \$6,997.32, while W. F. Edwards submitted the other proposal, \$6,177.69. The Engineer's estimate was \$5,749.58. The contract was awarded to the lowest bidders in each case.

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Contracts have been awarded under the following resolutions: The improvement of Woolsey street, between Dartmouth and University streets, including the crossing of Woolsey street and Colby street, and the improvement of University between the north line of Woolsey street and the south line of Wayland street, by grading to official line and grade. Awarded to L. P. Holland, 550 3rd street, for \$2,887.20.

The improvement of the crossing of Judah and 30th avenue by grading, construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: An 8 and 12-inch with one brick manhole, three brick catch basins, with cast iron frames, gratings and traps and 10-inch, vitrified, salt-glazed, ironstone pipe culverts; concrete curbs; artificial stone sidewalks and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway. Awarded to The State Improvement Co., Crocker Bldg., S. F., for \$2,964.65.

MARTINEZ, CONTRA COSTA CO., CAL.—Highway construction. Cost as follows. Engineer, County Surveyor, Martinez. Owners, Contra Costa County. Bids were opened by the Contra Costa County Board of Supervisors for construction of materials and labor and furnishing of the sub-grade, excavating for bridges and culverts, excavating for bridges and culverts and building road with a concrete base on Division No. 3 of the county highway from Bryon to the county boundary for line, a distance of 8.14 miles; and for furnishing of materials and labor and excavating for bridges and culverts, excavating for bridges and culverts and building road with a concrete base on Division 4 from Antioch to Pittsburg, a distance of 3.49 miles. Both contracts were awarded to O'Brien Bros., Main street, Martinez, on their bids of \$93,705.86 for Division No. 3, and \$32,540 for Division No. 4. Following is a complete list of the bids received:

Division No. 3—O'Brien Bros., Martinez, \$93,705.86; Eaton & Smith, San Francisco, \$105,355.56; C. H. & A. W. Gorrell, San Francisco, \$112,967.15; City Street Improvement Co., San Francisco, \$115,522.49.

Division No. 4—O'Brien Bros., Martinez, \$32,540; Baker & Martin, San Francisco, \$57,948; Whitlock & Gorrell, San Francisco, \$59,183; C. B. Cowden, San Francisco, \$59,515; Eaton & Smith, San Francisco, \$60,181; Macrae & Layas, San Francisco, \$61,665; Drake Bros. Co., Oakland, \$61,685; W. Price, San Francisco, \$62,295; C. H. & A. W. Gorrell, San Francisco, \$63,610; City Street Improvement Co., San Francisco, \$66,308.90.

LOS ANGELES, CAL.—Street improvements, \$11,530. Engineer, City Engineer, L. A. Owners, City of Los

Angeles. Contractor, A. L. McCray, 231 West 28th street, L. A. Contract price, \$11,380.

SANTA BARBARA, SANTA BARBARA, CAL.—Street paving. Engineer, City Engineer, Santa Barbara. Owners, City of Santa Barbara. Contractors, Municipal Improvement Co., Santa Barbara. Contract price, \$14,532.29.

SANTA CRUZ, SANTA CRUZ CO., CAL.—Street improvement, \$11,243.57. Engineer, City Engineer, Santa Cruz. Owners, City of Santa Cruz. Contractor, W. E. Miller, Santa Cruz. Contract price, \$11,243.97.

STORES AND OFFICES

SAN FRANCISCO—Stores and sample rooms, 3 story and base, frame, \$3,600. Architect, Otto Schiller, owner, Henry Vowinkel, 350 Hayes street, S. F. Location north Grove west of Franklin, covering an area of 27½ by 120 feet. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Offices, 10 story and base. Class A construction, \$1,500,000. Architects, Bliss & Faville, Balboa Bldg., S. F. Owners, Southern Pacific Co. Location, southeast Market and Spear streets, covering an area of 274 by 209 feet. Plans complete and work being figured both as a whole and segregated.

OAKLAND, CAL.—Stores, 1 story and base, frame, \$2,000. Architects, J. C. and M. L. Newsom, 1746 Broadway, Oakland. Owner, Mr. Piso. Location, 20th avenue and East 21st street. Will contain three stores. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Offices, 4 or 5 story and base. Class A construction, \$200,000. Architect, C. W. Dickey, Central Bank Bldg., Oakland. Owners, Pacific Gas and Electric Co. THEATRES

MANHATTAN BEACH, LOS ANGELES CO., CAL.—Amusement pier, timber and concrete, \$21,433. Architects, Train & Williams, Exchange Bldg., L. A. Owners, City of Manhattan Beach. George W. Harbun, 149 West 31st St., L. A., submitted the lowest bid for this work at \$21,433. All bids were taken under advisement.

BUTTE, MONTANA—Theatre, 4 story and base, brick, concrete and terra cotta, \$100,000. Architect, H. Ryan, Liberty Bldg., Seattle, Wash. Owners, Silver Bow Amusement Co. Will cover an area of 94 by 160 feet. Plans complete and figures to be called for shortly.

SEALED PROPOSALS

PROPOSALS FOR CANAL SUPPLIES, PANAMA (CIRCULAR 1066—Proposals for Kerosene and Gasoline. Annual estimate for the period ending June 30, 1917).—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m., August 10, 1916, at which time they will be opened in public, for furnishing the above mentioned articles. Plans and general information relating to this circular (No. 1066) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal.; EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

PROPOSALS FOR CANAL SUPPLIES, PANAMA (CIRCULAR 1067—Proposals for Door and Window Hardware, Elevators, Dumbwaiter, Steel Cable, Refrigerators, Bone-Black, Spud Timbers).—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m., August 11, 1916, at which time they will be opened in public, for furnishing the above mentioned articles. Plans and general information relating to this circular (No. 1067) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal.; EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

PROPOSALS FOR CANAL SUPPLIES, PANAMA (CIRCULAR 1065—Proposals for Structural Steel, Steel Plates, Planished Iron, Ridge Roll, manganese Steel Links and Pins, Riveting, Forge, Spud Hole Diggers, Valves, Cast Iron Pipe, Sewer Pipe, Electrical Material, Drafting Instruments, Gauge Lenses, Whistles, Oil Cans, Gaskets, Padlocks, Grindstone, Clips, Bristol Board, Asbestos Board, Canvas, Laundry Bags, Rubber Boots, Alcohol, Paints, Lamps, Oil, Powdered Graphite, Varishes, Alumina Sulphate, Carbon Bisulphide and Millwork).—Sealed proposals will be received at the office of the general

purchasing officer, the Panama Canal, Washington, D. C., until 10:20 a. m. August 7, 1916, at which time they will be opened in public, for furnishing the above mentioned articles. Plans and general information relating to this circular (No. 1065) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal., also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal.; E. A. R. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

PROPOSALS FOR WHARF.

SEA WALL AND WHARF—Sealed proposals will be opened by the light-house inspection Portland, Ore., at 2 o'clock p. m. August 7, 1916, for extending and repairing the sea wall and building small wharf at Mukilteo Light Station, Wash. Information upon application to above office.

STATE OF CALIFORNIA.

DEPARTMENT OF ENGINEERING.

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the office of the California Highway Commission, 215 Forum Building, Sacramento, Cal., until 2 o'clock p. m. on August 21, 1916, at which time they will be publicly opened and read for construction in accordance with the specifications therefor, to which special reference is made, portion of State highway as follows:

Santa Barbara County, across the Santa Ynez River (V-S R-2-10), a bridge comprising five through steel spans, each 160 feet long, with timber trestle and earth fill approaches.

Plans may be seen, and forms of proposals, bonds, contract, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willets, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno, and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The Department of Engineering reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

CHARLES D. BLANEY,
NEWELL D. DARLINGTON,
CHARLES F. STERN,
California Highway Commission.
ALFRED B. FLETCHER,
Highway Engineer,
WILSON R. ELLIS,
Secretary. (*)

Dated: July 21, 1916.

PROPOSALS FOR BRIDGE.

BRIDGE SPANS—Department of the Interior, Office of Indian Affairs, Washington, D. C. July 5, 1916.—Sealed proposals plainly marked "Proposals for the sealed envelope 'Proposals for Material for two Steel Spans for Bridge, Klamath Indian Reservation, Oregon,'" and addressed to the commissioner of Indian Affairs, Washington, D. C., will be received at the Indian office until 2 o'clock p. m. of August 7, 1916, for furnishing the material only required for the construction of two steel bridge spans, one 20-foot span and one 60-foot span, in strict accordance with the plans, specifications and instructions to bidders, which may be examined at the United States Indian warehouse at San Francisco, Cal., and at the office of the superintendent of the Klamath Indian Agency, Klamath Agency, Ore. CATO SELLS, commissioner.

DREDGE—Sealed proposals indorsed "Proposals for Dredge" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m. August 15, 1916, and then and there publicly opened, for a gravity swing, 1-ton, bucket dredger for the navy yard, Mare Island, Cal. Plans and specifications can be obtained on application to the bureau or to the commandant of the navy yard named. F. R. HARRIS, chief of bureau.

COMMERCIAL MUSEUM IN PERU.

Notice has been received in the Bureau of Foreign and Domestic Commerce of the establishment in Lima, Peru, of a new commercial museum, the purpose of which is to bring together articles from Peru and all other countries of North and South America which would be of commercial or economic interest. A communication from the founders of the institution contains the following statements:

The object of the museum is to secure by all means in its power Pan American reciprocity, not only in the economic but also in the intellectual field. In order to fulfill its mission every way possible to promote permanent Pan American expositions which will assemble the products of each country on the largest scale and in the most graphic and definite form.

The institution publishes a periodical entitled "Evolucion Peruana." It is understood that the museum would be pleased to enter into correspondence with American exporters who have no other representatives in the field. Those who wish to get in touch with the new institution can do so by addressing the "Museo Comercial e Industrial del Peru," Lima, Peru. Five cents postage is required on all letters to Peru.

CANAL RECORD AS AID TO BUSINESS MEN.

The Panama Canal issues a weekly publication called The Canal Record, which contains general information concerning conditions on the Isthmus, the passage of vessels through the canal, their ports of departure and destination, nature and quantity of goods carried etc., which would seem to be of special interest to companies concerned with the shipment of goods via the canal, as well as to others who are interested in the canal generally.

Sample copies of the Record and information regarding subscription rates

may be obtained by communicating with the chief of office, The Panama Canal, Washington, D. C.

TWO STEAMERS RETURNED TO PACIFIC TRADE.

[Panama Canal Record, July 5] * The Siberia, formerly of the fleet of the Pacific Mail Steamship Co. and sold last October to the Atlantic Transport Co., for service between Great Britain and New York, passed through the Panama Canal on July 1 on its way back to the Pacific Ocean under the house flag of the Toyo Kisen Kaisha. The steamer has been registered in Yokohama and will be operated in the service between the United States and the Far East.

A sister ship, the Korea, is expected to make the passage through the canal within a short time, having likewise been sold to the Toyo Kisen Kaisha. The price of the two vessels in the recent sale is reported at \$2,000,000 each.

OAKLAND MAN AN INVENTOR.

Harry T. Lally Jr., a member of the plumbing firm of Mark-Lally, 1005 Webster street, is the inventor of a new toilet bowl that has already attracted the interest of the trade and which may reap rich rewards for the man whose genius contrived the improvement. The new bowl is of the raise-back rim, non-stalling type. Lally was granted a patent in February. Experts who have seen Lally's invention declare that it is certain to be universally installed.

STATE CORPORATION DEPARTMENT.

SACRAMENTO, Cal., July 29, 1916.—Commissioner of Corporations H. L. Carnahan has permitted the Benchley Warehouse Company, Fullerton, to sell 145 shares at par, \$100 per share, net to the company, the proceeds to be used for building and equipping a parking house.

SLATE REPORT ISSUED.

The annual statement of the Geological Survey on slate in 1915 is available for distribution. According to this report the total value of slate sold in the United States during the year was \$1,958,915.

San Francisco, Cal.
Gentlemen:

Replying to your letter of inquiry asking for a statement regarding the service we are getting from our F-W-D Truck recently purchased from you, beg to advise that the truck is more of a success than I ever thought possible. I am hauling over a road that a 10-horse team can only pull $4\frac{1}{2}$ tons over, and takes five days to make the round trip. The truck makes a round trip in 14 hours, with $3\frac{1}{2}$ to 4 tons.

The whole country for miles around comes down to see the only truck that ever reached Wawona with four tons. The first load was 8,152½ pounds, for which I have a receipt from the Associated Gasoline people. Since then I have been making regular daily trips from Raymond.

The truck has replaced one 10-horse and two 4-horse teams on the road. If the truck continues to perform as well as it does now, there is not another

truck can come near it.

With best wishes, I beg to remain,
Yours very truly,

(Signed) D. A. LEWIS.

St. Paul, Minn., May 16, 1916.
Four Wheel Drive Auto Co.,
Clintonville, Wis.

We have used the F-W-D Truck nearly three years and feel that on rough roads and for hard usage nothing better is made. Truck has fulfilled all requirements and proven very satisfactory.

HAMM BREWING CO.

Four Wheel Drive Auto Co.,
Clintonville, Wis.

Four years' experience with F-W-D Trucks. All give perfect satisfaction. Strongly recommend it over all others. Costs less to operate. Is dependable; most economical. We are operating successfully where W—, P—, and J— trucks failed.

A. W. SHAW.

Four Wheel Drive Truck Co.

OAKLAND AND ALAMEDA COUNTY

STREET IMPROVEMENTS—Cost not stated. Berkeley, Alameda Co., Cal. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on August 8th at 10 a. m. for street improvements authorized under the following resolutions: That portions of north half of the roadway of Durant avenue be graded; concrete curbs and gutters be constructed along the curb lines adjacent to said portions of the roadway, and the remainder of said portions of the roadway be paved with asphaltic wearing surface 2 inches thick laid on a concrete base 5 inches thick.

STREET IMPROVEMENTS—Cost not stated. Berkeley Alameda Co., Cal.

Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on August 4th for street improvements authorized under the following resolutions: That the south half of concrete culvert 6x6 feet, inside dimensions, and 125 feet long, be constructed in Codornices Creek across Ordway street, and that earth fill be made in said street south of the north boundary line of the city of Berkeley.

RESIDENCE—2 story and base, frame, \$3,550. Oakland, Cal. Architect, none. Owner, H. C. Pfaff, 320 Forest, Oakland. Location, west Glen View south of Warfield. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Oakland, Cal. Architect, none. Owner, S. Carlton, 2023 69th avenue, Oakland. Location, south Wolf east of 69th avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 2 story and base, frame, \$3,000 each. Oakland, Cal. Architects, Universal Drafting Bureau, 1843 5th avenue, Oakland. Owner, R. A. McWilliams. Location, Excelsior Heights. Each house will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,100. Oakland, Cal. Architect, none. Owner, A. R. West, 1815 San Pablo avenue, Oakland. Location, southwest 39th and Market streets. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 1 story and base, frame, \$2,000 each. Oakland, Cal. Architect, none. Owners, Wieder and Goldstein, 703 Castro street, Oakland. Location, east Peralta north of Main. Each house will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect, none. Owner, Louis O. Hanson, 1128 The Alameda. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

WAREHOUSE—1 story, frame, \$1,500. Oakland, Cal. Architect, none. Owners, Barbon Chemical Co., southeast 50th avenue and East 9th street. Location, southeast 50th avenue and East 9th street. Plans complete and work to be done by Day Labor.

SHOP AND GARAGE—1 story, brick and steel. Cost not stated. West Berkeley, Alameda Co., Cal. Architect, City Architect, W. H. Ratcliff, Jr., First National Bank Bldg., Berkeley. Owners, City of Berkeley. Location, Corporation Yards. All bids received for this work have been rejected and revised plans are to be prepared. The City Council has decided to do away with all horses and plans will be revised so as to eliminate the stable.

MILL BUILDING—2 story, frame and concrete, \$10,000. Oakland, Cal. Architect, none. Owners, National Mill and Lumber Co., 5th and Bryant Sts., S. F. Location, north Tidal Canal east of High street. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect, none. Owner, B. E. Butler, 333 49th street, Oakland. Location, west Grant south of Delaware. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,500. Oakland, Cal. Architect, none. Owner, G. H. Moore. Location, north Beck west of 73rd. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, P. S. Walsh, 623 44th street, Oakland. Location, south Rich street east of Telegraph. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

STORES—1 story and base, frame, \$2,000. Oakland, Cal. Architects, J. C. and M. L. Newsum, 1716 Broadway, Oakland. Owner, Mr. Pico. Location, 20th avenue and East 21st street. Will contain three stores. Plans complete and work to be done by Day Labor.

OFFICES—4 or 5 story and base. Class A construction, \$200,000. Oakland, Cal. Architect, C. W. Dickey, Central Bank Bldg., Oakland. Owners, Pacific Gas and Electric Co. Location, 17th and Clay streets. Only preliminary plans have been prepared and the height of the building and other details have not been settled. Further mention of the work will be made.

STORES—1 story and base, brick. Cost not stated. Oakland, Cal. Architect, Charles W. McCall, Central Bank Bldg., Oakland. Owners, Produce Companies. Location, Third and Franklin streets. Will contain a large number of stores. Plans complete and figures to be taken at once.

Contracts Awarded

STREET IMPROVEMENTS—Cost not stated. Berkeley, Alameda Co., Cal. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Contracts for street improvements have been awarded as follows: To Clark & Henry Construction Co., Ochsner Bldg., Sacramento, that University avenue in the vicinity of 3rd street be graded, concrete curbs be constructed, 2 concrete storm water inlets with cast iron curbs and gratings, and 12-inch, vitrified, ironstone pipe connections with the existing storm sewer in University avenue; a 10-inch, vitrified, ironstone pipe sewer, and that said roadway be paved with brick pavement laid on a 4-inch concrete base.

To Oakland Paving Co., 5000 Broadway, Oakland, that the roadway of Keith avenue from the east line of Hopkins Terrace No. 4, east and north to west boundary line of the city of Berkeley be graded. Combination concrete curbs and gutters be constructed along the curb lines thereof, and that the remainder of the roadway be macadamized and surfaced with oil and rock screenings.

To Oakland Paving Co., that a cement sidewalk 6 feet wide be constructed on the north and south sides of Carlton street, from the east line of San Pablo avenue east to the west curb line of Baker street.

 frame and concrete, \$12,840. Napa,
 Napa Co., Cal. Architect, State Archi-
 tect George B. McDonough, Sacramento.
 Owners, State of California. L. G. Ber-
 gren & Son, Call-Post Bldg., S. F., sub-
 mitted the lowest figure for this work
 and will be awarded the contract. A
 complete list of the bids received will
 be found under the heading of Marin,
 Contra Costa and Sonoma Counties in
 this issue.

BRIDGE—Reinforced concrete. Cost
 not stated. Fairfield, Solano Co., Cal.
 Engineer, County Surveyor, Fairfield

Owners, Solano County. Bids will be opened on August 7th at 11 a. m. for the construction of a 40-foot reinforced concrete bridge across Alamo Creek, on road No. 125, at the Northwest and Keithly ranches, about one mile east of Elmira, Road District No. 5.

HIGHWAY CONSTRUCTION—Costs as follows, Martinez, Contra Costa Co., Cal. Engineer, county Surveyor, Martinez. Owners, Contra Costa County. Bids were opened by the Contra Costa County Board of Supervisors for furnishing of materials and labor and grading and preparing the sub-grade, building bridges and culverts, excavating for bridges and culverts and building road with a concrete base on Division No. 3 of the County Highway from Bryon to the county boundary line, a distance of 8.14 miles; and for furnishing of materials and labor and grading and preparing the sub-grade, building bridges and culverts, excavating for bridges and culverts and building road with a concrete base on Division No. 4 from Antioch to Pittsburg, a distance of 3.49 miles. Both contracts were awarded to O'Brien Bros., Main street, Martinez, on their bids of \$95,705.86 for Division No. 3, and \$53,540 for Division No. 4. Following is a complete list of the bids received:

Division No. 3—O'Brien Bros., Martinez, \$95,705.86; Eaton & Smith, San Francisco, \$105,255.56; C. H. & A. W. Gorrell, San Francisco, \$112,967.15; City Street Improvement Co., San Francisco, \$115,522.49.

Division No. 4—O'Brien Bros., Martinez, \$53,540; Baker & Martin, San Francisco, \$57,948; Whitlock & Gorrell, San Francisco, \$59,185; C. B. Cowden, San Francisco, \$59,515; Eaton & Smith, San Francisco, \$60,181; Macrae & Layas San Francisco \$61,466; Blake Bros. Co., Oakland, \$61,685; W. Price, San Francisco, \$62,395; C. H. & A. W. Gorrell, San Francisco, \$63,610; City Street Improvement Co., San Francisco, \$66,308.90.

MACHINE SHOP—Mare Island, Cal. The Bureau of Yards and Docks has approved plans and specifications for the Krupp type of machine shop to be erected at Mare Island according to word received by the officials there. The plans call for a building over 60 feet high and will be equipped with two 80-ton and two 15-ton traveling cranes. The structure will be an addition to the present shop building known as No. 1, and will cost in the neighborhood of \$81,000. This amount is available.

RESIDENCES—5, 1 story and base, frame, \$2,000 to \$2,500. Mt. Diablo, Contra Costa Co., Cal. Architects, Universal Drafting Bureau, 1844 5th avenue, Oakland. Owner's name withheld. Each house will contain five rooms, bath and sleeping porch. Plans being prepared and when complete work will be done by Day Labor.

RESIDENCES—5, 1 story and base, frame, \$2,000 each. Giant, Contra Costa Co., Cal. Architects, Universal Drafting Bureau, 1844 5th avenue, Oakland. Owner's name withheld. Each house will contain five rooms, bath and sleeping porch. Plans being prepared and when complete work will be done by Day Labor.

HOTEL—3 story and base, frame. Cost not stated. Giant, Contra Costa Co., Cal. Architects, Universal Drafting Bureau, 1844 5th avenue, Oakland.

Owners name withheld. Will contain lobby and fifty rooms. Plans being prepared.

SEPTIC TANK—Cost, not stated. Healdsburg, Sonoma Co., Cal. Engineer, City Engineer, Healdsburg, Owners, City of Healdsburg. The city of Healdsburg will build septic tanks for its sewer system. The Town Trustees have advertised for bids, but only one contractor submitted figures on the work, and his bid was rejected at the Board's last meeting, it was decided to construct three tanks.

STORES AND LOFTS—1 story, frame, \$19,000. Richmond, Contra Costa Co., Cal. Architect, James T. Narett, 704 Macdonald avenue, Richmond. Owner, Mrs. Bucking. Location, 6th and Macdonald avenue. Will contain stores and lofts. Plans being prepared.

STORE ADDITION—Brick. Cost not stated. Pittsburg, Contra Costa Co., Cal. Architect's name not given. Owner, P. Scott, Pittsburg. Bids will now be received on the construction of a second story on the building occupied by the Modern Pharmacy at the southwest corner of Railroad avenue and Third street, Pittsburg, and contractors desiring this work may obtain full particulars by applying to the owner of the property, P. Scott, Pittsburg, Cal.

Bids will be opened on August 8th at 2 p. m. for grading, paving and construction of culverts on Division 9, Section 7, Bakersfield-Glennville road, being that portion beginning at the end of the pavement on Section 6, thence east 1.78 miles, following the present county road.

HIGHWAY CONSTRUCTION—Cost not stated. Modesto, Stanislaus Co., Cal. Engineer, County Surveyor, Modesto. Owners, Stanislaus County. Bids will be opened on August 15th at 2:30 p. m. for the construction of a concrete road on McHenry avenue from the center line of Stoddard avenue northerly to the north boundary limits of the city of Modesto.

IRRIGATION PROJECT—\$1,200,000. Lindsay, Tulare Co., Cal. Engineer, Stephen E. Kieffer, 57 Post street, S. F. Owners, Lindsay-Strathmore Irrigation District. Bids will be opened on August 11th at noon for the construction of irrigation works for the Lindsay-Strathmore Irrigation District. The work to be done embraces the construction of 37 wells and well pumping plants, 9 miles of banded wood stave pipe, 34 miles 60-inch reinforced concrete pipe or 6 1/2 miles of 48-inch continuous stave redwood pipe, 12 miles to concrete lined ditch, 85 miles riveted steel pressure pipe or reinforced concrete pipe, and two high-head pumping plants, with an aggregate of 2,250 H. P. in motors direct connected to centrifugal pumps. The maximum time allowed for the completion of the entire work is June 1, 1917.

SCHOOL—1 story, brick and frame. Cost not stated. Visalia, Tulare Co., Cal. Architects, Swartz & Swartz, Rowell Bldg., Fresno. Owners, City of Visalia. Will contain four class rooms. Plans nearly complete and figures to be called for shortly.

BRIDGE—Timber. Cost not stated. Ventura, Ventura Co., Cal. Engineer, County Surveyor Ventura. Owners, Ventura County. Bids will be received by the Board of Supervisors up to 2 p. m. of September 8 1916, for the construction of Aliso Canyon bridge near Fitzpatrick's place on the Willoughby road. The work consists of one timber bridge 61 feet long, and involves the following approximate quantities: 9,800 feet B. M., Oregon pine lumber; 6,700 feet B. M., redwood timber; 1,450 pounds steel and iron; 515 cubic yards earth fill; 176 lineal feet guard fence.

HIGHWAY CONSTRUCTION—Cost not stated. Ventura, Ventura Co., Cal. Engineer, County Surveyor, Ventura. Owners, Ventura County. Bids will be received by the Board of Supervisors up to 11 a. m. of August 5th, for grading and paving with concrete 4 inches thick and 16 feet wide, Division 7, Santa Clara River to Somis road, on the state highway, a distance of 8.77 miles, in accordance with plans and specifications on file in the office of the Board, and at the office of the County Highway Commission and obtainable upon deposit of \$3. The approximate quantities are: 17,500 cubic yards excavation, including borrow; 46,300 linear feet shaping and rolling road bed; 9,260 cubic yards Class B concrete (pavement aprons and cut-off walls without forms); 230 cubic yards Class B concrete (bridges, culverts, and walls and catch basins); 156 linear feet 18-inch corrugated iron pipe in culverts; 90 linear feet 24-inch pipe; 30 linear feet 36-inch pipe; relaying 110 linear feet of 12 to 24-inch corrugated iron pipe; 15,000 pounds reinforcing steel. Certified check for 5 per cent must accompany each bid. J. B. McCloskey is the County Clerk.

SCHOOL ADDITION—1 story, frame. Cost not stated. Firebaugh, Fresno Co., Cal. Architect, Ernest J. Kump, Rowell Bldg., Fresno. Owners, Firebaugh School District. Will contain two class rooms. Plans nearly complete and figures to be called for at once.

SCHOOL—1 story and base, frame. Cost not stated. Lemoore, Kings Co., Cal. Architect, Ernest J. Kump, Rowell Bldg., Fresno. Owners, Lemoore School District. Will contain one class room. Plans complete and figures to be opened on August 3rd.

SCHOOL—1 story and base, brick. Cost not stated. Visalia, Tulare Co., Cal. Architects, Swartz & Swartz, Rowell Bldg., Fresno. Owners, City of Visalia. Will contain four class rooms and an auditorium. Plans complete and figures being taken. Bids open on August 5th.

SCHOOL—1 story and base, brick, \$25,000. Orosi, Tulare Co., Cal. Architect, Ernest J. Kump, Rowell Bldg., Fresno. Owners, Orosi Union High School District. Will cover an area of 10 by 210 feet and contain four class rooms and repartments for manual training and domestic science. Plans nearly complete and figures to be called for within two weeks.

JAIL—1 story and base Class A construction. Cost not stated. Visalia, Tulare Co., Cal. Architect, Ernest J. Kump, Rowell Bldg., Fresno. Owners, Tulare County. Will cover an area of 30 by 75 feet with a wing 40 by 30 feet. Plans being prepared.

JAIL CELLS, ETC.—Cost not stated. Bakersfield, Kern Co., Cal. Architect, none. Owners, Kern County. Bids will be opened on August 10th for jail cells and special jail equipment.

HOTEL AND STORES—4 story and base, Class A construction. Cost not stated. Visalia, Tulare Co., Cal. Architect, Ernest J. Kump, Rowell Bldg., Fresno. Owner, J. Sub Johnson. Location, Main and Church streets, covering an area of 115 by 100 feet. Will contain stores on first floor and a total of 120 rooms. Plans ready for figures in two weeks.

GAS PLANT EXTENSION—\$46,490.95. Visalia, Tulare Co., Cal. Engineer's name not given. Owners, Central California Gas Co. The Central California Gas Co. is preparing to expend about \$46,490.95 in additions to the company's gas system. The proposed additions are: Generator, Visalia, \$5,830; services, general, \$9,672.45; trunk line, Visalia, \$6,260; covering compression tanks, Visalia, \$107; covering steam lines, Visalia, \$385; compressor, Porterville, \$121; holder at Porterville, \$11,556; compressor No. 5, Visalia, \$3,685; main extensions, \$8,064.

Contracts Awarded.

BRIDGE—Reinforced concrete \$2,185. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Contractor, S. G. Smartt, Bakersfield. Contract price, \$2,185.

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

BRIDGE—Reinforced concrete. Cost not stated. San Andreas, Calaveras Co., Cal. Engineer, County Surveyor, S Andreas. Owners, Calaveras County. Bids will be opened on August 14th at 2 p. m. for furnishing all material and labor for the construction complete of a reinforced concrete bridge over the North Fork of the Calaveras River on the line of the State Highway between the towns of San Andreas and Valley Springs in Calaveras County, Cal., about two miles below the town of San Andreas and about three-quarters of a mile down stream from the present wooden bridge.

BRIDGE—Reinforced concrete. Cost not stated. Red Bluff, Tehama Co., Cal. Engineer, County Surveyor, Red Bluff. Owners, Tehama County. Plans and specifications have been approved for the construction of a wooden bridge over Mill Creek, in Road District No. 4, and the Clerk of the County Supervisors was instructed to advertise for bids for its construction up to August 8th at 10 a. m. Plans may be had from the County Clerk.

STREET PAVING—\$39,349.80. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. At the last meeting of the City Council sealed proposals for street work in the Salfield addition were called. Bids are to be opened on August 8th for the work, which will be done on Sonoma, Mendocino, Mariposa and Monterey streets from El Dorado street to California, and on Hunter, San Joaquin and Sutter streets from Sonoma avenue to a line running through the center of Section 18 of Captain Weber's grant. Asphalt macadam paving is provided for as well as concrete curbs, gutters and sidewalks.

CULVERTS AND ROAD CONSTRUCTION—Cost not stated. Red Bluff, Tehama Co., Cal. Engineer, County Surveyor, Red Bluff. Owners, Tehama County. County Surveyor W. F. Lanning at the last meeting of the Tehama County Supervisors was instructed to prepare plans and specifications for the construction of a concrete culvert across a slough east of the Salt Creek bridge on the Belle Mill and Antelope road. Plans were also ordered for the construction of three-fourths of a mile rock crushed road in the manton road near the Leand Patterson place. Bids on the improvements will be called on acceptance of the plans.

RESIDENCE—1 story and base, frame, \$2,500. Sacramento, Cal. Architect, none. Owner, W. D. McKay. Location, Maple Park. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SCHOOL—1 story and base, frame and plaster. Cost not stated. Lakeport, Lake Co., Cal. Architects, Morrow & Garren, Chronicle Bldg., S. F. Owners, Town of Lakeport. Will contain four class rooms and an auditorium. Plans complete and figures being taken.

STREET IMPROVEMENTS—Cost not stated, Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on August 8th at 11 a. m. for street improvements authorized under the following resolutions: That the alley between B street and C street, from 12th street to 15th street, be improved by constructing 1 concrete catch basin complete, 560 linear feet of concrete curb wall; 8 linear feet of 8-inch, vitrified, ironstone sewer pipe drain connecting catch basin to sewer; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 2 inches thick and a sheet asphalt wearing surface 1½ inches thick.

That the alley between E street and F street, from 12th to 13th street, be improved by constructing 2 concrete catch basins complete, placing 12 linear feet of 8-inch vitrified, ironstone sewer pipe drains connecting catch basins to sewer; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick.

That the alley between I and J Sts., from 13th to 14th street, be improved by constructing a concrete retaining wall on both sides of the alley from the east line of 13th street to the west line of 14th street; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Plans and specifications may be had from City Clerk M. J. Desmond.

LODGE HALL AND STORES—4 story and base, reinforced concrete, \$150,000. Sacramento, Cal. Architect, Washington, J. Miller, 417 Market street, S. F. Owners, Sacramento Parlor Native Sons. Location, 11th and J streets, covering an area of 160 by 100 feet. Stores on first floor, auditorium and lodge rooms on second and third floors and offices on fourth floor. Plans complete and figures being taken from selected contractors.

BRIDGE—Reinforced concrete, \$9,530. Placerville, El Dorado Co., Cal. Engineer, County Surveyor, Placerville. Owners, El Dorado County. Contractors, Jenkins & Wells, 2550 Y street, Sacramento. Contract price, \$9,530.

BRIDGE—Reinforced concrete. Cost not stated. Lincoln, Placer Co., Cal. Engineer, County Surveyor, Auburn. Owners, Placer County. Contractor, M. Blumenkranz, Sacramento. Contract price not stated.

STREET AND SEWER CONSTRUCTION—Cost as follows. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. The following bids were received by the City Council for curbing and paving of the central and southern roads of Bienvenido Park: Gaskell Foley, a new firm, were the lowest bidders, their offer being \$7,747.84. Other bidders were A. B. Munson & Son, \$7,998.38; Fank C. McIntire, \$8,463.33; The Highway Surfacing Co., \$8,899.59. The City Engineer's estimate for the work was \$8,164.64. Only two firms submitted proposals for the storm sewer work to be done on Edison, Harrison, Lincoln, Jefferson, Jackson and South streets and the French Camp Turnpike. Both were higher than the estimate of the City Engineer, but he thought them reasonable because of the difficult nature of the work. W. S. Gause, 15 Park Way, Oakland, had the lowest bid, \$6,093.33, while W. F. Edwards submitted the other proposal, \$6,477.69. The Engineer's estimate was \$5,749.33. The contract was awarded to the lowest bidder in each case.

ADDITION TO DAM—Reinforced concrete \$250,000. Lake Spaulding, Cal. Engineering Department Pacific Gas and Electric Co. Owners, Pacific Gas and Electric Co. Contractors, Twoby Bros., Hobart Bldg., S. F. Contract price, \$250,000.

STREET PAVING—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. The City Commissioners have awarded a contract to the McGilivray Construction Co., 717 Capitol National Bank Bldg., Sacramento, for the following work: That 2nd street, from the south line of Q street to the north line of T street, be improved by grading the roadway and constructing thereon an asphaltic macadam pave-

LOS ANGELES AND SOUTHERN CALIFORNIA

BRIDGE—Steel and reinforced concrete. Cost not stated. Santa Barbara Co., Cal. Engineer, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. Bids will be opened on August 21st at 2 p. m. for constructing a steel and timber bridge with earth fill approaches. Five steel spans each 162 feet. Timber trestle.

RESIDENCE—2 and 3 story and base, reinforced concrete, \$200,000. Pasadena, Los Angeles Co., Cal. Architect, Bertram G. Goodhue, 2 West 47th street, New York. Owner, John N. Willys, Detroit, Mich. Plans being prepared.

SCHOOL—2 story and base, reinforced concrete, \$250,000. Santa Barbara, Santa Barbara Co., Cal. Architects, J. Corbey Poole, Santa Barbara, and Mayberry & Parker, Pacific Electric Bldg., L. A. Owners, Prince Hopkins School District. Plans nearly complete and figures to be called for shortly.

SCHOOL—1 story and base, reinforced concrete, \$30,000. Victorville, San Bernardino Co., Cal. Architect, Lester H. Hibbard and H. E. Cody, Marsh-Strong Bldg., L. A. Owners, City of Victorville. Will contain five class rooms, departments for manual training and domestic science. Plans complete and figures being taken.

HIGHWAY CONSTRUCTION—Cost not stated. Los Angeles, Cal. Engineer, County Surveyor, L. A. Owners, Los Angeles County. Bids will be received by the Board of Supervisors up to 2 p. m. of August 21, 1916, for improving Section D of the Mint Canyon road. The section is 10.63 miles in length and will be paved with concrete 20 feet wide and 5 inches thick. The approximate quantities are: 94,275 cubic yards of excavation, 56,158 linear feet of shaping road bed, 22,000 linear feet of guard fence, 11,123 lbs. of reinforcing steel, 336 cubic yards of Class A concrete for culverts and headwalls, 124,792 square yards of concrete pavement. The county will furnish 23,221 barrels of cement, 261 tons of lime and 1,186 barrels of oil. The estimated cost is \$125,493.75. Bids will also be taken on Proposition B, which is the same as above except that the county will furnish 12,716 tons of sand, 20,760 tons of broken stone and 2,559 tons of screenings from the county plant. The estimated cost of this proposition is \$122,885.25 on account of the excess cost of freight.

DISPOSAL WORKS—Cost not stated. Chino, San Bernardino Co., Cal. Engineer, City Engineer, Chino. Owners, City of Chino. Bids will be received by the City Clerk, City Hall, northeast corner D and 7th streets, up to 8 p. m. of August 15, for the construction of a sewer system and disposal works for the city of Chino, for which \$55,000 bonds have been voted and sold. Work to be in accordance with plans and spe-

SEATTLE AND WASHINGTON

FACTORY—4 story and base, reinforced concrete. Cost not stated. Seattle, Wash. Architect, N. M. Lonooy,

120 Broadway. New York. Owners, American Can Co. Location, Elliott avenue between Clay and Cedar, covering an area of 239 by 120 feet. Also two-story warehouse dock, 301 by 69 feet. Plans complete and figures being taken.

THEATRE—4 story and base, concrete and terra cotta, \$100,000. Butte, Montana. Architect, H. Ryan, Liberty Bldg., Seattle. Owners, Silver Bow Amusement Co. Will cover an area of 94 by 100 feet. Plans complete and figures to be called for shortly.

NATIONAL TRAINING

Lieutenant-General S. B. M. Young,
President Association for National
Service.

We all know, or think we know, and many of us believe, that the conditions—economical, physical, moral and spiritual—which exist in our country today, are not what they should be, and also know that we, the people, are responsible for these existing conditions, because we have neglected our obligations and duties of citizenship. One of our greatest failures has been our neglect to subject the minds of our children to the clear stream of the fountain of freedom and instill into them the love of country as a daily rite.

The existing conditions, if not remedied at once will carry our country into the maelstrom of disaster. Realizing the impending danger, groups of patriotic citizens have formed associations, under different names, for the purpose of bettering our present condition, and while these organizations are doing good work, and while the purpose to be accomplished by each is the same, they lack team work, and the people throughout the country do not yet understand fully that they are working to the same end.

The object of this series of articles is to institute a campaign for National Service, and to harmonize and unite all our efforts in a grand campaign for the enlightenment of our entire people on the present false security on which our independence and democratic sovereignty is now floating, subject to the winds and tides of adversity, without any protected, land-locked port for safe anchorage.

The propaganda of the Association which I have the honor to represent, is National Military Training—which shall be compulsory—for all young men, mentally and physically fit to undergo this training, and National Service—which must be equal. Any national military policy which shall endure must be builded upon these basic, these fundamental principles—and fundamentals do not change.

With this foundation firmly laid in the National life, we may build the superstructure to suit the exigencies of each moment of stress and again, or tear it away and build anew, and still, the force arising from the bed-rock foundation of National Military Training would endure and would be found to meet every possible strain—for it is the only elastic system and the only one which can ever become a permanent success in a Democracy.

The natural corollary to National Military Training is Equal Service. The duty—and it is a duty of the first importance—of National Defense, is an

equal obligation upon all citizens, and unless this duty shall be assumed and discharged along line of absolute equality, the structure of Democracy will not endure. We do not desire a large army in America. I mean by this, what is known as a regular or professional army, but we do want to know that we can assemble the units—evenly balanced of all arms of the Service, and assemble them quickly, when needed. An efficient army, an army such as would be produced by a system of National Military Training, through, and by which, every young man, fit and able, to bear arms, could be called to discharge the duty of a National defender—a most ancient and honorable duty—a duty, the discharge of which, should be a prime obligation of citizenship.

This Nation, by its fathers, was dedicated to the proposition that "Democracy and Service are inseparable." We must stand squarely on the Constitution of the United States.

Such a National Military Policy will place the country on the basis of a true Democracy as provided by that Constitution.

I believe such a Policy can become a fundamental part of our National existence only through the adoption of a system by which our young men shall be liable for military training before reaching the age of twenty-one.

A democracy which does not identify itself with its army and which refuses to train itself for its own defense is traveling on a dangerous trail.

UPON A CITIZEN TRAINED TO ARMS RESTS THE POWER OF THE NATION TO RESIST INVASION.

Thomas Jefferson said, "Where there is no oppression, there will be no pauper hirelings. We must train . . . our male citizens, and make Military Instruction a regular part of collegiate education. We can never be safe until this is done."

Plattsburg Training Camps and Schoolboy Drills are good things, excellent in their way, but if they lull us into a sense of false security, they are very bad things. I believe that every young man in America should be compelled to take sufficient military training to make him efficient for National Defense, and, at the same time, teach him physical hygiene, application of sanitary science, discipline, and respect for authority. By "Military Instruction" I do not mean simply the drill, but all those other and superior things which go to make thorough and complete military training. The physical benefit to be derived from such thorough military instruction will be incalculable and I, also wish to emphasize that through this complete system of training and service, class distinction will be eliminated, and the elbow-touch restored.

In a few years, under such a system, fathered by the Federal Government, there would be a quickening of the spiritual life of the Nation, and we would have a host of trained young men in America who could respond, readily, to their country's call; and all this without any very large standing army, and at a minimum expense.

And now, in conclusion, let me say, that I believe out of National Military Training and Equal Service will arise a new America—consecrated to the preservation of National Honor, International Righteousness, and Universal Peace.

GOVERNMENT TO SPEND \$10,000,000 ON GOOD ROADS IN NATIONAL FORESTS.

WASHINGTON—One of the provisions of the Federal air road bill, which was signed by the President on July 11, appropriates \$10,000,000 a year for ten years to be spent by the Secretary of Agriculture for the construction and maintenance of roads and trails within or partly within the National Forests.

The bill provides that, upon request of the proper officers of the States or counties, the money shall be used for building roads and trails which are necessary for the use and development of resources upon which communities within or near the National Forests are dependent. The work is to be done in co-operation with the various States and counties. Not more than 10 per cent of the value of the timber and forage resources of the National Forests within the respective county or counties in which the roads or trails will be constructed may be spent. Provision is made for the return of the money to the Treasury by applying 10 per cent of the annual receipts of the National Forests in the State or county until the amount advanced is covered.

Officers in charge say that the bill will make possible the construction of many roads which are greatly needed. Since 1912 ten per cent of the receipts of the National Forests have been used in road and trail building, but the funds have been inadequate to meet the needs. Many isolated communities within the National Forests are entirely dependent on the Government roads and trails. In some instances these settlements are said to be almost entirely without means of communication. According to Forest Service officials the money now made available will permit the construction of many roads necessary to open up inaccessible territory, and will greatly facilitate the development of large areas.

It is said that detailed plans covering the policy to be followed in building roads are now being made.

UNITED STATES CIVIL SERVICE EXAMINATION.

LABORATORY ASSISTANT IN CERAMICS (MAILED), \$900-\$1,200.

August 9, 1916.

The United States Civil Service Commission announces an open competitive examination for laboratory assistant in ceramics, for men only, on August 9, 1916. From the list of eligibles resulting from this examination certification will be made to fill vacancies in this position in the laboratory of the Bureau of Standards, Washington, D. C., at salaries ranging from \$900 to \$1,200 a year.

As the supply of eligibles resulting from recent examinations has not been equal to the demand qualified persons are urged to enter this examination.

Competitors will be examined in the following subjects, which will have the relative weights indicated.

- | | |
|--|----|
| 1. General physics, mechanics, etc. | 15 |
| 2. French or German | 10 |
| 3. Practical questions in ceramics | 50 |
| 4. Education, training, and experience | 25 |

Total score required, 100. Persons who meet the requirements and desire this examination should at once apply for Form 1212, stating the title of the examination desired, to the United States Civil Service Commission.

Washington, D. C., or to the Secretary of the United States Civil Service Board, San Francisco.
Issued July 17, 1916.

AUSTRALIAN MERCHANT SEEKS AGENCIES.

The District Office of the Bureau of Foreign and Domestic Commerce in New York City reports that an Australian business man called at the office, stating that he expects to return to Australia on July 27 and would like to arrange to represent American manufacturers and exporters on an agency basis. He is also in position to buy goods for his own account and will pay cash against shipping documents in New York. The man's name and address, together with references, may be had on application to the Bureau of Foreign and Domestic Commerce, Washington, or its District Offices.

WORK OF UNITED STATES EMPLOYMENT SERVICE.

The United States Employment Service, the work of which is performed under the supervision of the Division of Information of the Bureau of Immigration, Department of Labor, has completed the first full year of its activities, with gratifying results. During the year 25,645 employers filed application for 167,321 workers. In the same period 184,032 persons applied for work, of whom 81,963 were referred to employment and 15,156 were actually employed.

During the year the Department of Labor, in pursuance of co-operative arrangements with the Department of Commerce, utilized its employment service by establishing registers of certificated seamen. Through the operation of this service the employment officers of the Department of Labor were frequently able to secure for merchant vessels a sufficient number of certificated seamen to complete the crews; and when unable to do this they ascertained and reported the fact that no such seamen were available in their respective ports.

LAKE SPALDING DAM TO BE RAISED.

COLFAX (Placer Co.)—The Pacific Gas and Electric Company has awarded a contract for the immediate raising of the Lake Spaulding Dam thirty-five feet. The contract has been let to Towhy Brothers.

The raising of the present concrete dam thirty-five feet will give it a total height when completed of approximately 250 feet, making it one of the largest concrete dams in the United States.

The lake now has a capacity of 43,500 acre feet. The additional height will greatly increase its capacity.

The project will involve an expenditure of a large sum of money and the employment of several hundred men. The work is to be rushed with all possible haste and is expected to be completed before Winter, so as to take advantage of the run-off this coming season. The water impounded in Lake Spaulding is first made use of for generating power through the Drum Power House, after which it follows the natural course of Bear River to a point near Colfax. There it is again picked up through the Bear River canal and delivered to power

houses Nos. 4 and 5, at Clipper Gap and Auburn now under construction, where it is again used for generating power. It is then picked up in canals and ditches and delivered to the farm lands for irrigation purposes.

CENSUS OF MANUFACTURE OF PAINTS AND VARNISHES.

A report on the paint and varnish industry of the country by the United States Bureau of the Census shows that the number of establishments was smaller in 1914 than it was in 1909, but that the output for the latest census year was 16.9 per cent greater in value than that of 1909. The paint industry embraces the manufacture of colors or pigments in dry form as well as in paste form and already mixed for use, and under varnishes there are included jaspers, driers, and lacquers.

Reports were received from 855 establishments engaged in the industry in 1911, the total products of which for the year were valued at \$149,049,820. In 618 establishments, with a total paint and varnish output valued at \$112,952,081, a greater value of paints than of varnishes was produced; and in the remaining 237 establishments, with a total output of \$35,096,736, the value of varnishes produced was greater than that of paints.

The products in 1914 comprised colors or pigments valued at \$17,407,955; oil paints, \$70,582,461; water paints and kalsomine, \$2,202,281; varnishes, jaspers, \$26,061,203; fillers, including putty, \$2,239,174; bleached shellac, \$1,806,802; and other products to the value of \$17,749,941.

At the census of 1909 there were reported 803 establishments, with products valued at \$127,472,819.

PLAN COLLAPSIBLE DAM.

REDDING (Shasta Co.)—The Anderson-Cottonwood Irrigation District has rented an equipment for building the diversion dam across the Sacramento at the intake of the system. The district rejected all bids as being too high and will do the constructing itself. The lowest bid was \$16,500.

The dam will be 500 feet long. It will be of the collapsible type. That is the top of the dam—the portion above low water mark—will be made of steel in such a way that it will fold back. When high water comes there will be no dam, as far as appearance goes.

H. H. Henderson, Chief Engineer for the district, says the dam will be completed in two and one-half months.

NATIONAL FOREST RECEIPTS EXCEEDED ALL PREVIOUS YEARS.

WASHINGTON—Receipts from National Forests for the fiscal year 1916 reached the high-water mark of approximately \$2,820,000, according to figures just compiled. This is \$341,000 above the 1915 total, which in turn exceeded any previous year. Officials say that the gain was due to increased demand for all classes of forest products.

There was a decided growth in the revenue from all sources, the largest being that of \$202,000 in timber sales. Grazing fees showed a gain of \$77,000. Receipts for water power development were over \$12,000 more than for 1915. Sales of turpentine privileges and

charges for special uses were both considerably in excess of the previous year.

Officials say that the National Forests are important factors in the prosperity of the regions in which they are located, on account of the large amounts of timber, rafe, and other resources which they hold available for use as needed. Business conditions are reflected in the receipts of the Forests. Consequently the showing for the past year is regarded as an index of increased business activity throughout the sections where the National Forests are found.

NEW PROGRAM OF IMPROVEMENTS FOR SAIGON HARBOR.

SAIGON, French Indo-China—By a decree dated May 2, 1916, the Governor General of French Indo-China has made it known that the program of improvements of the harbor of Saigon has been approved by the Governor and Council.

The improvements aggregate a total of \$3,701,450 and consist of the construction of floating docks, repairs of all kinds, widening and improving approaches to quays, leveling and grading, construction of warehouses and railway lines.

A detailed list of contemplated improvements is on file at this office.

A part of this program has already been discussed in Commerce Reports for August 9, 1915, and in the annual report for French Indo-China, published as Supplement 54b on August 25, 1915. The latter gives a detailed description of the port of Saigon, which will enable one the better to understand the character of the proposed improvements.

INDUSTRIAL NOTES FROM CHOSEN.

Projected Enterprises.

Several proposed new industrial undertakings are reported in the local press, among the more important being a paint manufacturing company, a new engineering company, a paper mill, and a porcelain factory.

The paint manufacturing company is to be a Chemulpo enterprise, capitalized at \$150,000. The company will manufacture a paint which has been invented by the Central Laboratory of the Government General, the rights of manufacture having been transferred to the proposed company.

The engineering company is styled the Toyo Shoko Kaisha (The Oriental Civil Engineering Encouragement Co.) and will have its offices in Seoul. It is a combination of some 20 of the leading civil engineers in Seoul, and will undertake general engineering work. The capital of the company will be \$500,000, divided into 20,000 shares.

The paper mill is to be created by the Suzuki firm of Kobe, Japan, and will be located at a place near Chinhae in south Chosen. It is reported that the plant will be an extensive one and that it holds out every prospect of being a great success.

Any revival of the formerly well-known pottery industry of Korea will naturally be very welcome; and the proposed establishment of a porcelain factory at either Fusan or Masan by a prominent porcelain manufacturer of Japan is of interest. All the materials

for the industry are available in large quantities in Chosen.

Mining Notes.

It is reported that the firm of K. Okura and Co., of Tokyo, Japan, has decided to establish an ore refinery at Shinanju, on the Seoul-Shingishu line. The estimated cost of the installation will be \$50,000, and the work will be commenced within the current calendar year. This will be the second large refinery of the kind to be erected in Chosen, the previous one having been built at Chinnampo by Messrs. Kuhara and Co. of Osaka, last year.

Projected Railway Lines.

It is reported that the Railway Bureau of the Government General of Chosen is planning to lay a branch railway from Kanhu, a station on the Seoul-Shingishu Line, to Kaishu (Hajju), the capital of Kokai Province. The survey of the route is being carried out now. The line will be 51 miles in length and will tap an important section of country.

It is also reported that, as a result of negotiations between the military authorities in Tokyo and the Railway Bureau in Chosen, it has been decided that a railway line shall be constructed between Seishin and Raman in north-eastern Chosen. The necessity of this line, which will be only a few miles in length, arises from the fact that Raman has been made the site of one of the two new divisions created for Chosen at the last session of the Imperial Diet, and that Seishin is its seaport. Traffic between the two places is at present handled by means of a light railway, and a scheme has been on foot for some time to construct an electric line to care for the increased business. This scheme has now been abandoned, owing to the rise in the price of materials for such a line, and the plan for a regular railway has been substituted therefor.

LACK OF CAUTION AT RAILROAD CROSSINGS.

That carelessness on the part of drivers and pedestrians is primarily responsible for the alarming increase in fatalities at railroad crossings, is the gist of an address by Alex Gordon of the California State Railroad Commission, made recently before the convention of the Boards of Supervisors of California.

"California," said Gordon, "with less than 4 per cent of the population and less than 2 per cent of the steam railway mileage, furnishes nearly 5 per cent of the deaths and injuries reported to the Interstate Commerce Commission. During the three years ended June 30, 1915, 249 people were

killed, 11,033 injured at grade crossings in this State. The record is always much worse in the summer than in the winter.

"There are over 10,000 grade crossings in California and \$20,000 would be a fair estimate of the cost of eliminating one crossing. To separate grades on all of the crossings would cost over \$30,000,000 and it is, of course, out of the question to consider any such an expenditure at this time. Neither the people nor the railroads can stand it."

"Meanwhile existing conditions must be met. It has been suggested that the legislature should pass laws requiring all motor vehicles to come to a full stop before passing over a grade crossing. To my mind a better suggestion is a law requiring the drivers of motor vehicles to drive slowly when approaching an intersection of a track and highway."

OTHERS SUFFER TOO.

"Personally I have not a great deal of sympathy for the careless driver who gets hurt in a grade crossing accident. But our figures show that when a driver is hurt or killed, three or four people with him are also hurt or killed. Last September may be taken as a typical month. Three auto drivers were killed in the state that month and ten occupants of the automobiles were killed at the same time. Nine drivers were injured and thirty-seven other occupants were injured. These other occupants of the vehicles struck by trains were in many cases—possibly in most cases—relatives of drivers, often wives and children, and if the careless driver when left to himself so far forgets the safety of himself and those who are nearest to him as to jeopardize their lives in this fashion, it is time for the law to step in and tell him what he must do to guard them."

"The popular impression is that most grade crossings result from railways being opened across highways. As Commissioner Gordon makes clear, the fact that most of them are due to highways being opened across railways and many of them are more of a menace than a convenience to the public."

With reference to trespassing, he says:

"In 1911, 5,396 persons were killed in the United States and 6,176 were injured while trespassing on railroads and these figures are about the same as those reported for the previous year. During that same year there were 165 trespassers killed and 217 injured in California. In the last 25 years there have been over 212,000

HARDWOODS — VENEERS

No matter what kind of Hardwoods Flooring or Panels you may require, nor what quantity of each you may need for immediate delivery, you can depend upon WHITE BROTHERS to supply you promptly.

We carry the largest stock of HARDWOODS and WYBRO PANELS in the West.

Ask for our stock lists—free on request.

For over forty-four years we have featured service and promptness coupled with fair prices as our standard. We have the quantity and the variety on hand for immediate delivery.

If you do not deal with us, we both lose.

White Brothers

Fifth & Brannan Sts.

San Francisco

people killed in the United States in railroad accidents, and of this vast number, over 112,000 were trespassers. This record would be bad enough if those who suffered were tramps and 'hobos,' but when we find that 75,000 of the total killed were citizens of the locality in which the accident occurred, and 13,000 were children under 15 years of age, we must admit it to be absolutely disgraceful."

"The grade crossing problem is one which is met with, more or less, in all countries, but trespass accidents occur only in the United States. In Europe the property of the railroads is no more used for public thoroughfares than are privately owned ranches and farms in this country, and even Canada, with more excuse than the United States for permitting trespassing in and around railroad tracks, has rigid, anti-trespassing laws which are strictly enforced."

Referring to the passage of anti-trespassing laws in this country, Commissioner Gordon adds, "I believe the day will come when it will be done and those of us who are compelled to think of these things should do all we can to hasten its coming."

FOREST NOTES.

Coniferous timber has been found to be better suited than any other for the production of ethyl alcohol.

There are 592 consumers of tannin in the United States who use annually 625,000 cords of hemlock bark, 290,000 cords of oak bark, and 350,000 cords of chestnut wood.

Experts of the Forest Service estimate that the farm woodlots of the United States contain from 200 to 300 billion board feet of lumber and from one to one-and-a-half billion cords of wood.

On some of the National Forests of the Northwest the snow lay on the ground longer this spring than for many years. In consequence stockmen have been considerably delayed in getting their herds on the ranges.

All of the 28 counties of Utah contain portions of National Forests and consequently all share in the 25 per cent of the National Forest receipts which is paid over to the road and school funds. This is true of no other State.

One hundred thirty thousand maps of the National Forests will be distributed to tourists this summer. These maps show the best camp sites, good hunting and fishing grounds, roads, trails, and telephone lines, and give directions how to reach points of interest.

RURAL HEALTH—AMERICA'S FIRST DUTY.

WASHINGTON, D. C.—"The estimated economic loss which our nation suffers each year from typhoid fever and malaria alone aggregates \$928,234,850, leaving out of entire account the sorrow, the unhappiness, the misery and the inefficiency which follow in their train." Senator Joseph E. Ransdell of Louisiana recently addressed the Senate on the subject of "Rural

Health—America's First Duty." "The greatest asset which our country can have" said Senator Ransdell, "is the healthy American citizen, and valuable as it may be to increase the health of livestock and vegetation, it is of far greater importance that we throw every possible safeguard about the health of the man who is responsible for that livestock and vegetation. Over 900 million dollars lost every year! A sum which is sufficient to put our country into a state of preparedness equal to that of any nation in the world, enough money to give us the largest navy afloat and the most efficient army which the world has ever seen, is annually offered up as a sacrifice to two diseases which are entirely preventable. Enough money to pay the annual expenses of every college student in the United States is absolutely thrown away every year." Senator Ransdell estimates the grand total loss from typhoid fever at \$271,332,880 per annum, and the loss from malaria at \$694,904,750 per year; the total per capita loss from these two diseases being \$9.16. By comparative estimates it was shown that the United States Government appropriated \$5,016,175 for the investigation and prevention of the diseases of animal and plant life and only \$1,917,566 for the investigation and prevention of the diseases of man.

SEEKS FIRE-RESISTING MATERIALS FOR SHIPS' DECKS.

The Bureau of Standards, Department of Commerce, in connection with a general study of fire-resisting materials, is considering among other phases of the subject the development of a fire-resisting material for use in constructing, in whole or part, the deck structures of excursion and passenger steamers. So far as may be applicable, the material when developed would also be considered in relation with other marine uses.

The Bureau of Standards would be glad to receive from manufacturers samples of such materials as they consider suitable for the purpose, in order that they may be given consideration.

LOCAL FIRMS PLAN TO BUILD SAILING VESSELS.

SACRAMENTO, Cal., July 28.—Two San Francisco companies which plan to build sailing vessels with auxiliary power to engage in the foreign trade have been authorized by Commissioner of Corporations H. L. Carnahan to sell shares of their capital stock for the purpose of carrying out their projects.

China-American Motorship Company has been permitted to sell 99,997 shares at par, \$1 per share, to net the company not less than 80c per share. The company plans to build a fleet of five 5 masted wooden vessels, each of 4,000 tons capacity, equipped with Diesel type engines for auxiliary power, for service between Pacific Coast and foreign ports. These are estimated to cost 315,000 each. All of the money received from the sale of shares is to be placed in a depository and none of the subscriptions called until not less than 315,000 shares shall have been subscribed so as to insure construction of the first vessel. The company has until February 1, 1917, to secure the

necessary subscriptions and no commissions will be paid prior to that time.

San Francisco Hongkong Steamship Company is permitted to issue 200,000 shares of its common stock to Captain Walter R. Rideout in exchange for a contract with the J. D. Barnes Co. for the building of the first of two schooners which the company proposes to construct at an estimated cost of approximately \$300,000 each. The company is permitted to sell 750,000 shares of preferred stock at par, \$1 per share, to net the company not less than 85c per share; the common stock is to be held in escrow.

A tract of 14 acres of land on the Alameda shore of the Oakland estuary has been leased by the J. D. Barnes Company, upon which the concern will erect a plant for the construction of large vessels. The new company is negotiating for other construction work in addition to the vessels which are to be constructed for the San Francisco & Hongkong Steamship Company.

PRODUCTION OF SILICA.

The annual statement on silica in 1915 is now available for distribution by the Geological Survey. During the year the production of silica in various forms amounted to 243,340 short tons, valued at \$1,270,835.

BRITISH MARKET FOR PACIFIC COAST PRODUCTS.

A monthly service between Bristol, England, and the Pacific Coast is now maintained by the Maple Leaf Line, using the Panama Canal. Several of these steamers are now sailing under the American flag. The inauguration of the service has brought about an increased trade in such Pacific Coast products as alfalfa hay, barley, canned goods, dried fruits, Oregon pine, California redwood, and Puget Sound salmon.

Although the development of trade between ports on the western coast of the United States and the city of Bristol has been promising, the recent import restrictions imposed by the British Government are sure to have a depressing effect on imports of some of the principal articles produced on the Pacific Coast.

Principal California Products in Demand.

Canned salmon, as a staple article of food, is appreciated in this district. There is a good demand for California evaporated fruits, which yearly increase in popularity. California redwood is used for railroad ties, and this also meets with a good demand. These goods are all imported direct.

The commercial superintendent of the port of Bristol some time ago estimated the saving per ton that he believed could be effected on a few of the principal commodities exported from California to certain British centers if shipped through Bristol instead of Liverpool or London. He estimated the average saving per ton on California product via Avonmouth Dock, Bristol, as against London to Birmingham to be \$1.59; as against Liverpool to Birmingham, 83 cents; as against Liverpool to London, \$1.32; as against London to Cardiff, \$2.88; and as against Liverpool to Cardiff, \$2.70. The average saving per ton on exports

to California via Avonmouth, Dock, Bristol, as against London from Birmingham is \$1.30; as against Liverpool from London, \$1.38; and as against Liverpool from South Wales, \$1.38.

Large Population Within Reach of Bristol.

The population within a 100-mile radius of Bristol is 10,000,000. Passengers and mails can be conveyed from the Royal Edward Dock passenger station to London or Birmingham within two hours. There is a direct route by rail or water to the center of England. Granaries, elevators, cold stores, and cool transit sheds adjoin the quays, and the docks are equipped with electric, steam, and hydraulic cranes. There are railway lines alongside steamers' berths at all the docks. The graving docks can accommodate the largest class of steamers.

[A list of firms in Bristol, England, probably interested in Pacific Coast products may be obtained from the Bureau of Foreign and Domestic Commerce, Customhouse, San Francisco. Refer to file No. 77606. Several classes of goods mentioned in this dispatch are on the British list of prohibited imports.]

PURE WATER FOR A MILLION CALIFORNIANS.

A million people in California are drinking chlorinated water, according to the California State Board of Health. This means that one-third of the population of the State is assured of a fairly safe water supply.

As a cheap and reasonably efficient method of removing the dangers due to the presence of typhoid and like germs, there is no form of treatment known at the present time that can compare with chlorination. The California State Board of Health has recommended and sponsored the use of this method of water purification for a great many of the water supplies of the State. Among the cities that have recently adopted this method are Berkeley, Alameda, Oakland, Sacramento, San Diego, Pasadena, San Jose, Eureka, Antioch, Benicia, Auburn, Pittsburg, National City, La Mesa, East San Diego, Santa Barbara, San Luis Obispo, Monterey, Redding, Merced Falls, El Centro and Los Angeles. In addition, public swimming pools in Oakland and San Francisco are also chlorinated.

One of the most striking examples of the efficiency of chlorination in purifying water is shown in the experience of the city of Sacramento. In 1914, before chlorinating the water supply of that city, there were 253 cases of typhoid fever, while during the first six months of 1916, since the purification system has been installed, there were but eight typhoid cases reported.

The flexibility of chlorination plants is greatly in favor of this method, since it may be used for a supply as small as 100,000 gallons per day for a town like Merced Falls, with a population of 1500, or for a supply of ten million gallons per day, serving a population of 180,000, as in the city of Oakland.

Forty chlorination plants are reported as already installed in Oregon, Washington, Arizona, Utah and New Mexico, while twenty-nine plants are now installed in California. The California State Board of Health is recommending this method of purification, to

all cities drawing their water supplies from questionable sources, and as soon as this method has been adopted in all cities of the State which draw their water supplies from such sources, there will, no doubt, follow great reductions in the communicable disease rates.

BRITISH COLUMBIA LOAN TO AID RAILWAY.

Under authority granted in an act passed by the last British Columbia Legislature—the British Columbia Loan Act—which enables the Province to borrow \$10,000,000 for the purpose of assisting the Pacific Great Eastern Railway, bonds to the value of \$2,000,000 will be floated at once, so that this railway may complete its line through to Prince George, B. C. It is stated that the loan will be floated at a rate to cost the Province 5.60 per cent. The bonds are to be sold through eastern Canadian houses, and in all likelihood will be disposed of in New York.

The act empowers the Provincial Government to advance \$6,000,000 to the Pacific Great Eastern Railway to complete work already undertaken. The acquisition of the \$2,000,000 will permit work to be done on the railway immediately.

Men have been sent north to Clinton, B. C., and from that point tracklaying will be rushed ahead along the grade. By fall the steel will be to Prince George. The company will require a large number of men for the work, which includes bridge building, etc., and the resumption of the enterprise will prove a boon to the district through which the line runs.

HIGH YEAR FOR MINES.

Geological Survey's Mid-Year Review Shows General Prosperity.

Secretary Franklin K. Lane has received from the Geological Survey its mid-year review of mineral production. This official statement covers the first six months of 1916 and includes reports from the Federal specialists on the principal products of the mining industry, as well as from the Western offices of the Geological Survey. These summary reports are being made public as authoritative and impartial records of business conditions.

"The mid-year review was so well received last July," said Secretary Lane. "That I believe it met a public need, and it will therefore be continued as one of the services rendered to the public by the Interior Department. The business of the whole country has become so interdependent that facts regarding our mines and mills and furnaces are of real concern to every citizen interested in any industrial undertaking. That the mining industry is making many new records in the extent and success of its business must be taken as an index of the nation's general prosperity. Best of all, 1916 is registering another advance in the growing independence of the United States as a producer of the many materials that civilization has made necessary. Our country is coming into its own."

"The accomplishment of the mining industry in the six-months period just completed warrants the forecast that 1916 is to be a record-breaking year."

Was a statement the Director of the United States Geological Survey sums up an official mid-year review of the mining industry as reported to him by the Government geologists and statisticians covering the different subjects. "Active demands and good prices have turned the mine operators with full opportunity for success in working developed properties, and this in turn has given added incentive and available funds for exploration, prospecting, and experimentation with new processes. The mining man is having his innings."

Summarizing the special reports which are now being made public, Director Smith continues his review:

The returns for six months furnish a basis for the belief that 1916 will set up a new record for the soft coal mines. Every coal-mining State is sharing in this prosperity and of course this demand for coal is to be traced back to the increased business of the railroads and of the steel and other large industries.

Drilling activity throughout the oil-producing States has brought about a gratifying increase in production of crude oil that promises to make 1916 a record year for marketed petroleum. Already production and consumption are reported by the Survey's specialist as essentially in balance east of the Rocky Mountains, with a tendency to lower prices.

The Portland cement industry has had a busy six months and the manufacturers are optimistic. It is predicted that in both production and shipments of cement this year will show a gain over last year, if indeed it does not establish a new record for cement.

Among the metals copper is continuing the steady increase in production which began early last year, and the forecast for 1916 indicates not only the largest output ever known but also the largest profits.

Shipments of iron ore from Lake Superior points for five months of 1916 exceeded by more than 80 per cent those for the same months in 1915, and the indications for the year are favorable for a new high record on iron-ore production, and of pig iron as well. Higher prices with a steady demand are stimulating the mining of manganese, with the result that this year's output of ore is expected to surpass the large production of last year.

"The lead and zinc mines are producing ore at a rate even exceeding that of last year and the prevailing prices have made possible the working of large quantities of low-grade ore."

Most precious-metal mines are operating at full capacity. The gold production will probably fall below the high yield of last year, but silver, the one metal last to benefit by the general domestic prosperity, is expected this year to break all previous records.

In quicksilver the outlook is for a continuance of the output of 1915, which was the largest for several years. Thus far in 1916 the average price has greatly exceeded the 1915 prices, and although the reaction in prices has come, conditions are favorable for steady and profitable operation of the quicksilver mines, some of which are newly opened.

The reports from the Survey's western offices are all optimistic. In Arizona mines and smelters are working

at high pressure, and the production of metals already shows an increase that promises to make the value of the output nearly double that of last year. Arizona will maintain first place as a copper producer. New Mexico is continuing its rapid progress as a metal mining State, with increases in its output of lead, copper, zinc, gold and silver. The mines of Colorado in the six months just past have shown some changes in output as compared with last year; an increase of 30 per cent in copper is indicated together with small gains in lead and zinc, a 15 per cent decrease in gold, and little change in silver. This output, however, represents a large gain in value of mine production. Mining has also been stimulated in Montana, and the forecast indicates an increase of 60 per cent in the value of the mine product over that of last year. Here also record outputs may be expected for 1916. Idaho mines are increasing their shipments in all the metals, with higher wages and larger dividends as the result of better prices.

Utah is experiencing an ore production in excess of smelter capacity. The value of the 1916 output of copper is expected to be double that of last year. Throughout Nevada the old term "boom" best expresses the present mining revival. Old mines are being reopened and regular producers are working at full capacity. The chief gains in production will be in copper, lead, and zinc. The increased activity in the mining industry of California is finding expression largely in the reopening of mines that have been long idle and the opening of new mines for chrome, tungsten, manganese, antimony, and magnesite, rail shipments of these ores to the East being made possible by prevailing high prices. Washington is another State which shows increased production, the mining industry there being in better condition than for several years past. Alaska also is benefiting by the increased activity of its mines. Copper mining is showing great advances, and the output of both copper and gold promises to exceed that of last year.

FULLER'S EARTH.

The Geological Survey's annual statement on fuller's earth is now available for distribution. According to this report the production of fuller's earth during 1915 increased 6,920 short tons in quantity and \$55,573 in value over 1914.

Many Compliments For Builders In Parade.

Motion Pictures Taken of Watermelon Contest now on Display. Senator Scott the Winner.

The great preparedness parade, held Saturday, came fully up to the expectations of the citizens' committee that worked diligently to arrange the affair so as to have the many units assembled at their various places of rendezvous, and to have each enter the monster parade at the exact instant to make the movement proceed without a hitch.

All this was accomplished in a highly satisfactory manner and reflects credit on all who assisted in the movement that indicates clearly that the vast majority of the citizens of San Francisco, both men and women, are strongly in favor of adopting measures that will uphold the best traditions of our country.

The explosion of a vile infernal machine at Stewart and Market streets, was the only incident which occurred to mar the otherwise peaceful but impressive demonstration.

Mrs. William S. Scott, wife of the Senator, was the captain of a large company of ladies of the Auxiliary of the Spanish American War Veterans, who were formed on Stewart Street. At one time Mrs. Scott's company of ladies were formed just in front of the California Volunteers, and were exactly in range of the deadly infernal bomb, but a few minutes before the explosion occurred they were moved back to the rear of the men, which left a clear space. It was at this point that Dr. Painter, who was in the ranks of the California Veterans received his mortal wound.

Mrs. Scott described the scene as one of horror and she was pleased with the splendid conduct of the lady members of her company, who although severely tried conducted themselves like veterans.

The Builders' Section of the parade was a particularly well officered and well disciplined body. Supervisor Ralph McLeran was marshal, and he was ably assisted by Senator William S. Scott, T. W. McClennahan, Supervisor Edward J. Brandon, W. E. Hague and N. P. Nielsen as aids.

P. J. Waldron, of the General Contractors' Association carried a beautiful banner upon which was painted

in large letters the words, "Building Industries."

The Directors of the Builders' Exchange and the General Contractors' Association made a splendid showing, the only one absent being President Harry Maundrell, who was unavoidably absent as the result of a serious operation for appendicitis. The Asbestos Workers under the command of S. P. Russell and the Cement and Plaster Industries under the command of W. H. George, were on hand in large numbers and these sections were the recipients of many glowing compliments.

James S. Fennell and R. D. Felt, commanding the Masons and Builders Association and the Master Plasterers Associations respectively, did themselves proud, as did all the other branches of the Building Industry.

Joe Kaiser's Cornet Band furnished an abundance of inspiring music throughout the entire march and this band made the hit of the parade by playing the national anthem while passing the reviewing stand.

When the parade was over the builders rallied on the Polk street steps of the City Hall, where a panoramic view of all was taken after which Willis Polk and Senator Scott engaged in a spirited melon eating contest before a battery of moving picture machines.

Supervisors Brandon and McLeran, W. E. Hague and James S. Fennell acted as seconds for the contestants and kept them supplied with an abundance of luscious melons.

Senator Scott was declared the greatest melon eater and he was awarded a leather cross.

Clarence Preparedness Pratt awarded to W. A. Rainey a large sack of A-1 Globe flour for having the largest family in the parade.

The watermelon contest was concluded with a general watermelon party in which all present engaged with great relish and gusto.

Willie Rainey and "Jack" Cobby Jr., played many bugle calls as the parade passed along and their bugle playing was an inspiration to the patriotic builders.

POPULATION OF THE CANAL ZONE.

Consul Julius D. Dreher, at Colon, Panama, reports under date of July 3 that according to a census just taken by the police and fire division of the Panama Canal the population of the Canal Zone is now 31,018, of whom 14,576 are Americans.

THE DEPARTMENT OF CERAMIC ENGINEERING OF THE UNIVERSITY OF ILLINOIS.

The Department of Ceramic Engineering of the University of Illinois will mark the beginning of a new college year in September by offering unusual facilities to those interested in the clay-working industries. Ceramic Engineering, broadly defined, covers the science and practice of cement mills, of tile factories and brick yards, of terra cotta mills, of porcelain factories including those making tableware and electrical insulating materials, and of glass works. The field is broad and rapidly developing. Conditions imposed by the European war are prompting American manufacturers to extend their undertakings and have created an unprecedented demand for men who can lead, and for facts that will guide.

The University has anticipated this demand. It is prepared to train men, through the medium of a four-year college course, in the scientific and practical aspects of the industry, and to afford advanced students exceptional opportunities for the conduct of research.

The University has developed an unusually strong organization of men constituting the staff of the Department, and it has erected and equipped, at a cost of nearly a quarter of a million dollars, a series of buildings especially designed for such work.

The starting point of any great work either in teaching or in research is in the quality and strength of the men who are to direct and execute it. The Department of Ceramic Engineering is especially fortunate in having its setting in the midst of a great University organization. Ceramic Engineering at Illinois draws support and inspiration from a large number of other departments of the University,—from Chemistry, Physics, Geology, and from all the great departments of the College of Engineering.

The departmental staff in Ceramic Engineering as organized for the coming year centers in the personality of training, aided by laboratory attendants, potters, and other artisans.

Dr. Edward W. Washburn, Professor of Ceramic Chemistry and Head of the Department, graduated from the Massachusetts Institute of Technology in 1905 and was made a Doctor of Philosophy in 1908. His life has been spent in the work of Physical Chemistry. For the past eight years he has been associated with the Department of Chemistry of the University of Illinois. His work as a teacher and as a contributor to science has been noteworthy. Under the skillful and discriminating leadership, the work of the Department will be kept upon a high scientific plane.

Chlen W. Parmelee, Professor of Ceramic Engineering, graduated from

Rutgers College in 1896, and for the past ten years has been Professor of Ceramics and Director of the Department of Ceramics of that institution. He was trained as a chemist, and was an honor student in Chemistry. He has sustained important consulting relations with various potteries, has contributed extensively to recent literature, and has the distinction of having served as President of the American Ceramic Society.

Ralph K. Hursh, Assistant Professor of Ceramic Engineering, graduated from the University of Illinois in Mechanical Engineering in 1908, and has been associated with the work of the Department since 1911. His practical experience especially qualifies him for work with the coarser clays.

Howard C. Arnold, Instructor in Ceramic Engineering, graduated from the University of Illinois in Ceramics in 1911. He was an honor student at Illinois. He received the degree of Master of Arts from the Ohio State University in 1916.

The buildings and equipment, which have recently been made available for the work of the staff and students of the Department of Ceramic Engineering, included a kiln-house equipped with batteries of oil-fired and coal-fired kilns and with the heavier machinery for preparing clays, and a main building occupied as offices, recitation rooms and laboratories. The main building is a three-story structure of beautiful design. Its exterior and much of its interior finish is of terra cotta, a product of the ceramic arts presenting many advantages as a building material.

The various departments of the College of Engineering present similar opportunities to those desiring to prepare for work in kindred lines, for example, in Civil, Electrical, Mechanical, Mining, Municipal and Sanitary and Railway Engineering, and in Architecture and Architectural Engineering.

EXPERIMENTS IN WATERPROOFING OF CONCRETE.

An investigation of the integral method of waterproofing concrete has been undertaken by the United States Bureau of Standards in co-operation with manufacturers of compounds, and with societies, engineers, and others interested in this problem. A questionnaire has been addressed to more than 500 architects, engineers, contractors, etc., and the tabulation of the replies received has been started by the bureau. An important feature of the investigation is the project for experimenting concrete tanks along the river front of the City of Washington. The District Government has set aside a small piece of ground for this purpose, and plans have been completed for the construction of the tanks.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SAN FRANCISCO—Apartment house, 4 story and base, Class C construction, \$50,000. Architect, Albert L. Lapachet, 110 Sutter street, S. F. Owners, Metropolis Investment Co., 333 Kearny street, S. F. Location, northwest Post and Leavenworth. Will contain a number of two, three and four room apartments besides four stores and lobby. Plans complete and segregated figures being taken for all parts of the work except concrete which has been awarded to the New Era Concrete Co.

BERKELEY, ALAMEDA CO., CAL.—Apartment house, 2 story and base, frame, \$15,000. Architect, F. Holberg Reimers, 2125 Shattuck avenue, Berkeley. Owner's name withheld. Location, North Berkeley. Will contain two and three room apartments. Plans being prepared.

LOS ANGELES, CAL.—Apartment house, 3 story and base, brick, \$50,000. Architect's name not given. Owner, Harold Nutter, 1. W. Hellman Bldg., 1. A. Will contain 100 rooms arranged in two and three room suites. Plans being prepared.

SAN FRANCISCO—Apartment houses 2, 3 story and base, frame, \$25,000 each. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name withheld. Location, south Haigat west of Octavia. Each house will contain 12 apartments of three rooms and bath. Plans being prepared.

SAN FRANCISCO—Apartment house, 4 story and base, brick, concrete and steel, \$85,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owners, Gerard Investment Co. Location, southeast O'Farrell and Hyde streets. Will contain four stores and lobby on the ground floor and a total of 76 rooms on the upper floors. Concrete work awarded to American Concrete Co., Humboldt Bank Bldg. Balance of the work being figured under segregated contracts.

SAN FRANCISCO—Apartment house, 3 story and base, frame, \$15,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name not given. Location, southwest Washington and Leavenworth streets. Will contain 21 apartments of two and three rooms. Plans being prepared.

SAN FRANCISCO—Apartment house, 5 story and base, reinforced concrete, \$30,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner, Margaret Nolan. Location, south Eddy between Leavenworth and Hyde Sts. Will contain sixteen apartments of two and three rooms. Plans complete and figures have been taken. Contract to be let at once.

OAKLAND, CAL.—Apartment house, 2 story and base, frame, \$20,000. Architect, Stevenson, Thomson Bldg., Oakland. Owner, W. M. Greuner, 305 Thomson Bldg., Oakland. Location, Piedmont avenue and Linda street.

Will contain stores on the first floor and a number of two and three room apartments above. Plans complete and segregated figures being taken from non-union contractors.

Contracts Awarded.

OAKLAND, CAL.—Apartment house, 3 story and base, frame, \$10,000. Architect, R. A. Hutchinson, 470 13th street, Oakland. Owner, J. Goldstein. Location, east Madison north of 14th street. Contractors, Goldstein & Weider. Contract price, \$10,000.

BARN.

BUCHLI, NAPA CO., CAL.—Barn, 1 story, frame and concrete, \$2,000. Architect, James W. Plachek, Acheson Bldg., Berkeley. Owner, D. Buchli. Concrete walls and floors. Exterior rustic. Plans being prepared.

SEATTLE, WASH.—Barn, 2 story, frame and concrete, \$25,000. Architect, none. Owners, King County. Location, County Farm. Plans being prepared under the direction of J. H. Webster.

BONDS

NEWPORT BEACH, ORANGE CO., CAL.—A resolution has been passed to send reading providing for a bond election of \$125,000 to be held in September to provide funds for the construction of a stone jetty wall on the west side of the entrance to the bay and extending into the ocean 2,000 feet. The issue will also finance certain dredging work about the bay.

SAN BERNARDINO, SAN BERNARDINO CO., CAL.—All of the eleven items of the proposed bond issue, totaling \$154,500 were defeated at the special election, including bridges, levees, storm drains, street repairs and fire protection.

EAGLE ROCK, LOS ANGELES CO., CAL.—A bond issue of \$12,000 carried here recently. Three schools will be erected from the proceeds of the sale.

ATHERTON, PLACER CO., CAL.—The \$25,000 issue of municipal bonds will be sold to the highest bidder by City Treasurer Brundage on August 10th. The proceeds of the sale will finance the paying of the Placer road from Main street to the city limits and the intersections and terminals of the streets along the main street from depot to depot.

TAFT, KERN CO., CAL.—The Conley School District has voted bonds of \$18,000 to enlarge the present school building.

SAN LUIS OBISPO, SAN LUIS OBISPO CO., CAL.—Supervisor Tognazzini states that preparations are being made in Supervisor District No. 2 to call an election to vote bonds of \$150,000 for building a concrete highway from the edge of the district just north of San Luis Obispo to San Simeon, a distance of forty-five miles.

FOLSOM, SACRAMENTO CO., CAL.—This city has voted bonds of \$20,000 for

construction of a modern sewer system. The Folsom Sanitary District was organized to provide for the issuance of the bonds.

SACRAMENTO, CAL.—Following the rendering of a decision by Attorney General Webb, sweeping aside any legal objection to the project, the State Bureau of Tuberculosis, with the co-operation and approval of the Supervisors of Sacramento County, has started a movement for the construction by several counties of a tuberculosis sanitarium in Superior California.

The counties that will be asked to join with Sacramento in the project include Placer, Yolo, Amador, Tuolumne, El Dorado, Solano, Contra Costa, Plumas and Nevada.

EAGLE ROCK, LOS ANGELES CO., CAL.—The Board of Trustees will call an election shortly to vote bonds of \$60,000 for a new school. If the election carries, architects will be asked to submit competitive plans for the proposed structure.

FULLERTON, ORANGE CO., CAL.—An election will be held August 25 for the purpose of voting a school bond issue in the sum of \$35,000 to be expended as follows: \$25,000 manual training and garage building; \$10,000 swimming pool. The pool, as proposed will be 100x40 feet, and constructed of cement.

MODESTO, STANISLAUS CO., CAL.—A meeting will be called shortly for the purpose of setting the date for an election to vote \$165,000 bonds of the Waterford Irrigation District. Of this sum \$254,000 will be used for a right of way of the main canal from the La Grange dam, and \$211,000 for building the distributing system for the district.

MARTINEZ, CONTRA COSTA CO., CAL.—Bonds in the sum of \$51,600 have been voted to finance the erection of a two-story brick or frame school building.

McSWAIN SCHOOL DISTRICT, MERCED CO., CAL.—Bids are being taken by the County Supervisors for the purchase of the \$25,000 bond issue of the McSwain School District. The sale of the bonds will finance the construction of a new school.

CARMICHAEL IRRIGATION DISTRICT, SACRAMENTO CO., CAL.—Bonds of \$57,600 have been voted for irrigation work and bids for the purchase of the entire issue are being taken by the directors of the district.

BRIDGES, DAMS AND HARBOR WORK

NEVADA CITY, NEVADA CO., CAL.—Bridge, timber and concrete. Cost not stated. Engineer, County Surveyor, Nevada City. Owners, Nevada and Yuba Counties. On August 2nd, the Supervisors held a special meeting to receive bids for the new bridge across Dry Creek at Spenceville, the cost of which is to be borne equally by Yuba and Nevada Counties. As no bids were

received, the matter has been laid on the table. Whether the road and bridge will be built is a question to be decided in the future.

AUBURN, PLACER CO., CAL.—Bridge, timber and concrete. Cost not stated. Engineer, County Surveyor, Auburn. Owners, Placer County. Bids will be opened on August 5th at 10 a. m. for the construction of a wooden bridge upon concrete pier and abutments across Auburn Ravine at the so-called Virginitown Crossing in Sec. 17 Tp. 12 N., R. E., M. D. E. & M.

NAPA, NAPA CO., CAL.—Bridge, and abutments, reinforced concrete. Cost not stated. Engineer, County Surveyor, Napa. Owners, Napa County. The County Supervisors have instructed the Clerk to advertise for bids for the construction of abutments and wing walls for a bridge near Rutherford. Plans for the work may be had from the County Clerk.

NAPA, NAPA CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, Napa. Owners, Napa County. Bids will be opened on August 31st at 2 p. m. for the construction of abutments and wing walls for bridge across slough on county road leading easterly from Rutherford, about 150 yards west of the bridge across Napa River in Supervisory District No. 2.

SAN BERNARDINO, SAN BERNARDINO CO., CAL.—Bridges, steel and reinforced concrete. Cost not stated. Engineer, County Surveyor, San Bernardino. Owners, San Bernardino County. Until 11 a. m. August 28th. Bids will be received by the Board of Supervisors for constructing two steel riveted low-truss highway bridges across the Santa Ana River, known as the Orange street bridge and the Tippecanoe bridge, according to plans and specifications on file in the office of said Board and at the office of the County Surveyor. Certified check for 5 per cent. L. R. Patty, Clerk.

QUINCY, PLUMAS CO., CAL.—Bridges, 2, reinforced concrete and steel, \$10,000 and \$7,500. Engineers, Leonard & Day, Rialto Bldg., S. F. Owners, Plumas County. Bids will be opened on September 4th at 10 a. m. for a reinforced concrete bridge over Wolf Creek and for a steel structure on the Gentry Lane Crossing. Plans can be secured from either the engineers or the County Surveyor.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Bridge steel and reinforced concrete, \$50,000. Engineers, Mayberry & Johnson, L. A. Owners, Santa Barbara County. Plans for the Quemado bridge have been completed, and bids for the work will be called for shortly. The plans for the structure are now being considered by the State Highway Commission.

FRESNO, FRESNO CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Fresno. Owners, City of Fresno. The Board of Trustees has ordered the improvement of South Angus street from Hazelton Addition to the Odd Fellow's Addition by the construction of oil and macadam paving and corrugated iron culverts in accordance with plans and specifications on file at the office of the City Clerk. E. H. Chapin is the superintendent of streets.

Contracts Awarded.

SAN FRANCISCO—Wharf extension, \$10,112. Engineer, Assistant State En-

gineer, Ferry Bldg., S. F. Owners, State of California. Contractors, Healy-Thibbitts Construction Co., S. F. Contract price, \$10,112.

SACRAMENTO, CAL.—Bridges, 2 steel and reinforced concrete. Cost as follows. Engineer, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. The State Highway Commission has awarded a contract to the Ross Construction Co., Forum Bldg., Sacramento for the construction of two reinforced concrete bridges between Bald and Antler in Shasta County. The bid of the firm was \$24,675.28. The longest of the two bridges will be 541 feet, to be built across the Sacramento River. The other will be 120 feet long and will span Salt Creek. The contract was previously awarded to Howard S. Williams, Hearst Bldg., S. F., for a little more than \$18,000, but has been rejected.

OAKLAND, CAL.—Bridge, reinforced concrete, \$1,885. Engineer, County Surveyor, Oakland. Owners, Alameda County. Contractors, Western Construction Co., Russ Bldg., S. F. Contract price, \$4,855. A complete list of the bids received will be found under the heading of Oakland and Alameda County in this issue.

TACOMA, WASH.—Dock, timber and steel. Cost not stated. Engineer's name not given. Owners, Chicago, Milwaukee & St. Paul Railroad Co. Contractors, J. A. McEachern Co., Bell Street Dock, Seattle. The railway company will furnish all materials and will do the superstructure work by Day Labor. About 2,400 piles will be used under McEachern's contract.

CHURCHES

OAKDALE, STANISLAUS CO., CAL.—Church 1 story and base, frame and concrete, \$9,744. Architect, W. J. Wythe, Central Bank Bldg., Oakland. Owners, First Methodist Church. Voorhees & Son, Lodi, presented the low figures for this work and will probably be awarded the contract.

SAN FRANCISCO—Mission church alterations, brick. Cost not stated. Architect, W. J. Wythe, Central Bank Bldg., Oakland. Owners, Chinese Methodist Mission. Location, northwest Stockton and Washington streets. Plans complete and figures being taken.

FACTORIES AND WAREHOUSES

and an asphaltic concrete wearing surface 1½ inches thick.

SAN LEANDRO, ALAMEDA CO., CAL.—Sewer construction, \$1,016.10. Engineer, City Engineer, San Leandro, Owners, City of San Leandro, Contractor, W. J. Tobin, 735 Filbert street, Oakland. Contract price, \$1,016.10.

STOCKTON, CAL.—Sewer and levee construction. Cost as follows. Engineer, City Engineer, Stockton. Owners, City of Stockton. At the last meeting of the City Council bids for sewer and levee work were opened as follows for the construction of a system of lateral sewers in Brown's, Blain's and Cogoro's additions, and the easterly and westerly extensions of north Stockton, all north of Wyandotte street, Chambers & Heafey, Bacon Bldg., Oakland, \$11,993.61; Frank C. McIntire, \$14,180.97; W. P. Edwards, \$13,422.24. City Engineer's estimate, \$14,767.49. For the construction of lateral sewers in the district north of Fremont, south of Rose and west of Edison street. City Engineer's estimate, \$7,745; W. P. Edwards, 675 31st street, Oakland, \$7,701.16; Chambers & Heafey, \$8,166.10. Two low bids were offered for the improvement of the Webber levee, from Commerce street to a point 150 feet beyond Monroe street. The contract calls for the paving of the levee. City Engineer Compton's estimate amounted to \$3,916.15 and the lowest offer was made by the Clark & Henery Construction Co., Ochsner Bldg., Sacramento, \$2,247.91. A. R. Munson & Son submitted the next lowest bid, which was also under the Engineer's estimate. Resolutions of award were introduced for the three jobs and will be passed upon finally after the elapse of five days required by law.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That Madrone avenue, from the east line of 37th street to the west line of 40th street, be improved by constructing concrete gutter and concrete curb, placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes; 6, 8 and 12-inch, vitrified, ironstone sewer pipe drains; grading the space between the property line and curb; constructing concrete sidewalk, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick. Awarded to A. Teichert & Son, Ochsner Bldg., Sacramento.

That Fourth avenue in Oak Grove, from the sewer in place of Lower Stockton road to the west line of East avenue, be improved by constructing concrete curb, concrete gutter, placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes, 6 and 8-inch, vitrified, ironstone sewer pipe drains; placing two 6-inch, vitrified, ironstone Y branches; grading the area between the curbs and property line; constructing concrete sidewalk 5 feet in width and 3½ inches thick; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic con-

crete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick. Awarded to Clark & Henery Construction Co., Ochsner Bldg., Sacramento.

That J street, from 31st street to east boundary line of Golf Crest, produced, be improved by constructing concrete curb, concrete gutter, 6-inch, vitrified ironstone sewer pipe drains, concrete manholes complete, cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; constructing 8-inch, vitrified, ironstone sewer pipe drains; placing cast iron gutter drains to be connected with 6-inch, vitrified, ironstone Y branches on 8-inch sewer pipes; grading the space between the property line and curb and constructing thereon concrete sidewalk 6 feet in width and 3½ inches thick; reconstructing eight concrete manholes; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick. Awarded to the Clark & Henery Construction Co., Ochsner Bldg., Sacramento.

That the alley between M and N streets, from 1th to 5th streets, be improved by reconstructing one concrete manhole by placing same to official grade; constructing one concrete catch basin by placing same to official grade and supplying new cast iron curb and cover; grading the roadway and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to the McGilivray Construction Co., 717 Capitol National Bank Bldg., Sacramento.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. The following contracts have been awarded by the City Commissioners: To F. C. Cretser, rear 1821 T street, Sacramento, that 28th street, from B to Y be improved by constructing concrete walk 6 feet in width and 3½ inches thick, and grading the space between the sidewalk and curb; also that 27th street from B street to Y street, be improved by constructing concrete iron concrete sidewalk 6 feet wide and 3½ inches thick and grading the space between the sidewalk and curb; also that 26th street, from B street to Y street, be improved by constructing concrete sidewalk 6 feet in width and 3½ inches thick and grading the space between the sidewalk and curb.

To J. W. Terrell, 1111 29th street, Sacramento: That Lower Stockton Road be improved from 7th avenue in Oak Grove to Waring Court in Capitol Heights, and that Whiskey Hill Road be improved from Lower Stockton road to a point 750 feet westerly from the center line of Lower Stockton road by constructing an 8 and 10-inch, vitrified, ironstone pipe sewer; constructing six concrete manholes complete and one 8-inch ironstone inlet.

STREET IMPROVEMENTS—Cost as follows. Monterey, Monterey Co., Cal. Engineer, City Engineer, Monterey. Owners, City of Monterey. Street contracts has been let as follows: Improvement of Pearl street to Ruthven & Cerrano, Monterey, on their bid of

\$4,000. For the improvement of Washington street to T. A. Work at \$5,666.90. To Edward M. Chadbourne, 503 Market street, San Francisco, for the resurfacing of Munras avenue, Scott, Polk and Madison streets and Light-house road on his bid of \$9,350.

VALLEJO, SOLANO CO., CAL.—Paving. Cost not stated. Engineer, City Engineer, Vallejo. Owners, City of Vallejo. The City Council has set August 15th as the date for receiving bids for the paving planned in the northern paving district. Plans may be had from the City Clerk.

SAUSALITO, MARIN CO., CAL.—Sewer construction. Cost not stated. Engineer, Town Engineer, Sausalito. Owners, Town of Sausalito. Bids will be opened on August 14th at 8 p. m. for the installation and construction of a 6-inch, vitrified, salt-glazed, ironstone sewer pipe line, 329 feet long on West street, from the south line of North street to the center line of Richardson street, together with two lampholes and fourteen Y branches.

Contracts Awarded.

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Street improvement contracts have been awarded as follows: The improvement of Fair avenue between Coleridge and Prospect avenue and a portion of Lundy's Lane, including artificial stone sidewalks and concrete curbs on Coleridge street and Prospect avenue, by grading, concrete walls, curbs, copings, artificial stone sidewalks, concrete steps, vitrified brick pavement and one brick catch basin with 10-inch, vitrified, salt-glazed, ironstone pipe culvert. Awarded to Peterson & Grier, 62 Post street, S. F., for \$2,701.26.

The improvement of Santiago street between the west line of 23rd avenue, produced, and the west line of 24th avenue, by grading, the construction of concrete curbs, artificial stone sidewalks 6 feet wide, a broken rock pavement on the roadway thereof and by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8 and 12-inch with nine Y branches and one brick manhole. Awarded to the State Improvement Co., Crocker Bldg., S. F., for \$17,539.65.

The improvement of Downey street from the north line of the San Miguel ranch line to Ashbury street and the west half of Ashbury street opposite the termination of Downey street, by the construction of an 8-inch, vitrified, salt-glazed, ironstone pipe sewer with 17 Y branches and 3 brick manholes; granite curbs; artificial stone sidewalks, a 14-foot central strip of vitrified brick pavement and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface upon the remainder of the roadway. Awarded to Peter McHugh, 3905 Clay street, S. F., for \$3,510.40.

The improvement of Ellsworth street from Eugenia avenue to Tompkins avenue by the construction of 8 and 12-inch, vitrified, salt-glazed, ironstone pipe sewer with ten Y branches and two brick manholes, three brick catch basins, 10-inch, vitrified, salt-glazed, ironstone pipe culverts, concrete curbs; artificial stone sidewalks; a 11-foot central strip of vitrified brick pave-

ment, an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the remainder of the roadway. Awarded to D. L. Bienfield, Phelan Bldg., S. F., for \$8,528.19.

The improvement of 19th avenue between Wawona street and Sloat Boulevard by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 12 and 15-inch with 22 Y branches and 4 brick manholes; the construction of concrete curbs; two brick catch basins with cast iron frames, gratings and traps and 10-inch, vitrified, salt-glazed, ironstone pipe culverts; and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to Pelex McHugh & Son, 372 7th avenue, S. F., for \$1,520.43.

The improvement of 24th avenue between Santiago and Taraval by grading; the construction of concrete curbs; artificial stone sidewalks 6 feet in width in the middle of the sidewalk areas; a broken rock pavement on the roadway, and the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8 and 12-inch with twelve Y branches and two brick manholes. Awarded to the State Improvement Co., Crocker Bldg., S. F., for \$2,476.70.

The improvement of Railroad avenue between the south line of Yosemite avenue and a line at right angles to the east line of Railroad avenue at its intersection with the south line of Hollister avenue, etc., by the construction of granite curbs; artificial stone sidewalks; brick catch basins; 10-inch, vitrified, salt-glazed, ironstone pipe culverts; by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8, 12, 15, and 18-inch with 84 Y branches, 9 brick manholes, 21 side sewers, and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and 2-inch asphaltic wearing surface on the roadway thereof. Awarded to Eaton & Smith, 407 11th street, S. F., for \$34,682.10.

The improvement of Laidley street between Mateo and Miguel streets by the construction of granite curbs and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to the D. O. Church Co., 68 Post street, S. F., for \$4,800.

OAKLAND, CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Contracts for sewer construction have been awarded as follows: To Ransome-Crummey Co., 1st National Bank Bldg., Oakland, that Laurel avenue, from Hopkins street to southwest line of "Key Route Acres Tract," be graded, curbed with redwood, gutted with concrete gutters 2 feet wide, paved with oil macadam and sidewalked with cement sidewalks 6 feet wide; also two corrugated iron and concrete culverts, each having two branches.

To Baker & Martin, 316 Sheldon Bldg., S. F., that a concrete culvert be constructed in portions of Foothill Boulevard, Church street and Beck street, a pipe conduit having an internal diameter of 24 inches; relay a portion of existing pipe conduit, three

brick storm water inlets and pipe conduits having internal diameters of 16 inches and seven brick manholes with cast iron tops.

To Hutchinson Co., 13th and Franklin streets, Oakland, that Thompson street, from the north line of 45th avenue to the southeast line of 45th avenue, be graded, curbed with redwood, gutted with concrete gutters 3 feet wide, paved with oil macadam and sidewalked with cement sidewalks 6 feet wide.

BERKELEY, ALAMEDA CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. The contract for the following improvements has been awarded to the Johnson-Shen Co., Central Bank Bldg., Oakland, by the City Council of Berkeley for the roadway of Tamalpais street, from the west extension of the south line of Shasta street north to the west line of Tallac street, the roadway of Tallac street, from the west line of Shasta street west and north to a line drawn from the point of intersection of the north line of Tamalpais street with the north line of Tallac street, etc., be graded, construct concrete curbs, cast iron curb inlets and catch basins with gratings and the roadways of said streets be paved with a concrete pavement 5 inches thick.

STREET IMPROVEMENTS—Cost as follows. San Francisco. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Street improvement contracts have been awarded as follows: The improvement of Fair avenue between Coleridge and Prospect avenues and a portion of Landy's Lane, including artificial stone sidewalks and concrete curbs on Coleridge street and Prospect avenue, by grading, concrete walls, curbs, copings, artificial stone sidewalks, concrete steps, vitrified brick pavement and one brick catchbasin with 10-inch, vitrified, salt-glazed, ironstone pipe culvert. Awarded to Peterson & Grier, 62 Post street, S. F., for \$3,701.26.

The improvement of Downey street from the north line of the San Miguel Ranch line to Ashbury street and the west half of Ashbury street opposite the termination of Downey street by the construction of a 8-inch, vitrified, salt-glazed, ironstone pipe sewer with 17 Y branches and 3 brick manholes; granite curbs; artificial stone sidewalks; a 14-foot central strip of vitrified brick pavement and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface upon the remainder of the roadway. Awarded to Peter McHugh, 2908 Clay street, S. F., for \$3,510.40.

The improvement of Ellsworth street from Eugenia avenue to Tompkins avenue by the construction of 6 and 12-inch, vitrified, salt-glazed, ironstone pipe sewer with ten Y branches and two brick manholes, three brick catch basins, 10-inch, vitrified, salt-glazed, ironstone pipe culverts, concrete curbs; artificial stone sidewalks; a 14-foot central strip of vitrified brick pavement, an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the remainder of the roadway. Awarded to D. L. Bienfield, Phelan Bldg., S. F., for \$5,528.19.

The improvement of 19th avenue between Wawona street and Sloat Bou-

levard by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 12 and 15-inch with 22 Y branches and 4 brick manholes, the construction of concrete curbs; 2 brick catch basins with cast iron frames, gratings and traps and 10-inch, vitrified, salt-glazed, ironstone pipe culverts; and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to Pelex McHugh & Son, 372 7th avenue, S. F., for \$1,520.43.

The improvement of 24th avenue between Santiago and Taraval by grading; the construction of concrete curbs, artificial stone sidewalks 6 feet in width in the middle of the sidewalk areas; a broken rock pavement on the roadway and the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8 and 12-inch with 12 Y branches and 2 brick manholes. Awarded to the State Improvement Co., Crocker Bldg., S. F., for \$2,476.70.

The improvement of Railroad avenue between the south line of Yosemite avenue and a line at right angles to the east line of Railroad avenue at its intersection with the south line of Hollister avenue, etc., by the construction of granite curbs; artificial stone sidewalks, brick catch basins, 10-inch, vitrified, salt-glazed, ironstone pipe culverts; by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8, 12, 15 and 18-inch with 84 Y branches, 9 brick manholes, 21 side sewers, and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and 2-inch asphaltic wearing surface on the roadway thereof. Awarded to Eaton & Smith, 407 11th street, S. F., for \$34,682.10.

The improvement of Laidley street between Mateo and Miguel streets by the construction of granite curbs and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch wearing surface on the roadway thereof. Awarded to the D. O. Church Co., 68 Post street, S. F., for \$4,800.

STREET IMPROVEMENTS—Cost not stated. Oakland, Cal. Engineer, City Engineer, Oakland. Owners, City of Oakland. Contractors, Bates, Borland & Ayer, Oakland. Improvements of a portion of Excelsior avenue by grading, curbed with concrete, gutted with concrete gutters 3 feet wide, paved with oil macadam, sidewalked with cement sidewalks.

MONTREY, MONTEREY CO., CAL.—Street improvements. Cost as follows. Engineer, City Engineer, Monterey. Owners, City of Monterey. Street contracts have been let as follows: Improvement of Pearl street to Ruthven & Cerrano, Monterey, on their bid of \$2,202. For the improvement of Washington street to T. A. Work at \$5,666.50. To Edward M. Chadbourne, 503 Market street, San Francisco, for the resurfacing of Munras avenue, Scott, Polk and Madison streets, and Lighthouse road, on his bid of \$9,356.

STORES AND OFFICES

SAN FRANCISCO—Stores and lofts, 3 story and base, brick, steel and concrete, \$55,000 to \$100,000. Architect, Smith O'Brien, Humboldt Bank Bldg., S. F. Owners, J. I. and B. C. Brown,

leased to Newman's Furniture Co. Location, southeast 17th and Mission streets, covering an area of 110 by 162½ feet. Plans being prepared.

SAN FRANCISCO—Stores, 1 story and base. Cost not stated. Architect, D. C. Coleman, Merchants' National Bank Bldg., S. F. Owner, William Helling, Location, Golden Gate avenue and Leavenworth. Will contain several small stores. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Stores and bldgs, 3 story and base, brick, steel and concrete, \$85,000 to \$100,000. Architect, Smith O'Brien, Humboldt Bank Bldg., S. P. Owners, L. I. and B. C. Brown, leased to Newman's Furniture Co. Location, southeast 17th and Mission Sts., covering an area of 110 by 162½ feet. Plans being prepared.

SAN FRANCISCO—Offices, 10 story and base. Class A construction, \$1,500,000. Architects, Bliss & Faville, Balboa Bldg., S. F. Owners, Southern Pacific Co. Location, Market and Spear streets. Mr. Bliss states that a number of figures were received on Thursday, August 3rd, for the construction complete and for several portions of the work under separate contracts. These figures have been referred to the officials of the Southern Pacific Co. for consideration. No information could be secured as to the firm presenting the low figure, or whether or not the work would be let as a whole or segregated. Several days will be required to determine how the work will be awarded.

OAKLAND, CAL.—Produce building, 1 story and base, brick, \$45,000. Architect, Charles W. McCall, Central Co. Location, 3rd and Franklin Sts., covering a large area. Plans complete and figures being taken.

FRESNO, FRESNO CO., CAL.—Store alteration, \$25,000. Architect, none. Owners, Owl Drug Co., L. G. Fernandez in charge, Fresno. Plans complete and segregated figures now being taken.

POMONA, LOS ANGELES CO., CAL.—Stores, 1 story and base, brick. Cost not stated. Architect, C. E. Wolfe, State Bank Bldg., Pomona. Owner, E. P. Forey. Will contain two modern stores. Plans complete and figures being taken.

PORTLAND, ORE—Stores and offices, 5 story and base, brick and steel, \$75,000. Architect, J. V. Bennes, Chamber of Commerce Bldg., Portland. Owners, Hexter & Strausses. Location, southwest 11th and Morrison. Will cover a large ground area. Stores on first floor and offices above. Plans being prepared.

THEATRES

THEATRE AND OFFICES—9 story and base. Class A construction, \$200,000. Vancouver, B. C. Architect, B. Marcus Pretica, Pantages Theatre Bldg., Seattle; World Bldg., Vancouver. Owner, Alex. Pantages. Location, Hastings street, covering an area of 104 by 120 feet. Plans complete and figures being taken. Plans can be had from either the Seattle or Vancouver

VANCOUVER, B. C.—Theatre and offices, 9 story and base. Class A construction, \$200,000. Architect, B. Marcus Pretica, Pantages Theatre Bldg., Seattle; World Bldg., Vancouver. Own-

er, Alex. Pantages. Location, Hastings street, covering an area of 104 by 120 feet. Plans complete and figures being taken. Plans can be had from either the Seattle or Vancouver office.

SEALED PROPOSALS

CALL FOR BIDS.

NOTHING IS HEIERY GIVEN that the Board of Trustees of Crystal School District will receive sealed bids for the furnishing of 170 seats for the new auditorium of said Crystal School District at Susan, Cal.

Said bids must be delivered to the undersigned on or before **August 17, 1916, at 7 o'clock P. M., at my office in Susan, Cal.**

The bids shall include delivery and installation according to plans.

The Board reserves the right to reject any or all bids.

J. A. WILSON,
Clerk of Board of Trustees. (7)

PROPOSALS FOR CANAL WORK.

CANAL WORK—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Powell, Wyo., until **2 o'clock p. m. August 18, 1916**, for the construction of canals on the Shoshone project, Wyoming, involving about 575,000 cubic yards of excavation. The work is located near the stations of Mantua and Frankie, Wyo., on the C. & G. Railroad. For particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., or Powell, Wyo. **WILL R. KING**, acting director.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1668—Proposals for Cold-Rolled Steel, Chain, Wire Lath, Manganese Steel, Bolts, Rivets, Nuts, Lag Screws, Washers, Cast-Iron Pipe and Fittings, Lead Pipe and Fittings, Brass Tubing, Brass Pipe, Fittings, Shower Heads, Cocks, Engine Lubricators, Door and Window Hardware, Oil-Burning Boilers, Laundry Machinery, Steel Lockers, Steam Tables, Food-Service Wagon, Chairs, Pressers, Floor and Wall Tiles, Porcelain Glasses, Detonators, Index Cards, Manila Folders, and Manifold Books.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until **10:30 a. m. August 18, 1916**, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1668) may be obtained from this office or the offices of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal. **EARL I. BROWN**, major, corps of engineers, U. S. A., general purchasing officer.

PROPOSALS FOR ICE PLANT.

ICE PLANT—Sealed proposals, indorsed "Proposals for Ice-making and Cold-storage Plant," will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. September 2, 1916**, and then they will be publicly opened, for an ice-making and cold-storage plant for the U. S. marine barracks, Pekin, China. Plan and specification may be obtained on application to the bureau. **F. R. HARRIS**, chief of bureau.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1665—Proposals for Kerosene and Gasoline. Annual estimate for the period ending June 30, 1917.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until **10:30 a. m. August 10, 1916**, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1665) may be obtained from this office or the offices of the assistant purchasing agent,

Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal. **EARL I. BROWN**, major, corps of engineers, U. S. Army, general purchasing officer.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1667—Proposals for Dredging, Scaffolding, Hardware, Elevators, Dumbwaiter, Steel Cable, Refrigerators, Bone-Black and Spud Timbers.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until **10:30 a. m. August 11, 1916**, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1667) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal. **EARL I. BROWN**, major, corps of engineers, U. S. Army, general purchasing officer.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1665—Proposals for Structural Steel, Steel Plates, Plainished Iron, Ridge Roll, Manganese Steel Links and Pins, Riveting Forces, Post Hole Buggers, Valves, Cast Iron Pipe, Sewer Pipe, Electrical Material, Drafting Instruments, Gauge, Lamps, Whistles, Oil Cans, Jacks, Padlocks, Grindstone, Iron, Bristol, Portland, Asbestos Board, Canvas, Laundry Bags, Rubber Boots, Alcohol, Paints, Linseed Oil, Powdered Granite, Varnishes, Alumina, Substitute, Portland Cement and Millwork.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until **10:30 a. m. August 7, 1916**, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1665) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal. **EARL I. BROWN**, major, corps of engineers, U. S. Army, general purchasing officer.

STATE OF CALIFORNIA.

COMPETITION ANNOUNCEMENT.

The Board of Control of the State of California announces to the architects of California:

That the people of California have authorized the issuance of bonds to the amount of \$1,000,000.00 for the purpose of constructing, furnishing and equipping the San Francisco State Building to be located on the Civic Center in the City and County of San Francisco, California; that these bonds have been sold and the money is now available; that the Board of Control has instituted a competition for the selection of an architect to design and supervise the construction of this building.

Section No. 11 of the Department of Engineering Law of the State of California, which empowers the Board of Control to institute this competition, provides that the State Architect shall act as architect and advisor in connection therewith.

The competition will be conducted in two stages and is confined to California. The first stage is open to all certified architects of the State of California who have had the necessary experience, subject to the conditions prescribed in the Program of the competition.

The second stage will be open only to eight architects selected by the Jury from those competing in the first stage.

No compensation shall be made for remuneration unless chosen by the Jury and submitting drawings in the second stage. The program for this competition is a copy of the Program of the American Institute of Architects.

Architects desiring to compete must give to **General C. M. Stewart, Architect, Forum Building, Sacramento, California**, a written request for a copy of the program. On September 1, 1916, copies will be mailed simultaneously to all architects from whom written requests for same have

cific Co. Location, Market and Spear streets. Mr. Bliss states that a number of figures were received on Thursday, August 3rd, for the construction complete and for several portions of the work under separate contracts. These figures have been referred to the officials of the Southern Pacific Co. for consideration. No information could be secured as to the firm presenting the low figure, or whether or not the work would be let as a whole or segregated. Several days will be required to determine how the work will be awarded.

Contracts Awarded

STONE SKIPS—Cost not stated. San Francisco. Engineer, City Engineer, City Hall, S. F. Owners. City and County of San Francisco. Contractors, E. R. Bacon Co., 51 Natoma street, S. F. Contract price not stated.

HOSPITAL REPAIRS—Reinforced concrete stairs, \$2,655. San Francisco. Architect, Albert L. Lapachet, 110 Sutter street, S. F. Owners, French Hospital Association. Contractor, C. E. MacMullin, 180 Jessie street, S. F. Contract price, \$2,655.

WHARF EXTENSION—\$10,112. San Francisco. Engineer, Assistant State Engineer, Ferry Bldg., S. F. Owners, State of California. Contractors, Healy-Tibbitts Construction Co., S. F. Contract price, \$10,112.

CONCRETE MIXER—Cost not stated. San Francisco. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Contract, Norris K. Davies, 400 7th street. Contract price not stated.

State Harbor Board Awards Pier Contract.

Healy-Tibbitts Construction Co. Will
Construct Extension to Pier No. 43
For \$10,112.

A contract for the extension of Pier No. 43 was awarded by the State Harbor Commissioners at their regular Thursday meeting to Healy-Tibbitts Construction Co. on their bid of \$10,112. The following five firms submitted figures for the work:

Extension of Pier No. 43.	
S. B. Peterson.....	\$12,399
Thomson Bridge Co.....	11,161
Hyde-Harjes Co.....	11,443
Healy-Tibbitts Constr. Co.....	10,112
San Francisco Bridge Co.....	10,566

F FOUR W WHEEL D DRIVE

Read Owners' Opinions:

Raymond, Cal., April 30, 1916.
Four Wheel Drive Truck Co.,
San Francisco, Cal.

Gentlemen:

Replying to your letter of inquiry asking for a statement regarding the service we are getting from our F-W-D Truck recently purchased from you, beg to advise that the truck is more of a success than I ever thought possible. I am hauling over a road that a 10-horse team can only pull $4\frac{1}{2}$ tons over, and takes five days to make the round trip. The truck makes a round trip in 14 hours, with $3\frac{1}{2}$ to 4 tons.

The whole country for miles around comes down to see the only truck that ever reached Wawona with four tons. The first load was 8,152½ pounds, for which I have a receipt from the Associated Gasoline people. Since then I have been making regular daily trips from Raymond.

The truck has replaced one 10-horse and two 4-horse teams on the road. If the truck continues to perform as well as it does now, there is not another

truck can come near it.

With best wishes, I beg to remain,

Yours very truly,

(Signed)

D. A. LEWIS.

St. Paul, Minn., May 16, 1916.
Four Wheel Drive Auto Co.,
Clintonville, Wis.

We have used the F-W-D Truck nearly three years and feel that on rough roads and for hard usage nothing better is made. Truck has fulfilled all requirements and proven very satisfactory.

HAMM BREWING CO.

Four Wheel Drive Auto Co.,
Clintonville, Wis.

Four years' experience with F-W-D Trucks. All give perfect satisfaction. Strongly recommend it over all others. Costs less to operate. Is dependable; most economical. We are operating successfully where W-, P-, and J-trucks failed.

A. W. SHAW.

NOTICE OF NON-LIABILITY.

Aug. 7, 1916—E NINETEENTH AVE 195 S Lawton S 25xN 120. Sol Getz & Sons as to improvements on leased property

OAKLAND AND ALAMEDA COUNTY

Reinforced concrete. \$1. Surveyor and Cal. Engineer, County of Oakland. Owners, Alameda County Contractors, Western Contractors Co., Russ Bldg., S. F. Contract price, \$4,885. A complete list of the bids received will be found under the heading of Oakland and Alameda County in this issue.

SEWER CONSTRUCTION—Cost not stated. Oakland, Cal. Engineer, City Engineer, Oakland. Owners, City of Oakland. Contracts for sewer construction have been awarded as follows: To Ramona-Crummey Co., First National Bank Bldg., Oakland, that Laurel avenue from Hopkins street to the southwest line of "Key Route Aeres Tract" be graded, curbed with redwood, guttered with concrete gutters 3 feet wide, paved with oil macadam and sidewalk with cement sidewalks 6 feet wide; also two corrugated iron and concrete culverts, each having two branches.

To Baker & Martin, 310 Sheldon Bldg., S. F., that a concrete culvert be constructed in portions of Pothill Boulevard, Church street and Beck street, a pipe conduit having an internal diameter of 21-inches; relay a portion of existing pipe conduit, three brick storm water inlets and pipe conduits having internal diameters of 10 inches and seven brick manholes with cast iron tops.

To Hutchinson Co., 13th and Franklin street, Oakland, that Thompson street from the north line of 17th avenue to the southeast line of 15th avenue be graded, curbed with redwood, guttered with concrete gutters 3 feet wide, paved with oil macadam and sidewalk with cement sidewalks 6 feet wide.

STREET PAVING—Cost not stated. Berkeley, Alameda Co., Cal. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. The contract for the following improvements has been awarded to the Johnson-Shea Co., Central Bank Bldg., Oakland, by the City Council of Berkeley, for the roadway of Tamalpais street, from the west extension of the south line of Shasta street north to the west line of Tallac street, the roadway of Tallac street from the west line of Shasta street, west and north to a line drawn from the point of intersection of the north line of Tamalpais street with the north line of Tallac street, etc., be graded, construct concrete curbs, cast iron curb inlets and catch basins with gratings and the roadways of said streets be paved with a concrete pavement 5 inches thick.

SEWER CONSTRUCTION—\$1,016.10. San Leandro, Alameda Co., Cal. Engineer, City Engineer, San Leandro. Owners, City of San Leandro. Contractor, W. J. Tobin, 735 Filbert street, Oakland. Contract price, \$1,016.10.

APARTMENT HOUSE—2 story and base, frame, \$15,000. Berkeley, Alameda Co., Cal. Architect, F. Holberg Reimers, 225 Shattuck avenue, Berkeley. Owner's name withheld. Location, North Berkeley. Will contain two and three room apartments. Plans being prepared.

RESIDENCE—2 story and base, frame, \$15,000. Piedmont, Alameda Co., Cal. Architect, none. Owner, Alfred Cord, First Savings Bank Bldg., Oakland. Location, east Manor Drive south of Jerome. Will contain eight

rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$4,000, Oakland, Cal. Architect, James H. Vollmer, 701 Regent street, Alameda. Owner, T. C. Murphy. Location, Fourth Avenue Heights. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

RESIDENCE—2 story and base, frame, \$2,300, Oakland, Cal. Architect, none. Owner, C. E. Carlson, 1421 Milvia street, Berkeley. Location, west Ross south of Haywood. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,250, Oakland, Cal. Architect, none. Owner, J. E. Murphy, 1827 Grove street, Oakland. Location, Emerald south of 12nd street. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCES—3, 1 story and base, frame, \$1,700 each, Berkeley, Alameda Co., Cal. Architect, F. Bollinger Reimers, 2125 Shattuck avenue, Berkeley. Owners, Bay View Construction Co. Location, Berryman street. Each house will contain five rooms and bath. Plans being prepared and work to be done by Day Labor.

RESIDENCE—1 1/2 story and base, frame, \$1,600, Oakland, Cal. Architect, none. Owner, H. S. Butler, 5648 Oak Grove avenue, Oakland. Locations, south Piedrastran Way east Claremont. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,500, Alameda, Alameda Co., Cal. Architect, Alvin J. Stern, 306 14th street, Oakland. Owner, Alfred Harris. Location, Santa Clara avenue and Stanton. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000, Berkeley, Alameda Co., Cal. Architect, none. Owner, R. C. Hillen, 420 Haight avenue, Alameda. Location, east Acton north of Francisco. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 1 story and base, frame, \$2,000 each, Berkeley, Alameda Co., Cal. Architect, none. Owner, R. C. Hillen, 420 Haight avenue, Alameda. Location, north Francisco west of Franklin. Each house will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$5,000, Oakland, Cal. Architect, Edward G. Boddy, 600 Market street, S. F. Owners, C. P. and L. B. Wieland, Hotel Claremont, Berkeley. Location, east Alvarado south Eucalyptus. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$3,500, Piedmont, Alameda Co., Cal. Architect, none. Owner, G. L. Mohr, 2055 University avenue, Berkeley. Location, west San Carlos avenue, Nova Piedmont. Will contain seven rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE—3 story and base, frame, \$20,000, Oakland, Cal. Architect, Stevenson, Thomson Bldg., Oakland. Owner, W. M. Greiner, 208 Thomson Bldg., Oakland. Location, Piedmont avenue and Linda street. Will contain stores on the first floor and a number of two and three room apartments above. Plans complete and segregated figures being taken from non-union contractors.

FABRIC—1 story, frame, \$2,500, Berkeley, Alameda Co., Cal. Architect, Edward T. Foulke, J. Crocker Bldg., S. F. Owners, Hall-Scott Motor Car Co. Location, 5th and Snyder streets. Will contain one large room. Plans complete and work to be done by Day Labor.

GARAGE—1 story and base, brick, \$5,000, Berkeley, Alameda Co., Cal. Architect, James W. Plachek, Acheson Bldg., Berkeley. Owner, Charles Dull. Location, Woolsey and Shattuck avenue, covering an area of 112 by 50 feet. Plans being prepared.

GARAGE—2 story and base, Class C \$25,000, Oakland, Cal. Architect, Mr. Stevenson, Thomas Bldg., Oakland. Owner, W. M. Greiner. Location, Grant avenue east of Webster. Designed for a commercial garage. Plans complete and figures being taken from non-union contractors.

LIBRARY ALTERATIONS—Cost not stated, Alameda, Alameda Co., Cal. Architect, none. Owners, City of Alameda. Bids will be opened on September 5th at 8 p. m. for alterations and additions in the children's department of the City Library. Plans can be secured from the City Clerk.

STREET IMPROVEMENTS—Cost not stated, Oakland, Cal. Engineer, City Engineer, Oakland. Owners, City of Oakland. SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

BRIDGE—Timber and concrete. Cost not stated. Nevada City, Nevada Co., Cal. Engineer, County Surveyor, Nevada City. Owners, Nevada and Yuba Counties. On August 10 the Supervisors held a special meeting to receive bids for the new bridge across Dry Creek at Spencerville, the cost of which is to be borne equally by Yuba and Nevada Counties. As no bids were received, the matter has been laid on the table. Whether the road and bridge will be built is a question to be decided in the future.

BRIDGE—Timber and concrete. Cost not stated. Auburn, Placer Co., Cal. Engineer, County Surveyor, Auburn. Owners, Placer County. Bids will be opened on August 8th at 10 a. m. for the construction of a wooden bridge upon concrete pier and abutments across Auburn Ravine at the so-called Virginatowe Crossing in Sec. 17, Tp. 12 N., R. 1 E., M. 13 & M.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer. Sacramento. Owners, City of Sacramento. Bids will be opened as follows for street improvements authorized under the following resolutions: That H street from 31st street to Mont Clair avenue, be improved by constructing concrete curb, concrete gutter, 138 linear feet of concrete gutter of special design; 6 and 8-inch, vitrified, ironstone sewer pipe drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes complete; concrete sidewalk, grading the space between the property line and curb; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1 1/2 inches thick; reconstructing ten concrete manholes by placing same to official grade.

That D street, from Ashby avenue to Arrieta avenue, be improved by constructing concrete curb, concrete gutter, placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; constructing 6 and 8-inch, vitrified, ironstone sewer

pipe drains; reconstructing existing concrete manhole, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1 1/2 inches thick, and filling in behind the curb with earth for a distance of 8 feet.

That 1st avenue in Oak Grove, from Lower Stockton road to Central avenue, be improved by constructing concrete curb, concrete gutter, placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached, constructing 6-inch, vitrified, ironstone sewer pipe drains, grading the space between the property line and curb; constructing concrete sidewalk, grading the roadway from the east line of the Lower Stockton road to the west line of Central avenue and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1 1/2 inches thick.

That 15th street, from C street to D street, be improved by constructing concrete curb, concrete gutter filling in behind the curbs with earth, placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached, reconstructing one concrete manhole, filling in two old catch basins with earth; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1 1/2 inches thick.

STREET PAVING—Cost not stated. Placerville, Placer Co., Cal. Engineer, Albert Givan. Sacramento. Owners, Town of Placerville. The City Trustees have adopted plans and specifications for the paving of Main street, as prepared by Engineer Albert Givan of Sacramento. The City Clerk was instructed to advertise for bids. The paving of the street will provide connection with the State highway. Plans may be had from the City Clerk.

SEWER AND LEVEE CONSTRUCTION—Cost as follows. Stockton, Cal. Engineer, City Engineer. Stockton. Owners, City of Stockton. At the last meeting of the City Council bids for sewer and levee work were opened as follows for the construction of a system of lateral sewers in Brown's, Plain's and Caguro's additions, and the easterly and westerly extension of north Stockton, all north of Wyandotte street: Chambers & Heafey, Bacon Bldg., Oakland, \$11,593.61; Frank C. McIntire, \$11,150.97; W. F. Edwards, \$12,422.24; City Engineer's estimate, \$11,767.49. For the construction of lateral sewers in the district north of Fremont, south of Rose and west of Edison street: City Engineer's estimate, \$7,745; W. F. Edwards, 675 21st street, Oakland \$7,701.16; Chambers & Heafey, \$8,166.10. Two low bids were offered for the improvement of the Weber levee from Commerce street to a point 150 feet beyond Monroe street. The contract calls for the paving of the levee. City Engineer (Campton's estimate amounted to \$2,916.15, and the lowest offer was made by the Clark & Henely Construction Co., Ochsner Bldg., Sacramento, \$2,247.91; A. R. Mun-

son & Son submitted the next lowest bid which was also under the Engineer's estimate. Resolutions of award were introduced for the three jobs and will be passed upon finally after the lapse of five days required by law.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer. Sacramento. Owners, City of Sacramento. The following contracts have been awarded by the City Commissioners: To F. C. Creiser, rear 1821 T street, Sacramento, that 25th street, from B to Y, be improved by constructing concrete sidewalk 6 feet in width and 3 1/2 inches thick, and grading the space between the sidewalk and curb, also that 25th street from B to Y street be improved by constructing concrete sidewalk 6 feet wide and 3 1/2 inches thick and grading the space between the sidewalk and curb, also that 26th street, from B to Y street be improved by constructing concrete sidewalk 6 feet in width and 3 1/2 inches thick and grading the space between the sidewalk and curb.

To J. W. Terrell, 1111 29th street, Sacramento, that Lower Stockton road be improved from 7th avenue in Oak Grove to Waring Court in Capito Heights, and that Whiskey Hill road be improved from Lower Stockton road to a point 750 feet westerly from the center line of Lower Stockton road by constructing an 8 and 10-inch, vitrified ironstone pipe sewer, constructing concrete manholes complete and on 8-inch, vitrified, ironstone inlet.

SCHOOL WELL BORING—Cost not stated. Tracy, San Joaquin Co., Cal. Engineer, none. Owners, West Side Union High School District. Bids will be opened on August 12th for boring a well 10 to 12 inches in diameter and about 300 feet deep.

SCHOOL—1 story and base, reinforced concrete, \$15,000. Sutter City, Sutter Co., Cal. Architect, Chester Cole. Waterland Bldg., Chico. Owners, Brittan Grammar School District. Will contain six rooms and an assembly hall. Plans complete and figures to be called for at once.

SCHOOL—2 story and base, brick. Cost not stated. Ripon, San Joaquin Co., Cal. Architect, W. H. Weeks, 7 Post street, S. F. Owners, Ripon High School District. Will contain ten classrooms, auditorium and departments for manual training and domestic science. Plans complete and bids to be opened on August 16th at 7:30 p. m. Separate figures for general construction, heating and ventilating and plumbing.

SCHOOL—1 and 2 story and base, reinforced concrete and brick, \$60,000. Tracy, San Joaquin Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Tracy School District. Will contain ten rooms, auditorium and departments for manual training and domestic science. Plans complete and figures to be opened on August 12th. Separate figures being taken for general construction, heating and ventilating, electric work and plumbing.

SCHOOL—1 story and base, brick, \$6,000. Los Molinas, Tehama Co., Cal. Architect, Chester Cole, Waterland Bldg., Chico. Owners, Los Molinas School District. Will contain one classroom. Plans being prepared.

BRIDGES—2, reinforced concrete and steel, \$10,000 and \$7,500. Quincy, Plumas Co., Cal. Engineers, Leonard & Day, Rialto Bldg., S. F. Owner

Plumas County. Bids will be opened on September 14th at 10 a. m. for a reinforced concrete bridge over Wolf Creek and for a steel structure on the Gentry Lane Crossing. Plans can be secured from either the engineers of the County Surveyor.

PUMPING EQUIPMENT — \$25,000. Woodland, Yolo Co., Cal. Engineer's name not given. Owners, Reclamation District No. 1600. Opening of the bids for building the \$25,000 pumping plant in Reclamation District 1600 has been continued. Twelve of the bidders were here at the specified time, but the district refused to open the bids, announcing that several of the larger contractors desired more time.

STREET IMPROVEMENTS — Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That Madrone avenue from the east line of 37th street to the west line of 40th street be improved by constructing concrete gutter and concrete curb, placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes; 6, 8 and 12-inch, vitrified, ironstone sewer pipe drains; grading the space between the property line and curb, constructing concrete sidewalk; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick; an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick. Awarded to A. Teichert & Son, Ochsner Bldg., Sacramento.

That 4th avenue in Oak Grove, from the sewer in place of Lower Stockton road to the west line of East avenue be improved by constructing concrete curb, concrete gutter, placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes, 6 and 8-inch, vitrified ironstone sewer pipe drains, placing two 6-inch, vitrified, ironstone Y branches, grading the area between the curbs and property line; constructing concrete sidewalk 5 feet in width and ¾ inches thick; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick; an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick. Awarded to Clark & Henery Construction Co., Ochsner Bldg., Sacramento.

That J street, from 21st street, east boundary line of Golf Crest, produced, be improved by constructing concrete curb, concrete gutter, 6-inch, vitrified, ironstone sewer pipe drains; concrete manholes complete, cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; constructing 8-inch, vitrified, ironstone sewer pipe drains; placing cast iron gutter drains to be connected with 6-inch, vitrified, ironstone Y branches on 8-inch sewer pipe; grading the space between the property line and curb, and constructing thereon concrete sidewalk 6 feet in width and ¾ inches thick, reconstructing 8 concrete manholes, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation, 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½

inches thick. Awarded to the Clark & Henery Construction Co., Ochsner Bldg., Sacramento.

That the alley between M and N streets from 14th to 54th street be improved by reconstructing one concrete manhole by placing same to official grade; reconstructing one concrete catch basin by placing same to official grade and supplying new cast iron curb and cover; grading the roadway and constructing thereon and asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick. Awarded to the McGilivray Construction Co., 517 Capitol National Bank Bldg., Sacramento.

OIL STATION—5 buildings, and 2 large tanks. Cost not stated. Alturas, Modoc Co., Cal. Engineer, Engineering Department, Standard Oil Co., S. E. Owners, Standard Oil Co. Contractor, J. C. Jarman, Alturas. Contract price

Contracts Awarded.

BRIDGES—2, steel and reinforced concrete. Cost as follows. Sacramento, Cal. Engineer, State Highway Commission, Forum Bldg., Sacramento Owners, State of California. The State Highway Commission has awarded a contract to the Ross Construction Co., Forum Bldg., Sacramento, for the construction of two reinforced concrete bridges between Baird and Antler in Shasta County. The bid of the firm was \$21,676.38. The longest of the two bridges will be 511 feet, to be built across the Sacramento River. The other will be 120 feet long and will span Salt Creek. The contract was previously awarded to Howard S. Williams, Hearst Bldg., S. E., for a little more than \$18,000, but has been rejected.

INCREASING USE OF AMERICAN GOODS IN SHANGHAI.

Upon visiting the shops in Shanghai I find that there is much more business done in American goods in this city than Hongkong, the latter being strictly a British market. Nearly all the shops in the former city carry some American merchandise, and most of them are increasing the number of lines handled. There is evident a decided advance in every class of American goods.

Exporters in the United States desirous of marketing their wares in the Far East should certainly keep an eye on Shanghai, as it affords indeed a promising market. Even at present there is a fine opportunity for a number of lines, and the field is widening every hour.

LARGE INCREASE IN SHIPMENTS FROM ALASKA.

Alaska's sales to the United States in the fiscal year 1916 aggregated \$18,966,000, which is double the annual average since 1912. The amounts for the fiscal years 1915 and 1914 were, respectively, \$7,039,000 and \$21,456,000. In addition to domestic merchandise, Alaska shipped to the United States in 1915-16 gold valued at \$16,000,000 and silver to the value of \$760,000, both from its own mines.

The predominant feature of the year's trade, according to an analysis made by the Bureau of Foreign and Domestic Commerce, was the rise of copper to first place among Alaska's export staples, thereby supplanting salmon and gold as the leading items. Receipts of copper in ore, matte, and regulus from Alaska aggregated 117,000,000 pounds, valued at \$26,500,000. This is four times the average for the preceding three years and exceeds the combined imports of that class from Chile, Cuba, Canada, and Mexico, the leading foreign sources of this form of copper.

RIENDS ADRIAS LUMBER PRICES.

PORTLAND—Pitch pine is bringing \$130 gold a thousand feet in Buenos Aires while we are trying to get \$15 and \$16 a thousand for it here. There really is not a very large market here because of the Brazilian lumber, but it is an example of the prices being

paid in South America now, according to O. M. Clark, president of the Portland Chamber of Commerce, who has returned from a tour of South America as a member of the trade commission of Americans who went out to see how trade with their cousins in the Southern Hemisphere could be improved.

INCREASED SALES OF LIME.

The lime sold in the United States in 1915, according to G. F. Loughlin, of the United States Geological Survey, amounted to 3,589,679 short tons, valued at \$14,336,754, an increase of 6.2 per cent in quantity and 8 per cent in value over the figures for 1914. The average price per ton, \$3.99, was 7 cents more than that of 1914. The value of lime sold for chemical works, sugar factories, fertilizer, steel works, and miscellaneous purposes increased and more than offset decreases in the value of lime sold for building, paper mills, and tanneries. The number of plants in operation decreased from 554 in 1914 to 905 in 1915, and the number of kilns in active operation from 2,466 to 2,331.

Sales of hydrated lime continued to increase in 1915, amounting to 581,111 tons, valued at \$2,157,602, an increase of 12.8 per cent in quantity and 9.7 per cent in value over the sales in 1914. The average price per ton in 1915, however, dropped 12 cents, to \$4.23.

HIRE DAM ENGINEER.

GRASS VALLEY, Cal.—G. D. Ray of this city, one of the engineers who was employed by the Southern Pacific Company in the big construction work between Colfax and Auburn a few years ago, has been employed by the Pacific Gas and Electric Company to take charge of the big project at Lake Spaulding.

The big dam, which now has a capacity of 43,500-acre feet, is to be raised twenty-five feet, giving it a total height of 250 feet and making it one of the largest concrete dams in the United States.

MUNICIPAL GARAGES FOR LOS ANGELES.

LOS ANGELES.—Municipal garages, for the temporary use of motorists and business men who have occasion to leave their cars for an hour or more at a time in the business district, are recommended by Chief of Police S. E. Sively in his annual report as one of

the most effective solutions of the traffic problem.

As in every large city, since the automobile has become a popular institution, Los Angeles is confronted with an increasing congestion in downtown streets, marked by monthly lengthening of the accident and receiving hospital reports.

"One thousand automobiles," says the report, "taken off the streets at the present time would solve the traffic problem."

SIAMSE APPROPRIATE \$555,000 FOR IRRIGATION.

HONGKONG—The Siamese government has appropriated \$555,000 for the preliminary expenses in connection with the Prasad irrigation project, which will ultimately cost \$1,250,000. This scheme provides for a great canal for Prasad and fuller development of the existing canal system of Klong Rangsit. The project is designed to reclaim much waste land in lower Siam for rice cultivation. Only the first unit of the scheme will be developed at present. It is estimated by the British experts, who have been employed to make a survey of the situation, that a total expenditure of \$50,000,000 within twenty-five years will make it possible to reclaim 2,400,000 acres of land in lower Siam.

A YEAR'S EXCAVATION FROM GAILLARD CUT.

In the fiscal year ended June 30, 1916, excavation from the Gaillard (Culebra) Cut totaled 11,660,331 cubic yards. Of this 10,280,371 cubic yards were removed from Culebra slides; and as between earth and rock, the quantities were 1,637,985 and 10,022,366 cubic yards, respectively. Excavation therefore averaged, says the Panama Canal Record, 971,696 cubic yards per month or 31,922 per day.

NEED OVER A MILLION FOR ROADS.

MODESTO—The Stanislaus Board of Supervisors and the County Highway Advisory Board have agreed on a system of permanent improvement of roads throughout the county under a bond issue not to exceed \$1,500,000 and at the next meeting County Engineer E. H. Annear will present his estimate of costs on the system as a basis for the call for an election.

PLUMBER

221 OAK STREET

Bot. Cough and Ootavia

SAN FRANCISCO, CAL.

Since "Konveno" combines utility and beauty it is fast becoming the most popular closet for small bathrooms.

Its top is so designed that it can be used as a convenient shelf upon which to stand the toilet articles that are constantly in use.

"Konveno" is made of vitreous china, white all the way through. The surface is highly glazed, will not tarnish or stain, crack or peel.

It is strongly made to give years of service, and like all the "Pacific" line guaranteed forever against any defects in workmanship or materials.

Attack On California's Financial Integrity.

Chairman Neylan Repudiates Statement Published by Los Angeles Times on State's Expenditures.

By John Francis Neylan, Chairman, State Board of Control.

Incredible as it may seem not a single Chamber of Commerce or Board of Trade in California or Merchants Association has adopted a resolution or taken any formal action whatever to repudiate the grossest falsehood ever published concerning the State of California's financial integrity, although for two weeks the Los Angeles Times has been publishing to the world that California's State government costs \$176,000,000.00 a year. The sum of \$176,000,000 is approximately ten times the annual cost of all California's appropriations and fixed charges for support of the State government, State institutions, common schools, high schools and University.

This statement, false to the extent of \$158,000,000 on a real accounting basis, was republished to the vast detriment of California in the New York Times of July 13, 1916, and is allowed to go unrepudiated, because it is part of the scheme of politics. It has been said that California takes her politics seriously. If this kind of thing can go on, it can truly be said we carry our politics to the extreme of insanity.

The question up to the business community of California in particular, and the people of the State in general is, whether the State's financial credit is to be ruined through the malice of certain interests which desire to defeat Governor Johnson's candidacy for the United States Senate.

It can truly be said that all of the Industrial Workers of the World in California have not done one-half the damage to the State that has been done by the publication of such insane falsehoods.

California Securities are to be undermined, the bonds of the State and of every county, city, town, school district, irrigation district and water district in California are to have their value destroyed, apparently, without a protest from a single commercial organization in the Commonwealth. California, the most economically and efficiently managed State in the Nation, apparently, is to be slandered and calumniated without protest because the interests which once exploited her have been curbed and made law-abiding, simply because these interests control a few newspapers and are willing to go to any extreme to again get control of the government.

By the simple process of adding on to the cost of the State government the

cost of government of the 239 incorporated cities of California and the cost of government of the 58 counties of the State for the fiscal year 1915, the Los Angeles Times gets a total of \$176,000,000 and publishes it to the world as "The Cost of California's State Government," also under the heading "Appalling Cost of the State's Experiment in Government."

The fact that the official statement of the State Board of Equalization, which is a public record, shows that the taxes levied for the support of the State Government totaled \$18,197,000.62 for the year 1916 has no effect upon those intent on destroying Johnson.

The reason why these facts have no effect is that these agencies are endeavoring to hide the fact that the percentage of increase in appropriations each two years under Johnson has been the smallest in the history of the State, and every cent of the increase under Johnson has been levied upon the corporations of California, and levied justly.

BOOKLET ISSUED ON ACUSTICAL CORRECTIONS.

Urbana, Ill., July 17, 1916.

When the large Auditorium at the University of Illinois was built in 1908 it proved to be unsatisfactory in its acoustical properties. Audiences found it difficult to hear speakers owing to marked reverberation and echoes. Dr. P. K. Watson of the Physics Department and James M. White, Supervising Architect, undertook to correct this fault by conducting a systematic investigation involving a long series of experiments. "Bundles" of sound were projected in different directions and the paths of these were carefully traced. Various instruments, such as a ticking watch, a hissing arc lamp and megaphones were employed and curtains and draperies were hung at critical points suggested by the diagnosis.

Certain of the walls were then covered with burlfelt mounted on thin furring strips with the result that at present a speaker with a moderate voice may be heard distinctly by auditors in the most distant seats of the large building.

The investigations are described in detail in an illustrated booklet issued by the Engineering Experiment Station as bulletin No. 87. Copies may be had by addressing W. F. M. Goss, Director, Urbana, Illinois.

NEW FILM CORPORATION WITH \$7,500,000 CAPITAL.

NEW YORK—The organization of the Success Film Corporation, said to be capitalized at \$7,500,000, was announced here recently. The new company will build a large theatre here and in a number of Western cities.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

Contracts Awarded.

LOS ANGELES, CAL.—Apartment house, 1 story and base. Class C construction, \$100,000. Architect, L. T. Mayo, Black Bldg., L. A. Owner, Harold Nutter, L. W. Hoffman Bldg., L. A. Contractor, L. T. Mayo, Black Bldg., L. A. Contract price, \$100,000.

SAN FRANCISCO—Apartment house, 4 story and base. Class C construction. Cost as follows: San Francisco. Architects, Falch & Knoll, Hearst Bldg., S. F. Owner, A. Ruffs. The following additional contracts have been awarded: Glass and glazing, Schwartz & Gottlieb, \$645; ornamental iron, Michel & Preffer, \$880; structural iron Schrader Iron Works, \$695; elevator work, Otis Elevator Co., \$1625; electric work, American Electric Engineering Co., \$925. The owner is still taking figures on the plastering.

BONDS

AUBURN PLACER CO., CAL.—The \$25,000 bond issue providing for the paving of terminals and intersections on Main street, from depot to depot, and Placer road, has been sold by the Trustees and bids for the paving work will be called shortly.

YUBA CITY, SUTTER CO., CAL.—The \$15,000 bond issue of the Brittan School District, Sutter County, has been sold and bids for the erection of the new school, provided for by the bonds, are now being taken.

SUSANVILLE, LASSEN CO., CAL.—The Supervisors of Lassen County have called an election for September 5th for the purpose of determining whether or not the Honey Lake Valley Irrigation District shall be formed.

The proposed district comprises approximately 30,000 acres, all within a radius of ten miles of Amador. The estimated cost is \$956,000 and it is proposed to utilize the waters of Eagle Lake, Willow Creek, Susan River and many smaller streams.

Attorney L. L. Bennett of Modesto is handling the proposition for the petitioners. J. M. Norbom, Assistant State Engineer, has filed a favorable report on the scheme.

TURLOCK, STANISLAUS CO., CAL.—Bonds of \$165,000 will be voted upon in the Waterford Irrigation District in the near future, according to a resolution passed by the Board of Directors of the Irrigation District. Attorney L. L. Bennett, counsel for the district, received notice from State Engineer W. F. McClure, sanctioning the project for a 14,000 acre district.

CHOWCHILLA, MADERA CO., CAL.—The Chowchilla High School District has been formed and preparations are now being made to call a bond election to vote \$50,000 for a new high school.

COALINGA, FRESNO CO., CAL.—The city hall, natatorium and fire protection bond issues have been defeated.

PORTERVILLE, TULARE CO., CAL.—The City Trustees have practically decided to call a bond election to vote \$50,000 for the erection of a new city hall and civic auditorium building. As yet, no date for the election has been set.

MERCED, MERCED CO., CAL.—The Supervisors have accepted the bids of the Merced Branch of the Bank of Italy for the purchase of the \$63,000 bond issue of the Los Banos School District. A new school will be erected from the proceeds of the sale.

BAKERSFIELD, KERN CO., CAL.—East Bakersfield will vote on August 21th to decide the question of issuing and selling bonds of \$175,000 with which to erect a municipal water plant. The present water supply system is deficient, and is owned by the Bakersfield Water Company.

PLACERVILLE, EL DORADO CO., CAL.—By a vote of 59 to 0 the property owners of the southwestern part of El Dorado County rejected the proposition to bond their land at \$10 an acre for the purpose of buying the Diamond Ridge Ditch Co's water system.

SAN BERNARDINO, SAN MATEO CO., CAL.—Bids are being received by H. A. Bewley, City Clerk, for the purchase of street paving bonds. The proceeds of the sale will cover the cost of paving Hensley, Green, Easton, Masson, Mills, Kains, Angus, Sylvan and San Mateo avenues in the city of San Bruno.

EVERGREEN, SANTA CLARA CO., CAL.—Bonds of \$20,000 have been voted by the Evergreen School District and bids for the purchase of same have been ordered received up to September 5th at 11 a. m. The proceeds of the sale will be used in the erection of a new school.

CLOVERDALE, SONOMA CO., CAL.—Petitions are being circulated asking that an election be called to vote bonds for a new grammar school.

MIDWAY, KERN CO., CAL.—The Midway School District will vote on the question of issuing bonds of \$20,000 for a new school on August 25th.

SAN DIEGO, SAN DIEGO CO., CAL.—The Ocean Beach Boosters' Club is circulating a petition for an election to vote a bond issue for constructing a sewerage system and septic tank for Ocean Beach. It is proposed to let contractors submit their own specifications with bids.

OCEAN BEACH, SAN DIEGO CO., CAL.—An election will be held at a near date to be set by the City Council, for voting bonds for the improvement of Ocean Beach. A pleasure pier with walk and comfort station, in all 800 feet long, will be constructed at the foot of Narragansett avenue. Two jetties are to be constructed, one commencing at Narragansett avenue and running slightly northwest a distance

of 800 feet, the other starting at the mouth of False Bay and curving to the west a distance of 2,200 feet. The construction of these jetties will afford protection to the pier and beach, reducing the littoral currents and stabilizing the sands.

ALHAMBRA, LOS ANGELES CO., CAL.—The special election held August 3rd for voting water bonds carried on all projects proposed. The items were: Purchase of water plant; annexation of sewer farm, and \$15,000 bonding of city as final payment by Alhambra on the tri-city sewer farm. The purchase of the San Gabriel Water Co's system will be made through a bond issue of \$325,000.

BRIDGES, DAMS AND HARBOR WORK

MARYSVILLE, YUBA CO., CAL.—Bridge, reinforced concrete, \$1,270. Engineer, County Surveyor, Marysville. Owners, Yuba County. Bids will be received by the Board of Supervisors of Yuba County until September 6th, 1916, for the construction of the reinforced concrete bridge to be erected over Dry Creek at Spencerville, connecting Yuba and Nevada Counties.

CHICO, BUTTE CO., CAL.—Bridge, reinforced concrete, \$1,000. Engineer, County Surveyor, Chico. Owners, Butte County. F. A. Phillips and Charles Self, successful bidders on the bridge to be erected over Little Chico Creek at Salem street, Chico, have withdrawn their bid of \$3,633.42 as they found they bid too low and would lose money on the contract. Other bidders were: E. Graessner, \$4,168; J. L. Mory Co., \$1,000; T. H. Polk, \$1,213. A call for new bids has been issued.

SOUTH BEND, WASH.—Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, South Bend. Owners, Pacific County. Bids will be opened on August 22nd for (1) construction of a 40-foot span Luten design reinforced concrete arch bridge over Fern Creek on the National Park highway near Globe, Wash. (2) Construction of a 75-foot span Luten design reinforced concrete arch bridge over Forks Creek on the National Park highway two miles west of Lebam. (3) Clearing, grubbing, grading and draining of about 6,000 lineal feet of the North Cove Extension road in T. 15 N., R. 11 W., W. M. (4) Preparation of subgrade, draining and placing water-bound macadam surface on about 4,500 lineal feet of the Columbia North Bank highway through the town of Chinook, Wash.; also grading, draining and placing water-bound macer-bound macadam on about 1,000 lineal feet of the Chinook Depot road from its intersection with the Columbia road from its intersection with the Columbia North Bank highway to the Chinook depot.

SAN FRANCISCO—Bridge cables. Cost not stated. Engineer, City Engineer, City Hall, S. F. Owners, City

and County of San Francisco. Bids will be opened on August 23rd by the Board of Public Works for furnishing new cables for the Third street bridge.

SAN RAFAEL, MARIN CO., CAL.—Bridge extension, concrete. Cost not stated. Engineer, City Engineer, San Rafael. Owners, Marin County. Bids will be opened on August 23rd for construction of a reinforced concrete extension of the C street bridge over Mahon Creek.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Bridges, 4, reinforced concrete. Cost not stated. Engineers, Mayberry & Johnson, Santa Barbara. Owners, Santa Barbara County. Plans for four more county bridges were ordered by the Board of Supervisors. The bridges are to be built: Two in Toro Canyon, Carpinteria; one in Cat Canyon, Siquoc, and in Las Canoas, or Rattle Snake Canyon, Santa Barbara.

SANTA ANA, ORANGE CO., CAL.—Bridge, reinforced concrete, \$24,159.75. Engineer, County Surveyor, Santa Ana. Owners, Orange County. H. Clay Kellogg, 122 Orange avenue, Santa Ana, was the lowest bidder at \$24,159.75 for the construction of a reinforced concrete bridge across the Santa Ana River on Chapman avenue, about two miles west of Orange. The bridge will be about 564 feet in length. The county will furnish the sand, rock, gravel and cement. Bids taken under advisement.

Contracts Awarded.

AUBURN, PLACER CO., CAL.—Bridge, timber and concrete, \$1,210. Engineer, County Surveyor, Auburn. Owners, Placer County. Contractor, H. C. Nolly, Auburn. Contract price, \$1,210.

FAIRFIELD, SOLANO CO., CAL.—Bridge, 3, reinforced concrete. Cost as follows. Engineer, County Surveyor, Fairfield. Owners, Solano County. Contractors, Baker & Martin, Sheldon Bldg., S. F. Contract prices. Weekworth bridge, \$770; Alamo bridge, \$1,977; and McCune bridge, \$1,577.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Bridges, 3, reinforced concrete, \$20,305. Engineer, County Surveyor, Santa Barbara. Owners, Santa Barbara County. Contractors, W. M. Ledbetter & Co., Pacific Electric Bldg., L. A. Contract price, \$20,305.

RED BLUFF, TEHAMA CO., CAL.—Bridge, steel, \$2,519. Engineer, County Surveyor, Red Bluff. Owners, Tehama County. Contractor, C. E. McCartney, 1500 Lincoln street, Red Bluff. Contract price, \$2,519.

CHURCHES

ASTORIA, ORE.—Church, 1 and 2 story and base, reinforced concrete, \$22,000. Architects, Whitthouse & Poalhoux, Wilcox Bldg., Portland. Owners, Astoria Methodist Church. Will contain main auditorium, Sunday school rooms and pastor's study. All bids received August 2nd have been rejected and revised plans are being prepared.

FACTORIES AND WAREHOUSES

EMERYVILLE, ALAMEDA CO., CAL.—Bakery, 1 story, corrugated iron, \$27,000. Architect, none. Owners, People's Bread Co., 17th and Bryant streets, S. F. Location, Park and Watts streets.

Plans complete and work to be done by Day Labor.

CHICO, BUTTE CO., CAL.—Match factory, 1 story, frame, \$100,000. Architect, none. Owners, Diamond Match Co. Announcement has been made of the intention of this company to increase their present large plant by the construction of buildings and installation of new machinery.

LOS ANGELES, CAL.—Markets, 2 story and base. Class C construction. Cost not stated. Architect, John Parkinson, Security Bldg., L. A. Owners, Los Angeles Union Terminal Co. Location, 7th and Central avenue. Will cover areas of 80 by 1250 feet and 10 by 1500 feet. Two reinforced concrete warehouses are also included in this scheme. Each will be six stories and cover an area of 100 by 1250 feet. Plans are complete and figures being taken. Bids close September 19th.

Contracts Awarded

ARCATA, HUMBOLDT CO., CAL.—Church, 1 story and base, frame, \$7,708.75. Architect, Frank T. Georgeson, Georgeson Bldg., Eureka. Owners, Arcata Presbyterian Church. Contractor, Nelson Johansen, Arcata. Contract price, \$7,708.75.

FLATS

SAN FRANCISCO—Flats, 2, 2 story and base, frame, \$3,000 each. Architect, none. Owner, Otto E. Anderson, 218 15th avenue, S. F. Location, east 11th north of Clement. Each will contain two flats of five and six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 2 story and base, frame, \$7,000. Architect, Edward E. Young, 251 Kearny street, S. F. Owner, John Little, 1371 5th avenue, S. F. Location, west Steiner south Green. Will contain four flats of five six and seven rooms, baths and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 2 story and base, frame, \$7,000. Architect, none. Owner, Lehekien, 16th and Castro streets, S. F. Location, northwest Castro and State streets, covering an area of 25 by 64 feet. Will contain store on upper floor and four flats on the upper floor. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 2 story and base, frame, \$5,000. Architect, none. Owner, D. J. Clancy, 2884 Folsom street, S. F. Location, east 8th avenue south Lincoln Way. Will contain two flats of five and six rooms. Plans complete and work to be done by Day Labor.

GARAGES

BERKELEY, ALAMEDA CO., CAL.—Garage addition, 1 story, brick, \$3,000. Architect, J. Henry Boehrer, Delcor Bldg., Oakland. Owner, J. H. Wright. Location, Telegraph and Ashby avenue. Designed for a commercial garage. Plans complete and in the hands of the owner who will do the work by Day Labor.

Contracts Awarded

SACRAMENTO, CAL.—Garage and sales rooms, 2 story and base, brick and steel, \$15,000. Architect, none. Owner, John Ochsner, Ochsner Bldg., Sacramento, leased to Willys-Overland

Location, northern corner of 13th street, covering 10,301 sq. ft. of 60 by 170 feet. Contractor, Weston Muehleisen Bldg., Sacramento. Contract price, \$15,000.

GOVERNMENT WORK & SUPPLIES

Portland, Ore., Fuel Oil.

The following bids were received by the lighthouse inspector, Portland, for fuel oil for lighthouse tender Rigs:

Standard Oil Co., Portland, Ore., \$600, accepted.

Bids will be opened on August 18th for construction of two pipe lines in 12th avenue north from East Denny Way to East Prospect street, and removing the existing pipe lines; one of the new lines is to be 36 inches in diameter and the other 12 inches in diameter.

HEALDSBURG, SONOMA CO., CAL.—Water pipe, \$5,000. Engineer, City Engineer, Healdsburg. Owners, City of Healdsburg. Contractor, A. W. Garrett, Healdsburg. Contract price, \$5,000.

RESIDENCES

SAN FRANCISCO—Residence, 2 story and base, frame, \$2,500. Architect, none. Owner, A. T. Morris, 501 11th avenue, S. F. Location, west 10th avenue south Balboa. Will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$10,000. Architects, Cunningham & Polito, First National Bank Bldg., S. F. Owner, Philip Kohn. Location, west 10th avenue near Clement. Will contain ten rooms, two baths and basement garage. Plans complete and figures being taken.

SAN FRANCISCO—Residence, 3 story and base, frame, \$20,000. Architects, Reid Bros., California-Pacific Bldg., S. F. Owner, J. R. Hanly. Location, north Vallejo east Divisadero. Will contain fourteen rooms, several baths and separate garage. Plans complete and segregated figures being taken.

SAN FRANCISCO—Residences, 3, 2 story and base, frame, \$5,000 each. Architect, none. Owner, C. J. Keenan, 20 Broderick street, S. F. Location, west Walnut north of Jackson. Each house will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

PIEDMONT, ALABAMA CO., CAL.—Residence, 2 story and base, frame, \$5,000. Architect, none. Owner, Mrs. E. Rose, 5801 Dover street, Oakland. Location, Manor Drive north Bowie. Will contain nine rooms, two baths and sleeping porch. Plans complete and work to be done by Day Labor.

PIEDMONT, ALABAMA CO., CAL.—Residence, 2 story and base, frame, \$12,000. Architect, Albert Caldwell, Clinie Bldg., S. F. Owner's name withheld. Will contain ten rooms, two baths and sleeping porch. Separate garage. Plans complete and figures being taken.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, M. L. Newsom, 1748 Broadway, Oakland. Owner, John P. Whalin. Location, Central avenue. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

BERKELEY, ALABAMA CO., CAL.—Residence, 2 story and base, frame, \$3,000. Architect, F. Holberg Reimers, 2125 Shattuck avenue, Berkeley. Owner, A. C. Lawson. Location, south Buena Vista avenue east La Loma. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, L. G. Pfaff, 4129 Emerald, Oakland. Location, east Park Boulevard north Hopkins. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,600. Architect, none. Owner, I. Ariel Kellogg, 3404 Champion street, Oakland. Location, east Laguna avenue north of Montana. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residences, 2, 1 story and base, frame, \$2,500. Architect, Robert A. Hutchinson, 470 13th street, Oakland. Owner, Robert A. Hutchinson. Location, north Montans west of Curran. Each house will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, J. P. Chambers, Plaza Bldg., Oakland. Location, south Frisbie west Walsworth avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$3,800. Architect, M. I. Biggs, Syndicate Bldg., Oakland. Owners, Blake Bros., Syndicate Bldg., Oakland. Location, north Golden Gate avenue south Acacia. Will contain six rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

STOCKTON, SAN JOAQUIN CO., CAL.—Residence, 2 story and base, frame, \$5,000. Architect, Ralph P. Morrill, Odd Fellows' Bldg., Stockton. Owner, A. R. Lyon. Location, north El

Dorado near Maple. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

SACRAMENTO, CAL.—Residence, 1 story and base, frame, \$2,100. Architect, none. Owner, W. P. Cippa, 311 21st, Sacramento. Location, 2630 Urban Court. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1, 2 story and base, frame, \$5,250 each. Architect, none. Owner, W. W. Rednall, 2500 Filbert street, S. F. Location, north Filbert west of Baker. Each house will contain eight rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2, 2 story and base, frame, \$3,000. Architect, none. Owner, E. Glinley, 131 15th avenue, S. F. Location, southeast 20th avenue and California. Each house will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1, 2 story and base, frame, \$2,900 each. Architects, E. P. Antonovich and H. E. Harris, Monadnock Bldg., S. F. Owners, Co-operative Home Builders, 1125 Fillmore street, S. F. Location, west Levant south Masonic. Each house will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect, none. Owners, Leigh and Schultz, 419 21st avenue, S. F. Location, east 15th avenue north of Judah. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$2,300. Architect, none. Owner, Charles D. Hart, 645 22nd street, Oakland. Location, west Jean south Sunnyslope. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, A. Kellorg, 3404 Champion street, Oakland. Location, east Jean south of Santa Clara. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$4,850. Architect, A. W. Smith, 1910 Broadway, Oakland. Owner, G. Rossi, 492 Chetwood, Oakland. Location, northwest Euclid and Warwick. Will contain nine rooms, two baths and sleeping porches. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$2,800. Architect, W. L. Broderick, 1201 Colusa avenue, Berkeley. Owner, Joseph Tlechaty. Location, Piedmont Terrace by the Lake. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

COLUSA, COLUSA CO., CAL.—Residence, 2 story and base, frame, \$7,500. Architect, W. H. Ratcliff, Jr., First National Bank Bldg., Berkeley. Owner, J. L. Langdon. Will contain eight rooms, two baths and sleeping porches. Plans complete and figures being taken.

OAK KNOLL, LOS ANGELES CO., CAL.—Residence, 2 story and base, frame, \$20,000. Architect, Myron Hunt,

Hibernian Bldg., L. A. Owner, Samuel F. Fertig. Will contain thirteen rooms, three baths, conservatory and sleeping porches. Separate garage. Plans being prepared.

Contracts Awarded

PASADENA, LOS ANGELES CO., CAL.—Residence, 2 story and base, hollow tile, \$30,000. Architects, Marston & Van Pelt, Chamber of Commerce Bldg., Pasadena. Owner, A. L. Gorfod. Location, Hillcrest avenue. Will contain sixteen rooms, five baths and sleeping porches. Separate garage. Contract awarded to W. A. Taylor, 305 Elizabeth street, Pasadena. Contract price, \$30,000.

PORTLAND, ORE.—Residence, 3 story and base, frame and brick. Cost not stated. Architects, Lawrence & Hafford, Chamber of Commerce Bldg., Portland. Owner, Mr. and Mrs. Sherman Hall. Contractor, C. H. Pape. Contract price not stated.

SCHOOLS

SEATTLE, WASH.—School, 2 story and base, brick and concrete, \$70,000. Architect, Edgar Blair, 1426 Jackson street, Seattle. Owners, City of Seattle. Syllensen & Sando, Downs Bldg., Seattle, were low on the general contract for the addition to the Madrona School at \$53,549. D. H. King low on heating at \$10,825, and Whipple & Co. low on plumbing at \$7,110.

SAN FRANCISCO—School, 1 story and base, frame, \$45,000. Architect, Arthur G. Scholz, Phelan Bldg., S. F. Owners, City and County of San Francisco. Location, Parkside District. Will contain eight class rooms and an auditorium. Plans being prepared.

PLACERVILLE, EL DORADO CO., CAL.—Schools, 2, 1 story, hollow tile, \$27,000 and \$3,000. Architects, N. W. Sexton & Co., Merchants' National Bank Bldg., S. F. Owners, Town of Placerville. Plans complete and figures being taken.

LOWRY SCHOOL DISTRICT, TEHAMA CO., CAL.—School, 1 story, frame. Cost not stated. Architect, none. Owners, Lowry School District. Will contain two class rooms. Plans complete and figures to be opened on August 23rd. Plans on file at County Superintendent of Schools, Red Bluff.

VISALIA, TULARE CO., CAL.—School, 1 story and base, brick. Cost not stated. Architects, Swartz & Swartz, Rowell Bldg., Fresno. Owners, City of Visalia. All bids received for this building were in excess of the amount available and were taken under advisement. D. B. Day, Woodlake, presented the lowest figures at \$14,057.

SAN JOSE, SANTA CLARA CO., CAL.—School additions, 2, 1 story, frame and concrete. Cost not stated. Architect, William Binder, Rea Bldg., San Jose. Owners, City of San Jose. Plans complete and figures being taken. Bids close on August 28th. Plans from architect.

SAN MATEO, SAN MATEO CO., CAL.—School, 1 and 2 story and base, reinforced concrete, \$40,000. Architect, Will H. Toejeke, 46 Kearny street, S. F. Owners, City of San Mateo. Preliminary plans for a manual training department to be erected at the San Mateo High School have been prepared. Construction depends on the people of the district voting bonds.

PLACERVILLE, SAN BERNARDINO CO., CAL.—School, 1 story and base, reinforced concrete, \$23,775. Architects, Lester H. Hibbard and H. B. Goss, Wash-Strong Bldg., L. A. Owners, Placerville Union High School District. E. O. Engstrom Co., 5th and 7th streets, L. A., presented the lowest figures for this work and will be awarded the contract.

Contracts Awarded

BERKELEY, ALAMEDA CO., CAL.—College building, 1 story and base, brick. Construction. Cost as follows. Architect, John Galen Howard, 601 Mission street, S. F. Owners, Regents of the University of California. The following contracts have been awarded in connection with the construction of Hilgard Hall to be erected on the University Campus at Berkeley. Excavating and concrete work to Sound Construction and Engineering Co., Heintz Bldg., S. F., \$106,185. Exterior finish to Paul E. Denivelle, 524 Post street, S. F., \$27,300. Roofing and sheet metal to Forderer Corbin Works, 260 Potrero avenue, S. F., \$10,750. Interior furring, lathing and plastering to Knowles & Mathewson, Call-Post Bldg., S. F., \$25,669. Plumbing to Scott Co., 243 Minna street, S. F., \$9,640. Heating and ventilating to Scott Co., 243 Minna street, S. F., \$46,660. Electric work to McKell Electric Co., 223 Minna street, S. F., for \$11,653. Acoustic felt to H. W. Johns-Manville Co., 2nd and Howard streets, S. F., both Hilgard Hall and Chemistry building, \$2,675. With the exception of the contract for the acoustic felt no contracts have been awarded on the Chemistry building.

WASCO, KERN CO., CAL.—School, 1 story and base, Class C construction, \$41,000. Architect, Ernest J. Kump, Rowell Bldg., Fresno. Owners, City of Wasco. Contractors, Ward & Goodwin, 110 Jessie street, S. F. Contract price, \$41,000.

PORT ANGELES, WASH.—School, 1 story and base, brick, \$16,590. Architects, Stephen & Stephen, New York Bldg., Seattle. Owners, Chimaucum School District. Contractor, W. T. Sehrs, Port Angeles. Contract price, \$16,590.

SEWERS, STREET WORK & WATER SYSTEMS

SALINAS, MONTEREY CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Salinas. Owners, City of Salinas. Bids will be opened on August 21st for the improvement of Riker street from Alisal street to its termination at the south line of the Jorgensen property, by grading and constructing a waste rock surface, together with concrete curbs and gutters along both sides of the roadway.

FAIRFIELD, SOLANO CO., CAL.—Highway improvements. Cost not stated. Engineer, County Surveyor, Fairfield. Owners, Solano County. The County Clerk was directed to advertise for bids for traveling a part of Road 179, District 4, the specifications having been adopted. The bids will be opened on September 5th at 11 o'clock.

VENTURA, VENTURA CO., CAL.—Highway improvement, \$31,026.40. Engineer, County Surveyor, Ventura. Owners, Ventura County. Andrew Holloway, Pasadena, was the lowest bidder at \$31,026.40 for grading and paving approximately 8.77 miles of 16-foot roadway with 4-inch concrete on Division 7, Santa Clara River to Sonis road. Bids were taken under advisement.

HERMOSA BEACH, LOS ANGELES CO., CAL.—Disposal plant. Cost not stated. Engineer, C. R. Summer, Hermosa Beach. Owners, City of Hermosa Beach. Bids will be advertised for about October 15th for the construction of a sewage disposal plant. This improvement will consist of two 100-gallon compressed air sewage ejectors and compressors and electric motors, which will be required to raise 200 gallons of raw sewage per minute against a static head of 12 feet and through an 8-inch cast iron force main 1,800 feet long to the treatment plant.

SACRAMENTO, CAL.—Road construction. Cost not stated. Engineer, County Surveyor, Sacramento. Owners, Sacramento County. Owing to the absence of any bids on the work, Supervisor J. A. Russell was instructed to proceed with the improvement of a stretch of county road leading to Folsom Prison. The work has been advertised, but no bids were submitted.

TRACY, SAN JOAQUIN CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, Tracy. Owners, City of Tracy. Plans and specifications for the grading and graveling of 9th and 10th streets, also portions of 7th, 8th, A, B, C, D, E, and F streets were adopted and bids for doing the work have been asked for and will be opened August 17th at 8:30 p. m.

PLACERVILLE, EL DORADO CO., CAL.—Furnishing cement. Cost not stated. Engineer, City Engineer, Placerville. Owners, City of Placerville. Bids will be received on August 19th at 9 p. m. for furnishing cement to be used during the construction of street improvements.

PLACERVILLE, EL DORADO CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Placerville. Bids will be opened on August 19th for paving the main street from west to the east city limits. All bids are to be compared on the basis of the engineer's estimate of the quantity of work to be done as follows: (1) 5,280 cubic yards of grading (excavation and filling); (2) 2,532 cubic yards of concrete (foundation); (3) 6,200 cubic yards of concrete (parapet, walls, culverts); (4) 182,400 square feet of sheet asphalt wearing surface; (5) 182,400 square feet of asphalt macadam wearing surface; (6) 182,400 square feet of bituminous mastic wearing surface; (7) 182,400 square feet of Topoka sheet asphalt wearing surface; (8) 157,328 square feet of roadmud and screening wearing surface; (9) 157,328 square feet of bituminous wearing surface; (10) 157,328 square feet of asphaltic oil and screening wearing surface; (11) 1,820 square feet of basal block pavement.

PLACERVILLE, EL DORADO CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Placerville. Owners, City of Placerville. Bids will be opened on August 19th for constructing concrete curbs,

gutters and round corners, constructing manholes and gutter drains and constructing drainage sewers and concrete culverts. All bids are to be compared on the basis of the engineer's estimate of the quantity of work to be done as follows: (1) 110 linear feet of concrete gutter alone; (2) 130 linear feet of concrete gutter alone; (3) 150 linear feet of curb and gutter combined; (4) 30 linear feet of curb reconstructed; (5) 130 linear feet of curb and gutter reconstructed; (6) 1,095 linear feet of gutter reconstructed; (7) 50 linear feet of 6-inch sewer pipe constructed in place; (8) 25 linear feet of 8-inch sewer pipe constructed in place; (9) 175 linear feet of 10-inch sewer pipe constructed in place; (10) 3 concrete manholes completed; (11) 113 linear feet of concrete culvert for approaches at street intersections and buildings; (12) 16 cast iron gutter drains constructed in place; (13) 335 cubic feet of reinforced concrete; (14) 1,650 pounds reinforcing steel.

FRESNO, FRESNO CO., CAL.—Sanitary sewer. Cost not stated. Engineer, City Engineer, Fresno. Owners, City of Fresno. Bids will be opened on September 5th for the construction of a complete new sanitary sewer system. Plans on file at office of City Engineer.

FRESNO, FRESNO CO., CAL.—Lighting system, \$9,100. Engineer, City Engineer, Fresno. Owners, City of Fresno. All bids received for furnishing and installing ornamental light standards and a conduit system in Courthouse Park have been rejected. The lowest bid was for \$13,967, while the estimated cost was \$9,100. What action is to be taken is not stated.

FOWLDER, FRESNO CO., CAL.—Street paving. Cost not stated. Engineer, Jensen, Fresno. Owners, City of Fowler. The City Council at its last meeting adopted plans and specifications for the paving of 8th street, which is the missing link in the state highway. Two resolutions were passed leading up to the advertising for bids. In order to hurry things along the board will meet shortly to dispose of some matters regarding the highway and the call for bids will probably be made at that time.

OROVILLE, BUTTE CO., CAL.—Road construction. Cost not stated. Engineer, County Surveyor M. C. Polk, Oroville. Owners, Butte County. The bid of J. L. Mery for the construction of a road into the rice district has been rejected by the Board of Supervisors. Mery's bid for this work was \$7,700. He informed the County Surveyor that the work could be done for about \$1,000 less than his bid and the action of the Supervisors followed. New bids will be called for and will be opened on August 25th.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on August 22nd for street improvements authorized under the following resolutions: That the alley next west of Sherman avenue from V street to Upper Stockton road, and the alley south of Mier & Sowell's High School Tract from Sherman avenue to 34th street be improved by excavating a trench and constructing therein an 8 and 10-inch, vitrified, ironstone pipe sewer, constructing five concrete man-

holes and placing two flusher branches; placing 6-inch, vitrified, ironstone Y branches and 10 and 8-inch, vitrified, ironstone pipe sewer; backfilling all trenches.

That the alley between L and M streets from 14th to 5th street be improved by constructing 492 linear feet of concrete curb wall; constructing one concrete catch basin; reconstructing one concrete manhole; placing six linear feet of 8-inch, vitrified, ironstone sewer pipe drain; grading the alley and constructing thereon an asphaltic pavement, consisting of an asphaltic macadam foundation 3 inches thick, and a sheet asphalt wearing surface 1½ inches thick.

That 37th street from Park avenue to 7th avenue be improved by excavating a trench and constructing 8, 10 and 24-inch, vitrified, ironstone pipe sewer, backfilling all trenches, and construct four concrete manholes complete with cast iron curbs and covers.

That Branch avenue from J street to a point 566 feet north therefrom be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer with twenty 6-inch, vitrified, ironstone Y branches; one concrete manhole complete; placing one 6-inch flusher branch complete, and backfilling the trench.

That 41st street from F street to the alley between G and H streets be improved by excavating a trench and constructing therein 8 and 10-inch, vitrified, ironstone pipe sewer, backfilling the trenches and constructing two concrete manholes complete with cast iron curbs and covers.

STOCKTON, SAN JOAQUIN CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Stockton. Owners, City of Stockton. Bids will be opened on August 22nd for street improvements authorized under the following resolutions: That Scotts avenue from Lincoln street to Monroe street; Van Buren street from Taylor street to Hazelton avenue; Monroe street from Taylor street to Hazelton avenue, be improved by grading, curbing and guttering with combined concrete curb and gutter: curb 6 inches wide and 13 inches deep, and the gutter 24 inches wide and 6 inches thick. Paving the roadway of each street with asphalt concrete 4 inches thick after rolling on a base of gravel of a cementing nature 2 inches thick after rolling. The asphalt concrete shall consist of two layers, a base layer of 2½ inches thick after rolling and a wearing surface 1½ inches thick after rolling. The 2½-inch layer shall be composed of asphaltic cement, sand, gravel or crushed rock and screenings proportioned in such quantities as will give a compact and homogeneous concrete. The 1½-inch layer shall be composed of asphaltic cement, sand, gravel or crushed rock and stone dust mixed according to the Topoka Specifications.

SAN RAFAEL, MARIN CO., CAL.—Street paving. Cost as follows. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. The City Council has agreed to have two blocks of Western Roadside asphalt pavement placed on G street between West End Station and 5th avenue, as an experiment. The following bids were received for doing the work: Western Motor Paving Co., 144 Church street, S. P., 2½c a foot; A. H. Kopperud, 2030

High street, Oakland, 2c a foot. Bids were referred to the City Manager.

SAN RAFAEL, MARIN CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. Bids will be opened on August 28th for street paving authorized under the following resolution: That a concrete sidewalk 5 feet wide be laid along the following named streets, to wit: On the west side of Grant avenue between 4th and Watt avenue; north side of 1st between Shaver and Hayes streets; west side of Shaver avenue between 1st and Minne streets; south side of Bay View street between C and D streets; north side of Frances street between D and E streets; east side of E street between 1st and 2nd streets; east side of Grand avenue between Highland and Acacia avenue.

BERKELEY, ALAMEDA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on August 22nd for street improvements authorized under the following resolutions: That the west half of Franklin street from Delaware street distant 100.15 feet south be regraded; a redwood curb be constructed; concrete gutter 3 feet wide and the remainder of the roadway be macadamized.

That a 6-inch, vitrified, ironstone pipe sewer be constructed along Walnut street from Eunice street northerly, also abrick manhole four feet in diameter and 4-inch, vitrified ironstone pipe Y branches.

That a cement sidewalk 6 feet wide be constructed in the east sidewalk area of San Pablo avenue from University avenue to Delaware street, north sidewalk area of University avenue from San Pablo avenue to Curtis street, and the north sidewalk area of University avenue from West street to Action street, except where already done.

SALINAS, MONTEREY CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Salinas. Owners, City of Salinas. Bids will be opened on August 21st for grading the roadway and constructing thereon a hydraulic cement concrete base with a two-course asphaltic and screening surface with concrete curbs.

Contracts Awarded.

STOCKTON, SAN JOAQUIN CO., CAL.—Street paving, \$31,949.81. Engineer, City Engineer, Stockton. Owners, City of Stockton. Contractors, Federal Construction Co., Sharon Bldg., S. E. Contract price, \$31,949.81. Engineer's estimate \$32,319.80.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been let under the following resolutions: That Sacramento avenue from the south line of Y street to the north line of Magnolia avenue be improved by constructing concrete curb, concrete gutter, placing 6-foot cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; two concrete manholes and 6 and 8-inch, vitrified, ironstone sewer pipe drains; grading the space between the property line and curb, constructing concrete sidewalk; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a

hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface. Awarded to Clark & Henery Construction Co., Ochsner Bldg., Sacramento.

That Y street from the east line of 30th street to the east line of 31st street be improved by constructing concrete curb, concrete gutter, placing two cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; 6-inch, vitrified, ironstone sewer pipe drains; grading the space between the property lines and curb; constructing concrete sidewalk; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick. Awarded to Clark & Henery Construction Co., Ochsner Bldg., Sacramento.

That 12th street from the north line of R street to the north line of W street be improved by reconstructing three concrete manholes and four concrete catch basins, grading the roadway, and constructing thereon an asphaltic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick. Awarded to A. Teichert & Son, Ochsner Bldg., Sacramento.

SOUTH SAN FRANCISCO—Street improvements, \$19,597.55. Engineer City Engineer, South San Francisco. Owners, South San Francisco. Contractors, City Street Improvement Co., 166 Geary street, S. F. Contract price, \$19,597.55.

OAKLAND, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. M. P. Canbar, 1041 91st avenue, Oakland, has been awarded a contract for the following street improvement: The construction of a sewer having an internal diameter of 8 inches along the center line of 9th street from Fallon street to a point distant 237 feet westerly therefrom, along said center line of 9th street; also a brick manhole, a lamphole and Y branches. Said sewer, Y branches and lampholes (excepting the top thereof) shall be constructed of vitrified sewer pipe.

VISALIA, TULARE CO., CAL.—Street improvement. Cost as follows. Engineer, City Engineer, Visalia. The Federal Construction Co., Sharon Bldg., S. E. has been awarded a contract at 12c per square foot for paving South Garden street.

SAN JOSE, SANTA CLARA CO., CAL.—Sewer construction, \$6,633. Engineer, City Engineer, San Jose. Owners, City of San Jose. Contractor, W. P. Edwards, San Jose. Contract price, \$6,633.

HANFORD, KINGS CO., CAL.—Highway construction, \$100,000. Engineer, County Surveyor, Hanford. Owners, Kings County. Contractors, Thompson Bros., Fresno. Contract covers the construction of 17½ miles of county highway. Contract price, \$58,875.18, the county to furnish all materials.

WOODLAND, YOLO CO., CAL.—Road construction. Cost as follows. Engineer, County Surveyor, Woodland. Owners, Yolo County. Contractors, Clarke & Henery, Ochsner Bldg., Sac-

ramento. Contract price 12½c per square foot.

SALINAS, MONTEREY CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Salinas. Owners, City of Salinas. Contractor, W. A. Pontanville, Salinas. Contract price not stated.

BAKERSFIELD, KERN CO., CAL.—Highway improvements. Cost as follows. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Bids were opened by the Board of Supervisors for the paving of two pieces of roadway, one a two-mile stretch on the Bellevue road and the other on the Bakersfield-Glenville road. The contract for the paving of a section of Bellevue road was awarded to Castro & Haisdel, Bakersfield, for the sum of 68c per foot for asphaltic wearing surface. The contract for the construction of Glenville road was awarded to Benson & Sons, Kingsburg on a bid of \$10,223.98.

BERKELEY, ALAMEDA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Contracts for street improvements have been awarded under the following resolutions: That portions of the north half of the roadway of Durant avenue be graded; concrete curbs and gutters be constructed along the curb lines adjacent to said portions of the roadway; and the remainder of said portions of the roadway be paved with asphaltic wearing surface 2 inches thick laid on concrete base 5 inches thick. Awarded to the Oakland Paving Co., 50600 Broadway, Oakland.

That the south half of concrete culvert 6x6 feet inside dimensions and 125 feet long be constructed in Codornices Creek across Ordway street, and that earth fill be made in said street south of the north boundary line of the city of Berkeley. Awarded to Michael Heafey, 2320 McKinley avenue, Berkeley.

LOS ANGELES, CAL.—Street improvements, \$37,967.22. Engineer, City Engineer, Los Angeles. Owners, City of Los Angeles. Contractors, Fairchild Gilmore-Wilton Co., 607 South Main street, L. A. Contract price, \$37,967.22. The same contractors have also been awarded another contract for \$10,977.55.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That the alley between B street and C street from 12th street to 13th street be improved by constructing one concrete catch basin complete, 500 linear feet of concrete curb wall, 8 linear feet of 8-inch, vitrified, ironstone sewer pipe drain connecting catch basin to sewer, grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to McElvray Construction Co., 717 Capitol Bank Bldg., Sacramento.

That the alley between E street and F street from 12th street to 13th street be improved by constructing two concrete catch basins complete, placing 1½ linear feet of 8-inch, vitrified, ironstone sewer pipe drains connecting catch basins to sewer; grading the

alley and constructing thereon an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to the McGilivray Construction Co., 517 Capitol Bank Bldg., Sacramento.

That the alley between 1 and J streets from 13th to 14th streets be improved by constructing a concrete retaining wall on both sides of the alley from the east line of 13th street to the west line of 14th street, grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to the McGilivray Construction Co.

STORES AND OFFICES

SAN FRANCISCO—Offices, 3 story and base. Class A construction. Cost not stated. Architect, Frederick H. Meyers. Bankers, Investment Bldg., S. F. Owners, Union Iron Works. Location, 20th and Illinois. Will contain executive offices of the owners. Plans being prepared.

SAN FRANCISCO—Stores, 1 story and base, brick, \$21,400. Architect, none. Owner, O. H. Curtaz, 519 Hayes street, S. F. Location, southeast Golden Gate avenue and Leavenworth, covering an area of 2½ by 100 feet. Will contain four stores. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Stores and offices, 6 story and base, reinforced concrete, \$75,000. Architect, Kenneth MacDonalld, Holbrook Bldg., S. F. Owner, John A. Hooper. Location, west Battery north of Pine. HOLLISTER, SAN BENITO CO., CAL.—Department store, 2 story and base, reinforced concrete, \$10,000 to \$50,000. Architect, William Binder, Rea Bldg., San Jose. Owners, Grangers' Union. Will cover an area of 140 by 100 feet. Plans being prepared.

SAN ANSELMO, MARIN CO., CAL.—Store, 1 story, brick. Cost not stated. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner's name withheld. Will contain two small stores. Revised plans complete and figures being taken.

Contracts Awarded.

SAN FRANCISCO—Stores and offices, 10 story and base. Class A construction, \$1,750,000. Architects, Bliss & Faville, Balboa Bldg., S. F. Owners, Southern Pacific Co. Contractors, Lindgren Co., Monadnock Bldg., S. F. Contract price not stated. Contractors will take subfigures on all parts of the work.

SEATTLE, WASH.—Stores and lofts, 2 story and base, brick, \$25,000. Architect, J. L. McCauley, New York Bldg., Seattle. Owners, Palmer Heat and Power Co. Contractors, Jenkins & Jones, Transportation Bldg., Seattle. Contract price, \$35,000.

THEATRES

AUBURN, WASH.—Theatre and lodge hall, 3 story and base, brick, \$27,000. Architect, Frances W. Grant, Melhorn Bldg., Seattle. Owner's name withheld. Will cover an area of 30 by 120

feet. Theatre to seat 600 people. Plans ready for figures within ten days.

SEALED PROPOSALS

NOTICE TO BIDDERS.

SAN FRANCISCO Q. M. SCHEDULED—Office of the Depot Quartermaster, U. S. Army, San Francisco, Cal.—Sealed proposals will be received here until **August 15, 1916**, under schedule 44 for furnishing 27 belly bands, 50 saddle blankets, 2,000 stove bolts, 24 cut braces, 36 floor brushes, 24 stenciled brushes, 2,000 yards hurlap, 600 ash cans, 216 squirt cans, 20,000 index cards, 48 water coolers, 50 pounds patent drier, 264 pipe fittings, galvanized 28 manure forks, 200 pounds graphite, 18 pairs wood hames, 200 dozen mop handles, 60 dozen broom handles, 48 single sets harness, 18 hatchets, 48 dozen garden hoses, 48 dozen hooks and staples, 150 pounds Norway iron, 200 square feet cushion leather, 4,500 pounds harness leather, 50 pounds copgallons anti-freezing oil, 36 padlocks, 200 pounds burnt sienna, 200 pounds lamplack, 26 aluminum egg pans, 26 reams foolscap paper, 3 wrench jaws, 6 frames for wrenches, 25 pounds joint waste, 21 ice picks, 66 dozen garden rakes, 400 pounds rivets and burrs, 1,100 pounds ratline, 50 pounds screwdrivers, 48 horse or mule shears, 21 tinners' shears, 6 typewriter stands, 200 pounds pumice, 55 harness straps, 1,008 papers backs, 50 pounds flax thread, 150 pounds sheet thread, 200 pounds baling or sacking twine, 500 pounds cotton twine, 500 pounds jute twine, 50 gallons coach varnish, 600 pounds hose washers and 1 monkey wrench. For further information address JOHN T. KNIGHT, colonel, quartermaster corps, U. S. Army, depot quartermaster.

PROPOSALS FOR MAIL-HANDLING DEVICE.

MAIL-HANDLING DEVICE—Treasury Department, Supervising Architect's office, Washington, D. C.—Sealed proposals will be opened in this office at **3 p. m., October 2, 1916**, for mail-handling devices, etc., in the U. S. post office at Denver, Colo., in accordance with specification and drawing, copies of which may be obtained at this office, in the discretion of the supervising architect, JAMES A. WETMORE, acting supervising architect.

PROPOSALS FOR PIPE LINE.

PIPE LINE—Sealed proposals, in accordance with "Proposals for Pipe Line" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m., August 26, 1916**, and then and the public will be invited to bid for a 1-inch flexible joint submerged pipe line at the naval training station, San Francisco, Cal. Plans and specification can be obtained on application to the bureau or to the commandant of the navy yard, Mare Island, Cal. F. R. HARRIS, chief of bureau.

CALL FOR BIDS.

NOTICE IS HEREBY GIVEN that the Board of Trustees of Crystal School District will receive sealed bids for the furnishing of 470 seats for the new auditorium of said Crystal School District at Sulson, Cal.

Said bids must be delivered to the undersigned on or before **August 17, 1916, at 7 o'clock p. m., at my office in Sulson, Cal.**

The bids shall include delivery and installation according to plans.

The Board reserves the right to reject any or all bids.

J. A. WILSON,
Clerk of Board of Trustees. (P)

PROPOSALS FOR CANAL WORK.

CANAL WORK—Department of the Interior, United States Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Powell, Wyo., until **2 o'clock p. m., August 18, 1916**, for the construction of canals on the Shoshone project, Wyoming, involving about 572,000 cubic yards of excavation. The work is located near the stations of Mantua

and Framme, Wyo., on the C. B. & Q. Railroad. For particulars address the United States Reclamation Service, Washington, D. C., or Denver, Colo., or Powell, Wyo. **WILL R. KING**, acting director.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1065—Proposals for Cold-rolled Steel, Chain, Wire, Ladles, Manganes, Steel Castings, Bolts, Rivets, Nuts, Lag Screws, Washers, Cast-Iron Pipe and Fittings, Lead Pipe and Fittings, Brass Fittings, Brass Pipe, Fittings, Showers, Heads, Cocks, Engine Lubricators, Door and Window Hardware, Oil-Burning Boilers, Laundry Machinery, Steel Lockers, Steam Tables, Food-Serve Wagon, Chairs, Dressers, Floor and Wall Tile, Porcelain Glasses, Detonators, Index Cards, Manila Folders, and Manufacturing Books.—Sealed proposals will be received at this office of the general purchasing officer, the Panama Canal, Washington, D. C., until **10:30 a. m., August 18, 1916**, at which time they will be opened in public, furnishing the above mentioned articles. Blanks and general information relating to this circular (C. 1065) may be obtained from this office or the offices of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash., Los Angeles, Cal.; F. A. BROWN, major, corps of engineers, U. S. A., general purchasing officer.

PROPOSALS FOR ICE PLANT.

ICE PLANT—Sealed proposals, in accordance with "Proposals for Ice-making and Cold-storage Plant," will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m., September 1, 1916**, and the public will be invited to bid for an ice-making and cold-storage plant for the U. S. marine barracks, Pekin, China. Plan and specification may be obtained at this office or the bureau. F. R. HARRIS, chief of bureau.

COMPETITION ANNOUNCEMENT.

The Board of Control of the State of California announces to the architects of California:

That the people of California have authorized the issuance of bonds to the amount of \$1,000,000 for the purpose of conducting a competition for the construction, furnishing and equipping the San Francisco State Building to be located on the Civic Center in the City and County of San Francisco, California, and that these bonds have been sold and the money is now available; that the Board of Control has instituted a competition for the selection of an architect to design and supervise the construction of this building.

Section No. 11 of the Department of Engineering law of the State of California, which empowers the Board of Control to institute this competition, provides that the State Architect shall act as architectural advisor in connection therewith.

The competition will be conducted in two stages and is confined to California. The first stage is open to all certified architects of the State of California, who have had the necessary experience, subject to the conditions prescribed in the Program of the competition.

The second stage will be open only to eight architects selected by the Jury from those competing in the first stage.

No competitor shall receive any remuneration and no choice by the Jury and submitting drawings in the second stage. The program for this competition is approved by the San Francisco Sub-Committee on Competitions of the American Institute of Architects.

Architects desiring to compete must file with George B. McDonald, State Architect, Building Department, Sacramento, California, a written request for a copy of the program. On September 1, 1916, copies will be mailed simultaneously to all architects from whom written requests for same have been received. Copies will be mailed to architects making written request for same after September 1st, at the discretion of the receipt of such later requests.

BOARD OF CONTROL OF THE STATE OF CALIFORNIA.
[SIGNED]

JOHN FRANCIS NEYLAN, Chairman
PAUL HEIKRIOTT
FREEMAN H. BLOODGOOD
Members of Board of Control.
P. J. TEHANEY, Secretary.
Dated, August 15, 1916. *

DEPARTMENT OF ENGINEERING.
CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M. on August 21, 1916, at which time they will be publicly opened and read for construction in accordance with the specifications therefor, to which special reference is made. A portion of State highway as follows:

Santa Barbara County, across the Santa Ynez River (V-S, B-2-19), a bridge comprising five through steel spans, each 162 feet long, with timber trestle and earth fill approaches.

Plans may be seen, and forms of proposals, bond, contract and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles, San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers offices are located at Williams, Dumair, Sacramento, San Francisco, San Luis Obispo, Fresno, and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal for full directions as to bidding, quantities of work to be done, etc.

The Department of Engineering reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

CHARLES D. BLANEY,
NEWELL D. DARLINGTON,
CHARLES F. STERN,
California Highway Commission.
AUSTIN B. FLETCHER,
Highway Engineer,
WILSON R. ELIAS, Secretary. (*)
Dated: July 21, 1916.

THE PROPOSED FIFTEEN MILLION DOLLAR HIGHWAY BOND ISSUE.

By Chalmers Munday.

The Fifth issue of the California Highway Bulletin, published in July last, prints a comprehensive map of the State, in which the Highways that have been constructed and are being constructed, and the routes that have been surveyed are well delineated. It shows the great trunk lines of road that now connect the vast distances of the north and south, the laterals that are proposed, the bridges constructed, and the grades that have been eliminated and distances in miles that have been shortened.

Two hundred thousand automobile owners in the State of California alone appreciate this great work, not to mention the producer in every field of the State's most wonderful and varied resources. For good roads are the first and most important consideration in all material progress. And money judiciously spent in the construction and upkeep of public highways does more good to the people of the State than in any other branch of improvement.

Statistics are not ordinarily interesting, but they sometimes relate facts in a more concise manner than any language can tell. Here are some figures printed from the books of the Highway Commission:

Miles of road surveyed..... 2,250
Miles way secured..... 1,705

Acres of right of way secured.....	13,327
Miles of Highway Constructed:	
Oiled macadam.....	129
Concrete pavement.....	933
Asphalt.....	33
Graded.....	395

Total.....1490
Miles of roads paved by counties and taken over, improved, and maintained by the State.....108

In addition to the foregoing the following facts of construction are set forth:

11,750,000 cubic yards of earth and rock moved at an average cost of 38 cents.

8,750,000 square yards concrete pavement laid at average cost of 7 1/2 cents.

1,000,000 cubic yards concrete pavement laid at average cost of \$6.64.

112 grade crossings eliminated.

200 miles saved on the trunk lines.

442 bridges secured from counties of aggregate value of \$3,350,000.

Altogether the books of the Highway Commission show a balance of about \$1,900,000 on hand, all of which will be needed to complete the roads now in course of construction. Of the money spent 87 1/2 cents of every dollar went into the roads in materials bought and contracts let under keen competition. This is a good record and has placed California at the head of all the States in the good roads movement. And the present administration has something to be proud of in the manner in which this fund has been used in efficient construction work.

The proposed 15 million bond issue is to provide funds for completing these great trunk lines of highway that connect the vast interests and widely separated districts of the State. Distances have been marvelously shortened. Mountain barriers have been cleared away. Every body has a common right in every mile of the roadway. There is yet much to be done. Already the Highway engineers have mapped out the work to be done with the funds that may be provided and detailed estimates of costs have already been figured. With the precedent that has been set in the expenditure of the 18 millions and the experience that has been gained in road construction it is impossible for the Commission to go far wrong in the expenditure of the money under the proposed issue. Everybody's roads are everybody's business and every voter should read the report of the Highway Commission, and if he is satisfied with the result he should see that the 15 million dollar bond issue is provided at the coming election.

General Contractors Association
Endorse San Francisco And
Oakland Bridge.

At the meeting of the stockholders of the General Contractors Association held on Tuesday evening, August 10th, the following resolution supporting the construction of the San Francisco-Oakland Bridge, was unanimously adopted:

WHEREAS, the growth and development of San Francisco has been retarded by a lack of rapid transportation facilities across the Bay of San

Francisco to the City of Oakland and neighboring cities, and the commercial needs of the community are such as to absolutely require the construction of a suitable bridge across said Bay, and WHEREAS, the existing ferry system now operating at right angles to the shipping routes are obsolete and a bridge can be made to pay for itself.

THEREFORE, BE IT RESOLVED, that this Association favors the construction of a suitable bridge across the Bay of San Francisco capable of uniting the Cities of San Francisco and Oakland with a means of rapid transit for passenger trains, street cars, automobiles, wagons, foot passengers and all army supplies.

FURTHER RESOLVED, that a copy of this resolution be forwarded to the War Department of the United States at Washington, D. C., and to such civic officials and organizations as might be interested.

The Association proposes to be represented by a large delegation at the public hearing before officials of the War Department which is to be held on Tuesday morning, August 15th, at 10 o'clock, A. M. Messrs. Chas. W. Gompertz, C. M. Moore and Frank P. Lansing were appointed by the President as a special committee to secure the co-operation of the membership in attending this public hearing.

LINDGREN & CO. SECURE
BIG S. P. CONTRACT.

Well Known Firm Wins Out In Competition With Eastern Contractors For Railroad Building.

An official announcement was made yesterday in the offices of the Southern Pacific Company to the effect that a contract covering the entire construction of the Southern Pacific Building was given to Lindgren & Co., Monadnock Bldg. While no information as to the amount of the contract was given it is generally understood that the cost of the work will exceed \$1,500,000.

Lindgren & Co. is one of the oldest and best known construction firms in San Francisco and has been in charge of some of the largest and best known buildings erected in the city. Competition for the Southern Pacific contract was keen and included, not only all of the large local builders, but at least one Eastern firm. The report that a local firm had secured the big job was received with much satisfaction in building circles.

The Southern Pacific Building was designed by Architects Bliss & Paville and will be a ten-story and basement Class "A" structure occupying the entire Market street frontage between Steuart and Spear streets, 275 feet and extending back a distance of 209 feet. With the exception of a ticket office, mailing room and information bureau, the main floor will be rented to stores. Some sixty-six offices on the second floor will also be rented, the balance of the building being occupied by the owners. When completed the building will be the largest structure west of Chicago.

Construction will be started as soon as possible and will be finished in the fall of 1917.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

SUBMERGED PIPE LINE. Cost not stated. San Francisco, Engineer, Bureau of Yards and Docks, Washington, D. C. Owners, United States Government. Pipe Line No. 3475. Sealed proposals will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until August 26, 1916, for furnishing 1-inch, flexible-joint, submerged pipe line of the naval training station, San Francisco, Cal. Plans and specifications may be obtained on application to the Bureau of Yards and Docks or to the Commandant of the Navy Yard, Mare Island, Cal.

MECHANICAL AND ELECTRICAL EQUIPMENT AND TUNNEL WORK. Cost not stated. San Francisco, Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Bids were opened by the Board of Public Works for mechanical and electrical equipment and for drifting tunnels at the Hetch Hetchy project. A complete list of these bids will be found under the heading of San Francisco.

RESIDENCE—2 story and base, frame, \$2,500. San Francisco, Architect, none. Owner, A. T. Morris, 501 11th avenue, S. F. Location, west 10th avenue south Balboa. Will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$10,000. San Francisco, Architects, Cunningham & Pollio, First National Bank Bldg., S. F. Owner, Philip Kohn. Location, west 10th avenue near Clement. Will contain ten rooms two baths and basement garage. Plans complete and figures being taken.

RESIDENCE—3 story and base, frame, \$20,000. San Francisco, Architects, Reid Bros., California-Pacific Bldg., S. F. Owner, J. R. Hamby. Location, north Vallejo east Divisadero. Will contain fourteen rooms, several baths and separate garage. Plans complete and segregated figures being taken.

RESIDENCES—1, 2 story and base, frame, \$3,000 each. San Francisco, Architect, none. Owner, C. L. Keenan, 20 Broderick street, S. F. Location, west Walnut north of Jackson. Each house will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

BRIDGE CABLES. Cost not stated. San Francisco, Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Bids will be opened on August 25th by the Board of Public Works for furnishing new cables for the Third street bridge.

RESIDENCES—2, 2 story and base, frame, \$5,250 each. San Francisco, Architect, none. Owner, W. W. Rednall, 2500 Filbert street, S. F. Location, north Filbert west of Baker. Each house will contain eight rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 2 story and base, frame, \$3,000. San Francisco, Architect, none. Owner, E. Ginley, 131 5th avenue, S. F. Location, southeast 20th avenue and California. Each house will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCES—4, 2 story and base, frame, \$2,000 each. San Francisco, Architects, E. P. Antonovich and H. E. Harris, Monadnock Bldg., S. F. Owners, Co-operative Home Builders, 1125 Fillmore street, S. F. Location, west Levant south Masonic. Each house will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco, Architect, none. Owners, Leigh & Schultz, 419 21st avenue, S. F. Location, east 15th avenue north of Judah. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE—1 story and base, Class C construction. Cost as follows. San Francisco, Architects, Faleh & Knoll, Heast Bldg., S. F. Owner, A. Kuffs. The following additional contracts have been awarded: Glass and glazing, Schwartz & Gottlieb, \$645; ornamental iron, Michel & Pfeffer, \$88; structural iron, Schrader Iron Works, \$695; elevator work, Otis Elevator Co., \$1625; electric work, American Electric Engineering Co., \$925. The owner is still taking figures on the plastering.

FLATS—2, 2 story and base, frame, \$5,000 each. San Francisco, Architect, none. Owner, Otto E. Anderson, 218 15th avenue, S. F. Location, east 17th north of Clement. Each will contain two flats of five and six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

FLATS—2 story and base, frame, \$10,000. San Francisco, Architect, Edward E. Young, 251 Kearny street, S. F. Owner, John Little, 1371 5th avenue, S. F. Location, west Steiner south Green. Will contain four flats of five, six and seven rooms, baths and basement garage. Plans complete and work to be done by Day Labor.

FLATS—2 story and base, frame, \$3,000. San Francisco, Architect, none. Owner, Lehnkeinen, 16th and Castro streets, S. F. Location, northwest Castro and State streets, covering an area of 25 by 61 feet. Will contain store on the first floor and four flats on the upper floor. Plans complete and work to be done by Day Labor.

FLATS—2 story and base, frame, \$3,000. San Francisco, Architect, none. Owner, D. J. Clancy, 284 Folsom street, S. F. Location, east 8th avenue south Lincoln Way. Will contain two flats of five and six rooms. Plans complete and work to be done by Day Labor.

HOSPITAL—3 story and base, reinforced concrete, \$150,000. San Francisco, Architect, Leo J. Devlin, Pacific Bldg., S. F. Owners, St. Joseph's Hospital. Location Buena Vista near 11th. Will contain both wards and private

rooms. Plans complete and figures being taken.

SCHOOL—1 and 2 story and base, frame, \$45,000. San Francisco, Architect, Arthur G. Scholz, Phelan Bldg., S. F. Owners, City and County of San Francisco. Location, Parkside District. Will contain eight class rooms and an auditorium. Plans being prepared.

OFFICES—3 story and base. Class A construction. Cost not stated. San Francisco, Architect, Frederick M. Meyers, Bankers' Investment Bldg., S. F. Owners, Union Iron Works. Location, 20th and Illinois. Will contain executive offices of the owners. Plans being prepared.

STORES—1 story and base, brick, \$21,100. San Francisco, Architect, none. Owner, C. H. Curtaz, 519 Hayes street, S. F. Location, southeast Golden Gate avenue and Leavenworth, covering an area of 82½ feet by 100 feet. Will contain four stores. Plans complete and work to be done by Day Labor.

STORES AND OFFICES—6 story and base, reinforced concrete, \$75,000. San Francisco, Architect, Kenneth MacDonald, Holbrook Bldg., S. F. Owner, John A. Hooper. Location, west Battery north of Pine. Will contain store on the first floor and lofts above. Contract for excavating and pumping awarded to Selby Grading and Teaming Co. Balance of the work out for segregated figures.

Contracts Awarded
STORES AND OFFICES—10 story and base. Class A construction, \$1,750,000. San Francisco, Architects, Bliss & Faville, Balboa Bldg., S. F. Owners, Southern Pacific Co., Contractors, Lindgren Co., Monadnock Bldg., S. F. Contract price not stated. Contractors will take subfigures on all parts of the work.

City Bids Opened.

San Francisco Board of Works Opens Figures for Considerable Work on Hetch-Hetchy Project.

Bids for considerable work in connection with the Hetch-Hetchy project were opened at the regular Wednesday meeting of the San Francisco Board of Public Works.

Bids for drifting tunnels for the Lower Cherry Aqueduct were taken on the basis of 950 feet; 750 feet; 1350 feet; 750 and 500 feet. The unit prices asked by each bidder for the different units were the same. Following is a list of the bids:

Drifting Tunnels.

T. J. Shea,	\$12.63
E. G. Fischer,	16.00
MacArthur Bros.	10.35
W. H. Bechtel,	14.75

Bids for furnishing hydraulic machinery and equipment for Hetch-Hetchy were opened as follows:

Hydraulic Machinery.

Pelton Water Wheel Co., \$18,814; \$18,700; \$18,900, \$16,250.

N. D. Phelps, \$32,500; \$32,700, \$31,700; \$29,300; \$30,500; \$28,500.

Bids for furnishing electric generator and exciters were submitted on the basis of both Westinghouse and General Electric Company's goods.

Electric Generators and Exciters.
Westinghouse Electric Co., No bid on first six propositions; balance as follows: \$7,635; \$729; \$7,225; \$657; \$5,683; \$732; \$4,610.

General Electric Co., \$5,815; \$519, \$6,075; \$549; \$5,990; \$549; \$4,611; \$179; \$4,857; \$479; \$4,743; \$479.

At the same meeting specifications were approved for furnishing approximately 800,000 wood paving blocks and bids were ordered advertised. Bids will be opened on August 23rd.

Specifications for cables for the Third Street Bridge were also approved, but no date was set for receiving figures.

F FOUR W WHEEL D DRIVE

Read Owners' Opinions:

Raymond, Cal., April 30, 1916.
Four Wheel Drive Truck Co.,
San Francisco, Cal.

Gentlemen:

Replying to your letter of inquiry asking for a statement regarding the service we are getting from our F-W-D Truck recently purchased from you, beg to advise that the truck is more of a success than I ever thought possible. I am hauling over a road that a 10-horse team can only pull $4\frac{1}{2}$ tons over, and takes five days to make the round trip. The truck makes a round trip in 14 hours, with $3\frac{1}{2}$ to 4 tons.

The whole country for miles around comes down to see the only truck that ever reached Wawona with four tons. The first load was 8,152½ pounds, for which I have a receipt from the Associated Gasoline people. Since then I have been making regular daily trips from Raymond.

The truck has replaced one 10-horse and two 4-horse teams on the road. If the truck continues to perform as well as it does now, there is not another

truck can come near it.

With best wishes, I beg to remain,

Yours very truly,

(Signed) D. A. LEWIS.

St. Paul, Minn., May 16, 1916.
Four Wheel Drive Auto Co.,
Clintonville, Wis.

We have used the F-W-D Truck nearly three years and feel that on rough roads and for hard usage nothing better is made. Truck has fulfilled all requirements and proven very satisfactory. HAMM BREWING CO.

Four Wheel Drive Auto Co.,
Clintonville, Wis.

Four years' experience with F-W-D Trucks. All give perfect satisfaction. Strongly recommend it over all others. Costs less to operate. Is dependable; most economical. We are operating successfully where W—, P—, and J— trucks failed. A. W. SHAW.

Four Wheel Drive Truck Co.

OAKLAND AND ALAMEDA COUNTY

STREET IMPROVEMENTS—Cost not stated. Oakland, Cal. Engineer, City Engineer, Oakland, Owners, City of Oakland. M. P. Cambar, 1041 91st avenue, Oakland, has been awarded a contract for the following street improvement. The construction of a sewer having an internal diameter of 8 inches along the center line of 9th street from Fallon street to a point distant 237 feet westerly therefrom, measured along said center line of 9th street; also a brick manhole, a lamphole and Y branches. Said sewer, Y branches and lampholes (excepting the top thereof) shall be constructed of vitrified sewer pipe.

STREET IMPROVEMENTS—Cost not stated. Berkeley, Alameda Co., Cal. Engineer, City Engineer, Berkeley, Owners, City of Berkeley. Bids will be opened on August 22nd for street improvements authorized under the following resolutions: That the west one-half of Franklin street from Delaware street distant 100.15 feet south be regraded, a redwood curb be constructed, concrete gutter 2 feet wide and the remainder of the roadway be macadamized.

That a 6-inch, vitrified, ironstone pipe sewer be constructed along Walnut street from Enicce street northerly, also a brick manhole 4 feet in diameter, and 4-inch, vitrified, ironstone pipe Y branches.

That a cement sidewalk 6 feet wide be constructed in the east sidewalk area of San Pablo avenue from University avenue to Delaware street; north sidewalk area of University avenue from San Pablo avenue to Curtis street, and the north sidewalk area of University avenue from West street to Action street, except where already done.

RESIDENCE—2 story and base, frame, \$5,000. Piedmont, Alameda Co., Cal. Architect, none. Owner, Mrs. E. Ross, 5801 Dover street, Oakland. Location, west Manor Drive north Bowie. Will contain nine rooms, two baths and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$12,000. Piedmont, Alameda Co., Cal. Architect, Albert Caldwell, Clunie Bldg. 8 1' Owner's name withheld. Will contain ten rooms, two baths and sleeping porch. Separate garage. Plans complete and figures being taken.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, M. L. Newsom, 1748 Broadway, Oakland. Owner, John P. Whalin. Location, Central avenue. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$3,000. Berkeley, Alameda Co., Cal. Architect, P. Holberg Reimers, 2125 Shattuck avenue, Berkeley. Owner, A. C. Lawson. Location, south Buena Vista avenue east La Loma. Will contain six rooms, bath and sleeping porch. Plans complete and work

to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, L. C. Pfarr, 1129 Emerald, Oakland. Location, east Park Boulevard north Hopkins. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,600. Oakland, Cal. Architect, none. Owner, I. Ariel Kellogg, 3404 Champion street, Oakland. Location, east Laguna avenue north of Montana. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 1 story and base, frame, \$2,500. Oakland, Cal. Architect Robert A. Hutchinson, 470 13th street, Oakland. Owner, Robert A. Hutchinson. Location, north Montana west of Curren. Each house will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owners, J. F. Chambers, Plaza Bldg., Oakland. Location, south Frisbie west Walsworth avenue. Will contain live rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$3,900. Oakland, Cal. Architect, M. L. Dicks, Syndicate Bldg., Oakland. Owners, Blake Bros., Syndicate Bldg., Oakland. Location, north Golden Gate avenue south Acacia. Will contain six rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$2,300. Oakland, Cal. Architect, none. Owner, Charles D. Hart, 615 22nd street, Oakland. Location, west Jean south Sunnyslope. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, A. Kellogg, 3404 Champion street, Oakland. Location, east Jean south Santa Clara. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$1,850. Oakland, Cal. Architect, A. W. Smith, 1010 Broadway, Oakland. Owner, G. Rossi, 192 Chetwood, Oakland. Location, northwest Euclid and Warwick. Will contain nine rooms, two baths and sleeping porches. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$2,800. Oakland, Cal. Architect, W. L. Broderick, 1201 Colusa avenue, Berkeley. Owner, Joseph Tichaty. Location, Piedmont Terrace by the Lake. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BAKERY—1 story, corrugated iron, \$2,000. Emeryville, Alameda Co., Cal. Architect, none. Owners, People's Bread Co., 17th and Bryant streets, S. F. Location, Park and Watts streets. Plans complete and work to be done by Day Labor.

GARAGE ADDITION—1 story, brick, \$3,000. Berkeley, Alameda Co., Cal. Architect, J. Henry Boehrer Delget Bldg., Oakland. Owner, J. H. Wright. Location, Telegraph and Ashby avenue.

Designed for a commercial garage. Plans complete and in the hands of the owner who will do the work by Day Labor.

Contracts Awarded

COLLEGE BUILDING—1 story and base, Class A construction. Cost as follows. Berkeley, Alameda Co., Cal. Architect, John Galen Howard, 604 Mission street, S. F. Owners, Regents of the University of California. The following contracts have been awarded in connection with the construction of Hilgard Hall to be erected on the University Campus at Berkeley: Excavating and concrete work to the Sound Construction and Engineering Co., Hearst Bldg., S. F., \$106,455. Exterior finish to Paul E. Deniville, 524 Post street, S. F., \$27,900. Roofing and sheet metal to Forrester Corncro Works, 260 Potrero avenue, S. F., \$10,750. FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA

SANITARY SEWER—Cost not stat-
 ed. Fresno, Fresno Co., Cal. Engineer,
 City Engineer, Fresno. Owners, City
 of Fresno. Bids will be opened on
 September 5th for the construction of
 a complete new sanitary sewer sys-
 tem. Plans on file at office of City
 Engineer.

LIGHTING SYSTEM—\$9,100. Fresno,
 Fresno Co., Cal. Engineer, City Engi-
 neer, Fresno. Owners, City of Fresno.
 All bids received for furnishing and
 installing ornamental light standards
 and a conduit system in Courthouse
 Park have been rejected. The lowest
 bid was for \$12,957, while the esti-
 mated cost was \$9,100. What action is
 to be taken is not stated.

STREET PAVING—Cost not stated.
 Fowler, Fresno Co., Cal. Engineer,
 Jensen, Fresno. Owners, City of Fow-
 ler. The City Council at its last meet-
 ing adopted plans and specifications
 for the paving of 9th street, which is
 the missing link in the state highway.
 Two resolutions were passed leading
 up to the advertising for bids. In
 order to hurry things along the board
 will meet shortly to dispose of some
 matters regarding the highway and
 the call for bids will probably be made
 at that time.

STREET IMPROVEMENT—Cost as
 follows. Visalia, Tulare Co., Cal. En-
 gineer, City Engineer, Visalia. The
 Federal Construction Co., Sharon Bldg.,
 S. F., has been awarded a contract at
 12c per square foot for paving South
 Garden street.

 000. Hanford, Kings Co., Cal. En-
 gineer, County Surveyor, Hanford. Own-
 ers, Kings County. Contractors,
 Thompson Bros., Fresno. Contract cov-
 ers the construction of 17½ miles of
 county highway. Contract price, \$55-
 \$75.18, the county to furnish all ma-
 terials.

HIGHWAY IMPROVEMENTS—Cost
 as follows. Bakersfield, Kern Co., Cal.
 Engineer, County Surveyor, Bakers-
 field. Owners, Kern County. Bids
 were opened by the Board of Super-
 visors for the paving of two pieces of
 roadway, one a two-mile stretch on
 the Bellevue road and the other on
 the Bakersfield-Glenville road. The
 contract for the paving of a section of
 Bellevue road was awarded to Castro
 & Blaisdell, Bakersfield, for the sum
 of 6.8c per foot for asphaltic wearing
 surface. The contract for the con-
 struction of Glenville road was award-
 ed to Benson & Sons, Kingsburg, for
 \$16,223.95.

ing surface 1½ inches thick. Awarded to A. Teichert & Son, Ochsner Bldg., Sacramento.

ROAD CONSTRUCTION—Cost not stated. Oroville, Butte Co., Cal. Engineer, County Surveyor M. C. Polk, Oroville. Owners, Butte County. The bid of J. L. Mery for the construction of a road into the rice district has been rejected by the Board of Supervisors. Mery's bid for the work was \$7,700. He informed the County Surveyor that he could do the work for about \$1,000 less than his bid, and the action of the Supervisors followed. New bids have been called for and will be opened on August 28th.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on August 22nd for street improvements authorized under the following resolutions: That the alley next west of Sherman avenue, from V street to Upper Stockton road, and the alley south of Alor & Sowell's High School Tract, from Sherman avenue to 34th street, be improved by excavating a trench and constructing therein an 8- and 10-inch, vitrified, ironstone pipe sewer; constructing five concrete manholes and placing two flusher branches; placing 6-inch, vitrified, ironstone Y branches and 10 and 8-inch, vitrified, ironstone pipe sewer; backfilling all trenches.

That the alley between L and M streets, from 1th to 5th street be improved by constructing 193 linear feet of concrete curb wall; constructing one concrete catch basin; reconstructing one concrete manhole; placing six linear feet of 8-inch, vitrified, ironstone sewer pipe drain; grading the alley and constructing thereon an asphaltic pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphaltic wearing surface 1½ inches thick.

That 35th street from Park avenue to 7th avenue be improved by excavating a trench and constructing 8, 10 and 24-inch, vitrified, ironstone pipe sewer, backfilling all trenches and construct four concrete manholes complete with cast iron curbs and covers.

That Brough avenue from J street to a point 566 feet north therefrom be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer with twenty 6-inch, vitrified, ironstone Y branches, one concrete manhole complete placing one 6-inch flusher branch complete and backfilling the trench.

That 1st street from F street to the alley between G and H streets, be improved by excavating a trench and constructing therein 8- and 10-inch, vitrified, ironstone pipe sewer, backfilling the trenches and constructing two concrete manholes complete with cast iron curbs and covers.

STREET IMPROVEMENTS—Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Bids will be opened on August 22nd for street improvements authorized under the following resolutions: That Scotts avenue from Lincoln street to Monroe street, Van Buren street, from Taylor street to Hazelton avenue; Monroe street, from Taylor street to Hazelton avenue, be improved by grading, curbing and guttering with combined con-

crete curb and gutter, curb 6 inches wide and 12 inches deep, and the gutter 24 inches wide and 6 inches thick. Paving the roadway of each street with asphalt concrete 1 inches thick after rolling on a base of gravel of a cementing nature, 2 inches thick after rolling. The asphalt concrete shall consist of two layers, a base layer of 2½ inches thick after rolling and a wearing surface of 1½ inches thick after rolling. The 2½-inch layer shall be composed of asphaltic cement, sand, gravel or crushed rock and screenings proportioned in such quantities as will give a compact and homogeneous concrete. The 1½-inch layer shall be composed of asphaltic cement, sand, gravel or crushed rock and stone dust mixed according to the Topeka Specifications.

BRIDGE—Reinforced concrete, \$1,270. Marysville, Yuba Co., Cal. Engineer, County Surveyor, Marysville. Owners, Yuba County. Bids will be received by the Board of Supervisors of Yuba County until September 6th, 1916, for the construction of the reinforced concrete bridge to be erected over Dry Creek at Spencerville, connecting Yuba and Nevada Counties.

BRIDGE—Reinforced concrete, \$4,000. Chico, Butte Co., Cal. Engineer, County Surveyor, Chico. Owners, Butte County. F. A. Phillips and Charles Self, successful bidders on the bridge to be erected over Little Chico Creek at Salem street, Chico, have withdrawn their bid of \$3,638.42, as they found they bid too low and would lose money on the contract. Other bidders were: E. Graessler, \$1,468; J. L. Mery & Co., \$4,000; T. H. Polk, \$4,243. A call for new bids has been issued.

RESIDENCE—2 story and base, frame, \$5,000. Stockton, San Joaquin Co., Cal. Architect, Ralph P. Morrill, Odd Fellows' Bldg., Stockton. Owner, A. R. Lyon. Location, north El Dorado near Maple. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

RESIDENCE—1 story and base, frame, \$2,100. Sacramento, Cal. Architect, none. Owner, W. P. Cippa, 311 1st, Sacramento. Location, 2630 Urban Court. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That the alley between B street and C street from 12th to 13th street, be improved by constructing one concrete catch basin complete, 550 linear feet of concrete curb wall 8 linear feet of 8-inch, vitrified, ironstone sewer pipe drain connecting catch basin to sewer, grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to the McGilivray Construction Co., 717 Capitol National Bank Bldg., Sacramento.

That the alley between E street and F street, from 12th to 13th street, be improved by constructing two concrete catch basins complete, placing 12 linear feet of 8-inch, vitrified, ironstone sewer pipe drains connecting catch

basins to sewer, grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to the McGilivray Construction Co., 717 Capitol National Bank Bldg., Sacramento.

That the alley between I and J Sts., from 13th to 14th streets, be improved by constructing a concrete retaining wall on both sides of the alley from the east line of 13th street to the west line of 14th street, grading the alley and constructing thereon an asphalt pavement consisting of an asphalt macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to the McGilivray Construction Co.

MATCH FACTORY—1 story, frame, \$100,000. Chico, Butte Co., Cal. Architect, none. Owners, Diamond Match Co. Announcement has been made of the intention of this company to increase their present large plant by the construction of buildings and installation of new machinery.

SCHOOLS—2, 1 story, hollow tile, \$27,000 and \$3,000. Placerville, El Dorado Co., Cal. Architects, N. W. Sexton & Co. Merchants' National Bank Bldg., S. F. Owners, Town of Placerville. Plans complete and figures being taken.

Contracts Awarded.

STREET PAVING—\$31,949.84. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Contractors Federal Construction Co., Sharon Bldg., S. F. Contract price, \$31,949.84. Engineer's estimate, \$39,519.80.

ROAD CONSTRUCTION—Cost as follows. Woodland, Yolo Co., Cal. Engineer, County Surveyor, Woodland. Owners, Yolo County. Contractors, Clark & Henery, Ochsner Bldg., Sacramento. Contract price, 1½¢ per square foot.

BRIDGE—Timber and Concrete, \$1,210. Auburn, Placer Co., Cal. Engineer, County Surveyor, Auburn. Owners, Placer County. Contractor, H. C. Nolt, Auburn. Contract price, \$1,210.

BRIDGE—Steel, \$2,319. Red Bluff, Tehama Co., Cal. Engineer, County Surveyor, Red Bluff. Owners, Tehama County. Contractor, C. E. McCartney, 1500 Lincoln street, Red Bluff. Contract price, \$2,319.

CHURCH—1 story and base, frame, \$7,708.75. Arcata, Humboldt Co., Cal. Architect, Frank T. Georgeon, Georgeon Bldg., Eureka. Owners, Arcata Presbyterian Church. Contractor, Nelson Johanson, Arcata. Contract price, \$7,708.75.

GARAGE AND SALES ROOMS—3 story and base, brick and steel, \$45,000. Sacramento, Cal. Architect, none. Owner, John Ochsner, Ochsner Bldg., Sacramento. Leased to Willys-Overland Co. Location, northeast corner 13th and K streets, covering an area of 80 by 160 feet. Contractor, William Murrell, Ochsner Bldg., Sacramento. Contract price, \$45,000.

THEATRE AND LODGE HALL—3 story and base, brick, \$25,000. Auburn, Wash. Architect, Frances W. Grant, Melhorn Bldg., Seattle. Owner's name withheld. Will cover an area of 30 by 120 feet. Theatre to seat 600 people, bars ready for figures within ten days.

SUPPLEMENTAL REPORT OF REFERENDUM VOTE ON NATIONAL MILITARY TRAINING.

The Los Angeles Times reports, for the period July 8 to 15, 147 votes, as follows:

In favor of National Military training	146
Against National Military Training	1
Total	147
Percentage—100.	

The Daily Pacific Builder has not reported for this week, but gave liberal editorial space to this subject, and is publishing the ballot with a special article each day, in addition to articles furnished by this Association.

The Spokesman-Review has promised to report this week.

The Washington Star has not finished the first period of its hallooting, but we hope to get their count in this week also.

No report yet from the Chicago Daily News.

The Philadelphia North America opened up magnificently on July 17 and is waging a vigorous campaign for an expression of opinion throughout the section which it serves.

They promise an unusually interesting number for Sunday, as in addition to a special article and ballot, they will devote two whole pages to the publication of letters received on both sides of this question.

Too much cannot be said for the courage and leadership of the editors of the above mentioned papers.

Respectfully submitted,
ASSOCIATION FOR NATIONAL SERVICE.

F. H. H. Sheets, Secretary.

CONSTRUCTION WORK ABROAD.

SOUTH AFRICA.

Port Elizabeth Drainage Scheme.

The Port Elizabeth Town Council has decided to commence the construction of the main outfall of the new sewage system, as soon as details can be arranged.

It has been decided to let the work on contract, with the municipality appearing as an active competitor. In order to secure a uniform excellence, all materials, whether for private connections or main works, will be furnished by the municipality at cost.

The portion under consideration will be laid down with salt-glazed pipe as provided for in the original specifications. Owing to the difficulty in securing shipping space from England, the engineer has recommended an investigation of small concrete pipe and the locally made salt-glazed product.

The bond issue of \$1,460,000 to cover this construction has been \$0 per cent subscribed. Plans for the remainder of the system will be completed in six months, and it is hoped that operations will be recommended immediately.

Extension of Rand Water-Supply System at Johannesburg.

Immediate steps are to be taken by the Rand Water Board of Johannesburg, which is charged with the duty of supplying water for Johannesburg and outlying Rand districts, for the completion of a scheme to greatly increase the water supply, a step which has been made necessary by the growing demands and also by the uncertainty of the present supply.

It was decided a few years ago by the Rand Water Board that the most practical means of obtaining an adequate supply of water was to take it from the Vaal River, at a distance of about 60 miles from Johannesburg, sanction to this scheme having been obtained in 1914. The outbreak of war and the consequent difficulty in the way of financing the venture necessitated an indefinite postponement of the original proposal, but the needs of the situation requiring some immediate steps to be taken, it was recently decided to proceed with the scheme in a modified form. Originally the proposal involved the impounding of 20,000,000 gallons of water in a great barrage, and the pro-

vision of a plant capable of daily pumping 10,000,000 gallons to the land.

The Modified Scheme—Cost of Project.

The modified scheme provides for the erection at Lindeques of the barrage as originally designed. The barrage will be composed of 36 gates, each 25 feet high and having a span of 30 feet. It will impound altogether 13,623,000,000 gallons, of which the board will be at liberty to abstract annually 7,200,000,000 gallons, or 20,000,000 gallons per day. The remaining 6,323,000,000 gallons are made up as follows: Evaporation, 3,382,000,000; storage for riparian owners, 1,560,000,000; water in river bed lying below station of pumps at Vereeniging, 1,391,000,000.

The estimated cost of the whole scheme is \$770,842 (\$3,751,308), but this includes pipes to the present value of about \$63,265 now in stock, which, deducted from the first figures, reduces the actual amount of cash required to complete the scheme to approximately \$3,688,042. Of that amount about \$201,393 has already been expended on preliminary surveys, the collection of data, legal and parliamentary expenses, the erection of weirs, and other minor works classified under the head of preliminary expenses. The chief engineer estimates that the whole scheme can be completed, and water from it brought into service, in three years from the date on which the construction work is actually commenced.

The following is a summary of the estimates prepared by the chief engineer, showing the cost of the scheme under certain main headings, but exclusive of interest on cost during construction:

Barrage, measuring weirs, etc.	\$1,124,400
River pumping station, Vereeniging, including intake.	43,798
Main pumping station, Vereeniging	291,990
Quarters for men, Vereeniging	29,199
Sundry station buildings, Vereeniging	19,466
Precipitation tanks, filters, and sterilizing plant.	267,657
Service reservoirs and basin.	194,660
Laying out ground, boundary walls, etc.	19,466
Railway siding, Vereeniging.	7,300
Pipe lines	1,085,775
Extensions and new plant at Zwartkops station.	158,161
Telephone lines	19,466
Land, wayleaves and legal expenses	224,054
Expenditures for preliminary expenses	201,393

ANOTHER FACTORY FOR OAKLAND.

OAKLAND, Cal.—Custodian John C. Hayes of the Alameda county exhibits in southern California lectured in the Los Angeles chamber of commerce recently on "What the Pay-Roll Has Done for Alameda County." As a result of that talk James A. Walker became so interested that he called on Hayes and expressed his intention of coming to Oakland to start a plant for the manufacture of portable construction houses and factories. His patents received the gold medal at the exposition in San Francisco. Walker will leave Los Angeles for Oakland this week.

SUPPLEMENTAL REPORT OF VOTE ON NATIONAL MILITARY TRAINING.

The Spokesman-Review, Spokane, Washington, reports voting on the Referendum in that district, as follows:

June 28 to July 21, total vote.....611
In favor of National Military Training.....562

Opposed to National Military Training.....19
Percentage in favor, 92%

Adding their former reported vote, gives us the following statement:

Votes reported June 26.....215
In favor of National Military Training.....236

Opposed to National Military Training.....9
Percentage in favor, 97%

RECAPITULATIONS:

Total votes received to July 21.....856
In favor of National Military Training.....798

Opposed to National Military Training.....56
Percentage in favor, 93%

Respectfully submitted,
ASSOCIATION FOR NATIONAL SERVICE.

By H. H. SHEETS, Secretary.

NEW LINE THROUGH THE CANAL.

[Panama Canal Record, July 19.]
The passage through the Panama Canal on July 15 of the passenger steamship *Hemarra* of the New Zealand Shipping Co., on the way from Wellington to London, marks the establishment of this important line through the canal. Its route has formerly been around the Cape of Good Hope on the outward voyage from Great Britain and around Cape Horn on the homeward lap, the vessels going completely around the world on each voyage. It was intended to make use of the canal route some time ago, but the outbreak of the war in Europe and the closing of the canal by slides deferred the adoption of this route until now. The company has reported its intention of building new ships especially for the canal service.

The old route totaled 12,216 miles; the new route will approximate 11,130 miles via Tahiti and Colon, or 11,450 miles if the steamer sails direct to Balboa from Wellington and goes by Norfolk on the way from Colon to Plymouth.

TRADE PROMOTION WORK.

The Commercial Agent in charge of the District Office of the Bureau of Foreign and Domestic Commerce in San Francisco has received a letter from a firm in that city stating that as the result of assistance rendered by the San Francisco District Office it has succeeded in securing trial orders valued at about \$8,000, and that it believes permanent business will result. The goods were sold to firms in Shanghai, Saigon, and Rangoon.

PARCEL-POST CONVENTION WITH CHINA.

Parcel-post rates between this country and China, under the convention recently concluded by the two countries to take effect August 1, 1916, have been

announced by the United States Post Office Department.

Parcel-Post packages exchanged between these countries must not weigh more than 11 pounds or measure more than 3 feet 6 inches in length, and 6 feet in length and girth combined, and in case of parcels for or from non-stream-served places in China, must not exceed 25 cubic decimeters (1 cubic foot) in volume.

Postage on parcels sent from the United States to China is at the rate of 1 cent per pound or fraction of a pound, and from China to the United States at the rate of 35 cents (Chinese currency) per pound or fraction of a pound, except that, on parcels for or from non-stream-served places in China, an additional Chinese domestic parcel postage may be levied and collected by the Chinese service. Parcel-post packages for China may be registered.

PUBLIC DOCUMENTS FOR SALE.

The following are among the publications received in stock for sale by the superintendent of documents at Washington during the week ended July 29:

Line, Its Properties and Uses (Standards Circular 26).—General methods of testing and description of the manufacture and uses to which limestone, lime, and hydrated lime are put in the various industries. Price, 5 cents.

LARGEST TUNGSTEN MILL IN THE WORLD NEARLY READY TO RUN.

August Tenth Set as Date by Which Big Plant Will be Prepared for Business.

BISHOP, Cal.—The 300-ton mill of the Tungsten Company, at Tungsten, is rapidly nearing completion, and present information is that it will be ready to crush ore on or before Thursday. All the different parts and machines of the plant have been turned over and tested one by one as installation has been completed, so that while there will undoubtedly be some final adjustment to be made, the mill will be practically ready to run almost as soon as the last artisan finishes his part of the contract.

Some ore has already been hauled over the railroad by mule power. Gasoline, instead of hay motors will be ready for use in another day or two.

There appears to be little new to report from the mines. Connection between the lower tunnel and the Little Sister shaft will soon be made. The work is all in ore.

CALIFORNIA IS SIXTH IN SOAP MAKING.

California stands sixth in the list of States in the number of establishments engaged in the manufacture of soap, according to a report issued by Director L. S. Rogers of the bureau of the census, Department of Commerce. Of the 513 establishments reported for 1911, 24 were located in New York, 58 in Pennsylvania, 44 in Massachusetts, 42 in Ohio, 32 in Illinois and 31 in California, with the remainder scattered among thirty-two States.

The total products for the year in the United States amounted to \$125,340,199 in value. Of this amount \$107,-

639,620 expressed the value of soap products alone, the remainder being for other products, including glycerine.

The 1914 product comprised 938,477,000 pounds of tallow soap, 42,512,000 pounds of olein soap, 11,063,000 pounds of lard soap, 169,926,000 pounds of toilet soap, 367,744,000 pounds of soap chips and 336,778,000 pounds of powdered; 97,716,000 pounds of other kinds of hard soap. The production of soft soap was placed at 57,002,000 pounds, and in addition there were reported special soap articles, such as soap for technical purposes and liquid soap, to the value of \$822,654.

PAYING CONTRACTORS SUE.

Mayor of Porterville and Street Superintendent Made Defendants.

VISALIA—Another attempt by the Federal Construction Company to force collection of the \$30,713.81 alleged to be due for the paving of thirteen city streets in Porterville, was started Saturday in the Superior Court, with a suit directed at President Anton Konda of the Porterville city trustees, and John L. Haze, superintendent of streets of that city. The plaintiff asks that a writ of mandate be authorized compelling that Konda, as president of the trustees, and the street superintendent to countersign the warrants for the payment of the alleged debt.

The company claims that repeated demands have been refused. The paying was done in 1915, and over it there has arisen a great deal of trouble, the trustees refusing to make payment on the grounds that the work is improperly laid and the company not only claiming the work well done but avowing that the time limit for objections has long since passed with none raised in time.

MAJORITY OF MEN OF THE NATION FAVOR MILITARY TRAINING.

"As an evidence of the intense interest which is being excited in the territory covered by the Evening Star, Washington, D. C., in the campaign for an expression of public opinion as to the adoption of a System of National Military Training," said Lieut. Gen. S. B. N. Young, President of the Association for National Training, "I wish to present the following statement from Senator George E. Chamberlain, Chairman of the Committee on Military Affairs of the United States Senate.

"In a letter to the Association, Senator Chamberlain says, 'It affords me pleasure to inclose herewith a communication I have just received from Mr. W. L. McAtee, Secretary of the Biological Society of Washington, with which he incloses a copy of your ballot as published in the Evening Star, which has been signed by thirty-two men in his Society.'

"Mr. McAtee says in his letter to the Senator, that he had previously sent a letter of personal commendation 'in support of a Universal Military Service Bill,' and that he is now forwarding a blanket vote on the subject, 'containing thirty-two names, representing twenty-two states.' Mr. McAtee writes, 'I am more than ever convinced that a vote of 90% of the men of the nation can be obtained in favor of Universal Military Training. The sooner this sentiment is crystallized

into law, the better for the country.'

"This is a fair sample of the opinion and interest expressed in this subject in letters which are pouring into the headquarters of the Association for National Training from individuals, from members of Congress, and many newspapers throughout the country.

"The Star, being the leading paper in the National Capital, is, of course, largely followed throughout the nation, and the work it is doing, in an educational way, for the adoption of a System of National Military Training is helping the cause of national defense and making easier the task of formulating a Bill for this fundamental principle of National Military Policy. Too much cannot be said in praise of those editors who have courageously undertaken this pioneer effort, at the request of the Association for National Training, for, without their co-operation and free access to the columns of the great papers over whose destinies they preside, the effort for the adoption of a genuine Military Policy would fail. I consider this work to be the finest expression of the New Nationalism which is quickening the public conscience, and, that through it, notice will be served on the world at large that this Republic has the courage, the will, and the ability, to provide the means, in time of peace, through which it can successfully defend itself and its great ideals and hand them down to posterity unimpaired."

U. S. HAS GOOD WORD FOR THE BRICK ROAD.

WASHINGTON, D. C.—Continuing its advice on road building, the United States Office of Good Roads today discussed brick as a building material.

Forty-four years ago the first brick road in the United States was constructed in Charleston, W. Va.

"The experience of forty-four years," says the U. S. Office of Good Roads, has demonstrated that it is entirely practical to construct satisfactory brick roads."

"These roads," say Uncle Sam's experts, "now are giving general satisfaction, when properly constructed and it is probable that their mileage will continue to increase rapidly."

"The principal advantages of the brick road according to the government road service are: 1. Durability under practically all traffic conditions.

2. They afford easy traction and good foothold.

3. Easily maintained and kept clean. The only disadvantages attributed to this type of road is the high initial cost. This is largely offset, it is figured, by the low maintenance and general stamina of the road.

The best type of brick road, in the opinion of the government road experts, is a good brick laid on a sand cushion, with a substantial concrete foundation.

BIGGEST TIMBER SALE.

PORTLAND—The largest body of timber ever advertised for sale in Oregon, Washington or Alaska by the forest service is the stand on 7020 acres of the watershed of the west fork of Hood River, in the Oregon National Forest, which is now up for bids. The timber cruises 350,000,000 feet, of which

approximately 72 per cent is Douglas fir, with Western hemlock, amabilis fir, Western red cedar, noble fir and Western white pine, making up the remainder of the stand. The minimum stumpage prices per 1000 feet that will be considered are \$1.20 for Douglas fir, red cedar and noble fir; \$2.50 for white pine, and 50c for all other species.

1915 LUMBER CUT BY PRINCIPAL KINDS.

WASHINGTON, D. C.—The lumber cut of 1915 by principal kinds has just been compiled by the Forest Service, with results shown in detail below. Southern yellow pine, with a total cut of 14,700,000,000 board feet, forms 30 per cent of the total and was more than three times the cut of Douglas fir, the second on the list. Oak, white pine, and hemlock are the only other kinds with a showing of over 2,000,000,000 feet.

The figures include both the actual reported cut from the mills making returns and the estimated probable actual cut. The total cut of all species is shown as 37,013,294,000 feet, as has been previously announced by the Forest Service. It is believed that at the outside the grand total 1915 lumber cut did not exceed 38,000,000,000 feet.

The actual reported cut of lath in 1915 was 2,745,134,000 and the estimated total cut 2,350,000,000. For shingles the reported cut was 8,459,378,000 and the estimated total cut 9,500,000,000.

Because of the closer touch of the western offices of the Forest Service with the mills in their territory, and the consequent greater accuracy of the estimates of probable total cut of the western species, the figures for these species are not rounded off as are the corresponding figures for other kinds. The many thousand mills east of the Rocky Mountains make impossible estimates of more than approximate accuracy.

The second table given below shows preliminary rounded values for each principal kind of lumber, based on the data reported by mills in the principal producing States. The figures are therefore very close to the final average, which will be announced later.

1915 Lumber Cut by Species.

Kind of Wood	Probable Total M.Ft.	Reported M.Ft.
Yellow pine	14,700,000	12,177,335
Douglas fir	4,431,249	4,121,897

ROAD BUILDING EXPENSES.

The cost of building roads includes other expenses than the payments made to contractors, although few highway commissions include these overhead charges in their reports on costs. The California Highway Commission does so, however, hence its reports have a high reputation among business men who have examined them. The commission buys directly all the material used in the roads, which amounted a year ago to nearly 200 cars per working day. A purchasing department for handling business of this amount is an unusual expense for a public commission, for the work is usually done by contractors. If it is included with the expenses of the auditing, disbursing, legal, secretarial, engineering and clerical departments, the over head expense on the California state highway to date amounts to 1.41 per cent of the total. This is the estimate prepared on the usual theoretical basis. But the actual facts are very different. A recent estimate showed the total expenditure from the highway fund had been \$13,746,396, of which \$11,591,188 was for contracts and materials and \$201,926 for the overhead items just mentioned. These two classes of expenditures amounted to 83.73 per cent of the total, leaving 11.27 per cent of overhead expenses unprovided for. Part of it represents money invested in equipment and unused stores, part represents the engineering work on roads not yet placed under contract, and the remainder comprises

expenditures made in connection with securing road data on routes not adopted or in assistance in designing and inspecting bridges built for state highways by the counties.

PUGET SOUND EXPORTS.

PT. TOWNSEND, WASH.—Antelope hides to the value of \$631,397, iron, steel and copper valued at \$6,500,000, and cotton valued at \$3,887,637, were shipped from Puget Sound during the month of June, as shown by the monthly report of Collector Roscoe M. Drummheller. All other articles swell the exports to \$27,716,989. The imports consisting of copper ore, tea, hemp bags and burlaps, rice, raw silk, etc., reached a value of \$16,099,871. The tonnage entrance for June was 261,026 and clearance 236,449.

ENLARGE POST OFFICE.

WESTWOOD (Gassen Co.) As the result of the petition for better Post Office quarters here, forwarded to Washington last June, bids will be received up to the 15th of this month in San Francisco for suitable new leased quarters for the Westwood Post Office. Specifications call for 1,800 feet of floor space, or three times the size of the building now occupied.

The lease will run for five or ten years and the quarters must be ready for occupancy on or before November 1st this year.

It is not yet decided whether the present building will be enlarged or an entirely new structure be erected.

ROAD WORK TO START.

SACRAMENTO, Cal.—Jacinto & Di Rosa have put a force of men at work on their contract for building a bridge across Walker Creek and a stretch of highway about a mile long through what is known as the Eucalyptus Grove in Glenn County.

This contract was awarded by the Commission a few weeks ago and will mean the completion of a strip of road much desired by the people of Glenn. The contract price of the work is \$8,615.70, but in addition to this the State will furnish materials of the value of \$7,539.78, making a job of more than \$16,000.

IMPROVEMENTS PLANNED FOR HALL OF RECORDS.

YUBA CITY (Sutter Co.)—The Sutter Board of Supervisors have inspected the Yuba City Hall of Records with a view to making some needed improvements.

The Board is contemplating having the interior repaired.

DAM BEING BUILT SEVEN MILES FROM LA PORTE.

LA PORTE (Thomas Co.)—F. R. Ritchie Company of San Francisco has commenced work constructing a debris dam in Slate Creek about seven miles from La Porte.

Auto trucks will haul cement from Honcut.

Frank Costello is superintending the work.

FOUND HOUSE THAT WAS FURNISHED 10,000 YEARS AGO.

PHILADELPHIA.—Stone implements and household tools, estimated to be 10,000 years old, forming part of a collection owned by Meremphah, son and successor to Ramesses the Great, 1300 years before Christ, have been unearthed in the prehistoric monarch's palace at Memphis, ancient capital of Egypt. Advises telling of these important discoveries have just reached the university museum here from Dr. Clarence S. Fisher, leader of the Eekley R. Cox, Jr., expedition to Egypt.

In a full report, Dr. Fisher described wandering through the spacious halls of the great palace that for centuries lay buried in ancient Memphis. Gold ornaments, ceramics, vessels of various kinds and vases were found intact, just as they must have been when the lords of these days exonerated. Many of the relics found, says Dr. Fisher, date back to the stone age. Traces of a fire that must have ravished the palace are found on every side, according to the archeologist.

STATE TO BUILD NEW ROAD IN YOSEMITE.

CAMP CURRY, Yosemite Valley. Stephen T. Mather, assistant to the secretary of the interior and head of the National Park Service, left Soda Springs Thursday for a trip along the crest of the Sierras from Yosemite to Sequoia National Park. The party will follow the proposed route of the Minn Trail, to be built by the State of California, a memorial to John Muir. Houston Thompson, assistant attorney general of the United States, and S. R. Vane, director of publicity for the National parks, will be members of the party. R. C. Marshall, general superintendent of National parks, is expected to accompany the party.

STATE FINANCES BY JOHN FRANCIS NEALAN, CHAIRMAN, STATE BOARD OF CONTROL.

Every taxpayer in the State of California, whether he is the president of a bank or the owner of a little suburban lot should read the financial statement of the State government for the Sixty-seventh and Sixty-eighth fiscal years and learn at first hand from what sources State revenues are derived and upon what objects they are expended.

This official statement, just issued, shows that the entire taxes and revenues of the State for the Sixty-seventh and Sixty-eighth years, embracing the two years between July 1, 1915 and June 30, 1917, total \$38,310,333.76 or approximately \$19,176,000.00 a year. The total appropriations and fixed charges of the State government for the same period are \$25,997,086.17 or approximately \$12,998,500.00 a year. Thus there is in the fiscal period a surplus of current revenues over current expenditures of \$2,313,247.59 for the fiscal period.

The sources of State revenue will prove most interesting. Under the system of taxation adopted in 1910 State and local taxes were divided, the burden of supporting the State government falling practically in its entirety upon the corporations of the State.

The official figures show that of the entire revenue totalling \$38,310,333.76 for the two fiscal years the sum of \$31,518,533.16 is paid by the following classes of corporations: railroads; street railways; light, heat and power corporations; telegraph and telephone companies; car and express companies; national banks and state banks; insurance companies and general corporations.

Of the remaining \$6,821,800.60 the sum of \$1,500,000.00 is derived from inheritance taxes. It may not be generally recognized that inheritance taxes fall only upon substantial inheritances. The law specifically provides for the exemption to every widow of the first \$21,000.00 of her husband's estate.

Of the remaining \$2,321,800.60 the sum of \$600,000.00 is paid by the counties for interest on highway monies expended within their boundaries. The principal of the \$18,000,000 State Highway bond issue is payable by the State, the interest on the bonds is payable by the counties in proportion to the amount of the issue spent within their borders.

Of the remaining \$1,721,800.60 the sum of \$168,700.00 is derived from interest on deposits in banks of the State's running cash balance and the State's cash surplus.

Of the remaining \$1,553,080.60 the sum of \$250,000.00 is derived from fees of the Secretary of State's office. The principal part of these fees come from the filing of articles of incorporation.

Of the remaining \$903,080.60 the sum of \$380,000.00 is derived from the payment for maintenance of inmates of the Preston and Whittier Schools and the Sonoma State Home.

The remainder of the revenue, \$525,080.60 is derived from various sources, including Fish and Game licenses, fees of Insurance Commissioner, Supreme and Appellate Courts fees, delinquent property taxes, etc.

This much for the revenues. The objects of expenditures are not less interesting.

Of the total \$25,997,086.17 for the present two years, the enormous sum of \$16,169,629.00 is devoted to Education. Of this sum the common schools take \$8,860,000.00; the High Schools the sum of \$1,521,000.00; the University of California the sum of \$3,217,874.00; the State Normal Schools, California Polytechnic, Hastings College of Law and Institution for the Deaf and the Blind \$1,920,755.00, and free text-books for the common schools \$250,000.00.

Of the remaining expenditures the sum of \$5,662,820.00 goes for the maintenance and improvements of the State's charitable and benevolent institutions. Of this sum the hospitals for the insane take \$1,267,720.00; the homes for the veterans of the wars and blind people the sum of \$120,000.00 and the aid of orphans and half-orphans \$375,000.00.

Of the remaining expenditures Correctional institutions take \$2,861,200.00. The prisons take of this sum \$1,911,200.00 and the reformatories for boys and girls \$953,000.00.

Of the sum of \$921,602.43 is absorbed by permanent improvements other than at State Institutions, including river and reclamation work; and in payments of claims and refunds of taxes erroneously paid.

Of the remaining expenditures \$1,761,802.00 is paid back to the counties of the State to reimburse them for withdrawal of corporate and railroad property from local taxation under section 11 of article XIII of the Constitution, ratified November 8, 1910.

Of the remainder \$1,500,000.00 is set aside for meeting the annual redemption of State Highway, State Building and University of California bonds.

The remainder of the expenditures is absorbed by the Legislative, Judicial and Executive branches of the State government. The Legislative branch absorbs \$182,900.00 and the Judicial \$1,067,670.00, including the State's one-half share of each Superior Judges salary.

Of the entire expenditures totalling \$25,997,086.17 the sum of \$1,565,863.04 goes for the support of the Executive and Administrative department of the government. This department includes the offices of Governor, Lieutenant Governor, State Board of Control, Secretary of State, Controller, State Railroad Commission, Industrial Accident Commission, Civil Service Commission and all other State offices, departments, boards, bureaus and commissions for which any State appropriation is made. It will thus be seen that the entire amount appropriated for the support of all offices, bureaus, boards, commissions and departments is a total of \$2,282,931.52 a year.

STATE HIGHWAY ENGINEER HONORED.

Engineer of California State Highway Commission Is Granted Leave of Absence to Assist in Organizing Federal Goods Roads Bureau. Compliment to Fletcher.

SACRAMENTO.—At the request of Secretary of Agriculture D. F. Houston, Governor Johnson and the members of the California Highway Commission have granted A. B. Fletcher, state

highway engineer, a furlough from August 16 to October 1, this year, to assist at Washington, D. C., in organizing the work of the new road bureau through which the Federal Government will expend \$85,000,000 in aiding the States in the construction of rural post and other roads.

This is the second recent instance in which efficiency in California's administration has been looked to by men equipped for highly responsible work. A few weeks ago a request came from New York that C. A. Derrick, superintendent of the Preston School of Industry, be granted a temporary leave of absence to assist in organizing and developing the management of the prison at Sing Sing.

Secretary Houston found himself confronted with a huge task, and the achievement in road building in California, under Mr. Fletcher and the Highway Commission, was brought to his attention. He opened correspondence with Governor Johnson, with the result that after a conference with the Highway Commission it was decided to grant the furlough as stated. The State officials were actuated by a desire to assist the Federal Government in this road building project, and further, by an assurance gained from intimate knowledge of Fletcher's work, that he could be of important service. It has been so arranged that the Highway Commission's work in California can go forward without interruption during the six weeks of the chief engineer's absence.

The request from Washington for Mr. Fletcher's services is a high compliment to California. The fame of the State's efficient road building has spread to all parts of the country. The \$18,000,000 bond issue has been expended with economical administration, with results that speak for themselves as to efficiency, and without the suggestion of a breath of scandal.

This State has been described as the laboratory for thoroughly and wisely prepared legislative acts, such as those creating the Railroad Commission and the Industrial Accident Commission. It would appear that this State is also to be drawn upon for men of character and ability to carry on public work.

GRAY'S HARBOR LUMBER CUT.

BELLINGHAM, WASH.—The lumber cut of Grays Harbor mills for the last year was 769,850,000 feet. This was about 150,000,000 feet less than the 1914 cut. Some 17,000,000 feet were shipped to the Atlantic coast for forwarding to Europe, but only 2,000,000 feet went by way of the Panama Canal. The total sales amounted to 735,049,000 feet. The heaviest buyers were California, New Mexico and Arizona, 171,500,000 feet going to those three States.

NEW DRY KILNS.

FORT BRAGG, CAL.—The new dry kilns erected by the Union Lumber Company are about completed and look fine with a bright red coat of paint. The new kilns will double the capacity of the company for dry lumber.

UNPREPAREDNESS AND OUR WOMEN!

By Charles L. Frailey, for Association for National Training.
Prolific is the press these days in

articles, editorials, and reports of interviews, speeches, and meetings on the subject of preparedness. The arguments in most cases are sound and make deep impress upon the patriotic citizen in favor of being ready to meet any attack upon our country. The judgments of experts are unhesitatingly delivered for a greater armament, and must command respect. The idea of military training for the youth of the nation is now beginning to take hold; but it should meet with the active and co-operative approval of every citizen of the Union as a means of establishing a trained citizen soldiery to protect the country not only from financial and material loss, but from a far greater and more terrible calamity. It is of course axiomatic that the industries and wealth of the nation should be able to look to the armed forces of the Government with confidence that their training, equipment, and ability will be amply able to protect them, instead of their being sacrificed to teach a lesson with which we should already be thoroughly acquainted, if not as the result of intelligent thinking, certainly by reason of experience in our past struggles.

For example, while we may look with pride upon the achievements of our little navy in the early history of the Nation, we should not forget that we entered into a disgraceful treaty with Algiers, a country maintaining a horde of sea banditti, and paid a disgraceful tribute to that Government because, owing to opposition to increasing our navy, we were not in a position to protect in any other way our growing commerce from the inroads made by its pirates. We needed six warships. They were finally built when the Nation was fully aroused to their necessity, and depredation was forcibly brought home to us, but in the years elapsing before their construction was authorized and completed, we paid enough protection money and tribute to Algiers to defray the cost of those six ships—a lesson surely that the American people would do well to study. Indeed, our naval history should be studied by every citizen, and **correctly** and interestingly taught in all the schools. And by **correctly** I mean that the pride in our naval victories and the heroes who won them should not be allowed to obliterate other facts not altogether to our credit, and from which lessons might be learned which would prevent boasting and the false sense of security growing out of it.

If, then, we heed not the lessons so dearly learned from our unpreparedness in the wars we have fought, if we count not the treasure and the lives needlessly sacrificed upon the altar of unpreparedness before we finally won our victories, and if our policy is to drift along half-armed until a foreign power proceeds to administer another and a similar lesson, it then behoves every citizen to say to himself, what will that lesson cost us?

In these times of peace which we are now enjoying, too much emphasis is given in the agitation for a better and a greater army and navy to the cost which unpreparedness will inflict upon us in loss of treasure and of wealth, of payment for indemnity, of great expenditure. But while we thus talk and write of the necessity of protecting our wealth and our industries, is there no

greater cost to be reckoned with, to be borne? We can defeat any nation that absorb our thoughts, to appeal to our manhood? A cost even greater than the lives of our country's sons who may be sacrificed at the hands of an invading foe?

In the early days of the Colonies, the Puritan and his fellow-settler, had little wealth or treasure. They built well, they tilled the soil, and in the fear of God, they prospered. But they lived under the shadow of an ever-present menace to their peace and happiness, to their families, to their lives. And when they worshipped in their simple and austere way in their religious meeting houses, they gathered there armed and **prepared** against attacks by the relentless Indian. And when the Puritan shouldered his gun as he trudged with his wife and daughter to the house of worship, I venture to say that the anxiety uppermost in his mind was not for his worldly goods.

The men of America have led the world in the protection of their women, and have ever been quick and sure in avenging insult to them. If there be any one who hesitates to disturb the existing state of things, not looking into the future, and content with earning and eating his daily bread, thinks

that we can defeat any nation that absorb our thoughts, to appeal to our manhood? A cost even greater than the lives of our country's sons who may be sacrificed at the hands of an invading foe? The terrible cost will it be achieved, though will be wasted before we can reach the way for final success. And let him know and understand more terrible than the waste and loss of wealth and treasure, of industry and business may and will be to our women; what agony will be theirs; what evils may befall his wife, his young and budding daughter, before the onslaught of an invading host can be stopped? If we lose money and property of great value; if our buildings and our homes are in part destroyed before we begin to recover and give blow for blow, that will be a calamity indeed. But what is that compared to the horrors of war that will be inflicted upon the women of our cities, of our land?

Are you—who, reading your newspaper at the breakfast table, well content with your business, your prosperity, and the state of things in the land, sure that some day you may not be called upon to defend your fireside, and with your neighbors and your countrymen, find yourself unprepared

to withstand the trained troops of an invading army?

If there be doubt about it—and certainly you will not arrogate to yourself the divine attribute of infallible prophecy—will you, as you look upon the sainted face of your mother, or gaze into the loving eyes of your wife, or feel the tender clasp of your daughter, just budding into womanhood, or perhaps toddling to your knee with hands outstretched to climb upon your lap, take the chance of seeing one or all of them taken from you, and either slain, or worse still, captured to become the property of the licentious soldiers of an enemy?

And those of you who live in the Middle West, so-called in the center of our country—from attack by an invading army—no matter what may be your feelings of security (and though you may perhaps regard with indifference such treasure as the East or West might have to pay), forget not that they who live in the seacoast cities are your fellow citizens and the honor of their wives and daughters, as well as yours, is the supreme honor of the Nation. Remember that when in a community an assault has been committed upon one of its women, and when, in defiance of law, the wrong has been avenged with drastic measures, the men of that community have stood together to administer the punishment to the offender, and not left it to be done by the woman's husband, or by others of her family.

We are losing precious time. Is the Nation waiting to be convinced that some day it may have to fight? Or is the real reason for delay reflected in the political eye turned first upon the voter and then askance upon our treasury, hesitating to look the situation in the face and replenish the country's pocketbook to meet the increased demands upon it necessary for defense. Are years to be lost, never to be regained, haggling over the method of financing the expense required to equip the Nation that she may protect herself?

Thinking of the dangers to the women of his family, what patriot would not, whether there be a bond issue, or whether there be an increase of taxation, willingly do his share, and play his part, so that he might know that no false sense of security, no propaganda of world peace, so desirable in itself, would, when the test came, require not merely the sacrifice of his life and property, but the needless destruction of the lives and virtue of the

women of his family; for the preservation of which, though he die, it would be without avail. We could not spend too much to avoid such a terrible evil, such a curse upon the Nation.

Can we for a moment look upon the sufferings of a country under Alien occupation and Alien rule, and not know the consequences to our women of the capture by a foreign power of one or more of our seaport cities? What though after months or years we drove the foe from our shores, and rebuilt the material ruins that they left? The stain would forever remain upon us that we had seen our women insulted, assaulted, murdered, and worse than murdered, and had been powerless to prevent it, because unprepared to prevent it.

The persons and honor of those women could never be restored, nor the stain of the Nation's dishonor removed. What man would not sacrifice all his substance, even life itself, to protect his wife and his daughter, his mother and his sister, and thereby the sanctity of his home?

It is an uncontrovertible fact that we are not prepared against war. Shall we quickly—nay, at once—make such preparation? Is not that our solemn duty to the women of our land? Or shall we, while engaged in sordid calculation, or the strife of partisan politics, hesitate and stumble, and thus take the chance, if not the certainty, of some day paying, not only gold and silver, but, to our everlasting shame, a priceless and a monstrous cost for unpreparedness—the lives, the honor, the chastity of our women! God forbid!

MACHINERY MARKETS IN PERU, BOLIVIA AND CHILE.

A report on machinery markets in Peru, Bolivia, and Chile has been issued by the Bureau of Foreign and Domestic Commerce. The publication is based upon investigations made in those countries by Special Agent J. A. Massel, of the Bureau, and it reviews, for the benefit of American manufacturers, the general conditions found there as affecting the use and purchase of machinery. It gives, with some fullness, the latest available statistics for the imports of machinery and related classes of manufactured products, discusses the character and methods of the machinery trade, and describes in detail the equipment of the chief plants and establishments in the predominant industry or industries of each market.

Copies of Special Agents Series No. 118, "Markets for Machinery and Machine Tools in Peru, Bolivia, and Chile," may be procured from the superintendent

of documents, Government Printing Office, Washington, D. C., or from the district offices of the Bureau of Foreign and Domestic Commerce, at 10 cents each.

OVER ONE MILLION FOR HUMBOLDT ROADS.

EUREKA—Calling for a special election August 29th on the proposition of bonding the county for \$1,500,000 for building and improving roads, the Supervisors of Humboldt have issued a proclamation. To avoid expenses the date has been fixed on that of the primary election when the same officers will serve. This election is of some interest to residents of the Sacramento Valley and to those of Siskiyou and Trinity counties in particular, as the plans call for roads connecting with the highways of those counties and giving two more scenic routes connecting the highways on the coast with those of the valley. The sentiment in Humboldt County is strong for good roads both for convenience to the farmers and bringing in trade to the cities and towns from Siskiyou and Trinity.

MORE PROSPEROUS THAN EXPOSITION YEAR.

That the money made by the fruit and vegetable farmers of California during the season ending September 1st, 1916, will break all previous records for the State, is announced by the Home Industry League of California, which predicts an unusually successful "fall trade" for merchants generally as a consequence.

Figures filed with the Sacramento branch of the League by State Senator Bills, president of the Pioneer Fruit Company of California, Incorporated, show that the shipments of carload lots of fruit and vegetables out of the State, up to August, were so much greater than in 1915 and brought so much higher prices that the farmers of California will net a profit this year of more than 60 per cent over that of 1915.

"And there is only one thing standing in the way of even greater profits to the farmers this year," the League reports, "and that is the difficulty of the farmers securing wooden packing-cases. If the box-makers can find a way, before the fruit season ends, to turn out many more boxes than they are doing now, with crates for tomatoes, beans and asparagus, the money earnings of California farmers for 1916 will be nearly double the total for the year before."

Building Operations For July.

The building statistics for the month of July, as compiled by the California Development Board, the American Contractor, Chicago, and the Daily Pacific Builder, show a decided gain over July of last year. One hundred and eleven cities are given in the list below, and the total building operations for these cities amounts to \$112,844,166 for July 1916, as against \$67,068,101 for July 1915.

A detailed statement follows:

City	Cost	Cost
Akron	\$ 756,425	\$ 1,148,750

Location, northwest Fell and Ashbury, covering an area of 56 by 90 feet. Will contain 12 suites of five and six rooms. Plans complete and segregated figures being taken.

BANKS

Contracts Awarded.

NAPA, NAPA CO., CAL.—Bank, 1 story and base, reinforced concrete and brick. Cost not stated. Architect, L. M. Turton, Napa. Owners, First National Bank of Napa. Contractor, E. W. Doughty, Napa. Contract price not stated.

BATH HOUSES.

FRESNO, FRESNO CO., CAL.—Bath house, 1 story, brick and concrete. Cost not stated. Architects, Glass & Butler,

Republican Bldg., Fresno. Owner's name withheld. Will cover an area of 125 by 150 feet. Tank 75 by 115 feet. Special machinery. Plans being prepared.

LODI, SAN JOAQUIN CO., CAL.—Bath house, 1 story, frame. Cost not stated. Architect, City Engineer, Lodi. Owners, City of Lodi. All bids for the municipal bathing house were rejected by the City Trustees because they ran above the City Engineer's estimate. Alterations will be made in the plans and a building, not quite so elaborate, will be erected. New bids will be called when revised plans are complete.

BONDS

MODESTO, STANISLAUS CO., CAL.—The proposition to bond this city for \$125,000 for school improvements failed to carry at an election held recently. The first election held carried, but through an error the bonds were declared invalid which necessitated a second election.

COALINGA, FRESNO CO., CAL.—More than \$500 has been donated for employing an engineer to plan a new municipal water system for this city. A committee has been appointed to select an engineer to gather the necessary data. It is probable that an election will be called within the next few months to vote bonds for the project.

SAN LEANDRO, ALAMEDA CO., CAL.—The San Leandro School District bonds have been sold. School improvements will be made on the proceeds of the sale.

MARTINEZ, CONTRA COSTA CO., CAL.—An error has been discovered in the bond election held by the San Ramon School District. Contra Costa County, which will necessitate a second election. The bonds voted at the last election amounted to \$15,000.

WOODLAND, YOLO CO., CAL.—The Yolo County court house bonds have been sold and bids for the erection have already been received. The bonds amounted to \$200,000.

SAN MATEO, SAN MATEO CO., CAL.—Resolutions have been passed by the San Mateo School Board calling for a special election to vote bonds of \$10,000 to procure funds for enlarging and improving the manual training department, swimming tank and other necessary alterations to the present high school. Architect, W. H. Toepke of San Francisco has prepared plans for the work.

MCFARLAND, KERN CO., CAL.—The present school being inadequate, a bond election has been called to raise funds to finance the construction of an addition which is estimated to cost \$9,500.

TERRA BELLA, TULARE CO., CAL.—The \$1,000,000 bond issue of the Terra Bella Irrigation District carried at the recent election. The district embraces about 12,000 acres. Preparations are being made to dispose of the bonds and

to call for bids for the construction of the system. Engineer Stephen I. Kieffer prepared the plans and made surveys for the system.

SACRAMENTO, CAL.—Commissioner of Works Thomas Coulter is working on estimates of the cost of the new municipal auditorium planned by the city. It is thought that the construction of the building will not start until next year.

PETALUMA, SONOMA CO., CAL.—Bond election will be held on September 21st to raise funds to finance the construction of culverts, creek improvements, street work, etc.

MODESTO, STANISLAUS CO., CAL.—The directors have set August 31st as the date for an election to vote \$165,000 bonds of the Waterford Irrigation District. Of this sum \$254,000 will be used for a right of way of the main canal from the La Grange dam, and \$211,000 for building the distribution system for the district.

FULLERTON, ORANGE CO., CAL.—August 25, 1911, has been announced by the Trustees of the Fullerton High School District as the date for holding an election to vote bonds in the sum of \$35,000 to finance the erection of a manual training building, garage and a swimming pool.

PORTERVILLE, TULARE CO., CAL.—The Board of Trustees has decided to call an election to vote bonds in the sum of \$56,000 to secure funds for the erection of a city hall and auditorium building.

BRIDGES, DAMS AND HARBOR WORK

AUBURN, PLACER CO., CAL.—Bridges, reinforced concrete. Cost not stated. Engineer, County Surveyor Conroy, Auburn. Owners, Placer County. Will contain sixteen rooms, five bath rooms, open air swimming pool, separate garage and out buildings. Plans being prepared.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect, none. Owner, John M. Peters, 1010 Balboa street, S. F. Location, west 12th avenue south Cabrillo. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residences, 4, 2 story and base, frame, \$3,700 to \$4,200. Architect, none. Owner, C. M. MacGregor, 170 13th street, Oakland. Location, Lakeshore avenue east of Walla Vista. Will contain from six to eight rooms, baths and sleeping porches. Plans complete and work to be done by Day Labor.

SCHOOLS

DANVILLE, CONTRA COSTA CO., CAL.—School, 1 story and base, frame, \$12,680. Architect, Norman R. Coulter, 46 Kearny street, S. F. Owners, San Ramon Valley Union High School District, Keller & Crane, 94 Moramar avenue, S. F. presented the low figure for this work and will be awarded a contract as soon as an irregularity in the bond issue can be overcome. A complete list of the bids appears under the heading of Marin, Contra Costa and Sonoma Counties in this issue.

HAWKEYE SCHOOL DISTRICT, FRESNO CO., CAL.—School, 1 story, frame. Cost not stated. Architect, none. Owners, Hawkeye School District. Bids will be opened on August 26th at 1:30 p. m. for the construction of a district school. Plans for this work are on file at the office of the Kerman News, Kerman, Cal.

MODESTO, STANISLAUS CO., CAL.—School, 1 and 2 story and base, tile or brick. Cost not stated. Architect's name not given. Owners, City of Modesto. Bids will be received on September 1st at 7:30 p. m. for the construction of a grammar school building. Alternative propositions for tile, brick or frame and plaster are to be submitted.

TRACY, SAN JOAQUIN CO., CAL.—School, 1 story and base, brick and steel, \$50,000. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Tracy High School District. James Furlong, Monadnock Bldg., S. F. presented the low figures for the general construction at \$46,300 and J. E. O'Mara, 449 Ninth street, the low figures for the heating and ventilating at \$3,826. A complete list of the bids will be found under the heading of Sacramento and Northern California in this issue.

ASTORIA, ORE.—School, 2 story and base, brick and concrete, \$80,000. Architects, Whitehouse & Foulhoux, Wilcox Bldg., Portland. Owners, City of Astoria. Location, Irving avenue, covering an area of 1½ by 110 feet. Will contain 20 class rooms, office, library and departments for manual training and domestic science. Plans being prepared.

SEATTLE, WASH.—School, 1 story and base, Class A construction, \$250,000. Architect, Edgar Blair, 901 7th avenue, Seattle. Owners, City of Seattle. Location, West School. Will contain 20 class rooms, laboratories, office and library besides special departments. Plans complete and figures being taken. Bids open on September 5th.

FLORIN, SACRAMENTO CO., CAL.—School, 1 story and base, hollow tile or concrete. Cost not stated. Architect, George C. Sellon, 1005 K street, Sacramento. Owners, Florin School District. Will contain six class rooms. Alternate propositions for concrete or hollow tile. Plans complete and figures to be opened on September 2 at 3 p. m.

YREKA, SISKIYOU CO., CAL.—School heating system. Cost not stated. Engineer's name not given. Owners, Siskiyou Union High School District. Bids will be opened on September 2nd at 10 a. m. for the installation of a steam heating system in the new gymnasium, domestic science and music building. Plans can be secured from the Clerk of the Board of Education.

MARYSVILLE, YUBA CO., CAL.—School, 1 and 2 story, frame and concrete, \$18,000. Architect, Julia Morgan, Merchants' Exchange Bldg., S. E. Owners, City of Marysville. Will contain eight class rooms, departments for domestic science and manual training. Plans being prepared.

LAKEPORT, LAKE CO., CAL.—School, 1 story, frame and plaster, \$24,325. Architects, Morrow & Garren, Chronicle Bldg., S. E. Owners, Town of Lakeport. Kerr & McLean, 110 Jessie street, S. E., presented the lowest figure for this work, complete, at \$24,325 and will be awarded the contract. A complete list of the bids received appears under the heading of Sacramento and Northern California in this issue.

FRESNO, FRESNO CO., CAL.—School addition, 2 story and base, brick and concrete, \$55,000. Architects, Coates & Traver, Rowell Bldg., Fresno. Owners, City of Fresno. The building will be in the nature of an annex to the present High School and will contain eight class rooms, departments for manual training and domestic science. Plans are being prepared.

SAN JOSE, SANTA CLARA CO., CAL.—School addition, 1 story and base, frame, \$12,000. Architect, E. G. Altlin, Theatre Bldg., San Jose. Owners, City of San Jose. Addition will include an assembly hall and the equivalent of seven class rooms. Plans have been officially approved by the Board of Education.

ORISI, TULARE CO., CAL.—School, 1 story and base, brick, \$2,000. Architect, Ernest J. Kump, Rowell Bldg., Fresno. Owners, Orisi School District. Will contain six class rooms and an assembly hall. Plans complete and figures to be opened on August 31st at 2 p. m.

Contracts Awarded

CAMPBELL, SANTA CLARA CO., CAL.—School, 1 story and base, frame and plaster, \$18,000. Architect, E. D. Wolfe, San Jose. Owners, Campbell School District. Contractor, E. L. Wolf, 131 Coo street, San Jose. Contract price, \$19,000.

VISALIA, TULARE CO., CAL.—School, 1 story and base, frame and

plaster, \$14,087. Architect's name not given. Owners, City of Visalia. Contractors, D. B. Day & Sons, Woodlake. Contract price, \$14,087.

CAMPBELL, SANTA CLARA CO., CAL.—School, 1 story and base, frame, \$18,000. Architect, E. D. Wolfe, San Jose. Owners, Campbell School District. Contractor, E. L. Wolfe, San Jose. Contract price, \$18,000. A complete list of these figures will be found under the heading of San Jose and the Santa Clara Valley in this issue.

SEATTLE, WASH.—School, 2 story and base, reinforced concrete, \$72,000. Architect, Edgar Blair, 901 7th avenue, Seattle. Owners, City of Seattle. Contractors, Sjöliassen & Sandu, Downs Bldg., Seattle. Contract price, \$72,000.

AYON, CONTRA COSTA CO., CAL.—School, 1 story, frame, \$2,000. Architect, none. Owners, Ayon School District. Will contain one class room. Plans complete and figures to be opened on September 7th at 11 a. m.

ALBANY, ALAMEDA CO., CAL.—School, 1 story and base, hollow tile. Cost not stated. Architect, John J. Donovan, Balziel Bldg., Oakland. Owners, City of Albany. Will contain six class rooms and an assembly hall. Alternate proposals for reinforced concrete. Plans complete and figures being taken. Bids close on August 31st at 6:30 p. m.

ALBANY, ALAMEDA CO., CAL.—School, 1 story and base, reinforced concrete. Cost not stated. Architect, W. H. Weeks, 75 Post street, S. F. Owners, City of Albany. Will contain eight class rooms and assembly hall. Plans complete and figures to be opened on September 1st at 8:30 p. m. Separate figures for general construction and heating and ventilating.

RIPON, SAN JOAQUIN CO., CAL.—School, 2 story and base, reinforced concrete and brick, \$30,000. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Ripon School District. H. P. Delek, Oakdale, submitted the low bid for the general construction and will be awarded the contract. A complete list of the bids for this work will be found under the heading of Sacramento and Northern California in this issue.

SEWERS, STREET WORK & WATER SYSTEMS

OAKLAND, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on August 31st at 12 noon for street improvements authorized under the following resolutions: That Arthur street from 72nd avenue to Church street, as it exists between Arthur and Fresno streets, be graded, curbed with redwood, guttered with concrete gutters 3 feet wide, and paved with oil macadam.

That 2nd street from Webster street to Alice street be graded, curbed with granite, guttered with brick gutters 14 inches wide and paved with asphalt; also that four brick catch basins with cast iron tops be constructed in 2nd street, one in each quarter of the north halves of the crossings of Harrison street and Alice street, also that vitrified pipe conduits, having internal diameters of 10 inches be constructed.

STOCKTON, SAN JOAQUIN CO., CAL.—Storm water sewer. Cost not stated. Engineer, County Surveyor

quand, Stockton. Owners, San Joaquin County. Bids will be opened on September 5th at 10 a. m. for constructing a storm water sewer in McKinley avenue. Plans can be secured from the County Surveyor's office.

STOCKTON, SAN JOAQUIN CO., CAL.—Sewer construction, \$7,783.44. Engineer, City Engineer, Stockton. Owners, City of Stockton. Plans and specifications for constructing storm sewers along certain streets in the Schwitzer tract, east of East street and north of Weber avenue and along East and Fremont streets, were adopted by the City Council recently.

RED BLUFF, TEHAMA CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Red Bluff. Owners, Tehama County. Bids will be received on September 5th at 10 a. m. for constructing about four-fifths of a mile of macadam road, said road being a portion of the Mantion Road extending in a southwest direction from or near what is known as the Ross Gates Hill, and on the south side thereof, situate in Road District No. 3.

RICHMOND, CONTRA COSTA CO., CAL.—Street and sewer work, \$35,000. Engineer, City Engineer Chapman, Richmond. Owners, City of Richmond. City Engineer Chapman has completed plans for sewer and street improvements. The plans provide for a lateral sewer in the Bay Shore Tract, improvement of 4th street from Potrero St. to the Southern Pacific tracks, and the improvement of 15th street.

SAN RAFAEL, MARIN CO., CAL.—Street improvements. Cost not stated. Engineer, County Surveyor, San Rafael. Owners, Marin County. County Engineer Richardson was directed at the last meeting of the Supervisors to prepare plans and specifications for leveling up and macadamizing Grant avenue from the State highway to the depot in Novato so bids for doing the work can be called.

FAIRFIELD, SOLANO CO., CAL.—Highway improvement. Cost not stated. Engineer, County Surveyor, Fairfield. Owners, Solano County. The specifications for graveling a part of Road 173, Road District No. 4, were adopted by the Supervisors at their last meeting and the Clerk directed to advertise for bids to be opened on Tuesday, September 5th at 11 o'clock a. m. Plans may be had from the County Clerk.

VALLEJO, SOLANO CO., CAL.—Street paving, \$135,828.53. Engineer, City Engineer, Vallejo. Owners, City of Vallejo. Bids were opened at the August 16th meeting of the City Council for street paving in the northern section of the city. The Warsaw Construction Co. submitted the lowest figure at \$135,828.53 and will probably be awarded the contract. Three sets of bids were taken under advisement: Warsaw Construction Co., \$135,828.53; Bates, Borland & Ayer, \$136,789.82; Federal Construction Co., \$138,897.87. Other firms submitting figures for the work were Raisen Improvement Co., Paul & Caldwell, Clarke & Henery and Johnson-Shea Co.

SAN MATEO, SAN MATEO CO., CAL.—Street paving, etc. Cost not stated. Engineer, City Engineer, San Mateo. Owners, City of San Mateo. Plans and specifications having been approved, the San Mateo Trustees will shortly issue a call for bids for the paving of Hayward Park, a resident tract in the

extreme southerly portion of the city. This is the last extensive area in that city which remains to be paved.

WATERVILLE, DOUGLAS CO., WASH.—Highway construction, \$22,321.04. Engineer, County Surveyor, Waterville. Owners, Douglas County. O. M. Patton and Jas. T. Smith of Portland submitted the low bid at \$22,321.04 for the construction of four miles of permanent highway from Mansfield east, in Douglas County. They will probably be awarded the contract.

BAKERSFIELD, KERN CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Bakersfield. Owners, Kern County. The Board of Supervisors has accepted the plans and specifications for the construction of division 4, section 1, Rio Bravo-Wasco road, and the Clerk was instructed to advertise for bids to be opened October 3rd at 10 a. m. The plans and specifications for the Bakersfield-McKittrick road were accepted and bids for this work will be opened September 5th at 11 a. m. The plans and specifications for the construction of division 12, Randsburg-Johannesburg, Stringer district, were accepted, as were also plans and specifications for the construction of the Poso Creek bridge on Division 2, Wasco-McFarland road. Bids for the former road work will be opened September 5th at 10 a. m., and bids for the Wasco-McFarland road bridges at Poso Creek will be opened September 5th at 10:30 a. m.

SANTA ROSA, SONOMA CO., CAL.—Road improvements, \$1,150. Engineer, County Surveyor, Santa Rosa. Owners, Sonoma County. A bid submitted to the County Supervisors by the Western Motor Drayage Co., 1444 Church street, San Francisco, for road surfacing of various strips of the county highway, ranging from a mile to a mile and a half, was taken under advisement.

SANTA ROSA, SONOMA CO., CAL.—Road roller. Cost not stated. Engineer, City Engineer, Santa Rosa. Owners, City of Santa Rosa. At the last meeting of the City Council the bids for a five-ton roller were again laid over two weeks, and the Mayor announced that at the next meeting some action would be taken in the way of purchasing a roller under the bids submitted a month ago.

SANTA ROSA, SONOMA CO., CAL.—Road improvement. Cost as follows. Engineer, County Surveyor, Santa Rosa. Owners, Sonoma County. The County Supervisors have rejected the only bid they received for the construction of the road between Monte Rio and Guerneville. The bid was received from the Call Construction Co. and was \$3,298. The bid was rejected because there is not that amount of money available for the road.

SACRAMENTO, CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on August 30th at 11 a. m. for furnishing the materials and constructing a trunk line sewer, unit No. 3, Low line. The principal items of the work are as follows: 31½ linear feet of 42-inch reinforced concrete sewer; 1 concrete manhole, 4 feet inside diameter; 20 cubic yards of plain concrete.

REDWOOD CITY, SAN MATEO CO., CAL.—Highway improvement. Cost not stated. Engineer, County Surveyor, Redwood City. Owners, San Mateo

County Supervisors for paving with oiled macadam Mills avenue and portions of Laurel avenue in Menlo Park were rejected, excepting that of Thomas Flynn, which was taken under advisement.

STOCKTON, SAN JOAQUIN CO., CAL.—Highway improvement. Cost not stated. Engineer, County Surveyor, Quail, Stockton. Owners, San Joaquin County. Bids will be received up to September 5th at 1 a. m. for improvement work on the Norton-Angiers road from the Central California Traction Railroad line near the quarter section corner on the west line of Section 29, T. 3 S., R. 7 E., M. 10 B. & M., east a distance of one-half mile.

SANTA ANA, ORANGE CO., CAL.—Highway improvement. Cost not stated. Engineer, County Surveyor, Santa Ana. Owners, Orange County. Bids will be received up to September 6th at 2 p. m. for constructing a 16-foot concrete pavement 4 inches thick on Placentia-Yorba road, extending from Richfield a distance of about 2½ miles, according to plans and specifications. The county will furnish sand, rock and cement f. o. b. cars near freight siding to said work.

Contracts Awarded.

SAN FRANCISCO—Furnishing paving brick. Cost as follows. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Contractors, California Brick Co., 100,000 or more at \$33 per thousand.

SACRAMENTO, CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That 11 street from 31st street to Mont Clair avenue be improved by constructing concrete curb, concrete gutter, 138 linear feet of concrete gutter of special design, 6 and 8-inch, vitrified, ironstone sewer pipe drains; placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes complete; concrete sidewalk; grading the space between the property line and curb; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick; reconstructing ten concrete manholes by placing same to official grade. Awarded to Clarke & Henery Construction Co., Ochsner Bldg., Sacramento.

ALAMEDA, ALAMEDA CO., CAL.—Street paving, etc., \$25,528.76. Engineer, City Engineer, Alameda. Owners, City of Alameda. Contractors, Clarke & Henery, Ochsner Bldg., Sacramento.

REDWOOD CITY, SAN MATEO CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, Redwood City. Owners, Redwood City. Claiming a mistake in their bid, Peterson & Grier, 62 Post street, S. F., have been released from their contract for paving with oil and macadam Seminary avenue in the Second Township. New bids were ordered received for the work. Plans may be had from the County Clerk.

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, San Francisco. Owners, City and County of San Francisco. The following street improvement contracts have been awarded by the Board of Public Works: The improvement of

the south half of Clement street, opening at the termination of 34th avenue by the construction of concrete curbs, artificial stone sidewalks; two concrete catchbasins, 10-inch, vitrified, salt-glazed, ironstone pipe culverts and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway. The improvement of 34th avenue, between Geary and Clement Sts., where not already improved, by the construction of concrete curbs; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface, and by the construction of artificial stone sidewalks 6 feet wide and the improvement of the south half of Clement St., between 34th and 35th avenues, proposed, where not already improved, by the construction of granite curbs; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface, and an artificial stone sidewalk 6 feet wide. Awarded to S. F. Johnson, Pacific Bldg., for \$1,730.33.

The improvement of San Bruno avenue, where not already improved, from Cortland avenue to Steuben street, by the construction of granite curbs; artificial stone sidewalks, a hasalt block pavement on a concrete foundation grouted with cement; and hasalt block gutters; and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Flinn & Tracy, First National Bank Bldg., for \$18,369.60.

The improvement of McAllister St., between Parker avenue and North Stanyan street, by the construction of concrete curbs; brick catchbasins with cast iron frames, gratings and traps and 10-inch, vitrified, salt-glazed ironstone pipe culverts; artificial stone sidewalks; a 14-foot central strip of vitrified brick pavement, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface upon the remainder of the roadway thereof. Awarded to Karl Ehrhart, 656 Market, for \$5,411.76.

The improvement of Vicente street, between 19th and 21st avenue, by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8, 18 and 21-inch, with 36 Y branches and 4 brick manholes with cast iron frames and covers and galvanized wrought iron steps. Awarded to A. E. Buckman, 62 Post street, for \$1,270.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That the alley between T and U Sts., from 5th street to 9th street, be improved by constructing one concrete catchbasin complete; placing 4 linear feet of 8-inch, vitrified, ironstone sewer pipe dala connecting catchbasin to sewer, constructing 113 linear feet of concrete curb wall; reconstructing one concrete manhole; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to McMillan Construction Co., 717 Capitol National Bank Bldg., Sacramento.

That the alley between O and J Sts., from 14th street to 15th street, be improved by constructing one concrete catchbasin complete, placing 10 linear feet of 8-inch, vitrified, ironstone sewer pipe drain, constructing one concrete manhole, grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick, and a sheet asphalt wearing surface 1½ inches thick. Awarded to the McGilivray Construction Co.

That the alley between O and P Sts., from 5th street to 6th street, be improved by constructing one concrete catchbasin complete, four linear feet of 8-inch, vitrified, ironstone sewer pipe drain connecting catchbasin to sewer; constructing 100 linear feet of concrete curb wall, grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to McGilivray Construction Co.

That Raynsford avenue from Madrone avenue to Cypress avenue, be improved by constructing concrete curb, concrete gutter, 6- and 8-inch, vitrified, ironstone sewer pipe drains; placing 4 6-inch V branches, one concrete manhole complete; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic concrete wearing surface 1½ inches thick. Awarded to A. Teichert & Son, Ochsner Bldg., Sacramento, Cal.

STOCKTON, SAN JOAQUIN CO., CAL.—Cutting grade, \$2,691. Engineer, City Engineer, Stockton. Owners, City of Stockton. Contractor, P. C. McIntyre, 215 East Weber street, Stockton. Contract price, \$2,691.

SAN LEANITO, ALAMEDA CO., CAL.—Sewer construction, \$771.75. Engineer, City Engineer, San Leandro. Owners, City of San Leandro. Contractor, W. J. Tobin, 735 Filbert street, Oakland. Contract price, \$771.75.

SAN JOSE, SANTA CLARA CO., CAL.—Sewer construction, \$6,633. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. Contractor, William F. Edwards, 675 31st street, Oakland. Contract price, \$6,633.

MODESTO, STANISLAUS CO., CAL.—Street paving. Cost as follows. Engineer, City Engineer, Modesto. Owners, City of Modesto. Contractors, Central California Paving Co., Schafer Bldg., Modesto. Contract prices, 1½¢ a square foot for grading, 1½¢ a square foot for paving, 1¢ a square foot for gutter and 4½¢ a linear foot for curbing.

RIVERSIDE, RIVERSIDE CO., CAL.—Street improvements, \$5,101.17. Engineer, City Engineer, Riverside. Owners, City of Riverside. Contractors, Highway Construction Co., 26 Montgomery street, S. F. Contract price, \$5,101.17.

STORES AND OFFICES

SAN FRANCISCO—Stores and lots, 6 story and base, reinforced concrete, \$150,000. Architect, Kenneth Macdonald, Hollbrook Bldg., S. F. Owner, John A. Hooper. Location, west Battery north of Pine, covering an area of 111 by 137½ feet. Will contain stores on the first floor and a loft above. Contract for grading awarded to Sibley

Grading and Teaming Co. and to the concrete frame to P. A. Falber, Macdonald Bldg., 195 for other parts of the work in and under advisement.

SAN FRANCISCO—Store alteration, 1 story, frame, \$3,000. Architect, none. Owner, R. W. Moller, Call Post Bldg., S. F. Location, southeast corner 24th and Osage. Work will consist of interior and exterior alteration. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Store alteration, frame. Cost not stated. Architect, Henry Shermond, Mills Bldg., S. F. Owner, Nathan Delbanco. Location, 10th near Sacramento. Will consist of installing new store fronts. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Stores, 1 story and base. Class C construction, \$14,000. Architect, W. H. Crim, Jr., 425 Kearny street, S. F. Owner, Robert White. Location, Fillmore between Geary and Post. Will contain two stores. Plans complete and figures being taken.

LOS ANGELES, CAL.—Stores and lots alterations, brick and steel. Cost not stated. Architect, Richard D. King, Van Nuys Bldg., L. A. owners, Boothe Estate. Location, Los Angeles street between 2nd and 3rd streets. Plans being prepared.

SEALED PROPOSALS

PROPOSALS FOR CANAL SUPPLIES.

PANAMA (CIRCULAR 1072) — Proposals for Steel Cylinders for Pier No. 6. Engine, Lathes, Hackaws, Inclined Frame, Shaper, Bolt Cutter, Sensitive Drill, Drill Press, Radial Drill, Dry Grinder, Belts, Rivets, Drill Sockets and Shoes, Cable Clips, Wedge Anchors, Shackles, Turnbuckles, Bolster Standards, Galvanized and Copper Nails, Sheet Brass, Sheet Copper, Bearing Metal, Bronze, Bar Copper, Petroleum Cocks, Grommets, Brass Tubing, Lead Pipe, Copper Wire, Poultry Netting, Wire Cloth, Zinc, Solder, Manila Rope, Wanyard, Ball Balls, Horseshoes, Wheelbarrows, Shovels, Singletrees, Harness Buckles, Life Preservers, Sole Leather, Rubber Tires, Combination and Marine Lights, Pulleys, Acromechanical Pulleys, Gears, Tally Registers, Wire Brushes, Clocks, Tarboard Boxes and Wrapping Paper.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m. August 28, 1916, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1072) may be obtained from this office or the offices of the assistant purchasing agents, Mason, San Francisco. Cal. also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal.; EXALL I. BROWN, major, corps of engineers, U. S. army, General purchasing officer.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA (CIRCULAR 1072) — Proposals for Tool Steel, Pig Iron, Pig Tin, Wire Nails, Foundry Nails, Machine Bolts, Band Pumps, Anvils, Refrigerator Apparatus, Refrigerator Doors, Sash Operating Device, Drill Press, Spelter, Foundry Clay, Sand, Asphaltum, Cold Tar Pitch, North Carolina Pitch, Valves, Grommets, Brass Pulleys, Poultry Netting, Ribbed Wire Glass, Insulating Paper, Carbon Paper, Paper Bond, Writing, Union Skin and Money Wrappers, Waste Baskets, Soapstone Sinks and Sinks, Lumber, Southern Yellow Pine, Douglas Fir, White or Sugar Pine, Poplar, White Ash, Cypress and White Oak and Cross Ties. Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until 10:30 a. m. September 1, 1916, at which time they will be opened in public, for fur-

nishing the above mentioned articles. Blanks and general information relating to this circular (No. 1072) may be obtained from this office or the offices of the assistant purchasing agent, Port Vason, San Francisco, Cal.; also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal.; EXALL I. BROWN, major, corps of engineers, U. S. army, General purchasing officer.

PROPOSALS FOR LUMBER.

LUMBER—Office of the Commanding officer, Springfield Armory, Springfield, Mass.—Sealed proposals will be received here until September 1, 1916, under proposal 16, for furnishing 150,000 feet pine board, D stock, 1 inch rough, 50 per cent 8 inches wide, 50 per cent 10 inches wide, 12 feet by 16 feet long, to be in accordance with the rules of the Northern Pine Manufacturers' Association or the California Sugar and Lumber Pine Agency, in California. White pine is bid or must be of soft texture. For further information address the commanding officer.

PROPOSALS FOR MAIL-HANDLING DEVICE.

MAIL-HANDLING DEVICE — Treasury Department, Supervising Architect's office, Washington, D. C.—Sealed proposals will be opened in this office at 3 p. m. October 2, 1916, for mail-handling device in the U. S. post office at Denver, Colo., in accordance with specification and drawing, copies of which may be obtained at this office of the bureau of the commanding architect, JAMES A. WETMORE, acting supervising architect.

PROPOSALS FOR PIPE LINE.

PIPE LINE—Sealed proposals for proposed "Proposals for Pipe Line" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m. August 26, 1916, and then and there publicly opened, for a 4-inch flexible-joint submerged pipe line at the naval training station, San Francisco, Cal. Plans and specification can be obtained on application to the bureau of the commanding officer of the navy yard, Mare Island, Cal. F. R. HARRIS, chief of bureau.

ICE PLANT—Sealed proposals, for proposed "Proposals for Ice-making and Cold-storage Plant" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 11 o'clock a. m. September 1, 1916, and then and there publicly opened, for an ice-making and cold-storage plant for the U. S. marine barracks, Peking, China. Plans and specification may be obtained on application to the bureau. F. R. HARRIS, chief of bureau.

COMPETITION ANNOUNCEMENT.

The Board of Control of the State of California announces to the architects of California:

That the people of California have authorized the issuance of bonds to the amount of \$2,000,000 for the purpose of constructing, furnishing and equipping the San Francisco State Building to be located on the Civic Center in the City and County of San Francisco. The State Architect has the money been sold and the money is now available; that the Board of Control has instituted a competition for the selection of an architect to design and supervise the construction of this building.

Section No. 11 of the Department of Engineering law of the State of California, which empowers the Board of Control to institute this competition, provides that the State Architect shall act as architectural advisor in connection therewith.

The competition will be conducted in two stages and is confined to California. The first stage is open to all certified architects of the State of California who have had the necessary experience, subject to the conditions prescribed in the Program of the competition.

The second stage will be open only to eight architects selected by the Jury from those competing in the first stage. No competitor shall receive any remuneration unless chosen by the Jury and submitting drawings in the second stage. The program for this com-

petition is approved by the San Francisco Sub-Committee on Competitions of the American Institute of Architects. Architects desiring to compete must file with George B. McDougall, State Architect, Forum Building, Sacramento, California, a written request for a copy of the program. On September 1, 1916, copies will be mailed simultaneously to all architects from whom written requests for same have been received. Copies will be mailed to architects making written requests for same after September 1st, at the time of the receipt of such later request.

BOARD OF CONTROL OF THE STATE OF CALIFORNIA.

ACCIDENT COMMISSION ADJUSTS THOUSANDS OF CONTROVERSIES

During the two and one-half years of the operation of the Workmen's Compensation, Insurance and Safety Act, up to the first of July, 1916, there were filed with the Commission 2822 applications for adjustment of controversies over compensation claimed.

Of this number of cases the Commission had, up to July 1st, decided 2407 and of these 94, or slightly less than 4%, had been appealed to the Supreme Court or District Courts of Appeal of this State. In all the others (2313) the decisions of the Commission were accepted by the parties as conclusive of the issues involved.

Of the 94 cases in which appeals had been taken, 51 had been decided by the appellate courts, and of those decided the Commission had been sustained in 35 instances, or slightly more than two-thirds, and reversed in 16.

There remained on the first of July, 37 of such cases that had not been decided on appeal, at least 7 of which, involving the single issue of admiralty jurisdiction, are waiting a decision of the Supreme Court of the United States on this point.

The 415 cases which had not been decided by the Commission up to July 1, 1916, had either been compromised and settled or were in all stages of advancement from the mere filing of the application for adjustment up to the point where they were about to be decided by the Commission. Some of them had not yet been heard, some had been heard and not closed and some of them were under advisement.

Of the 2407 decided cases all that were decided during the years 1914 and 1915, which were deemed worthy of digesting, had been digested and published and now make two volumes of upwards of 950 and 1100 pages each. The 1915 decisions have just been received by the Commission from the State Printer. Persons desiring to keep in touch with the decisions of the Commission can secure these volumes upon application to the Commission at \$3.00 per volume, plus the postage, which in this State generally amounts to 25c.

The address of the Industrial Accident Commission is 525 Market Street, San Francisco.

NATIONAL FORESTS PRODUCE REVENUE.

Receipts from National Forests in California for the fiscal year 1916 were \$317,463.51, which is an increase of almost \$44,000 over the receipts of last year and is the largest amount earned by the Forests since their establish-

ment, according to a report given out by District Forester DuBois. Of particular interest is the fact that 25 per cent of this amount, or over \$79,000 will be returned to the county school and road funds of the counties containing National Forest areas, and that 10 per cent additional of the total amount will be spent by the Forest Service in constructing roads and trails within these National Forests.

The increase in revenue arising from a stimulated demand for all National Forest products, reflects, it is said, the increase in business activity in this State. The largest amount was received from the sale of timber which produced a revenue of \$112,711.37. This is an increase of \$24,236 over the timber sales of 1915. The issuance of permits to cattle and sheep men for the grazing of stock on the National Forests brought in a revenue of \$111,598. This is almost \$5,000 more than last year. Rents received from summer home sites, apiary sites, corrals, and fees for other special uses showed an increase of more than \$2,000 over the previous year, while an \$5,000 increase is credited to the issuance of permits in connection with water power development.

SUMMER SCHOOLS AND MUNICIPAL CAMPS IN NATIONAL FORESTS.

WASHINGTON, August 15.—Increasing use of the National Forests for municipal camp sites and summer school locations is reported by the Forest Service. Permits have already been issued to several cities and educational institutions and other applications are expected. Officials say that far more people use the Forests for public playgrounds than for any other purpose, and that this use promises to be one of the most important to which they can be put.

The city of Fresno, California, has been granted a permit for the use of a 15-acre camp on the shores of Huntington Lake, in the Sierra National Forest. It is reported that the city will establish a camp in which outings during the summer months will be provided at low cost for 11,000 school children and their parents.

In the same Forest a California State normal school is now occupying a tract of land which is rented from the Government under a long-term lease. A number of buildings have been erected, all of which, as well as many cottages and camps, are supplied with water from a water system installed by the Forest Service. In connection with the regular six-weeks summer course, this school gives a course in woodcraft and general forestry subjects. The students visit the nearby Forest Service Ranger stations and lookout towers, and study the Government's methods of fire protection. Addresses on the work of the Forest Service are given by officials from time to time. The Georgia State Forest School has a camp on private lands on the Georgia National Forest where a summer course is given. A feature of this course is a series of talks given by members of the Forest Service stationed in the vicinity.

Los Angeles was the first city in California to establish a vacation camp in the National Forests. A tract of

land in the Angeles Forest has been purchased and a large camp built, costing about \$8,000. This camp consists of a big old stone lodge, 16 furnished cottages, tennis and croquet courts, baseball grounds and handball courts. A 10-day trip can be made for a small cost which is within the reach of practically every one. By this means thousands of residents of the city have been able to spend their vacations in the mountains.

It is also reported that a San Francisco association is considering the establishment of a summer home for girls at Lake Tahoe on the Tahoe National Forest. Boy Scout troupes regularly camp in several of the Forests, and on one Forest the Y. M. C. A. of a nearby city has leased a lot and put up a permanent camp.

Officials say that the National Forests offer unlimited opportunities for summer school and municipal camps, as well as the best opportunities for recreation to be had anywhere in the country. Ample provision is made for campers and tourists. Hunting and fishing are allowed in season, and there are no restrictive regulations beyond those regarding forest fires.

WIRE TIES.
A New And Unique System of Tying Reinforcing Bars.

Mr. S. H. Bates, representing the Bates Wire Ties, manufactured in Chicago for tying reinforcing steel bars, is in San Francisco this week introducing a new and novel system of tying steel bars.

The wire is twisted around the bar with a light tool which makes it possible to twist the wires very much faster than with the old system of making the twist with a pair of pliers.

These Ties are in use very extensively throughout the East, and the Middle West, the contractors having discovered that they can reduce the cost of tying the Steel Bars considerably by using this improved system.

Mr. Con Roman of 214 Sharon Building, this city, has been appointed as local representative in this territory, and will carry a full stock of the Ties in the different lengths, also the tools, and will be in a position to fill any orders promptly, and make immediate delivery.

Any contractors desiring to avail themselves of the benefits of this improved system of reinforcing steel bars, are requested to call on Mr. Roman, who will appreciate their business.

REPORT ON POTTERY.
The Geological Survey, Department of the Interior, now has available for distribution its annual statement on Pottery in 1915, which gives the value of all domestic pottery marketed in 1915 as \$37,325,388, an increase of more than 5 per cent over that for 1914.

MILLIONS IN SAND AND GRAVEL.
"Sand and Gravel" is the latest chapter from the Mineral Resources report for 1915 available for distribution by the Geological Survey, Department of the Interior. According to this statement the United States produced 76,603,303 short tons of sand and gravel, valued at \$23,121,167, during the year.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

APARTMENT HOUSE—15 story and base. Class A construction. Cost not stated. San Francisco. Architect, Kenneth Macdonald, Holbrook Bldg., S. F. Owner, Harvey Toy. Location, north Jackson east of Cherry. Will contain 28 apartments of eight rooms each. Plans being prepared.

APARTMENT HOUSE—3 story and base, frame, \$28,000. San Francisco. Architect, Edward T. Poulkes, Crocker Bldg., S. F. Owner, E. G. Fischer. Location, northwest Fell and Ashbury, covering an area of 56 by 30 feet. Will contain 12 suites of five and six rooms. Plans complete and segregated figures being taken.

RESIDENCES—4, 2 story and base, frame, \$2,750 each. San Francisco. Architects, E. P. Antonovich and H. E. Harris, Monadnock Bldg., S. F. Owners, Co-operative Home Builders. Location, Levant near Masonic. Each house will contain six rooms, bath and sun porch. Plans being prepared and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$10,000. San Francisco. Architect, Albert Farr, Foxcroft Bldg., S. F. Owner, Dr. Harry E. Anderson. Location, Green between Divisadero and Broderick. Will contain nine rooms, two baths and basement garage. Plans complete and figures being taken.

APARTMENT HOUSE—3 story and base, frame, \$12,600. San Francisco. Architect, Louis Mastrospasqua, 580 Washington street, S. F. Owner, T. Scannavino. Location south Grove east Gough, covering an area of 27½ by 120 feet. Will contain twelve apartments. Plans complete and figures being taken.

APARTMENT HOUSE—3 story and base, frame, \$20,000. San Francisco. Architect, August G. Headman, Call-Post Bldg., S. F. Owners, Graham & Rhine. Location, south Washington east Presidio. Will contain a number of six and seven room apartments. Plans complete and figures being taken.

APARTMENT HOUSE—3 story and base, frame, \$17,000. San Francisco. Architect, none. Owner, J. V. Campbell, 1010 Bryant street, S. F. Location, southeast Baker and Golden Gate avenue, covering an area of 37½ by 88 feet. Will contain 12 apartments of two, three and four rooms. Plans complete and work to be done by Day Labor.

FACTORY AND WAREHOUSE—4 story and base, reinforced concrete, \$100,000. San Francisco. Architect, William H. Crim, Jr., 425 Kearny St., S. F. Owners, Pacific Envelope Co. Location, southwest corner Second and Harrison, covering an area of 95 by 165 feet. Plans complete. Work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$2,000. San Francisco. Architect, none. Owner, Miss Florence Leclair, 519 Capp street, S. F. Location, north 20th west of Church. Will contain six rooms and bath. Plans complete and work to be done by Day Labor.

Contracts Awarded

STREET IMPROVEMENTS—Cost as follows. San Francisco. Engineer, City Engineer, San Francisco. Owners, City and County of San Francisco. The following street improvement contracts have been awarded by the Board of Public Works: The improvement of the south half of Clement street opposite the termination of 34th avenue by the construction of concrete curbs, artificial stone sidewalks; two brick catchbasins, 10-inch, vitrified, salt-glazed, ironstone pipe culverts and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway. The improvement of 34th avenue between Geary and Clement streets, where not already improved, by the construction of concrete curbs; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface, and by the construction of artificial stone sidewalks 6 feet wide, and the improvement of the south half of Clement street between 34th and 35th avenues, produced, where not already improved, by the construction of granite curbs; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface; an artificial stone sidewalk 6 feet wide. Awarded to S. F. Johnson, Pacific Bldg., for \$1,750.33.

The improvement of San Bruno avenue, where not already improved, from Cortland avenue to Struben street, by the construction of granite curbs; artificial stone sidewalks, a basalt block pavement on a concrete foundation grouted with cement, and basalt block gutters, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Flinn &

Treacy, First National Bank Bldg., for \$18,369.60.

The improvement of McAllister St., between Parker avenue and North Stanyan street, by the construction of concrete curbs; brick catch basins with cast iron frames, gratings and traps, and 10-inch, vitrified, salt-glazed, ironstone pipe culverts; artificial stone sidewalks: a 14-foot central strip of vitrified brick pavement, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface upon the remainder of the roadway thereof. Awarded to Karl Ehrhart, 660 Market for \$5,441.76.

The improvement of Vicente street, between 19th and 21st avenue, by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8, 18 and 21-inch, with 36 Y branches and 4 brick manholes with cast iron frames and covers and galvanized wrought iron steps. Awarded to A. E. Buckman, 62 Post street, for \$1,270.

FURNISHING PAVING BRICK—Cost as follows. San Francisco. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Contractors, California Brick Co., 100,000 or more at \$33 per thousand.

FACTORY—3 story and base, reinforced concrete and brick. Cost not stated. San Francisco. Architect, August G. Headman, Call-Post Bldg., S. F. Owners, J. Allee Cleaning and Dyeing Works. Contractors, C. J. Millard, ornamental iron work; Percy Sheet Metal Works, sheet metal; H. W. Johns-Manville, roofing.

DENTAL COLLEGE ALTERATIONS AND COMPLETION — \$15,300. San Francisco. Architect, Lewis P. Hobart, Crocker Bldg., S. F. Owners, Regents of the University of California. Contractors, McLeran & Peterson, Sharon Bldg., S. F. Contract price, \$15,300.

HOTEL MARBLE WORK, ETC.—\$14,050. San Francisco. Architects, Wright & Rushforth, 354 Pine St., S. F. Owner, James Otis, Trustee. Contractors, American Marble and Mosaic Co., 25 Columbus Square, S. F. Contract price, \$14,050.

RAILS—\$28,635. San Francisco. Engineer, City Engineer, City Hall. Owners, City and County of San Francisco. Contractors, United States Steel Products Co. Contract price, \$28,635.

City Bids Opened.

California Brick Co. Will be Awarded Contract for Vitrified Paving Brick.

Bids were opened at the regular Wednesday afternoon meeting of the San Francisco Board of Public Works for furnishing steel rails under contract No. 86 for the Municipal Railways. The United States Steel Products Co. were the only bidders and will probably be awarded the contract.

Bids were also opened at the same meeting for furnishing 100,000 vitrified paving brick. Only two bids were received. The California Brick Co. bid \$33 per thousand and will probably be awarded the contract. Denny-Renton Clay & Coal Co., Seattle, was the other bidder at \$43.50.

Contractors all over the country are moving more material in less time and at a smaller expense with
FOUR WHEEL DRIVE TRUCKS
than with any other method of transportation.

Consider what power on all four wheels would mean for you in your business.

Large Contractors and corporations the world over are finding that power on all four wheels results definitely and decisively in:--

100 per cent saving in cost of tires.

Greater durability to every wearing part.

Allows equal distribution of load, thus

Eliminating undue strain on any one part.

Enormous saving in cost of up-keep.

More mileage per gallon of gasoline and oil.

DEPENDABLE SERVICE - no idle days waiting for repairs.

Remember that every F. W. D. Truck built in the past seven years is working to-day, and they are performing harder and more persistent service at a given cost than any other truck built to-day.

You owe it to yourself to investigate the F. W. D. truck.

Four Wheel Drive Truck Co.

SAN JOSE AND THE SANTA CLARA VALLEY

STREET PAVING, ETC. Cost not stated. San Mateo, San Mateo Co., Cal. Engineer, City Engineer, San Mateo. Owners, City of San Mateo. Plans and specifications having been approved the San Mateo Trustees will shortly issue a call for bids for the paving of Hayward Park, a resident tract in the extreme southerly portion of the city. This is the last extensive area in that city which remains to be paved.

RESIDENCE—2 story and base, frame, \$10,000. Los Altos, Santa Clara Co., Cal. Architect, Mr. Merchant, care of George W. Kelham, Sharon Bldg., S. E. Owner, Dr. T. E. Shumate. Will contain ten rooms, three baths and sleeping porches. Separate garage. Plans complete and figures being taken.

RECORDERS' OFFICE FIXTURES—San Jose, Santa Clara Co., Cal. Architect, none. Owners, Santa Clara County. The County Supervisors have extended the time for opening bids for fixtures for the County Recorder's office. The original time was August 21st, which has now been set for September 5th at 11 a. m. Plans for this work may be secured from County Clerk Henry A. Mober.

SCHOOL ADDITION—1 story and base, frame, \$13,000. San Jose, Santa Clara Co., Cal. Architect, P. D. Aiklin, Theatre Bldg., San Jose. Owners, City of San Jose. Addition will include an assembly hall and the equivalent of seven class rooms. Plans have been officially approved by the Board of Education.

STREET AND SEWER WORK —
\$15000. Richmond, Contra Costa Co.,
Cal. Engineer, City Engineer Chap-
man, Richmond. Owners, City of Rich-
mond. City Engineer Chapman has
completed plans for sewer and street
improvements. The plans provide for
a lateral sewer in the Bay Shore Tract,
improvement of 45th street from Po-
trero street to the Southern Pacific
tracks and the improvement of 15th
street.

STREET IMPROVEMENTS—Cost not
stated. San Rafael, Marin Co., Cal.
Engineer, County Surveyor, San Rafael.
Owners, Marin County. County Sur-
veyor Richardson was directed at the
last meeting of the Supervisors to pre-
pare plans and specifications for level-
ing up and macadamizing Grant ave-
nue from the State highway to the
depot in Novato, so bids for doing the
work can be called.

HIGHWAY IMPROVEMENT — Cost
not stated. Fairfield, Solano Co., Cal.
Engineer, County Surveyor, Fairfield.
Owners, Solano County. The specifi-
cations for graveling a part of Road
173 Road District No. 1, were adopted
by the Supervisors at their last meet-
ing and the Clerk directed to advertise
for bids to be opened on Tuesday,
September 5th at 11 o'clock a. m. Plans
may be had from the County Clerk.

STREET PAVING—\$135,828.52. Val-
lejo, Solano Co., Cal. Engineer, City
Engineer, Vallejo. Owners, City of
Vallejo. Bids were opened at the Au-
gust 16th meeting of the City Council
for street paving in the northern sec-
tion of the city. The Warsaw Con-
struction Co. submitted the lowest fig-
ure at \$135,828.52 and will probably
be awarded the contract. Three sets
of bids were taken under advisement.
Warsaw Construction Co., \$135,828.52;
Piles, Borland & Ayer, \$126,789.82;
Federal Construction Co., \$128,897.87.
Other firms submitting figures for the
work were Raich Improvement Co.,
Paul & Caldwell, Clarke & Henery and
John O-Shen Co.

RESIDENCE — 2 story and base,
frame \$2000. Pittsburg, Contra Costa
Co., Cal. Architect, none. Owner,

sewers along certain street. In the Schwiditzer tract, east of East street and north of Weber avenue and along East and Fremont streets. Were adopted by the City Council this morning.

HIGHWAY CONSTRUCTION—Cost not stated. Red Bluff, Tehama Co., Cal. Engineer, County Surveyor, Red Bluff, Owners, Tehama County. Bids will be received on September 5th at 10 a. m. for constructing about four-fifths of a mile of macadam road, said road being a portion of the Manion road extending in a southwest direction from or near what is known as the Ross Gates Hill, and on the south side thereof, situate in Road District No. 3.

BRIDGES—Reinforced concrete. Cost not stated. Auburn, Placer Co., Cal. Engineer, County Surveyor, Auburn, Owners, Placer County. Plans and specifications for two Yankee Slough bridges on State Highway, prepared by Engineer Conroy, were accepted. Bids for erection of bridges ordered advertised.

SCHOOL—1 story and base, brick steel, \$50,000. Tracy, San Joaquin Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Tracy High School District. James Furlong, Modocnock Bldg., S. F., presented the low figure for the general construction at \$46,900 and J. E. Colara, 119 Alhambra street, the low figure for the heating and ventilating at \$5,625. A complete list of the bids will be found under the heading of Sacramento and Northern California in this issue.

BATH HOUSE—1 story, frame. Cost not stated. Lodi, San Joaquin Co., Cal. Architect, City Engineer, Lodi, Owners, City of Lodi. All bids for the municipal bathing house were rejected by the City Trustees because they ran above the City Engineer's estimate. Alterations will be made in the plans and a building, not quite so elaborate, will be erected. New bids will be called when revised plans are complete.

BRIDGES—Timber and concrete. Cost not stated. Eureka, Humboldt Co., Cal. Engineer, County Surveyor, Eureka, Owners, Humboldt County. The County Supervisors at their last meeting directed the County Clerk to advertise for bids for the construction of a number of bridges throughout the county. Bids will be asked for bridges across Jordan and Bear Creeks on the route of the state highway south of Eureka; another at Lost Man's Gulch, about six miles north of Orick, and a fourth in Butler Valley, near the summer home of C. S. Carson. Plans and further information may be had from the County Clerk.

SEWER CONSTRUCTION—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento, Owners, City of Sacramento. Bids will be opened on August 26th at 11 a. m. for furnishing the material and constructing a trunk line sewer, unit No. 1. Low line. The principal items of the work are as follows: 218 linear feet of 14-inch reinforced concrete sewer, one concrete manhole, 4 feet inside diameter; 20 cubic yards of plain concrete.

COUNTY COURT HOUSE—2 and 3 story and base, reinforced concrete of brick and steel, \$200,000. Woodland, Yolo Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Yolo County. Bids presented by Robert Frost and by Howard S. Williams, both San Francisco contractors, are still under

consideration. A complete list of the bids received for this work will be found under the heading of Sacramento and Northern California in this issue.

LIBRARY—2 story and base. Cost not stated. Sacramento, Cal. Architect, Loring P. Bixler, Sharon Bldg., S. F. Owners, City of Sacramento. Commissioner Coulter of Sacramento is the authority for the statement that bids will be called not before the end of this month for the construction of the new main library building. Working drawings have been completed by the architect for some time.

PIPE AND FITTINGS—Cost not stated. Fort Bragg, Mendocino Co., Cal. Engineer, City Engineer, Fort Bragg, Owners, Fort Bragg. Bids will be opened on August 28th at 6 p. m. for pipe and pipe fittings for the Fort Bragg water works, to wit: 2,700 feet 11-inch redwood continuous wound pipe with iron couplings; 2,700 feet 11-inch redwood continuous wound pipe with machine headed columns; Two 11-inch by 14-inch by 10-inch T's; single-weld bar wood pipe. All of the above pipe and fittings for a 100-foot head. 2,700 feet of 11-inch redwood continuous wound pipe only will be purchased by the Board.

SCHOOL—2 story and base, reinforced concrete and brick, \$30,000. Ripon, San Joaquin Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Ripon School District. H. P. Beck, Okdale, submitted the low bid for the general construction and will be awarded the contract. A complete list of the bids for this work will be found under the heading of Sacramento and Northern California in this issue.

SCHOOL HEATING SYSTEM—Cost not stated. Yreka, Siskiyou Co., Cal. Engineer's name not given. Owners Siskiyou Union High School District. Bids will be opened on September 2nd at 10 a. m. for the installation of a steam heating system in the new gymnasium, domestic science, and music building. Plans can be secured from the Clerk of the Board of Education.

SCHOOL—1 and 2 story, frame and concrete, \$18,000. Marysville, Yuba Co., Cal. Architect, Julia Morgan, Merchants' Exchange Bldg., S. F. Owners, City of Marysville. Will contain eight class rooms, departments for domestic science and manual training. Plans being prepared.

SCHOOL—1 story, frame and plaster, \$24,325. Lakeport, Lake Co., Cal. Architects, Morrow & Green, Chronicle Bldg., S. F. Owners, Town of Lakeport. Kern & McLean, 110 Jessie street, S. F., presented the lowest figure for this work, complete, at \$24,325 and will be awarded the contract. A complete list of the bids received appears under the heading of Sacramento and Northern California in this issue.

BRIDGES—Reinforced concrete. Cost not stated. Auburn, Placer Co., Cal. Engineer, County Surveyor, Auburn, Owners, Placer County. Plans and specifications for two Yankee Slough bridges on state highway prepared by Engineer Conroy were approved at the last meeting of the County Supervisors and bids were ordered advertised. Plans may be had from County Clerk Z. Lowell.

HOTEL ADDITION—1 story, frame. Cost not stated. Roseville, Placer Co., Cal. Architect, none. Owner, Barker

Hotel. Addition will contain 20 rooms. Plans being prepared.

SCHOOL—1 story and base, hollow tile or concrete. Cost not stated. Florin, Sacramento Co., Cal. Architect, George C. Sellon, 1905 K street, Sacramento, Owners, Florin School District. Will contain six class rooms. Alternate propositions for concrete or hollow tile. Plans complete and figures to be opened on September 2 at 3 p. m.

HIGHWAY IMPROVEMENT—Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, County Surveyor Quail, Stockton, Owners, San Joaquin County. Bids will be received up to September 5th at 10 a. m. for improvement work on the Norton-Angeles road from the Central California Traction Railroad line near the quarter section corner on the west line of Section 29, T. 3 N., R. 7 E., M. 1 D. E. & M., east a distance of one-half mile.

Contracts Awarded.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento, Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That the alley between T and U streets, from 8th street to 9th street, be improved by constructing one concrete catchbasin complete; placing four linear feet of 8-inch, vitrified, ironstone sewer pipe drain connecting catch basin to sewer, constructing 143 linear feet of concrete curb wall; reconstructing one concrete manhole; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 2-inch thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to McGillivray Construction Co., 717 Capitol National Bank Bldg., Sacramento.

That the alley between I and J Sts., from 12th street to 13th street, be improved by constructing one concrete catchbasin complete; placing 10 linear feet of 8-inch, vitrified, ironstone sewer pipe drain; reconstructing one concrete manhole; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick, a sheet asphalt wearing surface 1½ inches thick. Awarded to the McGillivray Construction Co.

That the alley between O and P Sts., from 8th street to 9th street, be improved by constructing one concrete catchbasin complete; 4 linear feet of 8-inch, vitrified, ironstone pipe drain connecting catchbasin to sewer; constructing 160 linear feet of concrete curb wall; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to the McGillivray Construction Co.

That Raynsford avenue, from Madrone avenue to Cypress avenue, be improved by constructing concrete curb; concrete gutter; 6 and 8-inch, vitrified, ironstone sewer pipe drains, placing four 6-inch, vitrified, ironstone Y branches; one concrete manhole complete; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic wearing surface 1½ inches thick. Awarded to A. Telcher & Son, Ochser Bldg., Sacramento, Cal.

BRIDGE—Reinforced concrete, \$9,333. San Andreas, Calaveras Co., Cal. Engineer, County Surveyor, San Andreas. Owners, Calaveras County. Contractor, E. A. Snyder, Sonora. Contract price, \$9,333.

STREET IMPROVEMENT—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That H street from 21st street to Mont Clair avenue be improved by constructing concrete curb, concrete gutter, 123 linear feet of concrete gutter of special design, 6 and 8-inch, vitrified, ironstone sewer pipe drains; placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; concrete manholes complete; concrete sidewalk; grading the space between the property line and curb; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick; reconstructing ten concrete manholes by placing same to official grade. Awarded to Clarke & Henery Construction Co., Ochsner Bldg., Sacramento.

CUTTING GRADE—\$2,691. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Contractor, F. C. McIntyre, 215 East Weber street, Stockton. Contract price, \$2,691.

BRIDGES—Timber. Cost as follows. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville. Owners, Butte County. Contractor, T. H. Polk, Chico. Butte Creek and Angel Slough bridges, \$1,959; Rock Creek bridges, \$2,693.

CITY HALL ALTERATIONS—\$3,200. Roseville, Placer Co., Cal. Architect, McAlpine Roseville. Owners, City of Roseville. Contractor, E. W. Book, Roseville. Contract price, \$3,200.

BORING WELL AND CASING—Cost not stated. Woodland, Yolo Co., Cal. Engineer, City Engineer, Woodland. Owners, City of Woodland. Contractor, Fred Kroster, Woodland. Contract price not stated.

RECLAMATION PUMPING PLANT—\$23,147. Woodland, Yolo Co., Cal. Engineer's name not given. Owners, Reclamation District No. 1600. Contractors, Yuba Construction Co., Marysville. Contract price, \$23,147.

RECEIVE FIGURES FOR TRACY SCHOOL BUILDING.

Ideal Heating & Eng. Co.	5,967
W. Morgan & Co.	5,989

YOLO COUNTY RECEIVES BIDS FOR COURT HOUSE.

Bids of Robert Trost and Howard S. Williams Taken Under Advisement. W. H. Weeks, Architect.

(By Special Wire.)

WOODLAND, Yolo Co., Cal., August 14th, 1916—Bids were opened at this afternoon's session of the Board of Supervisors for the construction of a new county Court House for Yolo County. Bids presented by Robert Trost and Howard S. Williams, both San Francisco contractors, were taken under advisement. Plans for the building were prepared by Architect W. H. Weeks, 75 Post street, San Francisco. Following is a list of the bids received for the general construction only.

General Construction, Yolo County Court House.

Robert Trost	\$193,167
Howard S. Williams	197,716
McLaren & Peterson	198,000
James L. McLaughlin	198,000
C. J. Guth	200,000
Masow & Morrison	205,677
Anderson & Ringrose	211,470
Mathews Constr. Co.	211,659
Larsen & Sampson	215,500
Harvey A. Klyce	216,443

Additional bids, received for the plumbing, heating and electric work will be published in our next issue.

ADDITIONAL BIDS RECEIVED ON YOLO COURT HOUSE.

Complete List of Figures for Two Hundred Thousand Dollar Court House at Woodland.

The following bids, in addition to those published in the issue of August 15th, were received by the Yolo County Supervisors for the construction of the new county Court House, designed by Architect W. H. Weeks, 75 Post St., San Francisco:

General Construction, Colusa Sandstone Exterior.	
Masow & Morrison	\$234,760
James L. McLaughlin	238,132
Anderson & Ringrose	239,470
Harvey A. Klyce	239,112
Robert Trost	215,227
Mathews Constr. Co.	223,659

San Sampson Co.	\$248,501
Ed S. Williams	2910
Program Clock System.	
Ed S. Williams Co.	\$1,557
Hard Elec. Time Co.	920

Plumbing.	
Labonnette-Plum Co.	\$6,487
O. Kutz	7,815
Turner Co.	8,950
Haley & Hatley	6,882
Robert Trost	8,471
W. P. Bayce & Son	6,478

Electric Work.	
Labonnette-Plum Co.	\$5,555
Turner Co.	6,000
Electric Constr. Co.	8,127

THE AMERICAN CONCEPTION OF LIBERTY.

By Hon. James W. Wadsworth, United States Senator from New York.
For Association for National Service.
The War of the Revolution and the agitation which preceded it for a generation had instilled into the people a dread and hatred of that form of despotism which thrived in the monarchical governments of that time and it was not at all a difficult matter for the men who wrote the Constitution to agree at the outset that our government should avoid even the most remote aspect of a monarchy. It has been said that the members of the convention which drafted the Constitution were perhaps the most remarkable assembly of men that have ever been gathered together in one deliberative body in the history of the world.

They were familiar with the history of Athens, with the history of the great Roman Republic and its gradual evolution into an empire, with the history of the mediæval Italian Republics, the famous Dutch Republic, and most important of all, with the history of the growth of the British constitution, with its great milestones marking the progress of Anglo-Saxon liberty. In short, in their collective knowledge and learning, they gathered together pretty nearly everything that the history of the world afforded concerning the different systems of government in its democratic form. Furthermore, in addition to their knowledge of the history and the rise and fall of governments, they never forgot that human nature had not changed through the centuries.

The fact that our institutions have survived without material impairment the strain of the enormous immigration which has been received into our population during recent years, and which is bound to have a most profound effect upon our national life, is abundant proof of their wisdom and foresight. If we are to preserve these institutions unimpaired it becomes incumbent upon us, through our schools, to instill into the minds and hearts of these fresh arrivals the meaning of America. They come from countries where the government is everything and the individual comparatively insignificant, and it is inevitable that this centuries-old influence should have made a deep impression upon their hereditary trend of thought, and it is equally inevitable that they should, on arrival, feel the same relation to our government. It is fair to say that they have no real conception of the relation existing here between the citizens and the state.

Many thoughtful Americans are deeply concerned with what we as a nation must do in order to fuse and assimilate this mass—how exert our-

selves in teaching them the meaning of citizenship under the Constitution of the United States. We must remember that a hundred millions of us are here upon preserving the integrity, and the rightful power of the United States.

We need the training and education that comes from steady, sure progress in the real things of life, and had we proceeded with less speed and there with more care, the average American would know more about his relations and our democracy would be more efficient. Fortunately, we have been conscious of the dangers arising from haste and are exerting stupendous efforts in the cause of education for the citizens of the future shall be better trained for his duties than we are or ever have been.

We are doing very little to prevent the people of the country being divided into classes—classes separate from each other by a wide difference in the material prosperity of their members. We will get along together a great deal better in this vast democracy if we manage to keep a touch of the class from man to man and if we teach the young men in all stations of life that instead of regarding the government as an agency that owes them something, they owe something to the country. We ought to instill into the youth of the land a clear realization of their responsibilities to serve and protect the nation and its ideals. This question of service to ones country has been brought to our attention with great sharpness in the last two years. The war in Europe has fairly jolted us into a realization that passion and hatred and the desire to destroy still live in the hearts of men; and we now admit that institutions worth saving can be saved only by the devotion of a people trained to service.

We send our children to school so that they may fit themselves to combat the forces of ignorance and vice which, if allowed to operate unrestrained within our borders would destroy the Republic. Is it not likewise the duty of a true democracy to train its young men to combat successfully those forces which may attack its institutions from without?

Can there be any more democratic proposal than that every young man should prepare himself to a reasonable degree of efficiency for the defense of his country?

Is it not his duty to do this promptly and cheerfully, just as truly as it is his duty to go to school in his younger days, or to vote and take an interest in civic affairs when he comes of age?

If it is not the duty of every young man to reform this service shall we be so absurd as to say that those who volunteer to do it and those who, possessing less sense of responsibility, refuse to volunteer shall we be so absurd as to say that those two groups of men entertain equally high ideals in their capacity as citizens of a democracy?

In this question of national military training there is something more important than that of military defense of the country, about which we hear so much these days. The touch of the elbow is involved. I would like to see a state of affairs, in which the labor of the rich man, who does not have to labor with his hands for his living,

works along side of the son of the poor man. When two men work together physically and endure fatigue together at the same task there is created a bond of sympathy and understanding which no other process can establish. There will come to an inspiring realization that the other, down deep in his heart, is his brother, possessed of the same courage, the same ideals, the same reasonism.

Can I think of no plan better calculated to prevent class feeling than the universal performance of service to the country by our young men. In no other way can we more truly fuse together the widely different elements of our population and instill into them the conviction that this, indeed, is a Nation. In no other way can we so surely help to perfect our democracy. Let us talk about our rights and more about our duties. Inspired by such a spirit, we can successfully withstand all attacks either from within or from without against the American Conception of Liberty.

INFRINGEMENT NOTICE.

Notice to purchasers of Thermo Oil Burners and Liquid Fuel Burners are cautioned against purchasing and installing devices constructed by a local manufacturing firm, a violation of our patented structures. Infringement of our rights we have been forced to file suits for infringement in the United States District Court for the Southern District of California against the manufacturing firm for infringement of our Patent No. 843,351, No. 98,440, and No. 1,281,115, covering Thermo Oil Burners and Liquid Fuel Burners.
DIXIEH G. E. WITT CO

That the State of California has wiped out the curse of child labor, turning the children into the schools instead of factories and sweatshops, and gave its womanhood an eight-hour work day, without disturbing the business of the State or bankrupting a

single merchant.

That the State of California has gone to the rescue of the farmers of the State and taken up the problem of marketing their products. That one of the State's most successful merchants is the Director of its Market Commission.

That the State of California, through the University of California and the State Reclamation Board, has taken up the problem of harnessing its rivers and conserving its overflow waters for the benefit of arid lands.

These are but some of the things California has done in five years. How much better engaged we would be making these facts known to the world, instead of obscuring them all by falsehood piled upon falsehood in the attempt to discredit the man who either did these things or made them possible.

The reason why certain newspapers and some commercial interests do not want the facts above quoted known is plain—discredit to the State of California. "No private corporation today controls California's government."

◆ OAKDALE TO PURCHASE FIRE APPARATUS.

OAKDALE, Cal.—The city trustees appropriated \$1,800 at their meeting last week for the purchase of a fire-ruck to equip the volunteer department. The firemen asked for a \$1,000 ruck which it was stated would have secured a 5 per cent reduction in insurance rates from the Board of Fire Underwriters.

◆ CANAL WORK NEARING COMPLETION

REDDING (Shasta Col.)—The main canal of the Anderson-Cottonwood Irrigation District, according to James Villison, the contractor, is one-half completed. It is finished from Redding to China Gulch and from Anderson to Cottonwood, with the exception that here and there are places that need a little touching up.

◆ DEPARTMENT OF ELECTRICITY BUSY.

Since August 1st to the 15th inclusive, 1,659 applications have been filed with the Department of Electricity for electrical inspection. "This has been the busiest stretch we have had since my appointment to this department," says Chief Inspector Pennycook.

For the month of July \$63 applications for inspection were filed.

◆ PLEA TO HOUSE FOR ADEQUATE NAVAL PROGRAM.

WASHINGTON, D. C., August 16.—A strong appeal for an adequate navy program has been addressed to Chairman Padgett of the House Committee on Naval Affairs by Bascom Little, of Cleveland, Chairman of the Committee on National Defense of the Chamber of Commerce of the United States.

Mr. Little sets forth that a program of naval construction sufficient to restore the United States at least to its former position of second naval power in the Atlantic, with a surplus force in the Pacific sufficient to protect our coasts trade routes, possessions, the Canal Zone and adjacent territory, was recommended by an overwhelming vote in the recent referendum on National

Defense taken by the Chamber of Commerce of the Southern Appalachians in remembrance of the United States. He informed Chairman Padgett the actual count of votes showed 352 votes in favor and only 10 against.

Three hundred and fifty-nine commercial and trade organizations representing forty-three States in addition to Mr. Little took part in the balloting.

"This record of business opinion in favor of an adequate navy has seemed to us momentous," Mr. Little argues, "and I am writing to urge upon you and your committee the adoption of a program not less than that passed by the Senate. Even the construction endorsed by the Senate will not, we are informed, attain the full measure of defense which the business men of the country have recommended. It seems, however, to offer a practical and tangible beginning and I take the liberty of urging it upon you on that account."

◆ PIPE MAKERS BUY MOUNTAIN LAUREL ROOTS FROM GOVERNMENT.

WASHINGTON, August 14.—A sale of a large quantity of mountain laurel roots from one of the National Forests

will be used to make pipes. Mountain laurel root is similar in appearance to the French briar, and a majority of pipe smokers are in favor of it. The French briar is called "white heath" or "brayere."

The roots are gathered in large quantities and after being cleaned sawed into blanks they are placed in hot water and simmered for twelve hours or more. This process gives them the rich hue for which the best pipes are noted. It is said that in 1915 the value of the blanks shipped to this country was almost \$200,000, and in addition a large number of finished pipes were imported.

On account of the present scarcity and high price of French briar, a number of pipe manufacturers in this country have been on the lookout for substitutes, and the Forest Products Laboratory has conducted experiments to determine the availability of other woods. It is reported that the mountain laurel root burns out more readily than briar, but Forest Service experts are trying to find a method of hardening the wood, and have succeeded to an

apparently have also found that mahogany, ebony, and other woods which are abundant in California promise of yielding material in the same way.

Other woods are used for pipe making, red gum, red gum, ebony, and birch, with smaller amounts of olive, rosewood, and osage orange.

Considerable quantities of the laurel roots are being used by officials expected to make permanent. The lands purchased by the government in the Southern Appraisal are reported to contain unlimited quantities of laurel, which is a very fine wood of the delicate beauty of its texture. In places it forms extensive groves which are almost impenetrable. Visitors to the mountains say that the spring these thickets, or pink hoods, as they are called by the mountaineers, are indescribably beautiful and form one of the main attractions of the region.

The sales of laurel root will not be made at places frequented by tourists, or where the removal of the laurel will detract from the beauty of the landscape.

THE STATES FINANCES.

Second Article of Series, by John Francis Veylan, Chairman, State Board of Control.

With the approach of every political campaign in California we have a recurrence of a particularly vicious form of attack on the financial integrity of the State government, and, unfortunately for the credit of the commonwealth, it seems the present political campaign is to be no exception. Those agencies which are desirous of destroying Governor Johnson politically are willing, apparently, to destroy the financial credit of the State of California to achieve their purpose. Apparently no task is too absurd or wild for these agencies to spread broadcast, the theory being that someone will believe it, and that it will be impossible for those familiar with the facts to keep up with every new yarn.

Such phrases as "commission ridden government," "new commissions add millions," "to pay roll," "tax-payers given under weight of commissions" are a few of the glaring generalities used by these reactionary influences which do not dare openly assert that they mean to destroy the California Railroad Commission, the State Board

of Control, the Industrial Accident Commission, the State Civil Service Commission, the State Highway Commission, and the other governmental agencies which they have been unable to control during Governor Johnson's administration. They are not honest enough to publish the fact that the total of the appropriations for the support of all State boards, offices, bureaus, departments and commissions is \$2,282,331.52.

These influences desire most ardently to obscure the following facts which are demonstrable to any honest person, and which will be demonstrated in detail in a series of five or six articles which will cover the subject of the State's finances in detail.

Since Governor Johnson took office in 1911 the entire burden of maintaining the State government has fallen upon the corporations of California. The individual tax-payer has paid no state taxes he has paid only city, county and other local taxes. The corporations have been justly taxed.

The average increase in appropriations for the support of the State government each two years has been the smallest in the history of the State under Governor Johnson. Under preceding Governors (when individual tax-payer was paying State taxes) the average increase each two years was 21.6 per cent. Under Governor Johnson it has been 11.8 per cent.

Under Governor Johnson the following State institutions have been modernized, with tremendous expenditures for buildings and equipment which were needed for years, but which were denied because of the old log-rolling theory of appropriations:

The University of California.

Six Hospitals for the Insane, and a new Hospital built.

Five State Normal Schools, and three new Normal Schools built.

The two State Prisons, and a Reformatory Farm purchased.

Two reformatories for boys, and a new reformatory for girls.

Under Governor Johnson the following governmental agencies and activities have been financed:

California Railroad Commission.

State Board of Control.

Industrial Accident Commission.

Civil Service Commission.

State Market Commission.

State Purchasing Department.

All of the expenses of these projects have been met and today in the State Treasury there is a credit cash sur-

plus of \$1,500,000.00. When Governor Johnson took office in 1911 there was a deficit of \$261,000.00.

(The next article will give the detail of the sources of all State revenues)

TESTS MADE AT BUREAU OF STANDARDS.

The facilities offered by the United States Bureau of Standards for testing a wide variety of articles have been of increasing value as demands leading to their employment have grown in recent months. A report showing the activities during June gives a review of the work that has been done in this line.

A six-cylinder automobile engine has been installed in the gas-engine testing laboratory at the bureau, to investigate the merits of materials that are being marketed with the claim that when added in small quantities to gasoline they produce increased efficiency, together with freedom from carbonization.

Railroad track-scale tests have been conducted in Minnesota by Test Car No. 1, co-operating with the railroad and warehouse commission of that State. During June, 29 railroad track scales were tested. Test Car No. 2 has been operating in the States of Maryland, West Virginia, and Kentucky and tested 38 railroad track scales during June.

A manila rope 9 inches in circumference was submitted by the Panama Canal. It was tested in the large Emery machine and failed at a load of 57,800 pounds.

The Chief Signal Officer of the Army submitted about 100 pieces of aeroplane structural material, representing wood and metal to be used in building 12 military reconnaissance aeroplanes for the Signal Corps. This material includes spruce, mahogany, bass wood, walnut, and ash woods, cold-rolled steels (flats, welded and brazed test specimens), and wire and cable with turnbuckles attached.

Miscellaneous testing included rubber and leather goods for the Panama Canal, and samples of miscellaneous materials submitted by manufacturers to the general supply committee in competition for Government contracts. During June 73 samples were tested. In addition to these, 232 samples of paper were tested, 170 of which were for the Public Printer and 118 for other executive departments.

NATIONAL MILITARY TRAINING REQUIREMENTS.

Age at Which Training Should Be Begun and Length of Time Required to Complete It.

Captain George L. Converse, U. S. A., Retired, in response to a request to express his opinion on two features of the proposed bill for compulsory military training, drafted by Colonel G. V. H. Moseley, U. S. A., which draft is now in the hands of Senator George E. Chamberlain, Chairman of the Committee on Military Affairs, United States Senate, and which has been subjected to some criticism, has written an able treatise on the two points in question, e. g., "age at which training should be begun and length of time required to complete it."

Captain Converse has been for more than 16 years Commandant of Cadets at the Ohio State University, during which time he has done splendid work, not only in his strictly military capacity, but also from the human side as a confidant and adviser of the boys taking training under him. Some idea of the extent of Captain Converse's experience with young men can be gathered from the fact that during the college year just ended the number of men under arms in his department was over 1,800.

Captain Converse's opinion is not only valuable because of his wide experience, but is also interesting as representing the attitude of the thorough, conscientious Army Officer as modified by his contact with civilians, and his observation of the points of conflict between the demands of civilian life and those of a scheme of military training.

Captain Converse says:

"I have been lecturing to the students of the Ohio State University for years on the duty of all citizens in the matter of defense. I claim that religious or conscientious scruples cut no figure in this matter.

"Living in this country and accepting citizenship carries with it equal rights and obligations. One of the obligations is defense, and if a man accepts citizenship he must also accept the obligation of defense.

"The campaign for betterment must begin in our schools and colleges and the people as a whole must be taught to be honest with themselves and look every question squarely in the face.

"The physical condition of our young men as shown by examination of National Guardsmen makes one year of military training and regular living a necessity on the basis of health alone. The political pressure exerted by National Guardsmen in this mobilization when any question was decided by the War Department adverse to their wishes, demonstrates another fatal weakness in that organization. Let us have universal military service—citizens being divided into classes to be called into active service when necessary.

My judgment on the points under discussion is that twenty years of age would probably produce better results, in the case of the average boy, than eighteen. If the material to be conscripted was all universal material I would agree that eighteen was better.

"Many boys are slow in developing. The average country boy is slow in developing, and the average boy without more than grade school work is hardly in condition mentally to get what he should get out of military work. Another thing, the average father holds his boy until he is 21 if he can do so. He would therefore be better pleased to have his son leave at 20 than at 18, because in the latter case he would probably never be content to return to the family to work as one of them without compensation.

"I would urge strongly one year of service. The physical condition of most of our young men is such that the first three months of service would be taken in building them up physically and getting them in trim for field work and carrying a pack. This could be done in winter as well as summer, and so utilize all army posts all over the United States. If the shorter term is determined upon all training camps will of necessity be in the South in order to have the training period at the time of year when it will interfere least with crops and work. The expense of transportation in that event would be enormous.

"If the year's training could commence say November 15th of each year, by March 1st all close order work and much theory could be gone over (using moving pictures)—body built up by regular life and work in the gymnasium, short marches and guard duty about the Post. March and April would harden him to longer marches and carrying pack, and then give the summer to all kinds of field service and maneuvers. Make the service say 10½ months and discharge him October 1st. The building up of the physical condition will be a big job.

"I see by the reports today that at Camp Willis 54 out of 150 men in Company G, 8th U. S. G., were refused on the ground of physical disability. I cannot give other figures as this is the only regiment under examination so far, and this was the first company examined. I am sure it would take 8 or 10 weeks to build the most of our young men up to the point where you would dare attempt to harden them for full service. Unless all training is done in the South then, the training season would have to be in the summer, and why not add the winter months which are not as valuable to the average man. My judgment then would be 20 years of age and at least ten months of service."

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES

SAN FRANCISCO—Three-story house, 1 story and base, frame, \$45,000. Architects, O'Brien Bros., 210 Montgomery street, S. F. Owner, name withheld. Location, Western Addition. Will contain 17 rooms arranged in two and three room suites. Plans being prepared.

Location, 2131 Green street, S. F. Will contain six apartments of two and three rooms. Plans complete and work to be done by Day Labou.

SAN FRANCISCO—Apartment house, 2 story and base, brick, \$35,000. Architect, O'Brien Bros., 210 Montgomery street, S. F. Owner, James J. Flynn. Location, northwest Duboce and Divisadero streets, covering an area of 52 by 150 feet. Will contain eighteen apartments of two and three rooms. Plans nearly complete.

PORTLAND, OREGON—Apartment house, 2nd story and base, brick, \$20,000. Architect, name withheld. Owner, T. A. Sutherland, 1981 Belmont avenue, Portland. Location, Green ton District. Will cover an area of 60 by 100 feet. Plans complete and figures being taken.

SAN FRANCISCO—Apartment house alterations, 2 story, frame, \$3,000. Architects, Heiman & Schwartz, Nevada Bank Bldg., S. F. Owner, J. Moschovet. Location, 751 Fell street. Will contain four apartments. Plans complete and figures being taken.

BANKS

SAN FRANCISCO—Bank alteration. Cost not stated. Architect, name withheld. Owners, Japanese Bank. Location, California and Front streets. Mr. Koh, 3390 Clay street, has been selected as manager of this new institution and all alterations will be done under his personal direction.

ALAMEDA, ALAMEDA CO., CAL.—Bank, 1 story and base, reinforced concrete, \$10,000. Architect, John Hudson Thomas, First National Bank Bldg., Berkeley. Owners, Citizens Bank of Alameda. Location, Webster and Haight streets. Will contain banking room, vaults and public space. Plans are being prepared.

BONDS

CARMICHAEL COLONY IRRIGATION DISTRICT, SACRAMENTO CO., CAL.—The highest price on record for irrigation bonds in California was paid for the bonds of the Carmichael Colony Irrigation District. A total of \$56,586 was realized on the \$57,500 worth of bonds, which will finance improvements as planned by the district.

WARM SPRINGS, ORE.—The property owners in the Warm Springs District, near Vale, Ore., have voted favorably upon the proposal to issue and sell \$250,000 in bonds for irrigation developments. The next step will be the sale of the bonds and the award of the contract for the work.

TRACY, SAN JOAQUIN CO., CAL.—Bonds of \$10,000 have been voted for a new city hall and jail and the purchase of the equipment. Of the \$10,000 voted, \$4,400 will be used to erect a new city hall and jail and the remaining \$5,600 for fire equipment.

DE LAY CITY, LOS ANGELES CO., CAL.—Petitions are in circulation asking that an election be called to vote bonds of \$1,020,000 for water development.

WILLOWS, GLENN CO., CAL.—Petitions have been filed with the Supervisors of Glenn County for the formation of two irrigation districts under plans mapped out some time ago by D. N. Ross for the settlement of the irrigation problems of the county. One of the districts will be known as the Javito Irrigation District and will contain 19,520 acres. The other is to be called the Princeton-Gladwin District and to contain 18,200 acres. Both will be organized under the Wright Irrigation Act.

POMONA, LOS ANGELES CO., CAL.—The Pomona Valley Telephone & Telegraph Company has sold bonds in the sum of \$1,000,000 and has closed for bids for the erection of a two-story reinforced concrete building at the northeast corner of Third and Louisa streets, Pomona, and a similar structure west of the Inn in Claremont. An architect will be engaged in the near future and work rushed.

BRIDGES, DAMS AND HARBOR WORK

SAN FRANCISCO—Bridge cables, \$3,874. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Butte Engineering & Electric Co. submitted the lowest bid for furnishing and installing submarine cables for the Third street bridge. They will probably be awarded the contract.

OAKLAND, CAL.—Bridge reinforced concrete. Cost not stated. Engineer, County Surveyor, Oakland. Owners, Alameda County. Bids will be received up to and including September 11th for the construction of a reinforced concrete bridge on County Road No. 2432 or Palomares Canyon Road, near the lands of F. J. Parisa, in Section 21, T. 2 S., 1 W. Eden Road District, Eden Township.

GARDINER, ORE.—School, 1 story and base, brick and concrete. Cost not stated. Architect, Charles Burgraf, Albany, Ore. Owners, City of Gardiner. Will cover an area of 100 by 100 feet. Plans being prepared.

HAYWARD, ALAMEDA CO., CAL.—School alterations and additions, frame. Cost not stated. Architect, E. P. Whitman, Hayward. Owners, City of Hayward. Bids will be opened on September 2 for minor alterations and additions to the present school building.

VISALIA, TULARE CO., CAL.—School, 1 story and base, frame and concrete. Cost not stated. Architect's name not given. Owners, City of Visalia. Bids will be opened on September 11th at 7 p. m. for a six-room school. Plans can be secured from the Clerk of the Board of Education.

Contracts Awarded.

YUBA CITY, SUTTER CO., CAL.—School, 1 story, concrete, \$13,260. Architect's name not given. Owners, Yuba City School District. Contractors, Barton & Hite, 1812 L street, Sacramento. Contract price, \$13,260.

SAN FRANCISCO—Schools, 2 story convent and 3 story school, frame, \$23,705. Architect, John J. Foley, 16 Kearny street, S. F. Owners, St. John's Parish. Contractor, William M. Reedy, 157 Bronte street, S. F. Contract price, \$27,705.

LAKEPORT, LAKE CO., CAL.—School, 1 story and base, frame, \$23,000. Architects, Morrow & Garin, Chronicle Bldg., S. F. Owners, Lakeport School District. Contractors, Kern & McLean, 110 Jessie street, S. F., general construction, \$22,743; Pacific Fire Extinguisher Co., S. F., heating, \$1,500.

SEWERS, STREET WORK & WATER SYSTEMS

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, South San Francisco. Owners, South San Francisco. Bids will be opened on September 4th at 8 p. m. for street improvements authorized under the following resolution: That Swift avenue, between the east line of the right of way of the Southern Pacific Railroad and the east end of Swift avenue and Walker avenue, be improved by grading; an asphaltic concrete pavement consisting of an asphaltic concrete wearing surface 2½ inch thick laid on a concrete base 6 inches in thickness having a width of 15 feet; also by constructing earth shoulders on each side of said pavement; constructing reinforced concrete box culvert and 18-inch corrugated iron culverts.

BERKELEY, ALAMEDA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Berkeley. Bids will be opened on September 1st at 10 a. m. for street improvements authorized under the following resolution:

That Kains avenue, from north line to the south line of Regents Park, Map No. 3, as shown on map of same on file in the office of the County Recorder of Alameda County, October 11, 1906, be graded.

That redwood curbs be constructed along the curb lines of said street, concrete gutters 3 feet wide, against said curbs; that the remainder of the roadway be macadamized and surfaced with oil and rock screenings. Excepting from the above work the curb and gutter over the existing catch basins at the north line of Virginia street.

SAN JOSE, SANTA CLARA CO., CAL.—Road improvement. Cost not stated. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. Plans and specifications for the improvement of Trimble Road, in Supervisor District No. 3, have been approved by the County Supervisors and bids have been ordered received up to September 15th, 11 a. m. Plans for the work may be had from County Clerk Henry A. Foster.

SANTA CRUZ, SANTA CRUZ CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Santa Cruz. Owners, City of Santa Cruz. At the last meeting of the City Council the city engineer was instructed to draw plans and specifications for a sewer on First street, to connect with Main street, and on Main street, below First.

SANTA ROSA, SONOMA CO., CAL.—Culvert reinforced concrete. Cost not stated. Engineer, County Surveyor, Santa Rosa. Owners, Sonoma County. The County Supervisors have accepted the specifications and plans as drawn by County Surveyor Malcolm G. Youker for a concrete culvert in the first district on the road at the Ducker place. Bids will be opened for this September 11. Plans may be had from the County Clerk.

SANTA ROSA, SONOMA CO., CAL.—Culverts reinforced concrete. Cost not stated. Engineer, F. W. Maurice, Santa Rosa. Owners, Sonoma County. The plans and specifications prepared by F. W. Maurice for two concrete culverts on the Petaluma and Santa Rosa County road have been accepted by the County Supervisors and bids accepted for their construction have been asked. Plans may be had from the County Clerk.

LINDSAY, TULARE CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Lindsay. Owners, City of Lindsay. Bids for extensive street improvements will be opened September 12th at 8 p. m. for work authorized under the following resolutions:

That Sweet Briar avenue, from the north line of Apia street to the north line of Lewis street, including all street intersections, be graded, and paved with an asphaltic concrete wearing surface on a hydraulic cement concrete base; also that similar work be prepared on Lewis street, from the east line of Sweet Briar avenue to the west line of right of way of the Southern Pacific Railway Company's Fresno branch, including all street intersections; also Mt. Vernon avenue, from the south line of Honolulu street to the north line of Apia street, also Mt. Vernon avenue, from the north line of Apia street to a point on the east line of Mt. Vernon avenue.

That crushed rock and asphalt shoulders be constructed along each side of the pavement to be constructed on Mt. Vernon avenue between the north line of Apia street and a point on the east line of Mt. Vernon and along each side of the pavement to be constructed on the street lying along the right of way of the Southern Pacific Railway Company's Fresno branch.

That the street lying along the west line of the right-of-way of the Southern Pacific Railway Company's Fresno branch, from the north line of Lewis street to the south city limits, be graded and paved to the official grade with an asphaltic concrete base.

That cement concrete curbs be constructed on each line and grade along the curb line of Sweet Briar avenue from the south line of Apia street to the north line of Lewis street and the south sides of Lewis street from the north line of Sweet Briar avenue to the south line of the right-of-way of the Southern Pacific Railway Company's Fresno branch and along the west curb line of Mt. Vernon avenue from the south line of Honolulu street to the north line of Apia street.

That galvanized corrugated iron culvert be constructed across Apia street and across Lewis street on the line of the gutter on the east side of Sweet Briar avenue and across Mt. Vernon avenue on the south line of Apia street and across the street lying along the west line of the right-of-way of the Southern Pacific Railway Company's Fresno branch, at a point midway between the intersection of Lewis street and the south city limits and across the street lying along the west line of the right-of-way of the Southern Pacific Company's Fresno branch at a point 100 feet north from the south city limits.

HANFORD, KINGS CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Hanford. Owners, Kings County. Bids will be called on within the next few days by the County Supervisors for the construction of 1½ miles of highway between Guernsey and Corcoran, plans for this work having been completed.

MARYSVILLE, YUBA CO., CAL.—Street paving. Cost as follows. Engineer, City Engineer, Marysville. Owners, City of Marysville. Two bids were received by the City Council for improving streets in district two and three. The Federal Construction Company, Sharon Bldg., San Francisco, bid 11 cents on both jobs and Clark & Henry, 38 S. Henry street, Sacramento, 128 10 cents on both jobs. The bids were referred to City Engineer Meek to report back as to who should be awarded the contract.

FORT BRAGG, MENDOCINO CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, Fort Bragg. Owners, City of Fort Bragg. Final action will be taken at the next meeting of the City Trustees for the paving of the streets of Fort Bragg. City Engineer Gray has a preliminary report prepared for the trustees on the various types of paving together with estimates of cost. The paving work will cover an area of approximately 302,164 square feet.

TRACY, SAN JOAQUIN CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Tracy. Owners, City of Tracy. The City Trustees have directed City Engineer Rasm to prepare plans and specifications for grading, graveling, curbing and sidewalks on Sixth street, from B to C streets and also from West street to B street. Bids will be taken on approval of the plans.

MARYSVILLE, YUBA CO., CAL.—Street paving, etc. Cost as follows. Engineer, City Engineer, Marysville. The lowest bid for street paving in the history of Marysville was received when the City Council opened bids for the improvement of several blocks of street. The low bid was 8½ cents per square foot for asphalt concrete pavement and was submitted by the Federal Construction Company, 323 Sharon

Bldg., San Francisco. The Federal Construction Company was low on other items. All bids were referred to the City Engineer.

RIVERSIDE, RIVERSIDE CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Riverside. Owners, City of Riverside. Bids will be opened on September 5th at 10 a. m. for constructing a sanitary sewer, including manholes, to be constructed along Garfield street, Van Buren street, Hayes street, Jackson street. The size of the sewer pipes shall be: Jackson street, 8 inches; Garfield street, 11 inches; Van Buren street, 8 inches; and Hayes street, 6 inches. The material shall be vitrified, salt-glazed sewer pipe, brick, iron and mortar.

SANTA BARBARA, SANTA BARBARA CO., CAL.—Street improvement. \$25,000. Engineer, City Engineer, Santa Barbara. Owners, City of Santa Barbara. P. R. Ritchie, Chronicle Bldg., San Francisco, submitted the lowest bids on three paving jobs for this city, and while the City Council had not awarded the contract, it is probable that favorable action will be taken on these bids. There were two firms bidding on each item, P. R. Ritchie and the Municipal Improvement Co.

SACRAMENTO, CAL.—Street Improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on September 7th for street improvements authorized under the following resolutions:

That 8 street, from Front street to 21st street, be improved by constructing concrete sidewalk on official line and grade where concrete sidewalk does not exist on official line and grade, and grading the space between the property line and curb.

That T street, from Front street to 28th street, be improved by removing and disposing all surplus and refuse material in the sidewalk area; constructing concrete sidewalk 6 feet wide and 3½ inches thick on official line and grade where concrete sidewalks do not exist, and grading the space between the property line and curb.

That Spafford avenue, from Madrone avenue to Cypress avenue, be improved by constructing concrete gutter; one concrete manhole complete with cast iron curb and cover, constructing 6-inch vitrified ironstone sewer pipe drains; placing 2 cast iron gutter drains with 6-inch vitrified ironstone sewer pipe elbows attached, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches in thickness and an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick. Bids close September 3, on this resolution.

That the alley between 1 and 4 streets, from 11th to 15th streets, be improved by placing 3 linear feet of concrete protective covering over 2-inch sewer pipe flusher branch complete; reconstructing 1 concrete catch basin by placing same to official grade; lowering 1 flush tank to grade and filling in the same with earth; constructing 80 linear feet of concrete curb wall; grading the alley and constructing thereon an asphaltic macadam foundation 3 inches thick and a sheet as-

phalt wearing surface 1½ inches thick.

That M street, from 30th street to 31st street, be improved by grading the space between the property line and curb where concrete sidewalk does not exist on official line and grade, and where concrete sidewalk does not exist.

APRIL, PLACER CO., CAL.—Cement. Cost not stated. Engineer, City Engineer, Auburn. Owners, City of Auburn. All bids for furnishing cement for use in the State Highway lateral in Auburn have been rejected by the City Trustees. The cement will now be purchased in the open market.

WOODLAND, YOLO CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Woodland. Owners, Yolo County. County Surveyor or A. A. Proctor is surveying a new proposed road between Madison and Esparto. It is proposed to build the road of gravel sufficiently thick to withstand the heavy travel during the wet weather.

REDWOOD CITY, SAN MATEO CO., CAL.—Culverts, reinforced concrete. Cost not stated. Engineer, County Surveyor, Redwood City. Owner, San Mateo County. County Surveyor Norman has been directed by the County Supervisors to prepare plans and specifications for the construction of two new culverts on the Pulgas Road near Red's school, in the Second Township. Bids for the work will be called for on the completion and acceptance of the plans.

MODESTO, STANISLAUS CO., CAL.—Sewer construction, \$50,000. Engineer, City Engineer, Modesto. Owners, City of Modesto. At the last meeting of the City Council the City Engineer recommended the expenditure of \$1,750 on sanitary sewer work, and the building of a storm sewer trunk line on 11th street from J street to Dry Creek to relieve the nuisance of winter storm waters.

HANFORD, KINGS CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Hanford. Owners, Kings County. The County Supervisors have ordered bids received up to September 7th for the construction of the highway units south and west of Gurnsey and north and west of Corcoran. Further information together with plans and specifications may be had from the County Clerk.

RIVERSIDE, RIVERSIDE CO., CAL.—Highway construction. Cost as follows: Engineer, County Surveyor, Riverside. Owners, Riverside County. At the last meeting of the County Supervisors two bids were opened for the contract of concreting the Sully ranch section, that of the Connor Co. of Los Angeles, \$19,136.20, and that of H. E. Cox of Pasadena, \$12,226. A third bid from the Isbell Contracting Co., Ventura, arrived too late to be considered and was not opened. After considering the bids the Board rejected them as being too high. The county was to have furnished the material for the work.

The improvement of 12th avenue, between Cabildo and Fulton streets, by the construction of artificial stone sidewalks 9 feet wide, where artificial stone sidewalks at least 9 feet wide have not already been constructed. Awarded to S. F. Johnson, for \$292.50.

The improvement of Cabildo street between 9th and 21st avenues, where not already improved, by the construc-

tion of concrete curbs, 7-foot wide strip of vitrified brick pavement on concrete foundation adjacent to the center line thereof; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphalt wearing surface on the remainder of the roadway. Awarded to City Street Improvement Co., 166 Geary street, for \$186.

The improvement of Caselli avenue, between Mono street and Falcon avenue, where not already improved, by the construction of concrete curbs; basalt block gutters on a concrete foundation and a basalt block pavement on a sand foundation. Awarded to T. Galbraith, for \$1,021.35.

The improvement of Balboa street, between 30th avenue and 32nd avenue, by grading, construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8 and 12-inch with 12 Y branches, 3 brick manholes, 5 brick catch-basins, with cast iron frames, gratings and traps and 10-inch vitrified, salt-glazed, iron pipe culverts, concrete curbs; artificial stone sidewalks; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to Owen McHugh, 300 Kings Bldg., San Francisco, for \$11,119.75.

Contracts Awarded

BERKELEY, ALAMEDA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Contracts for street improvements have been awarded under the following resolutions:

That a 6-inch vitrified ironstone pipe sewer be constructed along Walnut street, from Emile street northerly, also a brick manhole 4 feet in diameter and 4-inch vitrified ironstone pipe Y branches. Awarded to T. W. Tobin, 735 Filbert street, Oakland.

That a cement sidewalk 6 feet wide be constructed in the east sidewalk area of San Pablo avenue from University avenue to Delaware street, north sidewalk area of University avenue from San Pablo avenue to Curtis street, and the north sidewalk area of University avenue from West street to Acton street, except already done. Awarded to Oakland Paving Co., 5000 Broadway, Oakland.

That the west half of Franklin street from Delaware street distant 100.15 be regraded; a redwood curb be constructed, concrete, concrete gutter 3 feet wide, and the remainder of the roadway be macadamized. Awarded to Oakland Paving Co., 5000 Broadway, Oakland.

SAN FRANCISCO—Street improvements. Cost as follows: Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Contracts have been awarded as follows by the Board of Public Works:

The improvement of Silliman street, between Girard and Herlin streets, by the construction of concrete curbs; artificial stone sidewalks of the full official width and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof, awarded to D. L. Bienfeld, Phelan Bldg., San Francisco, for \$2,364.

The improvement of Mono street, between Caselli avenue and Eagle streets,

by the construction of a 12-inch vitrified, salt-glazed, ironstone pipe sewer with 13 Y branches and 2 brick manholes, a vitrified brick pavement on the roadway thereof, awarded to T. Gallagher for \$990.70.

The improvement of De Haro street, between 19th and 20th streets, by grading, construction of a 12-inch vitrified, salt-glazed, ironstone pipe sewer with 29 Y branches and 2 brick manholes, awarded to J. P. Holland, 550 Third street, for \$8,872.50.

BERKELEY, ALAMEDA CO., CAL.—Street and sewer work. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. The following contracts for street improvements have been awarded: The contract for the paving of University avenue from Grove street west to Third street has been awarded to the Oakland Paving Co., 5900 Broadway, Oakland. The Shattuck avenue sewer work was awarded to W. J. Tobin, 735 Filbert, Oakland, and the sewer on Hopkins street to Chambers & Heafey, Bacon Bldg., Oakland.

SANTA ROSA, SONOMA CO., CAL.—Highway improvement. Cost not stated. Engineer, County Surveyor, Santa Rosa. Owners, Sonoma County. Contractors, Western Motor Drayage Co., 114 Church street, S. F. Contract for furnishing and placing seven miles of asphalt dressing.

UKIAH, MENDOCINO CO., CAL.—Highway improvements. Cost as follows: Engineer, County Surveyor, Ukiah. Owners, Mendocino County. At the last meeting of the County Board of Supervisors the following bids were received for the construction of the Navarro and Salmon Creek road: Stoddard & Buchanan, \$10,061; Jessie L. Fairbanks, \$10,261.50; Ellison & Pesula, \$11,280; R. B. Markle, \$11,000. The contract was awarded to Stoddard & Buchanan. This was figured on constructing 2 miles of road, 2½ miles of it being estimated as necessary to surface with rock, which will require 2200 cubic yards.

TRACY, SAN JOAQUIN CO., CAL.—Street paving. Cost as follows: Engineer, City Engineer, Tracy. Owners, City of Tracy. Contractor, Ruben Johnston, Tracy. Contract price for North A, B, C, D, E, F, and 8th streets \$11,479.50; for 9th and 10th streets, \$13,313.

PLACERVILLE, EL DORADO CO., CAL.—Street paving, \$21,070.80. Engineer, City Engineer, Placerville. Owners, City of Placerville. Contractors, A. Teichert & Son, Ochsner Bldg., Sacramento. Contract price, \$21,070.80. Note contract does not include gutters, sewers or culverts. Cement furnished by city.

STOCKTON, SAN JOAQUIN CO., CAL.—Street improvement, \$13,828.08. Engineer, City Engineer, Stockton. Owners, City of Stockton. Contractors, Paul & Caldwell, Stockton. Contract price, \$13,828.08. Engineer's estimate, \$16,126.93.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions:

That First avenue in Oak Grove from Lower Stockton Road to Central avenue be improved by constructing concrete curb, concrete gutter, placing east

iron gutter drains with 6-inch vitrified ironstone sewer pipe elbows attached; constructing 6-inch vitrified ironstone sewer pipe drains; grading the space between the property line and curb; constructing concrete sidewalks; grading the roadway from the east line of the Lower Stockton Road to west line of Central avenue and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 1 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1½ inches thick. Awarded to T. A. Teichert & Son, Ochsner Bldg., Sacramento.

That J street from Ashby avenue to April avenue be improved, by constructing concrete curb, concrete gutter, placing east iron gutter drains with 6-inch vitrified ironstone sewer pipe elbows attached; constructing 6 and 8-inch vitrified ironstone sewer pipe drains; reconstructing existing concrete manhole; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½-inch thick, filling in behind the curbs with earth for a distance of 8 feet. Awarded to Clark & Henry Construction Co., 38 S. Henry street, Sacramento.

MARYSVILLE, YUBA CO., CAL.—Street paving, etc. Cost as follows: Engineer, City Engineer, Marysville. Owners, City of Marysville. Contractors, Federal Construction Co., Sharon Bldg., S. F. Contract price for filling, paving and grading, 9 cents per square foot.

SAN FRANCISCO—Street improvements. Cost as follows: Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Contracts for street improvements have been awarded under the following resolutions:

The improvement of 28th avenue, between Cabrillo and Fulton streets, by grading to official line and grade. Awarded to S. T. Johnson and J. H. Franks, for 28 cents per yard for 20,237 yards.

The improvement of 44th avenue, between Irving and Judah streets, where not already improved, by the construction of granite curbs; artificial stone sidewalks 6 feet wide, and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway. Awarded to Thos. A. Clark, 68 Post street, S. F., for \$833.25.

STORES AND OFFICES

SAN FRANCISCO Offices, 1 story and base, reinforced concrete \$75,000. Architect, G. Albert Lansburgh, 705 Mission street, S. F. Owner, Dr. Abrams. Location, southeast Leavenworth and Sutter streets. Will be arranged for physicians' offices with living apartments in connection. Plans complete and bids being taken.

BERKELEY, ALAMEDA CO., CAL.—Stores, 1 story, brick, \$2000. Architect none. Owner, R. W. Rohie, 1224 Spruce street, Berkeley. Location, north Virginia, east of Shattuck. Will contain one small store. Plans complete and work to be done by Day Labor.

LA POINT, CONTRA COSTA CO., CAL.—Store, 1 story and base, brick veneer \$35,000. Architect, James T. Netherly, Richmond. Owner, A. W. Smith Day Point. Designed for a modern drug store. Plans being prepared.

Contracts Awarded.

SAN FRANCISCO—Stores and lofts, 2 story and base. Class C construction, \$35,000. Architect, Clarence A. Tantau, Plume Bldg., S. F. Contract price, \$35,000.

SAN ANSELMO, MARIN CO., CAL.—Store, 1 story and base, reinforced concrete, \$6,000. Architects, O'Brien Bros., 210 Montgomery street S. F. Owners, Buckley Co., Contractor, Peter Hamilton, San Anselmo. Contract price \$6,000.

THEATRES

SACRAMENTO, CAL.—Theatre alteration, 2 story. Class C construction, \$60,000. Architect, E. C. Hemming, 1005 K street, Sacramento. Owners, Heilbron Estate. Location, J street, between 5th and 6th streets. Seating capacity 1,500 people. Plans complete and figures being taken.

SEALED PROPOSALS

NOTICE TO CONTRACTORS.

OFFICE of the Clerk of the Board of Supervisors, Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office, until **Monday, September 11, 1916, at 10 o'clock a. m.** On the day when said bids will be opened and the contract awarded for the construction of a Tubercular Hospital Building, on the site near Lafayette owned by the City of Alameda.

Complete plans and specifications for said work are on file in the office of the County Clerk, in the Hall of Records Building, Oakland, California, where copies may be obtained by depositing with County Clerk the sum of ten (\$10) dollars. Contractors will be restricted as to the length of time they may retain these plans and specifications to ten (10) days.

Contractors failing to return said plans and specifications within said time limit will forfeit their deposit. The entire amount of the deposit will be returned to contractors returning plans and specifications in good condition within said time limit.

Each bid must be accompanied by a check for at least ten per cent of the amount of the bid or proposal, certified to by some responsible bank, and made payable to Geo. E. Gross, Clerk of the Board, to be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

(Seal) GEO. E. GROSS, Clerk of the Board of Supervisors of the County of Alameda, California. Dated August 11, 1916.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA, CIRCULAR 1463—Proposals for Sheet Steel, Steel or Iron, Strap Hinges, Cutters, Can Screws, Chain Blocks, Snatch Blocks, Garbage Cans, Water Coolers, Steep Office Furniture, Including Book-cases, Filing Cabinets, Desks and Wardrobes, Electric Motors, Copper Cable, Chain Bolts, Chain Door Hooks, Copper Tacks, Brass Screws, Wire Staples, Rag Taps, Metallic Pipes, Oil Cans, Oilers, Wheel Stones, Asbestos, Magnesia Cement, Tent Flaps, Door Mats, Coffee Cans and Pots, Tapers, Deeps, Roasting Pans, Aluminum Pots, Egg Whisks, Bottles, Hygienic Drinking Cans, Paper Towels, Bond Paper, Scratch Pads, Bristol Board, Tagboard, Manila and Linen Bags, Lumber, Crayons and White Oak Lumber. Sealed Proposals will be received at the office of the general pur-

channel, officer D. C. Reclamation, Washington, D. C., until 2:30 a. m., September 6, 1916. Sealed proposals will be opened in public for furnishing the above mentioned articles. Blanks and general information relating to this contract may be obtained from the assistant purchasing agents, Fort Mason, San Francisco, Cal., also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal.; EADY, L. B. BROWN, major, corps of engineers, Fort Ord, general purchasing officer.

PROPOSALS FOR POWER PLANT.

POWER PLANT. Sealed proposals induced "Proposals for Heating and Power Plant" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until 4 o'clock a. m., September 20, 1916, and there publicly opened for installing generator sets furnished by the government, and furnishing and installing boilers, condensers, pumps, motors, switchboard equipment, piping, wiring, lighting, etc., for the heating and power plant at a new torpedo station, Puget Sound, Wash. Plans and specifications can be obtained on application to the bureau or to the commandant, Navy Yard, Bremerton, Wash. F. R. BAILEY, chief of bureau.

PROPOSAL FOR CANAL WORK.

CANAL WORK. Department of the Interior, U. S. Reclamation Service, Washington, D. C., August 11, 1916. Sealed proposal will be received at the office of the United States Reclamation Service, Montrose, Colo., until 2 o'clock p. m., September 15, 1916, for the construction of the Transmonte Canal extension, California. Also lateral No. 3 and the Lateral Lateral, Transmonte Valley, located in the vicinity of Delta and Olympic Colo. This work involves the excavation of about 84,500 cubic yards of material in open cut. For particular address the United States Reclamation Service, Montrose, Colo., Denver, Colo., or Washington, D. C. MORRIS BIEN, acting director.

PROPOSALS FOR EXCAVATING.

EXCAVATING. Department of the Interior, U. S. Reclamation Service, Washington, D. C., August 11, 1916. Sealed proposals will be received at the office of the United States Reclamation Service, Grand Junction, Colo., until 2 o'clock p. m., September 15, 1916, for about 12,000 cubic yards of excavation. The work is situated in the vicinity of Mack, Colo. For particulars address the United States Reclamation Service, Grand Junction, Colo., Denver, Colo., or Washington, D. C. MORRIS BIEN, acting director.

INFORMATION FOR PROPOSALS.

TRUSSEY DEPARTMENT. Supervising Architect, Washington, D. C., August 17, 1916. Sealed proposals will be opened in this office at 3 p. m., October 2, 1916, for the construction complete of the United States post office at Willows, Cal. Drawings and specifications may be obtained from the custodian of site of Willows, Cal., or at this office in the division of office of the Supervising Architect, J. A. WETMORE, Acting Supervising Architect.

PROPOSALS FOR MAIL-HANDLING DEVICE.

MAIL-HANDLING DEVICE. — Treasury Department, Supervising Architect's office, Washington, D. C. — Sealed proposals will be opened in this office at 3 p. m., October 2, 1916, for mail-handling devices, etc., in the U. S. post office at Denver, Colo., in accordance with specification and drawing, copies of which may be obtained at this office, in the discretion of the supervising architect. JAMES A. WETMORE, acting supervising architect.

NEW BLANKET MILL FOR CALIFORNIA.

California will have a full-fledged mill for making wooden blankets within the next four weeks. Oregon cap-

italists, learning of the dearth of wooden blankets caused by the closing up of many European mills and the growing demand for blankets by the armies of both the United States and Europe, have purchased the \$100,000 wooden mill building and plant at Marysville, which has been closed up for some 17 years, and are bringing some 20 expert wooden blanket operatives and their families to the State determined to start a new California industry which shall successfully bid for the trade of the world.

Executive Secretary Charles R. Thornburn, of the Home Industry League of California, states that the famous Bishop Brothers are behind the new company which is to be known as "The Marysville Wooden Mills Company, Incorporated," and that after their blanket department is successfully started, the manufacture of fabric for wooden clothing will also be entered upon, on a large scale, by the newly re-opened mill.

"Recent investigations of government experts prove that there exists below the Mission district of San Francisco and below the city of Marysville, subterranean lakes of water containing chemical ingredients that are ideal in the manufacture of wool," says the Secretary of the Home Industry League, "and it will be a matter of but a very short while when California wooden cloth and wooden blankets will be the talk of the world. Various capitalists are now investigating the conditions with a view of going in 'big' and planning advertising campaigns of international dimensions."

INSTRUCTION IN CONCRETE WORK.

Wentworth Institute, Boston, is about to add to its courses of instruction one on practical concrete work, having for its object the training of young men for the work of concrete foremen and contractors. The Institute has set aside one of its best laboratory rooms for this concrete course and is fitting it up with modern testing machinery and other necessary equipment to make possible various determinations that will illustrate the technical as well as the practical sides of the applications of concrete. The first sessions will begin Monday, September 18.

This work has been made possible largely by the co-operation of the Portland Cement Association, the work having been planned by its Extension Division. J. C. Donaldson, Field Engineer of the Extension Division, will be located at Wentworth Institute for some time, assisting in the necessary preliminaries and afterward in starting and directing the course along the lines planned. A number of prominent engineers have lent considerable encouragement to this joint move on the part of the Portland Cement Association and the Wentworth Institute, which gives added assurance of its success.

This departure is, in a sense, new for an institution of the class in which Wentworth Institute may justly be placed, yet is only an extension of the Manual Training in Concrete idea which has demonstrated its popularity and appeal in numerous ways during the past year or more—perhaps most notably in the recent Short Course in

Concrete for Manual Training and Vocational Teachers. Which was held during the early part of the summer at Lewis Institute, Chicago.

NEW MACHINE FOR TESTING BOXES.

WASHINGTON, August 11.—A machine for testing the strength of boxes has been devised by engineers of the Forest Service and is in use at the Forest Products Laboratory at Madison, Wisconsin. The machine is the result of experiments made to determine a fair test for all types of boxes. A series of tests in co-operation with the American Society for Testing Materials and the National Association of Box Manufacturers has been carried on during the past year to determine the strength of boxes of various woods and of different construction. Over four and a half billion feet of lumber is used for box making every year, and on this account the tests are considered important. Moreover, big losses are caused by the breakage of boxes in transit, and all parties concerned are said to be anxious to determine the best kind of box.

The machine consists of a hexagonal drum with 3½-foot sides, which is lined with thin steel sheets. Pieces of scantling bolted to the bottom form what are known as "hazards."

In making the tests boxes filled with cans containing water are placed in the drum, which is then rotated. For convenience in observing the results of the tests, the sides and ends of the box are numbered with large figures, and in addition other numbers are placed at specified points on each side. The "hazards" cause the boxes to be carried part way around and then dropped back to the lower level of the drum. Each fall of this sort is a pretty fair imitation of the probable treatment it would receive in shipment. The boxes are watched carefully, and notes are taken on the manner in which they give way and the number of falls required to break them in pieces.

In this way, say the officials who have conducted the tests, it is possible to determine what kinds of woods are best suited for boxes. The tests showed a decided need for a standard classification of box woods, and three groups have been made, based on the data which was obtained.

The tests also show the best methods of box construction. The experts say that one of the most striking things brought out was the inadequacy of the ordinary methods of nailing up boxes. The number of nails used and the way they are put in are important. One nail more to the side of a box will give it a great deal more strength than might be thought. The nails should not be driven too deep into the wood. In many cases, it is said, proper nailing will allow a reduction of the amount of lumber used without any decrease in the value of the box. Boxes with cleated ends were found to be much stronger than those without cleats.

As a result of the tests made at the Forest Products Laboratory, tentative specifications for boxes used in shipment of canned goods have been drawn up and submitted to the various parties interested, for discussion.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

BRIDGE CABLES—\$3,874. San Francisco. Engineer, City Engineer. City Hall, S. F. Owners, City and County of San Francisco. Butte Engineering and Electric Co. submitted the lowest bid for furnishing and installing submarine cables for the Third street bridge. They will probably be awarded the contract.

RESIDENCE—2 story and base, frame, \$15,000. Honolulu, Hawaii Architects, S. C. W. Dickey, and J. J. Donovan, Perry Bldg., Oakland. Owner, A. H. Rice. Will contain twelve rooms, three baths and sleeping porches. Separate garage. Plans being prepared.

APARTMENT HOUSE—3 story and base, frame, \$35,000. San Francisco. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner's name withheld. Location, Western Addition. Will contain 42 rooms arranged in two and three room suites. Plans being prepared.

APARTMENT HOUSE ALTERATIONS—Frame, \$5,000. San Francisco. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner's name withheld. Location, Western Addition. Plans complete and figures being taken.

APARTMENT HOUSE ALTERATIONS—Frame, \$3,500. San Francisco. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner's name withheld. Location, Mission District. Plans being prepared.

APARTMENT HOUSE—2 story and base, frame, \$1,000. San Francisco. D. E. Evans, 2569 Mission street, S. F. Owner, G. I. Pehrson. Location, Western Addition street, south of College. Will contain four apartments of two and three rooms. Plans complete and work to be done by Day Labor.

FLATS—2 story and base, frame, \$4,000. San Francisco. Architect, none. Owner, Thomas Hamill, 5535 Geary street, S. F. Location, South Clement street, east of 17th avenue, covering an area of 25 by 66 feet. Will contain no flats and basement garage. Plans complete and work to be done by Day Labor.

FLATS—2, 2 story and base, frame, \$500 each. San Francisco. Architect, none. Owner, W. J. Keenan, 2 Atalaya terrace, S. F. Location, South Fulton street, west of Masonic. Will contain no flats of five and six rooms. Plans complete and work to be done by Day Labor.

HOSPITAL CLINIC—3 story and base, reinforced concrete. Cost not stated. San Francisco. Architect, G. Herbert Lansburgh, Mission street, S. F. Owners, Mount Zion Hospital. Location, Post and Scott streets. Designed for a free clinic. Gift of M. A. Gunst. Plans complete and figures being taken.

SCHOOL—1 story, reinforced concrete, \$25,000. Island of Maui, Hawaii Architects, C. W. Dickey & John J. Donovan, Perry Bldg., Oakland. Will contain six class rooms and a large auditorium. Plans being prepared.

APARTMENT HOUSE ALTERATIONS—2 story, frame, \$2,000. San

Francisco. Architects, Heiman & Schwartz, Nevada Bank Bldg., S. F. Owner, J. Mosbacher. Location, 731 nments. Plans complete and figures being taken.

APARTMENT HOUSE ALTERATIONS—3 story and base, frame, \$5,500. San Francisco. Architects, Foulkes & Hildebrand, Crocker Bldg., S. F. Owner, G. Goepfert, 2131 Green street, S. F. Location, 2131 Green street. Will contain six apartments of two and three rooms. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE—3 story and base, frame, \$35,000. San Francisco. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner, Jas. J. Flynn. Location, northwest Duboce and Divisadero streets, covering an area of 52 by 170 feet. Will contain eighteen apartments of two and three rooms. Plans nearly complete.

RESIDENCE—2 story and base, frame, \$10,000. San Francisco. Architect, John J. Foley, 46 Kearny street, S. F. Owner, W. H. Bunster. Location, 12th avenue and Anza. Will contain eleven rooms, two baths and basement garage. Plans complete and figures being taken.

STREET IMPROVEMENTS. Cost as follows: San Francisco. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Contracts for street improvements have been awarded under the following resolutions:

The improvement of 25th avenue, between Cabrillo and Fulton streets, by grading to official line and grade. Awarded to S. T. Johnson and J. H. Franks, for 28 cents per yard for 30,257 yards.

The improvement of 14th avenue, between Irving and Judah streets, where not already improved, by the construction of granite curbs; artificial stone sidewalks 6 feet wide, and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway. Awarded to Thos. A. Clark, 68 Post street, S. F., for \$833.25.

The improvement of 12th avenue, between Cabrillo and Fulton streets, by the construction of artificial stone sidewalks 9 feet wide, where artificial stone sidewalks at least 9 feet wide have not already been constructed. Awarded to S. F. Johnson for \$292.50.

The improvement of Cabrillo street between 20th and 21st avenue, where not already improved, by the construction of concrete curbs; 7-foot wide strip of vitrified brick pavement on concrete foundation adjacent to the center line thereof; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the remainder of the roadway. Awarded to City Street Improvement Co., 166 Geary street, for \$186.

The improvement of Caselli avenue, between Mona street and Falcon avenue, where not already improved, by the construction of concrete curbs; hasalt block gutters on a concrete foundation and a basalt block pavement on

and foundation with a gravel filler on the roadway. Awarded to T. Galbraith for \$1,041.35.

The improvement of Balboa street between 30th avenue and 32nd avenue, by grading, construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: 8 and 12-inch with 12 V branches, 3 brick manholes, 5 brick catch-basins, with cast iron frames, gratings and traps, and 10-inch vitrified, salt-glazed, ironstone pipe culverts; concrete curbs; artificial stone sidewalks; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to Owen McHugh, 201 Russ Bldg., San Francisco, for \$11,840.55.

HIGH PRESSURE SYSTEM—\$11,000. San Francisco. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. The San Francisco Board of Public Works has approved plans and specifications for the construction of the high pressure system on Telegraph Hill, on Pine street, between Jones and Powell, and on First street, between Folsom and Harrison streets.

WATER SYSTEM IMPROVEMENTS—Cost not stated. San Francisco. Engineer, Constructing Quartermaster's Office, Fort Mason. Owners, United States Government. Bids will be opened on September 18th at 11 a. m. for extensive improvements to the water supply system in the Presidio. Work will include cleaning entire water shed, extension of mains and construction of concrete dams, retaining walls and sedimentation tank. An official proposal appears in another column of this issue.

BANK ALTERATIONS—Cost not stated. San Francisco. Architect, none. Owners, Japanese Bank. Location, California and Front streets. Mr. Koh, 2381 Clay street, has been selected as manager of this new institution and all alterations will be done under his personal direction.

CHURCH—1 and 2 story and base, steel and reinforced concrete, \$150,000. San Francisco. Architects, Shea & Lofquist. Bankers Investment Bldg., S. F. Owners, St. Peter's and St. Paul's Parish. Location, Filbert street. Preliminary plans only prepared.

 Mason, San Francisco.
 COST, \$950

Contractors all over the country are moving more material in less time and at a smaller expense with
FOUR WHEEL DRIVE TRUCKS
than with any other method of transportation.

Consider what power on all four wheels would mean for you in your business.

Large Contractors and corporations the world over are finding that power on all four wheels results definitely and decisively in:--

100 per cent saving in cost of tires.

Greater durability to every wearing part.

Allows equal distribution of load, thus

Eliminating undue strain on any one part.

Enormous saving in cost of up-keep.

More mileage per gallon of gasoline and oil.

DEPENDABLE SERVICE - no idle days waiting for repairs.

Remember that every F. W. D. Truck built in the past seven years is working to-day, and they are performing harder and more persistent service at a given cost than any other truck built to-day.

You owe it to yourself to investigate the F. W. D. truck.

Four Wheel Drive Truck Co.

OAKLAND AND ALAMEDA COUNTY

STREET IMPROVEMENTS. Cost not stated. Berkeley, Alameda County, Cal. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on September 1st at 10 a. m. for street improvements authorized under the following resolutions:

That Kalos avenue, from the north line of Virginia street, north to the south line of Regents Park, Map No. 3, as shown on map of same on file in the office of the County Recorder of Alameda County, October 11, 1906, be graded.

That redwood curbs be constructed along the curb lines of said street; concrete gutters, 2 feet wide, against said curbs; that the remainder of the roadway be macadamized and surfaced with oil and rock screenings. Excepting from the above work the curb and gutter over the existing catch basins at the north line of Virginia street.

BRIDGE—Reinforced concrete—Cost not stated. Oakland, Cal. Engineer, County Surveyor, Oakland. Owners, Alameda County. Bids will be received up to and including September 11th for the construction of a reinforced concrete bridge on County Road No. 2432, or Palomares Canyon Road near the lands of F. J. Parisa, in Section 21, T. S. R. 1, W. Eden Road District, Eden Township.

RESIDENCE—1 story and base, frame, \$2,250. Oakland, Cal. Architect, none. Owner, Edward Grandin, 1522 Prince street, Berkeley. Location, West Adeline street, north of 56th street. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,500. Berkeley, Alameda Co., Cal. Architect, none. W. S. Young 533 63rd street, Oakland. Location, West San Pablo avenue, north of Jones street. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect, none. Owner, A. H. Broad, 2117 Kittredge street, Berkeley. Location, East Gee avenue, South Berkeley. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Oakland, Cal. Architect none. Owner, Joe St. Mary, 2220 Ausson avenue, Oakland. Location west Ausson avenue, south of Blanche. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

STREET IMPROVEMENTS—Cost not stated. Berkeley, Alameda Co., Cal. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Contracts for street improvements have been awarded under the following resolutions:

That a 6-inch vitrified ironstone pipe sewer be constructed along Walnut street, from Eunice street northerly; also a brick manhole 4 feet in diameter and 1-inch vitrified ironstone pipe Y branches. Awarded to T. W. Tobin 735 Filbert street, Oakland.

That a cement sidewalk 6 feet wide be constructed in the east sidewalk area of San Pablo avenue, from University avenue to Delaware street; north sidewalk area of University ave-

ne, from San Pablo to Curtis street, and the north sidewalk area of University avenue from West street to Acton street, except already done. Awarded to Oakland Paving Co., 5000 Broadway, Oakland.

That the west half of Franklin street from Delaware street distant 100.15 feet be regraded; a redwood curb be constructed, concrete gutter 3 feet wide, and the remainder of the roadway be macadamized. Awarded to Oakland Paving Co., 500 Broadway, Oakland.

BANK—1 story and base, reinforced concrete, \$10,000. Alameda, Alameda Co., Cal. Architect, John Hudson Thomas, First National Bank Bldg., Berkeley. Owners, Citizens Bank of Alameda. Location, Webster and Haight streets. Will contain banking room, vaults and public space. Plans being prepared.

CHURCH ADDITION—1 story, frame, \$5,000. Oakland, Cal. Architects, Schimner & Bugbee Co., Dalziel Bldg., Oakland. Owners, St. Paul's Episcopal Church. Location, Montecito avenue, near Grand. Will contain Sunday School rooms. Plans complete and figures being taken.

WAREHOUSE—2 story, frame, \$4,000. Oakland, Cal. Architect, none. Owners, Barbour Chemical Co., Oakland. Location, east 50th avenue, near 7th street. Plans complete and work to be done by Day Labor.

WATER TANK TOWER—Steel, \$3,900. Oakland, Cal. Architect, none. Owners, Moore & Scott Iron Works. Location, foot of Adeline street. Plans complete and work to be done by Day Labor.

STORES—1 story, brick, \$2,000. Berkeley, Alameda Co., Cal. Architect, none. Owner, R. W. Robie, 1221 Spruce street, Berkeley. Location, north Virginia, east of Shattuck. Will contain one small store. Plans complete and work to be done by Day Labor.

SCHOOL ALTERATIONS AND ADDITIONS—frame, Cost not stated, S. Hayward, Alameda Co., Cal. Architect, E. P. Whitman, Hayward. Owners, City of Hayward. Bids will be opened on September 2nd for minor alterations and additions to the present school building.

Contracts Awarded.

HIGHWAY CONSTRUCTION—Cost
 not stated. Hanford, Kings County. En-
 gineer, County Surveyor, Hanford. Own-
 ers, Kings County. Bids will be called
 for within the next few days by the
 County Supervisors for the construction
 of 15½ miles of highway between
 Guernsey and Corcoran, plans for this
 work having been completed.

BRIDGES—Reinforced concrete. Cost
 as follows: Hanford, Kings Co., Cal.
 Engineer, County Surveyor, Hanford.
 Owners, Kings County. Contractor, S. G.
 Smartt, Bakersfield. Contract for 450
 yards of bridges at \$8 per cubic yard
 for concrete and 1 cent per pound for
 bending steel.

STREET IMPROVEMENTS. Cost not
 stated. Lindsay, Tulare Co., Cal. En-
 gineer, City Engineer, Lindsay. Owners,
 City of Lindsay. Bids for extensive
 street improvements will be opened
 September 12th at 8 p. m. for work au-
 thorized under the following resolu-
 tions:

That Sweet Briar avenue, from the
 north line of Apia street to the north

line of Lewis street, including all
 street intersections, be graded, and
 paved with an asphaltic concrete wear-
 ing surface on a hydraulic cement con-
 crete base; also that similar work be
 prepared on Lewis street, from the east
 line of Sweet Briar avenue to the west
 line of right of way of the Southern
 Pacific Railway Company's Fresno
 branch, including all street intersec-
 tions, also Mr. Vernon avenue from the
 south line of Honolulu street to the
 north line of Apia street; also Mt. Ver-
 non avenue from the north line of Apia
 street to a point on the east line of Mt.
 Vernon avenue.

That crushed rock and asphalt should
 be constructed along each side of
 the pavement to be constructed on Mt.
 Vernon avenue between the north line
 of Apia street and a point on the east
 line of Mt. Vernon and along each side
 of the pavement to be constructed on
 the street lying along the right of way
 of the Southern Pacific Railway Com-
 pany's Fresno branch.

That the street lying along the west
 line of the right of way of the South-
 ern Pacific Railway Company's Fresno
 branch, from the north line of Lewis
 street to the south city limits, be grad-
 ed and paved to the official grade with
 an asphaltic concrete wearing surface
 on a hydraulic cement concrete base.

That cement concrete curbs be con-
 structed to official line and grade along
 the west curb line of Sweet Briar ave-
 nue from the south line of Apia street
 to the north line of Lewis street and
 along both sides of Lewis street from
 the right of way of the Southern Pacific
 Railway Company's Fresno branch and
 along the west curb line of Mt. Ver-
 non avenue from the south line of
 Honolulu street to the north line of
 Apia street.

That galvanized corrugated iron cul-
 verts be constructed across Apia street
 and across Lewis street on the line of
 the gutter on the east side of Sweet
 Briar avenue and across Mt. Vernon
 avenue on the south line of Apia street
 and across the street lying along the
 west line of the right of way of the
 Southern Pacific Railway Company's
 Fresno branch, at a point midway be-
 tween the intersection of Lewis street
 and the south city limits and across
 the street lying along the west line of
 the right of way of the Southern Pacific
 Railway Company's Fresno branch at a
 point 100 feet north from the south
 city limits.

CHURCH—1 story and base, rein-
 forced concrete, \$20,000. Merced,
 Modesto, Cal. Architects, Shen & Lo-
 quist, Bankers Investment Bldg., S. F.
 Owners, Roman Catholic Church, Thos.
 J. Brennan, pastor. Location, 21st and
 L streets. Will contain main auditori-
 um, pastor's study and Sunday School
 rooms. Plans being prepared.

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

STREET PAVING—Cost as follows. Marysville, Yuba Co., Cal. Engineer, City Engineer, Marysville. Owners, City of Marysville. Two bids were received by the City Council for improving streets in district two and three. The Federal Construction Co., Sharon Bldg., San Francisco, bid 11 cents on both jobs and Clerk & Henery, 28 S. Henry street, Sacramento, 13.8-16 cents on both jobs. The bids were referred to City Engineer Meek to report back as to who should be awarded the contract.

STREET PAVING—Cost not stated. Fort Bragg, Mendocino Co., Cal. Engineer, City Engineer, Fort Bragg. Owners, City of Fort Bragg. Final action will be taken at the next meeting of the City Trustees for the paving of the streets of Fort Bragg. City Engineer Gray has a preliminary report prepared for the trustees on the various types of paving together with estimated cost. The paving work will cover an area of approximately 302,161 square feet.

STREET IMPROVEMENTS—Cost not stated. Tracy, San Joaquin Co., Cal. Engineer, City Engineer, Tracy. Owners, City of Tracy. The City Trustees have directed City Engineer Rauh to prepare plans and specifications for grading, graveling, curbing and sidewalks on Sixth street, from B to C streets, and also from West street to B street. Bids will be taken on approval of the plans.

STREET PAVING, ETC.—Cost as follows: Marysville, Yuba Co., Cal. Engineer, Marysville. Owners, City of Marysville. The lowest bid for street pavement in the history of Marysville was received when the City Council opened bids for the improvement of several blocks of street. The low bid was 8 1/2 cents per square foot for asphalt concrete pavement and was submitted by the Federal Construction Co., 323 Sharon Bldg., San Francisco. The Federal Construction Co. also was low on other items. All bids were referred to the City Engineer.

STREET PAVING—Cost as follows: Tracy, San Joaquin Co., Cal. Engineer, City Engineer, Tracy. Owners, City of Tracy. Contractor, Ruben Johnston Tracy. Contract price for North A, B, C, D, E, F and Eighth streets, \$14,479, for Ninth and Tenth streets, \$13,312.

STREET PAVING—\$21,070.80. Placerville, El Dorado Co., Cal. Engineer, City Engineer, Placerville. Owners, City of Placerville. Contractors, A. Teichert & Son, Ochsner Bldg., Sacramento. Contract price, \$21,070.80. Note contract does not include gutters, sewers or culverts. Cement furnished by city.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions:

That First avenue, in Oak Grove, from Lower Stockton Road to Central avenue, be improved by constructing concrete curb, concrete gutter, placing cast iron gutter drains with 6-inch vitrified ironstone sewer pipe allows attached; constructing 6-inch vitrified ironstone sewer pipe drains; grading the space between the property line and curb; constructing concrete sidewalk; grading the roadway from the east line of the Lower Stockton Road to west line of Central avenue and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat and an asphaltic concrete wearing surface 1 1/2-inch thick. Awarded to T. A. Teichert & Son, Ochsner Bldg., Sacramento.

That J street, from Ashby avenue to Apricot avenue, be improved, by constructing concrete curb, concrete gutter; placing cast iron gutter drains with 6-inch vitrified ironstone sewer pipe elbows attached; constructing 6 and 8-inch vitrified ironstone sewer pipe drains; reconstructing existing concrete manhole; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1 1/2 inches thick, filling in behind the curbs with earth to a distance of 8 feet. Awarded to Clark & Henery Construction Co., 38 S. Henry street, Sacramento.

STREET PAVING, ETC.—Cost not stated. Marysville, Yuba Co., Cal. Engineer, City Engineer, Marysville. Owners, City of Marysville. Contractors, Federal Construction Co., Sharon Bldg., S. F. Contract price for filling, paving and grading, 3 cents per square foot.

BRIDGE FILLS—Cost not stated. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville. Owners, Butte County. Bids will be opened on September 8th at 2 p. m. for the construction of bridge fills near Honey Creek bridges.

HOSPITAL WARD—2, 2 story, hollow tile, \$35,000 each. Sacramento, Cal. Architect, R. A. Herold, Forum Bldg., Sacramento. Owners, Sacramento County. Location, County Hospital grounds. Each ward will cover an area of 35 by 160 feet. Designed for a female surgical ward and for a maternity ward. Plans complete and figures being taken. Bids open on September 6th.

SCHOOL—1 story and base, hollow tile, \$35,000. Placerville, El Dorado Co., Cal. Architects, N. W. Sexton & Co., Merchants National Bank Bldg., S. F. Owners, Placerville School District. Will contain eight class rooms and an assembly hall. Central heating system. Plans approved and figures to be called for at once.

BRIDGES—Reinforced concrete. Cost not stated. Eureka, Humboldt Co., Cal. Engineer, County Surveyor, Eureka. Owners, Humboldt County. Bids will be opened on September 12th for the construction of four highway bridges located as follows: Over Lost Man's Creek, near Orick, in Road District No.

5; over Reas Creek, between Ferndale and Centerville, in Road District No. 1; over Maple Creek, near Carson's, in Road District No. 3, and over the North Fork of the Mattole River, near Petrolia, in Road District No. 1. Plans can be had from the County Clerk.

HIGHWAY CONSTRUCTION—Cost not stated. Woodland, Yolo Co., Cal. Engineer. County Surveyor, Woodland. Owners, Yolo County. County Surveyor Asa Proctor is surveying a new proposed road between Madison and Esparto. It is proposed to build the road of gravel sufficiently thick to withstand the heavy travel during the wet weather.

FRUIT PACKING HOUSE 1 story, frame. Cost not stated. Oroville, Butte Co., Cal. Architect, none. Owners, Stewart Fruit Co., Oroville. Location, Robinson street. Will cover an area of 80 by 50 feet. Plans complete and work to be done by Day Labor.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on September 7th for street improvements authorized under the following resolutions:

That S street, from Front street to 31st street, be improved by constructing concrete sidewalks on official line and grade where concrete sidewalk does not exist on official line and grade, and grading the space between the property line and curb.

That T street, from Front street to 28th street, be improved by removing and disposing all surplus and refuse material in the sidewalk area; constructing concrete sidewalk 6 feet wide and 3½ inches thick on official line and grade where concrete sidewalks do not exist on official line and grade, and grading the space between the property line and curb.

That Spafford avenue, from Madrone avenue to Cypress avenue, be improved by constructing concrete gutter, one concrete manhole complete with cast iron curb and cover; constructing 6-inch vitrified ironstone sewer pipe drains; placing 2 cast iron gutter drains with 6-inch vitrified ironstone sewer pipe elbows attached; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches in thickness, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick. Bids close September 5th on this resolution.

That the alley between I and J streets, from 14th to 15th streets, be improved by placing 3 linear feet of concrete protective covering over 8-inch sewer pipe; constructing 1 6-inch vitrified ironstone sewer pipe flusher branch complete; reconstructing 1 concrete catch basin by placing same to official grade; lowering 1 flush tank to grade and filling in the same with earth; constructing 80 linear feet of concrete curb wall; grading the alley and constructing thereon an asphalt pavement consisting of an asphaltic macadam foundation 2 inches thick and a sheet asphalt wearing surface 1½ inches thick.

That M street, from 30th street to 31st street, be improved by grading the space between the property line and curb where concrete sidewalk does not exist on official line and grade where concrete sidewalk does not exist.

CEMENT—Cost not stated. Auburn Placer Co., Cal. Engineer, City Engineer, Auburn. Owners, City of Auburn. All bids for furnishing cement for use in the State Highway lateral in Auburn have been rejected by the City Trustees. The cement will now be purchased in open market.

LODGE HALL AND STORES—1 story 900. Sacramento, Cal. Architect, Washington J. Miller, 417 Market street S. E. Owners, Sacramento Native Sons Hall Ass'n. A complete list of the bids opened for this work will be found under the heading of Sacramento and Northern California in this issue.

POST OFFICE—1 and 2 story, stone and concrete, \$60,000. Willows, Glenn Co., Cal. Architects, Bliss & Paville, Balboa Bldg., S. F. Owners, United States Government. Bids will be opened on October 2nd at 3 p. m. in Washington, D. C., for the complete construction of this building. Mechanical equipment included. Plans can be secured from the Supervising Architect at Washington, D. C., or from the Custodian of the site at Willows. An official proposal appears in another column of this issue.

THEATRICAL ALTERATIONS—2 story. Class B construction, \$60,000. Sacramento, Cal. Architect, E. C. Hemming, 1005 K street, Sacramento. Owners, Heilbron Estate. Location, J street, between 5th and 6th streets. Seating capacity 1500 people. Plans complete and figures being taken.

SCHOOL—1 story and base, frame, \$22,000. Lakeport, Lake Co., Cal. Architects, Morrow & Garrin, Chronicle Bldg., S. F. Owners, Lakeport School District. Contractors: Kerr & McLean 110 Jessie street, S. F., general construction, \$22,743. Pacific Fire Extinguisher Co., S. F., heating, \$1,500.

BRIDGES—Reinforced concrete. Cost not stated. Colusa, Colusa Co., Cal. Engineer, County Surveyor, Colusa Owners, Colusa County. Contractors Hard Bros., 2623 G street, Sacramento. Bridges Nos. 92 and 93; Schaad Bros., Williams Bridge No. 91. Bids for Bridge No. 96 were rejected and new figures will be called.

Contracts Awarded.

COURT HOUSE—2 and 3 story and base, reinforced concrete, \$225,000. Woodland, Yolo Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Yolo County. Contractors: Robert Trost, S. F., general construction, \$198,000; W. P. Boyce & Son, Woodland, plumbing, \$6,478; Latourrette-Fical Co., Sacramento, electric work, \$5,575; Scott Co., S. F., steam heating, \$7,280; Standard Electric Time Co., program clocks, \$920.

BRIDGE PAVING. Cost as follows: Colusa, Colusa Co., Cal. Engineer, County Surveyor, Colusa. Owners, Colusa County. Contractor, A. R. Ashill, Colusa. Contract price, 14 cents per square foot.

LOS ANGELES AND SOUTHERN CALIFORNIA

SEWER CONSTRUCTION—Cost not stated. Riverside, Riverside Co., Cal. Engineer, City Engineer, Riverside. Owners, City of Riverside. Bids will be opened on September 5th at 10 a. m. for constructing a Sanitary sewer, including manholes, to be constructed along Garfield street, Van Buren street, Hayes street and Jackson street. The size of the sewer pipes shall be: Jackson street, 8 inches; Garfield street, 11 inches; Van Buren street, 8 inches; Hayes street, 6 inches. The material shall be vitrified, salt-glazed sewer pipe, brick, iron and mortar.

STREET IMPROVEMENTS—\$25,000.

Santa Barbara, Santa Barbara Co., Cal. Engineer, City Engineer, Santa Barbara. Owners, City of Santa Barbara. F. R. Ritchie, Chronicle Bldg., San Francisco, submitted the lowest bids on three paving jobs for this city, and while the City Council had not awarded the contract, it is probable that favorable action will be taken on these bids. There were two firms bidding on each item, F. R. Ritchie and the Municipal Improvement Co.

BRIDGE—Steel and reinforced concrete, \$121,650. Santa Ynez, Santa Barbara County, Cal. Engineer, State Highway Commission, Forum Building, Sacramento. Owners, State of California. Mercer-Fraser Company, Eureka, presented the lowest bid for this work at \$121,650 and will probably be awarded the contract. A complete list of the bids received will be found under the heading of Los Angeles and Southern California, in this issue.

SCHOOL—1 story, brick and frame. Cost not stated. San Marcos, San Luis Obispo Co., Cal. Architect, none. Owners, San Marcos School District. Will contain four class rooms. Plans complete and figures being taken.
